At 3:25pm ET, I added the below blog entry to 'coldcelltorture.com':

2/2/2019 - Bill Gates, Larry Page, and Satya Nadella sold their fellow Americans into continuous torture and murder just to line their pockets with blood money, protect killers, while making us forever beholden to communist China, just to keep the secrets of our criminal presidents.

After almost six months of being in the know, these technology men are still protecting killers P. Bush2 and VP Cheney, they refuse to obey our laws, still plot with China and crooked ICC judges to cover up murder for personal gain, and now they too are actively recruiting shills to hide behind paying me money to go away and be silent. Every shill recruit says no way; like hundreds before. These men are so clouded by their own evil, they are completely unaware of what is so obvious to anyone else.

At 5:25pm ET, I emailed the below message to Bush2:

Dear President Bush:

After only three and half weeks of speaking boldly, I am now ready to raise my voice an octave. Saving yelling for later.

There is one option you have to stop me speaking boldly, and take down coldcelltorture.com. Immediately afterwards, both you and VP Cheney issue an apology to the American people, and then the rest of the world, for your mistake of using torture. Begin a much needed healing nationwide discussion about torture. Then become leaders, vicars, of being strongly anti-torture, where you personally lead the efforts to improve the conditions of confinement in every state in our Union.

You become heroes. Otherwise, I must continue speaking boldly, louder, then yelling forever on earth and then for all eternity. Until you publicly apologize to the world. But most especially to your fellow Americans and victims.

I AM
David Andrew Bardes

It appears from the Bush2 visits to Wells and Elias, that George found my second year patent registration numbers, extending my provisional application for another year. Bush2 and the tech CEO's were waiting for my first year registration to lapse on March 12, 2019. Vultures in waiting now have to wait another year. So, Bush2 contacted everyone, who then visits to confirm.

At 8:42pm ET, I posted my Full Disclosure Report to Facebook.

Given the Facebook corporate visits of late, they are also monitoring my time on Facebook. I almost never log into Facebook, so when I just logged in and posted my full disclosure report, alerts went to certain people, who then likely alerted the whole gang of torture crooks.

The above Hartford visit was likely a liability insurance carrier being given notice of pending claims, as is required by policy terms. Bill and Melinda Gates were on CBS News This Morning, in NYC, talking about something Bill seemed to have no interest. Bill Gates must have been meeting with lawyers much of the day, given the sparse traffic checking in alone all afternoon. Or, is George Bush2 with Bill Gates, both preparing for public discloser?

Above is the first sign of Bush2 since yesterday morning. Now he is back visiting Wells with someone in the Germany CIA center. He and Cheney still want Wells from me.

Whatever Bill Gates spent yesterday and today working on, perhaps even with Bush2. Something may be ready to play out. Dow Jones & Company phone

calls with Gates and Page, was likely the Wall Street Journel. Which is owned by News Corp, of Rupert Murdoch controlling owner. Murdoch would have been notified the moment WSJ knew Bill Gates was involved. So, the past two days could have been Murdoch and Gates working on something.

Above Columbia, South America, is uncanny given today's daily White House email saying that the President of Columbia was at the White House, here is the text below:

2/13/2019:
Today, President Donald J. Trump and First Lady Melania Trump welcomed President Ivan Duque Marquez and First Lady Maria Juliana Ruiz Sandoval of Colombia to the White House. "We're working on many things together: the eradication of drugs in Colombia and outside of Colombia; and obviously, Venezuela," President Trump said. "We want to work together to put an end to the brutal dictatorship that has been affecting the Venezuelan people," President Duque added.

Could be coincidence or not. If not, the Microsoft CEO and CIA person in Germany spoke with someone in Columbia about me. Giving the heads up? Giving advance notice of something immanent so they will know the story?

The US Senate just passed a government funding bill that does not include full funding for Trump's wall, and is 1,159 pages long. Which the White House believes has hidden pork and other deals, so they are going through it, article below. The bill is now going to the House for final vote then to Trump's desk

for signature. I wonder if the nervous waiting all day by Bush2 and Gates, is awaiting something in the bill regards cold cell torture? Could be coincidence, or not.

Trump will sign funding bill, declare a national emergency, McConnell says

"1,000 pages filed in the in middle of the night take a little time to go through," one White House official told CNN's Jim Acosta.

"So the president has his hand forced to sign a 1,159 page bill that we KNOW is filled with amnesty, PORK and wiggle room? Total SCAM! @realDonaldTrump wasn't elected for this," Laura Ingraham wrote on Twitter. "This bill must NOT be signed by @realDonaldTrump."

At 9:22pm ET, CNN.com reported the House just passed the funding bill, and is on its way to the White House for P. Trump to sign into law. He has already said he would, and is at the same time issuing an emergency declaration to obtain funds for his wall. So, the above meeting between Bush2 and Larry Page, was at the time the bill was passed. This then initiates their next action?

At 2:47pm ET, CNN.com is reporting that P. Trump signed the funding bill into law. White House press secretary Sarah Sanders confirmed Trump signed the law. This places the above call between Bush2 and Tim Cook about at the time they learned Trump signed the law. So, whatever is going to take place next, can now come forth.

My activity of Tweets seemed to have brewed up a hot mess. Dow Jones was

alerted, so perhaps they are revisiting their decision to allow the cover up hiding torture and murder. Bush2 and Gates must have pleaded "but we will pay Bardes off." But Bush2 and Gates could not find a shill, as they were too cowardly themselves, so that plan failed, again. "We cannot find anybody to talk to him." perhaps they said in defense. Much consternation and frustration.

The above meeting appears to be the CIA, Interpol, and Bush2 trying to convince the Microsoft CEO that cold cell torture is not intentional, again. Because the CEO visited the 'suicide' page, and Interpol visited 'intensive.' The lies of George Bush2 do not end. This is a sign of desperation, again.

At 5:33pm I emailed the below to Larry Page and George Bush2:

To: Larry Page at investor-relations@abc.xyz
From: David Andrew Bardes, Brevard, North Carolina

Please deliver this message to Larry Page; regards the ongoing Torturegate Murder Scandal with P. George W. Bush and VP Dick Cheney. Thank you.

Is George Bush2 still telling lies that cold cell torture is an accident? Hypothermia is the forced reduction of body temperature until dead. The CIA used it to kill along with ice baths. The CIA dunked and held down innocent victims in tubs of ice water. Just like Hitler did. No accident. Read the US Senate Report on CIA Torture.

In 100 degree heat in Miami, the 9th floor punishment cell block was super-chilled to sub hypothermic conditions, where inmates froze to death. Was that an accident?

Let's get in our cars and drive to Charleston, South Carolina, where you can walk inside an engineered cold cell and suffer from the frigid cold. Then down the street is the Navy brig with an entire cell block of engineered cells which can be made very hot or cold.

No one on earth will ever believe these lies of Bush2 and Cheney, except you. Hundreds of shill recruits said no way to their lies, what do they clearly see that you miss?

So, Bush2 is giving the heads up here, with the guy at the shore for the weekend.

The above person in Wales, visited 'intensive' page which means they have

been given the heads up that a story is about to break, regarding cold cell murder as punishment. This person is checking out the sad truth.

It appears as if New Corp. (Wall Street Journal) is going to break the story. That is Rupert Murdoch's company. News Corp also owns many of the UK newspapers, so perhaps the story will break in those too. Sell as many newspapers as possible.

But will Murdoch succeed in publishing the story, or will George Bush2 get tot him last minute and convince him to cancel the story. Just like all those in the past have failed. Or, will this time lead to fruition?

Below email sent at 1:33pm ET on 2/19/2019:

Betsy,
I am sending you this email because it looks like the FBI are coming to arrest me. Dick Cheney and George Bush2 are desperate, and are charging me with causing the terrorist attacks on 9/11. They claim the pictures I took in 1999, of my five hour commute to 2 World Trade, somehow prove I was behind the attacks. The pictures are on davidbardes.com. This is ridiculous of course, but shows you their desperation. If I am jailed I am going on a hunger strike and will be dead in two weeks. Only then will my story come out, of standing up to their corruption. Please take care of Merry, and love to Allie, Grace, and Dave.
Love, David

At 7:27pm ET, it appears from the above meetings that Bush2 is scrambling to avoid his demise. Speaking with his Dallas business office people, and the crooks at Interpol and China. Perhaps to devise a game plan to minimize the annihilation.

Above visitor near Houston, at the lake house of George H. W. Bush, where two weeks before Babara Bush2 died, they whole Bush clan had one final weekend with Babara. So the above must be someone pleading with the CEO of Microsoft to please not splash George2 on the windshield like a bug. This is the first real sign that something is going down. The finality is palpable.

Dear Prosecutor Bensouda,

You may be unaware, but Interpol's President Meng Hongwei was captured passing bribe money from P. George W. Bush and VP Dick Cheney to a half dozen of your ICC judges to throw the pending investigation into CIA torture.

This "TortureGate Corruption Murder Scandal" has now ensnared billionaires and CEO's of our largest technology companies, growing into the largest corruption scandal in the history of world. I have attached a report which provides more information.

Your organization is completely compromised. More information is available at http://ColdCellTorture.com

At 12:13am ET, I posted the below to Facebook:

(letter to all the new 2020 presidential candidates)

February 22, 2019

Senator Cory Booker
717 Hart Senate Office Building
Washington, DC 20510

Re: TortureGate Corruption Murder Scandal

Dear Senator Booker:

I am providing the enclosed full disclosure report which may prove useful knowing how deeply involved President Donald Trump is in the corruption and cover up of murder and torture, in what has now become the largest corruption murder scandal in the history of the world.

Our president is negotiating away the sovereignty of our nation to cover up the crimes of our past criminal presidents and vice presidents on the run from our laws. Making us forever beholden to communist China just to keep the secrets.

More information is available at http://ColdCellTorture.com

Thank you,
David Andrew Bardes, Sui Juris

Tom Cook visited last night at the exact same time, about 7:45pm ET. It looks like he gave Bush2, Page, and Gates 24 hours to find someone to pay me off, otherwise Tim was going to blow the horn. Now it looks like Tim is bring the

hammer down on the whole caper.

In the news just now:

Trump will delay tariff increases on China, meet with President Xi

Updated 8:18 PM ET, Sun February 24, 2019

https://www.cnn.com/2019/02/24/politics/trump-tariffs-china-xi/index.html

Above Trump has been negotiating all weekend with Xi. The timing may show causal connection between Bush2's failure to pay me off, Tim Cook intervening, and possible public revealing of TortureGate?

If the above is a new shill recruit, that means cousin Ollie bagged out on the gig. They are back recruiting? That means they have nobody.

It is 6:29pm ET now, and the players are all lined up above, but they either have no shill recruit, or Ollie is waiting in the wings?

At 7:12pm ET, I emailed the below:

scheduling@OGWB.org
investor-relations@abc.xyz

To: Larry Page at investor-relations@abc.xyz and George W. Bush
From: David Andrew Bardes, Brevard, North Carolina

Please deliver this message to Larry Page; regards the ongoing Torturegate Murder Scandal with P. George W.

Bush and VP Dick Cheney. Thank you.

If you hire a call center and have 5,000 operators call 5,000 people each, out of the 25,000,000 shill recruits, not one will say yes. But you will succeed in telling everyone about cold cell torture for me. As I told George2 two years ago, I am never going to communicate through a patsy, with cowards in hiding. Especially with the cast of characters assembled thus far. If you fine felons want something from me, you need to display courage. Otherwise I am enjoying your consternation. I have all eternity.

From the above many George2 visits over 40 minutes, Tim Cook must have made an ultimatum, either pay Bardes off now, or Tim is going public with TortureGate. So George2 visits dab, wells, and upain, trying to gain the courage to contact me, but he cannot. He is such a coward, he has done so many horrible things to me, that he cannot even face his own victim due to his so many demons. How sad.

Above, appears that they have no shill, the South Korea crooked ICC judge bagged out, and now they are recruiting the ICC judge in Czechia. It is 4:03pm ET now, and in two hours I start Tweeting to Tim Cook again. Just like last night, and before. Tim Cook knows this and perhaps is demanding they pay me off before I Tweet again. They have wasted the entire day, again.

Speak of the devil, look who just visited. Tim must have been riding the riot act against the bad actors all day giving them until now to find someone to pay me off. Because he knows I Tweet to him at the end of the day, so he does not want another daily torture Tweet. Now what is Tim going to do? I have already prepared my daily Tweet to Tim and was going to wait until 6pm to Tweet it. It is 5:21pm now, so I will wait until 6pm then Tweet it.

Above, appears the decision made was to keep recruiting shills to pay me off. How sad. More injustice to build God's wave of wrath.

At 10:08pm ET, I Tweeted:

Diabolically evil George Bush2 & Dick Cheney, whose worship of Satan in the form of torture has brought the fury of the wrath of almighty God upon our great nation. @tim_cook @billgates @BarackObama @JoeBiden @realDonaldTrump @vp @SenatorBurr See ColdCellTorture.com

At 6:42pm ET, I emailed to Larry Page & George Bush2 in response to Mircosoft above going to the CIA page to find the EIT named "cold cell":

Attached are two articles discussing the EIT named "Cold Cell" or "Induced Hypothermia." Where do you think I got the name?

It looks like doom soon to boon for the good guys and God, but bad for the bad guys and devil. The two articles I emailed Larry Page, which appear to have finished off any doubt of cold cell torture being intentional, are an artilce by Stan Cox, who Bill Gates knows, about hypothermic torture by air conditioner at Gitmo. The second was an ABC News article naming six EIT's one titled "The Cold Cell." Both were so damaging to the Bush2/Cheney lies that cold cell was not intentional. It finished off Cheney, especially so. It makes them both look stupid and evil. I believe no recovery options exist from here at this point. God wins. God always win.

Above, George Bush2 after watching a two hour CNN special on himself and how great he was, visits my book's website three times immediately afterwards. My book destroys his legacy on earth. In heaven he is already the laughing stock of evil itself. What will he do now? He cannot find a shill. And I am mad as hell.

Above, another shill recruit says no way. They all say no way, but the efforts persist revealing belief that someone will say yes. Even the racist slime in New Orleans said no way, hardened thugs say no way. The pressure now has increased. Bush2 wants the book bye bye, especially after last nights CNN special on himself. Tim Cook, Bill Gates, Larry Page, add pressure on top of his. What are they going to do? Keep recruiting?

Speak of the pressure, look who showed up. Tim Cook and George Bush2. Not happy no shill took their pill. At this point these tech CEO's have committed very serious crimes, and could be facing life in prison. They have dug a deep hole, then fell into their own pit, and cannot climb out. Because George2 cannot help them due to his cowardice. His cowardice has ensnared so many all around the world.

In the news at 2:22pm ET:

Dow plunges nearly 400 points at midday

The Dow has wiped out its gains from earlier and is now down nearly 400 points.

From CNN Business' Jordan Valinsky

https://www.cnn.com/business/live-news/stock-market-news-today-030419/h_b5fde1f7ee77b6a81c6859d0d08f8014

Above, the Dow was up until about noon when Tim Cook and George Bush2 spoke together. Coincidence, or word spreading of the hammer coming down? George got the whip?

Above, Microsoft CEO to 'pictures' page again. Bush2, Cheney, and the CIA may still be trying to blame me for the attacks on 9/11. Just because I took my digital camera to work one day on my five hour commute to 2 World Trade, snapping pictures along the way. A dream come true for them. Their deliverance.

At 9:48pm ET, it still looks like the story of TortureGate is going public. When and how I do not know. Also do not know if Bush2 will pull another victory here, turning it around in his favor again. He always has before. Who will win this time? If God wins, what a stunning turn of events from Bush2 last night watching a two hour love feast on his days as president, produced by CNN, afterward visiting my book's website three times, to tonight, where the whole bloody TortureGate scandal may unfold on the airwaves of TV land before his very eyes.

Above, Bush2 now has the crooked ICC judge Chang in South Korea, bending Bill Gates ears, trying to make the case my daily commute pictures prove I was behind the attacks on 9/11. They never give up. Bill Gates must be astounded at the desperation and gall. How a corrupt ICC judge in Korea would know such revelations on the eve of his destruction is telling.

Above is a meeting of thugs discussing Bed Beg Wells, in light of TortureGate still being on track for the great revealing. Bush2 did not win overnight like he always has in the past, saving himself just in time. It appears as of now, 12:15pm ET, that the great revealing is still on schedule. Just what is on the schedule I have no idea, not when, or how, or where. The above meeting on Wells, shows these thugs believe the reveal is still on schedule, as now they are plotting on how to obtain Wells, despite the reveal. Also my sister visiting UnspeakablePain.com alone, so she has been made privy to the great revealing. Speak of the devil, below George just showed up, scanning entire cold cell website, in anticipation of things to come.

It looks from above, that Bush2 had a deep search done on NSA super data center databases, finding every website I have visited. West Palm Beach is where I have been looking to move if ever flush with cash. Maybe Bush2 called a realtor to feign buying said property to use as bait to see if I bite?

Above Russia & China person lying to Tim Cook, that cold cell torture at the border is a fabrication. Bush2 is using every angle of attack he can muster. But believing the lie about non-use of cold cell torture at the border, is patently false upon first utterance that it is not. It is the same problem when Bush2 himself says torture does not exist; no one will buy it from him. Nor will Tim buy it from the low level person in Russia and China.

It appears from the above, that Bush2 met with China at 12:11pm ET, discussing Wells, as both visited. Then an hour and fifteen minutes later, China returned, spoke with Bush2, who then stopped refreshing the Wells page during the more than hour wait on China. Bush2 must have been trying to secure a portion of money to buy Wells under a China patent with China being their territory. This means Bush2 is putting together final numbers to bribe me. And he is impatient.

Above, now Tim Cook is recruiting a shill. That is not a good sign at all. Means loss to God, gain to Satan. But will Tim's shill say yes? Or, no, like all those before? Then Tim spoke with the China person, to give update of sorts. Locked and loaded; fodder ready for blast of corruption cannon.

Above, CISCO CEO criminal recruiting a shill to pay me off with money. But the shill is connected to the Dyersberg paper about cold cell torture written with Grammerly, as this shill is using a Chrome Book, which that whole group of educators use. They are assiciated with Lightspeed Systems. This shill said no way, after clicking on 'CIA' page - too scary. Below, the CEO tries recruiting another shill minutes later.

Overnight six (6) shill recruits said "No Way!" They all say the same thing. But now even Tim Cook is frustrated, above, visiting my book's website. The book is the only thing standing in the way of their corruption. One last holdout for the good of God, drifting all alone on the sea of Satan. But God thrives on outcomes with even worse odds, and still succeeds to victory.

Half an hour later Bill Gates himself visits the book's website, unspeakablepain.com. To also cogitate on a deep level. Point of conviction by billions of angels bringing the bright light of God? Or, will Satan figure out a way for them to fulfill their corruption just as he wills? Who is going to win?

I assume Bill and Tim will talk, or already have. These are men accustomed to making tough decisions. I pray God makes their decision righteous, of firm mind, and of one accord.

Above, the FBI has the person in Alabama under investigation for something, as the FBI 'following bot' visited just before, tracking their every move. So, now they are going to threaten this criminal into being their shill, just to avoid being prosecuted and imprisoned? Act of final desperation?

Above, three people are recruiting the poor lone soul in the Netherlands, at 3am, one runs Microsoft, the other with Chinese government, and then George2 himself, begging to be the middleman shill in sticking the screws to me. These poor shills run from these cowards. Not even the criminal under investigation was willing. Yet they persist in belief of such success. The stink of torture has so clouded their thinking, such they cannot even smell themselves. But the shills surely do, as the foul odor arrives before they do.

From the above, the four visited my four websites, Elias, Wells, dab, and unspeak. So the topic of the conversation is how to make them all go away. Before that meeting Bush2 and Cheney met, also visiting Wells and dab. So, the bad actors are lined up waiting for something to happen. But what, when, and how are unknown.

George Bush2 is visiting Elias every 15 to 20 minutes. He is waiting on something or someone, but anxiously. Impatient and desperately needing relief.

Last night was another attempt to draft a grand offer with demands, but they never approved it for delivery. Stopped short. Then this morning Tim Cook appeared to make the decision to continue to find a shill to pay me off. Afterwards Bush2 and Cheney met, then Bush2 has been visiting anxiously ever since.

Above, they lost their shill, and now are going back to one that said no way back on March 8th. Likely because their grand offer stinks, and the shill bailed. Now they have nobody again. All their grand plans arranging the money is now for naught. What will they do now?

In the news today:

US denying visas to International Criminal Court staff
https://www.cnn.com/2019/03/15/politics/pompeo-icc-visa-restrictions/index.html

3/15/19 - Statement by ICC chairman about USA revoking visa's:
https://www.icc-cpi.int/Pages/item.aspx?name=pr1442

The Assembly also renewed its resolve to stand united against impunity. The International Criminal Court is an independent and impartial judicial institution crucial for ensuring accountability for the most serious crimes of concern to the international community.

AP article on USA revoking visa's of ICC investigators:
https://www.apnews.com/08e538e370914f6e8243e237dbde50b5

Speaking directly to ICC employees, Pompeo said: "If you are responsible for the proposed ICC investigation of U.S. personnel in connection with the situation in Afghanistan, you should not assume that you still have or will get a visa or will be permitted to enter the United States."

That comment suggested that action may have already been taken against the ICC prosecutor who asked last year to formally open an investigation into allegations of war crimes committed by Afghan national security forces, Taliban and Haqqani network militants, as well as U.S. forces and intelligence officials in Afghanistan since May 2003.

"The Trump administration is trying an end run around accountability," it said. "Taking action against those who work for the ICC sends a clear message to torturers and murderers alike: Their crimes may continue unchecked."

John Bolton and Mike Pompeo revoked the passports of ICC investigators either trying to enter the country, or about to. Something triggered this outburst by Pompeo, and then reaction by the ICC. This is now corruption verses corruption here. And may explain what is going on with website traffic. Something is up.

Above traffic indicates another hour or two long discussion about cold cell torture. As if they are being interviewed? I wonder if ICC Prosecutor Bensouda demanded their testimony lest their companies ever do business in the rest of the world? I emailed her the website traffic report in the Full Disclosure report, revealing them and their companies. The people behind the prosecutor are those in Europe pissed off at Bush2 and Cheney. They picked the time to strike now? This could explain the Bolton & Pompeo knee-jerk reaction in the news today, revoking visa's of those on their way here to interview the tech CEO's? Instead, the prosecuter stayed back in Europe and did teleconference interviews? Also explains the ICC website rebuking the Pompeo action as just further effort of impunity, which further justifies the ICC purpose. So the ICC is on the offensive. Go ICC! Charge! Charge of the Light Brigade!

Above, full half hour debrief of all the non-Bush2 bad actors after their teleconference depositions with Prosecutor Bensouda? They got an education based on the pages visited, and a renewed focus on me and Elias. What are they going to do now? It was like the wrath of God came upon them, just after I Tweeted good luck with the wrath of God. Then yesterday's Tweet about our laws requiring Bush2 and Cheney going to prison, along with them too, helped too?

So, the decision from the big debrief meeting, then more discussions, is to recruit a shill to pay me off money, hurry. But this has been their problem, no one on earth will do their dirty work. Over a thousand have said no way, but they still have faith, evidenced by continued efforts.

Given the overnight traffic being light, it appears the tech CEO's are still plotting with Bush2 & Cheney to recruit a shill to pay me off. With renewed interest and more motivation to do so. But they have the same problem, no one will ever volunteer to be their shill, and none of them are brave enough to contact me.

@BarackObama @JoeBiden - why did you allow so many citizens to be brutally tortured frozen to death just to protect criminal pals P.Bush2 & VP.Cheney from our laws against murder and torture? Is Satan your master? See ColdCellTorture.com

It appears from the overnight and morning traffic, that once again efforts to expose the corruption where beaten back by the corrupt ICC judges, leaving Bush2 & Cheney, and the tech CEO's to once again find a shill to recruit to pay me off. Corruption won again. But two shill have already turned them down, so they are back into the cycle of failure.

It is 9:07pm ET, and all day they have been recruiting shills. Eight (8) so far today. All said no way. The urgency of today's massive shill recruiting, may indicate a deadline to effect payoff, or else? Else doom soon to boon? Last night something was to occur, but Bush2 once again prevented it somehow. Perhaps he was only given 24 hours to pay me off, so time is up, doom soon? Are they back on dread watch again?

It appears from the overnight traffic, that Bush2 saved himself once again, and

now has the day to pay me off to go away. Hence the Fremont payoff person, the CIA center, Bush2, and crew, are visiting cooking up a plan. But they have not been recruiting shills. Did they give up to try something else?

Rotterdam, Netherlands, new shill recruit at 7:55pm ET

Now this is evidence of Bush2 failing, giving up. So, Satya went back to recruiting a shill. It is 8:04pm now. I think they have until 9pm, like last night, to pay me off.

At 8:31pm ET, I emailed the below to Larry Page and ABC, and to George W. Bush:

Dear George W. Bush and Dick Cheney:

After yesterday's massive shill recruiting marathon, where even the criminals said no way, when added to the thousand others before, creates a statistically relevant sampling, such no one on earth will agree to be your shill. Certainly not you either.

I am certain had one complied, the offer "I could not refuse" would be written in the dialect of the Precambrian Dick Cheney homonoid. Who has nothing to negotiate with at all, double naught. At this point, due to the fact that I live by principles, I am just unable to accept blood money from killers to continue hiding their crimes from our laws. Doing so, makes me a criminal too, and I am not going to become a criminal for you. Therefore, you can cancel all your preplanned punishments had I accepted your loot, because such would be tantamount to a secondary revictimization. This leaves you with nothing to negotiate at all, double naught.

It is you who wanted me to take money, because I want you to go to prison for torturous murder. Clearly God has worked me into the position of being your defacto prosecutor for your crimes. Not by my choice, but rather your own actions put me before you today. God has been after you, and the CIA/FBI/DOJ thug killers for almost two decades now. How is it going?

Obviously neither God, nor the International community, or I will allow your impunity to continue. You will serve time for your crime. This I assure you. But because God demands "mercy, not sacrifice," I would be willing to offer you governmental bad actors a voluntary option called "mercy." Something you did not offer your dead victims, but I am required to oblige.

Since God only allows me to do to you, what was done to me, or a double portion (Revelation 18:6), each of you can decide between either serving a voluntary 144-day sentence in the local jail, not a club fed, or choose full prosecution and execution for torturous murder. But after the 144 days you walk free, no criminal record, and keep your money and jobs.

A last option allows you to serve exactly what I had to serve, which was 72 days in jail (double portion equals the 144 days,) but the first three days would consist of severe hypothermic torture until declared dead by the doctor, shot with a gun, then sutured up ready for the morgue. After being denied medical care you then spend the next 72 days locked in a cell block with killers like yourselves.

This is completely voluntary. Does not have to splash in the news, perhaps reported on the bottom of the page. There would be no world wide embarrassing exposure of the "TortureGate" scandal, but rather final quiet closure for those who care. Like God.

My advice is to choose "mercy, not sacrifice." Otherwise you are choosing sacrifice, and God will stay true on that course just as you command.

David Andrew Bardes

Hosea 6:6
[God speaking] "For I desire mercy, not sacrifice, and acknowledgment of God rather than burnt offerings."

Matthew 9:13
[Jesus speaking] But go and learn what this means: 'I desire mercy, not sacrifice.' For I have not come to call the righteous, but sinners."

Matthew 12:7
[Jesus speaking] If you had known what these words mean, 'I desire mercy, not sacrifice,' you would not have condemned the innocent.

This is epic. Now they are back recruiting shills. Some poor soul in Charlotte was called up on the telephone by President George W. Bush, Larry Page CEO of Alphabet, Satya CEO of Microsoft asking them to be the middleman in paying off some torture victim whom they are too afraid to confront themselves. They are so blinded and deceived that they keep trying in firm belief one will say yes.

At 8:52pm ET, I emailed the below to WhiteHouse.gov on their contact page with a form submission. I filled in the boxes, inserted the below and hit send.

P. Trump knows of me from the ongoing TortureGate Corruption Murder Scandal involving P. Bush2 and VP. Cheney trying to avoid prosecution for murder.

Dear President Trump:

There are no other leaders in the deep state other than P.Bush2 and VP.Cheney. Everyone else is below them. P.Bush2 is behind the Russia investigation because Bruce Meuller does nothing without P.Bush2's approval. Always has and always will. John Bolton only works for P.Bush2, always has and always will. Get Bolton's phone and you will likely find constant communications between the two. You are being played like a dupe. Like a buffoon.

All these above big meetings, lots of planning, with money payoff people, yet the shills still say no way. They have nobody. Bush2 failed again last night. Their entire plans of corruption soley depend on me going along with it. Such they have to pay me off, hurry, quick, throw the money.

At 1:09pm ET, I emailed the below to George Bush2:

P. Bush, please deliver the below message to the person known as "Karen Thomas."

Dear Karen, someday I would enjoy breaking bread with you reminiscing about the odd and various characters at Rainbow Lake Resort. Living there was like being imprisoned in the Twilight Zone. If these governmental actors are recruiting you to be their shill and they offer something beneficial, then please volunteer. If their intentions are just more of their abuse, then pass as my answer would be no anyway. And thank you, David

I think Dick Cheney wants what he will not get, and is unhappy as hell. Mad as a hornet. The shills keep saying no. Larry and Bill must be appeasing him during his tantrums.

The stock market tanked today, Dow down 460 points, Apple, Google, and Microsoft down more than 2%. Yesterday the Dow was up 217. Did the markets react on insider knowledge of the true events taking place today? As in Dick Cheney being the only hold out on the mercy plan? Everyone else being in favor?

Above, Bush2 is back to recruiting shills. So perhaps the ICC people gave

Sadly the tech CEO's are still plotting with Bush2 & Cheney, and the CIA, China, and crooked ICC judges. I do not know if they are appeasing them, or

truly believe they will find a shill to say yes, more or less me who will say no to their crappy offer. They plot in vain. I do not know if the ICC is on course to effect something good, or if they gave up again.

Above, is a telling meeting. Steve Jobs and Bill Gates were notorious enemies, bitter is a nice word. Tim Cook, who rode shotgun with Steve during those decades of war and battles, now is plum cozy with Bill. Nothing like corruption and crime to bring fighting factions together.

The tech folks overnight and this morning have been recruiting shills. I do not know if the ICC is ever going to act, or if they are just hopelessly lost and corrupt. But the incessant recruiting of shills never ends. They truly believe someone will volunteer.

Above, Larry Page calls the Lightspeed person in Charleston, South Carolina. I do not know if this person is with those who tortured me, or a shill recruit Lightspeed network person. But this person agreed, then the second call was with Tim Cook and Satya. Do they have a shill who said yes?

Bill Gates and Satya spoke with the above person in Oslo this morning at like 3:30am. Perhaps the Oslo person was convinced with lies to not have the ICC move forward until they had a chance to pay me off. But after a long day of failing, the Oslo person, now 10:30pm in Oslo, is going to email me; asking themselves? Having visited the above 'contact' page that has my email address.

30 minutes have elapsed, and no email has been received. Did the person decide not to email me, because they already knew my answer?

Re: Ongoing overnight bribes in the TortureGate Corruption Murder Scandal

Dear Prosecutor Bensouda,

Based on overnight website traffic, one of your decision makers living in Oslo, Norway, flipped overnight taking bribes from the CIA center in Germany as well as from the technology CEO's now ensnared in TortureGate.

Also your ICC judge in Japan spent the overnight being further corrupted with China along with the other bad actors.

Please remain steadfast in your mission for justice for those tortured to death by these killers.

Thank you,

In the news:

Tim Cook's big Apple release capped off with Oprah coming on stage...
https://www.cnn.com/tech/live-news/apple-event-march-25/index.html

Apple CEO Tim Cook saved the biggest storyteller for last: Oprah Winfrey.

Oprah appeared on stage to cap off Apple's press event telling the crowd "there's never been a moment like this one."

"We all crave connection," she said. "We search for common ground."

Oprah said that she "joined in order to serve this moment," and that the apple platform allows her to do what she does in a whole new way.

Oprah announced that she has two documentaries in the works. One documentary called "Toxic Labor" while the other is a yet unnamed documentary.

Oprah also said she's rebooting her famed book club with Apple.

"All connected to Appppppple!" Oprah said, wrapping up the event.

"Thank you, I will never forget this," Cook said while hugging Oprah.

The above Oslo person last visited with Bill Gates at 3:38am this morning. This is the corrupt ICC person (i think) that has apparently promised the CIA torture victim in Poland, or a torturer who was promised, a piece of the BedBegWells pie. Loot to split up. This Poland person has been impatient tonight, not getting fruition from the crooks. So, the Poland person talks to the crook in Oslo, Larry, and Satya, demanding his piece of pie. But the crooks cannot find a shill, so the whole domino row of other crooks lined up each in their own country, who were also promised their piece of pie, fall down under weighted gravity.

very unhappy.

The above meeting must have been the hard deadline for recruiting a shill to pay me off. Now the ICC must go forward doing the right thing?

Above, Satya visiting the 'suicide' page. These tech folks fully believe Bush2 and Cheney lies that cold cell torture is an accident. If the story is played out in news, droves of former inmates will phone every news station saying "me too" on the cold torture. Such these tech people will be floored as to how deceived they were. Stupid and evil is my take.

As of only 10:49am ET, they have recruited five (5) shills so far today. A marathon, which means they have another hard deadline. This showcases the thought process of the criminal mind. They are so afraid of confronting me, that they will choose their own doom because of their own cowardice.

Today is the fourth (4th) Wednesday of the month, and the date of deposit of my Social Security monthly disability benefits, but today there was no deposit. Bush2 had it cut off. He has had this cessation long planned, but today it was effected. This is just another nail in the coffin for Bush2, Cheney, and the tech CEO's. Making me dig my heels in deeper to finish the race running even faster, is not an effective strategy for these criminals.

Above, Larry and Satya alone. Right now it is 4pm in Stockholm & The Hague. I wonder if these bad actors had until now, 4pm in Europe, to pay me money; pay me off. Or by 5pm maybe. This would explain the panic shill recruiting marathon, including Dick Cheney recruiting too.

The above meeting is prophetic. George W. Bush2 is so desperate for a shill to pay me off, that he calls the dismemberment murderers in Saudi Arabia. It was the Saudi magic family behind the attacks on 9/11. How embarrassing to Bush2. Especially when turned down by the most ruthless killers on earth. Evil meets evil.

It is now 12:51pm ET, and it appears the above Saudi shill said no way too. Like they all do. How prophetic and pathetic. Only the stern of the sinking corruption cargo ship is visible now; soon to disappear under the waves of the righteousness sea.

Efforts have resumed recruiting shills. George2 cannot help Larry, or Bill, or Satya. I think they still want to buy Wells. The lined up crooks who were promised a piece of Wells pie, are still angry at Cheney and Bush2. The Ukraine person is one, the Poland person another, and then the tech CEO's want something from me. I told them I would not communicate via a third party shill, but they think I will, if they can find a shill. They are wrong on both assumptions, but since they cannot find the first, the second does not even come into play.

The topic of the above meeting was me and my book. Overnight traffic revealed the Poland person still upset at not owning their piece of Wells as promised by Cheney. They want Wells. Is the Russia person putting pressure on Bush2? Could it be P.Putin putting the screws to P.Bush2 saying "buy Wells now, or we splash Bardes' book all over the world?" There is nothing Bush2 can do, he will not contact me. No one will.

Above, Bush2 is back to recruiting shills. So, the Russia meeting above, was serious pressure from the comrades, perhaps even P. Putin himself "get us Wells, or we splash Bardes' book all over the world..." But yesterday even the Saudi killers turned Bush2 down.

Above, the Russia person visiting the 'accident' page means Russia is being told by the Bush2 and FBI people, that cold cell torture is an accident, not intentional. These are the same lies that Bill Gates, Larry Page, Tim Cook, and Satya fully believed, and still do. What I do know, however, is no one in Russia will be so stupid as to believe those lies. All the dead bodies are no accident obviously. It is prophetic that the USA is trying to convince Russia, that it does not use the very torture they accused Russia of using.

The above meeting is prophetic as well. You have China who used cold cell torture against USA POW's in Korea, Larry Page and Satya, who have never been to prison, trying to convince someone in Russia that cold cell torture is an accident, not on purpose (hence the China person visiting 'intensive' page, being engineered cold cells.) This is the same reason hundreds of shills said no way. No one is dumb enough to believe their lies. Sure as hell not, Russia.

Above, it is a 3am in Russia, and Larry Page is trying to convince the Russian I am a crazy religious person "see, here is his "monastery" website, he is nuts." So, the "cold cell torture is not real" lies failed to persuade Russia, they saw past that ruse, but now Larry goes after my religion.

But Bill Gates tells everyone cold cell torture is an accident, not intentional. Maybe the Russians above schooled these liars as just being stupid idiots if they think such was an accident.

It appears as if Russia did not blast Bush2 by taking my book public, but rather used it as further corruption in their favor. Putin will now keep the secrets of our criminal presidents. We have no sovereignty anymore, China and Russia are in control. As Bush2 is now beholden even to Putin.

3/29/2019 - To My Fellow Americans:

Due to the ongoing corruption crimes of our last two presidents and vice presidents, along with our current, in continuing to cover up torture and murder, they have completely surrendered the sovereignty of our great nation, to now remaining forever beholden to both the Chinese and Russian presidents, to continue keeping their corruption secrets hidden from public view.

This has to end. We must regain our sovereignty as a nation.

So, they just viewed such, after a long night and morning trying to recruit shills to buy Wells. They recruited five (5) shills, all said no way. Now Bill Gates will forward my posting to the others.

George2 visits my 'contact' page which has my email address. Will George2 email me? His money payoff person is standing by, and visited Wells, the object of the money. Has the Poland person threatened George into doing the impossible for him? Talk about self-selecting his own fate of doom from a choice of two. George2 will not email. George2 will have to tell the kraken he is a coward; in addition to being a liar.

The upset angry scorned Poland kraken must be powerful enough to get George2 back on the phone himself. At 4:21am in Poland, uplate tonight. Only for George2 to tell the kraken he was too afraid to contact me himself. Wow. Burned twice by the same match. The kraken must now face his own defeat as complete. Same with George2. The double cost of corruption.

The kraken now retreats to stew in humiliations which will boil into a wrath equal to the amount of wealth promised but now lost, times three. This person is obviously powerful and influential. Even to get Putin to bring the hammer down on Bush2. Now the kraken reports back to Putin "your nemesis Bush2 admitted on the phone he was too much of a coward to contact Bardes himself."

It appears from the overnight traffic, that the Poland person is very powerful, or making threats, as the technology CEO's scrambled to recruit a shill. Bush2 is absent, having revealed his cowardice to the Poland thug. I blocked the Poland thug's IP address in htaccess, so he now knows he has been blocked on purpose, and has zero chance of obtaining Wells. He does not seem to take this fate very well.

It appears my blocking the Poland thug via the htaccess file, had an effect of ending his efforts to buy Wells, and finally give up; to take who knows what revenge and retaliation. But such caused Bill Gates and Larry Page to call someone in the UK giving them the heads up on my book. As the UK person visited unspeakablepain.com, indicating topic of discussion. Perhaps to get ahead of the story before it breaks?

At 10:04pm in Poland, the Poland person still will not give up, and has forced Satya to start recruiting shills once again. Satya was sacrificed to do the duty. This Poland kraken must be making threats against the tech CEO's. He gave up on Bush2 last night, with Bush2 admitting to cowardice. The tech folks must be appeasing this thug. I blocked the thug's new IP address range in the htacces file, so he will get the message once again. The shill will say no way out of fear, making this kraken even more upset.

The above Turkey person is related to the Poland kraken. As the Poland kraken and Turkey person met early this morning. The kraken must be looping this soul back into an effort to move the mountain. The Poland kraken must have promised people below him in the corruption food chain a piece of his pie, such he is now indebted to them. Or, they may do him in, if he does not produce Wells, therefore the kraken continues in vain, out of fear for very life. The double cost of corruption. The Turkey person will now go back to his Poland friend and explain reality in terms he can understand.

Perhaps this explains why Bush2 and Cheney spent two years recruiting shills to pay me off and buy Wells. Where in a seven month period 182 shills were recruited only for all to decline. They had to keep recruiting because they had promised so many corrupt officials all over the world their piece of the pie. Where each crook was guaranteed exclusive profits for their own country. All the ICC judges, Nobel folks. Millions and billions promised. Only for me yesterday, to post I would never sell Wells to criminals like or with Bush2 and Cheney. This must have reverberated like an earthquake shattering the pipe dreams of all these crooks all over the world. Poland was a nation that allowed a Bush2 secret torture prison, so perhaps this kraken was the top of the pyramid in Europe, and then he lined up people below him, even getting favors or money in advance, but now owed back immediately, such his complete doom awaits him soon. He is recruiting with the same zeal Bush2 and Cheney did.

Above, Kursk appears to be near the Ukraine border, closest to Poland. The kraken in Poland must have pawned Larry Page over to this soldier for some breaking in, some reeducation. Portents of things to come. There must be a legion of underground thugs who were promised their piece of the Wells pie. From these tech billionaires they now want their skrill. Tech leaders who were dumb enough to be sucked into Bush2 corruption. The wrath of post Soviet Russia has fallen onto those who can now afford their financial demands before becoming ransoms. This explains Larry taking this call, and not cast off to Satya, as those before? They now have Bill Gates and Tim Cook as their prize, "squeeze real tight to reveal your prize!"

Above, it is 6am in Poland, and either the kraken awoken only to call Larry for payday, or Larry awoke the kraken with hammer to hit him. Either way, I think the tech CEO's have something ready as if a hammer to hit them, and not capitulate themselves. The fact the kraken visited 'Elias' indicates topic of conversation.

It appears whatever the tech CEO's had as a defense against the Poland kraken and Russian thug, did not work. In fact, the tech leaders got right back to recruiting shills to buy Wells from me. They must be in a bad predicament. Evidenced by Dick Cheney himself visiting Wells, because he was the fool that promised everyone their piece of Wells. But if the feds come into Transylvania county, they have to go to the sheriff, to have local officers come out with the federal officers. My sheriff will ask "why are you arresting Bardes?" They will answer "Bardes will be charged with causing the attacks on 9/11, but we are really trying to scare him into signing over his patent to his invention to Bush2 & Cheney, so they can payoff all their corruption of lined up thugs all over the world." Knowing my sheriff who knows me, I do not think he will go along with this sham. I also do not think FBI officers would go along with it either, not at this point, but I may be wrong. Bush2 and Cheney corruption may have reached an end, one way or another.[Update note: The FBI either refused of local sheriff denied, so Cheney's plan was defeated.]

Above, looks like they have gone back to recruiting shills, which means the FBI refused to carry out their corruption orders. Or, my sheriff refused to participate and balked. Dick Cheney was denied. This forced Bush2 and Gates to call upon a shill recruit from four days ago, on 3/29, who said no after three attempts to be recruited during that day. They are back to desperation.

Can you imagine being phone called by a past president, the richest man in the world, CEO of Microsoft, and someone in China, begging you for assistance in being a shill to pay off someone they fear. Poor souls.

The wrath of God did come upon them after all. 17 years to effect all this; having him backed into a corner, where no one will help them anymore. Above, Egypt allowed one of Bush2's torture prison black sites inside the country, perhaps now calling to ask for another favor. Since the Saudi killers turned him down, then he admitted cowardice to the kraken, so to will this person deny his request to be the shill. No one on earth will help him now.

The torture train has run out of track?

Above, now the Moldova person related to the Turkey person, Poland kraken and Russian in Tursk, is meeting with Satya. Satya is always sacrificed to the lowest of tasks. Either Satya is getting back to the thug saying Bush2 failed

once again to find a shill, or the thug is getting back to Satya.

Looks like the Maldova thug delivered bad news to Satya, who passed it to Bill. The thugs must be enjoying having the richest person in the world caught up in their corruption; to squeeze real tight with all their might to witness the sight of a flowing river of gold pouring out the gates of the Gates. What will Bill Gates do now? Pay up, or extricate himself?

Above, since my Tweet last night telling them I would never sell wells, it looks like everyone moved into their Plan B, whatever B may be. Perhaps the kraken and Russia thugs will demand cash payments from Bill Gates, in lieu of Wells profits denied? All downline would need to be paid off. No more shills are being recruited, so that is a good sign. But above George Bush2 getting back involved is a forced march perhaps.

At the ICC homepage was a press release from yesterday. The president of the ICC gave a keynote speech in Washington, DC, about America's role in forming International law and the court. Then he urged the current administration to fully support the ICC. Below is the text of the press release:

Press Release : 1 April 2019

ICC President calls on U.S. leadership to support the Court and to "join their closest Allies and Friends at the Rome Statute table"

ICC-CPI-20190401-PR1444

In his keynote speech titled 'A Tribute to Robert H Jackson – Recalling America's Contributions to International Criminal Justice', President Eboe-Osuji tracked the instrumental role played by the United States throughout the development of international criminal justice institutions from the International Military Tribunal in Nuremberg to the creation of the International Criminal Court through the adoption of the Rome Statute in 1998.

The United States – led in the effort by U.S. Supreme Court Justice Robert H Jackson – was instrumental in ensuring that Nazi war criminals were tried in a court of law after World War II. Critical contributions of the U.S. continued toward ensuring that the key principles of the Nuremberg process would become widely recognised by the international community under the auspices of the United Nations, and that they would serve as essential ingredients of the groundwork for the first draft of the ICC Statute decades later.

President Eboe-Osuji further described how the United States and U.S. jurists had helped to create and operate international criminal tribunals such as those for Rwanda, the former Yugoslavia and Sierra Leone – and how the U.S. delegation had played a highly active and important role in the drafting process of the Rome Statute of the ICC. "[T]here is no escaping the fact that America has, more than most, done much, in our world's recent history, to further the cause of international criminal justice in a joint effort with other nations", he stated.

Against this background, the ICC President called on the United States to 'join her closest Allies and Friends at the table of the Rome Statute', and in the meantime, support the Court, 'whose values and objectives are entirely consistent with the best instincts of America and her values'. 'The past, the present and the future victims of genocide, crimes against humanity and war crimes need her to do so. And, it is with all due sense of responsibility that I directly request the leadership of the United States to give this support to the ICC', President Eboe-Osuji said.

During his stay in Washington D.C., President Eboe-Osuji also attended the ceremony for the 2019 Anne Frank Award, which was given to Ben Ferencz, former Nuremberg prosecutor and a long-time advocate of international criminal justice, with a Special Recognition Award presented to the Syria Justice and Accountability Centre. President Eboe-Osuji paid special tribute to Mr Ferencz in remarks he gave at a dinner held on the occasion of the award.

It looks like Bush2 & crew were given another chance, this time to buy out my book, Unspeakable Pain, before the story goes public. Five (5) recruits were recruited this morning, all saying no way. Appears they had a deadline of 12pm noon ET, or 6pm in The Hague.

Above, poor Mark Moore (a friend of mine) must be scratching his head trying to figure out why an ICC judge in Korea, and the CEO of Microsoft, are in such a panic hurry over my book and invention. Bush2 found Mark after reading my book, hoping Mark would be upset about being in the book, therefore they are now going back to pump that well again. But Mark told them no once again. But this means Bush2 and crew were given more time to pay me off to bury my book.

they persist. Perhaps Tim Cook was not convinced himself, but now after this shill says no way, maybe he will comprehend the problem. These tech CEO's live in their own source code, they have programmed their own alternative reality and dwell within. They do not understand the problem of torture. They deny cold cell torture is used on purpose, instead they believe the lies that it is an accident. Despite the pile of dead bodies. Because no one on earth is stupid enough to believe those lies, except themselves. They have assumed a position in opposition to God, betrayed their nation, sold their fellow citizens down continued torturous deaths, lied to others saying cold cell torture was only an accident, not on purpose, just to protect killers on the run from our laws against murder, doing so for personal profit and gain, and now God's wrath is washing them out to sea. These men are purely evil.

Above, Dick Cheney has expanded his circle of steady suckers believing his delusions tonight. Satya once again assigned therapy duty, nursing Dick Cheney as he rambles on into oblivion. Bill Gates learned a terrible cost of believing Dick Cheney's lies and corruption, so did Tim Cook. Both of whom are absent here, in these Dick Cheney's last reign as a defeated king.

4/5/2019 - Upcoming "We the People" Reconstitution Tour

I will soon be hitting the road full time, speaking at churches, synagogues, mosques, civic, and political groups. Sharing how the unstoppable corruption of George Bush2, Dick Cheney, and technology CEO's, has escalated into a crisis that has completely destroyed the moral fabric of our once proud nation, how torture and murder collapsed our legal and judicial system, destroyed the constitution, destroyed the Republican party, brought God's wrath upon our nation, and has left our federal government operating as a rogue criminal state avoiding any laws against murder, and threatening to use our own military to shoot down the airplanes of investigators from the International Criminal Court. It is time for a period of Reconstitution. It is time for "We the People" to take charge of our nation, because all power is vested in we the people. We need to terminate the employment of all existing crooked civil servants, rewrite job descriptions in a corruption free triumvirate management model, then hire all new people.

This happened in six minutes. Larry then emailed the new posting to everyone on the corruption email chain.

Atlanta, Georgia AT&T Wireless. This person recruited Joseph long time ago. At 6:17pm ET

The above person in Atlanta last met with Tim Cook, before that George Bush2. This person recruited a friend from Burlington, Joseph, and even flew up to meet with Joseph. Joseph initially agreed to be their shill, but got cold feet and backed out. This person last visited on 3/18/19, last month. I assume the visit above was by Tim Cook or Bush2 not liking my Reconstitution Tour, and has no other options.

At 12:39pm ET, I emailed the below:

To: Larry Page at investor-relations@abc.xyz
From: David Andrew Bardes, Brevard, North Carolina

Please deliver this message to Larry Page; regards the ongoing Torturegate Murder Scandal with P.George W. Bush and VP Dick Cheney. Thank you.

Larry, Tim, Bill & Satya:

As I prepare my materials, exhibits, and speeches for my tour, I am at the point where I either include you tech leaders coming on the scene late in the game, or exclude you altogether. My mission is governmental bad actors who torture, not corporate executives. Why you involved yourselves supporting torture and murder is beyond logic and reason, and I am conveying my regrets of your involvement to my audience in both written and spoken words. My question for you at this crossroad, is do you want me to scrub your names from all my materials, websites, social media, speeches and sermons? I assume your answer is no due to your refusal to communicate with me, therefore no need to reply.

David Bardes

At 5:19pm ET, I received the below email from the above shill recruit in Charleston:

Subject: SC Family Court Pro Se Case
Date: Sun, 7 Apr 2019 21:19:33 +0000 (UTC)
From: James Ray <james.adsinc@yahoo.com>
To: davidbardes@davidbardes.com <davidbardes@davidbardes.com>

Mr. Bardes,

I hope this email finds you doing well. I must say after finding your story online and reading both of your books within several days, I knew I finally found the person who may be able to guide me through the Family Court swamp here in Charleston, SC. Like you were, I am enthralled into a two year ongoing custody fight

between myself and my ex-wife who the court has given full custody to of my 3 year old daughter. Before you ask, I do have an attorney. Three during this process but after two years and close to $50,000.00 later in legal fees, court costs, child support and additional payments, I find it only fitting that I work at this from another angle. My counsel is not getting this job done and while he may be a decent person, his lack of desire and drive to assist me in my case is only hurting myself and my daughter. I feel at this point, if I'm going to lose, the least I could do is try to fight for my child myself.

During the last two years I have been extremely educated on just how corrupt and violent the family courts in this state are. Charleston is a swamp where every attorney seems to know each other. I've been told by more than several that they all hang out together and are almost like "buddies". While everyone in my case tells me that they're trying to do what's best for my child, they continually try to root me out of her life. Opposing counsel has done nothing but keep me in court every month practicing in constant litigation as you speak of in your book. I am at my wits end with this and have gone from wanting to do nothing but strive for full custody to considering just walking away and agreeing to everything they want. Both of which are the worst choices for my daughter. At this point I want to work towards 50/50 shared custody. I believe that this arrangement is the only fair one for my daughter.

After reading your book, I have found some new energy to start this Pro Se fight. As I said before, I feel the need to do this on my own because I can't seem to find anyone to help me do what is best for my daughter. I'm sure you get this question a lot but I would appreciate any advice for my future fight. Especially, on the aspects of constant litigation and filing documents with the Charleston County Clerks office. I plan on starting this Pro Se fight immediately and have an appointment with my attorney this upcoming week to relive him of his duties.

I thank you in advance for any help or assistance you can give. I also want to thank you immensely for writing your books and helping fathers get their rights back!

At 7:44pm ET, I replied to the above email with:

You are the shill first recruited by Larry, Tim, and Satya on March 24th. After saying no they came back to you again on the 27th, 30th, and 31st. Desperation brought them back to you today, and you caved into their corruption. The same CIA goon keeps writing these sorry emails. I have your IP address on Lightspeed using a Macintosh. Being an educator on Lightspeed will make you easy to find. What you are doing here is a series of crimes. I now have a civic duty to have you prosecuted and imprisoned. You will be brought to justice in a court of law, this I guarantee you.

Tell Dick, George2, Bill, Tim, Larry, Satya, CIA, FBI, China, the China hackers, Interpol, ICC judges in Korea, Japen, Czech, and Hungary, the kraken in Poland, and the Russian criminals, that the irony of their first shill ever dumb enough to say yes, would actually come from Charleston, South Carolina, is not without further insult.

4/9/2019 - Tuesday

I did not label the below traffic, but much attention was focused on 'Elais' and my Reconstitution speech. Skip down to pick up at 12:39pm ET
