In the news today:

Tech stocks, once high-flyers, are now Wall Street's turkeys

https://www.cbsnews.com/news/why-tech-stocks-apple-amazon-alphabet-google-facebook-microsoft-netflx-are-now-wall-streets-turkeys/

The iPhone maker's shares are down more than 20 percent from their all-time high after Apple's market value vaulted past $1 trillion earlier this year. Apple and the other five horsemen of today's Internet economy -- Google parent Alphabet, Amazon, Facebook, Microsoft and Netflix -- together have lost nearly $1 trillion in market value in recent weeks, dragging down not just the tech-heavy Nasdaq composite but also the Dow Jones industrials index and the S&P 500-stock index.

The above coincides with these tech CEO's caving into corruption over

torture, capitulating to crimes of murder. The timing is uncanny, with the possibility of one leading to another.

First 'Karen Thomas' in Jacksonville (undercover CIA agent from time at Rainbow Lake Resort,) visited at 3pm, to Elias, now my sister visits Elias as well, at 9pm. The focus is Elias, obviously, which means they may have figured it out. Someone is reversing course, and has seen the light?

At 1:57pm ET, the overnight traffic was lighter than the night before. The G20 Summit is in Argintina this Friday and Saturday (Nov. 30/Dec. 1) That is four days away. Trump and Xi are meeting at the summit and hope to have a deal hammered out with China before or after the summit. Which means negotiations are going on right now. Hence the website traffic from China.

In the news today, below P. Trump in a Wall Street Journal interview, threatened to impose the massive tariffs on China in January, if China does not capitulate. This looks like negotiations are not going well, and perhaps P. Trump is throwing P. Bush2 to the wolves?

Trump says he expects to raise tariffs on China

https://www.cbsnews.com/news/trump-says-he-is-likely-to-move-forward-with-raising-tariffs-on-china/

President Trump said he plans to move forward with increasing tariff levels on Chinese products to 25 percent in January, saying in a Wall Street Journal interview that it is "highly unlikely" that he would comply with China's request to hold off on the increase.

"If we don't make a deal, then I'm going to put the $267 billion additional on," at a tariff rate of either 10 percent or 25 percent, Mr. Trump said in the interview, which comes days before he meets with Chinese President Xi Jinping. He said in the interview his tariffs could impact Apple products imported from China, including iPhones and laptops.

The two leaders are scheduled to meet at a summit this week of the Group of 20 nations in Buenos Aires. The president told the Wall Street Journal that if his meeting with Xi doesn't have a positive outcome, he will raise tariffs on all remaining imported goods from China.

Mr. Trump's tariff increase is expected to take effect January 1. The administration has already put a 25 percent tariff on a separate list of Chinese imports valued at more than $50 billion.

On Monday, the president hinted that he could move forward with the tariffs, telling reporters at the White house that "it could happen. They have to treat us fairly."

Then I watched the White House Press briefing with Trump's economist Kudrow, and then Bolton, answer questions ahead of Trump leaving for the G20. Bolton answered questions on China; still playing tough hardball, or appearing so. Donald and Xi are having dinner Saturday night in Argentina at the G20.

The above meeting between someone in China and someone in Russia, discussing me (both visiting davidbardes.com at the same time,) is something I have no read upon. Is it nefarious, or nice? Or, since it appears negotiations with China are not going well, is China planning something as a boomerang of sorts? A got'cha? To not end up a paper tiger?

At 1:30pm ET, in the news, below, P. Trump is at the G20 in Argentina. Tomorrow night, Saturday night, Trump and Xi Jinping are having dinner, which is referenced below.

CNN.com:

President Trump sees "some good signs" for trade talks with Chinese President Xi Jinping

From CNN's Jeremy Diamond

President Donald Trump struck a cautiously optimistic tone on Friday about the prospect of reaching a deal on trade with Chinese President Xi Jinping when the two meet Saturday evening.

"We're working very hard. If we could make a deal that would be good," Trump said during a bilateral meeting with Japanese Prime Minister Shinzo Abe.

Trump said his National Economic Council Director Larry Kudlow and his representatives are dealing with the Chinese "on a constant basis" in the lead-up to his dinner with Xi and the President said the US officials are seeing "some good signs."

The above "on a constant basis" is true based on my website traffic; around the clock 24/7.

George H.W. Bush's reported last words: a dad affirming love for son George

https://www.foxnews.com/politics/george-h-w-bushs-reported-last-words-a-dad-affirming-love-for-son-george

The 41th president died shortly after 10 p.m. Friday, about eight months after the death of his wife, Barbara, the family spokesman, Jim McGrath, announced. Bush was 94 years old.

That changed by the evening, however, and Baker returned to Bush's side, according to the outlet. By 10:10 p.m., George H.W. Bush was gone.

It is now 3:23pm ET. At 4:30pm ET, P. Trump and P. Xi Jinping, are having dinner in Argentina, for two (2) hours. Afterwards, at 6:20pm ET, Trump leaves to fly home. The above two visits from China shows negotiations are still ongoing, and likely lead into the dinner itself at this point.

But this means the decision that came as a result of Trump's dinner with Xi Jinping, is to pay me off with money.

Trump agrees not to raise tariffs on China after meeting with Xi Jinping

(Last Updated Dec 1, 2018 10:29 PM EST)

https://www.cbsnews.com/news/g20-trump-xi-jinping-trade-war-meeting-truce-today-2018-12-01/

The White House said late Saturday that President Trump and Chinese President Xi Jinping had agreed to a truce in the ongoing trade war, and Mr. Trump agreed not to raise tariffs any further. Both presidents called the meeting "highly successful," although the White House statement left out any details.

As of 9:34am ET, it appears Trump cave in to corruption and fully capitulated to the Chinese communists. What a disappointment. Chinese president Jinping is himself a corruption criminal just like our presidents and vice presidents.

CNN.com first page top story at 12:00pm ET:

Trump agrees to freeze higher tariffs on $200B in Chinese goods — for now

https://www.cnn.com/2018/12/01/politics/trump-china-tariffs/index.html

(CNN)The leaders of the world's two largest economies, Donald Trump and Xi Jinping, agreed to a temporary truce on trade Saturday at a highly anticipated dinner in Argentina.

After the two-and-a-half hour discussion, Trump agreed to maintain the 10% tariffs on $200 billion worth of Chinese goods, and not raise them to 25% "at this time" ahead of a January 1 deadline, according to a White House statement from press secretary Sarah Sanders.

In exchange, China agreed it was willing to purchase a "very substantial" amount of agriculture, energy and other goods from the United States to help reduce the trade imbalance.

Calling the extended meeting "friendly and candid," State Councilor and Foreign Minister Wang Yi said the two leaders had agreed to open their markets to each other and to step up negotiations toward elimination of all additional tariffs.

A Chinese state media report said that the meeting had reached "an important consensus," pointing out "the direction for Sino-US relations in the near future."

"If it happens it goes down as one of the largest deals ever made," Trump told reporters on Air Force One during the return trip from the G20 summit in Buenos Aires. "It will have an incredibly positive impact on farming, meaning agriculture, industrial products, computers, every type of product."

According to the White House statement, the two leaders agreed to immediately begin negotiations on top US concerns related to forced technology transfer, intellectual property and cyber theft. Both parties agreed to complete negotiations within 90 days. If they fail to reach a deal, the 10% tariffs will rise to 25%.

In his remarks, Wang did not specifically mention the 90-day time limit the White House said negotiations had to be completed by.

So, I added the below as a new entry on coldcelltorture.com, at 12:55pm ET. I also posted it on Facebook:

12/2/2018 - Sadly, Chinese President Jinping is just as corrupt as our Presidents

The Chinese anti-corruption unit busted President Bush2 and Vice President Cheney making bribes to escape prosecution for war crimes and torture, but at last nights dinner between P. Trump and P. Jinping at the G20, President Xi Jinping only used the corruption to make more corruption by forcing President Trump to his knees. To completely capitulate; just to avoid the embarrassing story of our corrupt presidents from being reported to the world.

Afterwards P. Trump was quoted saying it may be the "largest deals ever made," but is more like the "largest

loss ever." Because P. Trump got nothing but more empty promises of buying more goods, and must now stay on his knees or a story will break in the news. Our presidents are a world wide disgrace to our great nation.

At 12:30pm ET, the overnight traffic was China unhappy about my websites and book. They are putting pressure on Bush2 and the tech CEO's. Since it is clear everyone is corrupt, all supporting crimes and the cover up of crimes, perhaps it is time for me to release these traffic log to the public.

Above, Bush2 is either on his way to Washington, DC, or already there, as Bush1's casket is being flown to DC in Trump's AirForce One. Bush1 will lie in state in the capital rotunda tonight at 7pm, I believe. Wednesday is the memorial in DC, with Bush2 giving the eulogy. From tonight until then, Bush2 and other Bush family members will be greeting guest in the Palmer House, across the street from the White House. So, Bush2 is very busy, but not far from his mind, is cold cell torture and me. As evidenced by the above visit. China is visiting constantly too. The ICC judges visited overnight, so their corruption is back up and waiting too. What are they going to do?

Dow sinks 500 points as trade truce enthusiasm fades

https://www.cnn.com/2018/12/04/investing/stock-market-today-dow-jones/index.html

New York (CNN Business)That was fast. Wall Street's enthusiasm for the US-China trade truce has completely vanished.

The Dow dropped more than 500 points, or 2.1%, on Tuesday. The index was down 625 points at the lows. The S&P 500 declined 2.2%, while the Nasdaq tumbled 2.7%.

Big tech stocks fell sharply. Apple (AAPL), Amazon (AMZN) and Alphabet (GOOGL) lost around 3% apiece.

The selloff wipes out Monday's 288-point jump on the Dow. That rally had been fueled by relief over the ceasefire between the United States and China on the trade front.

News after the closing bell (end of Wall Street trading day):

Dow plunges 799 points on trade, slowdown fears

https://www.cnn.com/2018/12/04/investing/stock-market-today-dow-jones/index.html

Big tech stocks fell sharply. Apple (AAPL) and Alphabet (GOOGL) lost more than 4% apiece. Amazon (AMZN) and Netflix plunged more than 5%.

President Donald Trump did not help Wall Street's trade war worries on Tuesday. Trump said that he would "happily" sign a fair deal with China but also left open the possibility that the talks will fail.

"President Xi and I want this deal to happen, and it probably will," Trump tweeted. "But if not remember... I am a Tariff Man."

Those words aren't likely to bolster confidence among investors already worried about the negative consequences of the trade war. Steel and aluminum tariffs have lifted raw material costs and caused disarray in supply chains. And uncertainty about trade policy makes it very difficult for companies to make investment decisions.

"This tariff situation still looms large over the market," said JJ Kinahan, chief market strategist at TD Ameritrade.

Treasury Secretary Steven Mnuchin acknowledged that the market turbulence reflects uncertainty about the US-China trade truce.

"The market is now in a wait-and-see," Mnuchin said at the Wall Street Journal's CEO Council annual conference in Washington. "The market is trying to figure out is there going to be a real deal at the end of the 90 days or not."

The Dow falling 800 points on failure of Trump's dinner with Jinping, is telling, given the tech's stock fell 4% in one day, which behind the scenes they were the architects of the China deal turned disaster. The irony comes full circle, injuring all the players involved.

Scathing article below on CBSnews.com about the day's beat down on Wall Street. Saying Trump's Tweets prove ignorance of even basic understanding of economics, which fueled the sell off. Apple was below $177 a share and downgraded by an analyst. I do not know if these tech CEO's draw a

connection between their recent steep financial losses and the timing of their joining the cover up of torture and aiding and abetting murderers. Perhaps this website traffic indicates they do?

Stocks down, and Dow drops 800 points, reversing gains from U.S.-China trade truce

"Tariff Man" takes to Twitter

....But the market's optimism faded Tuesday amid published reports questioning the scant details out of the Trump-Xi talks and growing skepticism that Beijing will yield to U.S. demands anytime soon.

"The actual amount of concrete progress made at this meeting appears to have been quite limited," Alec Phillips and other economists at Goldman Sachs wrote in a research note.

Willie Delwiche, investment strategist at Baird, echoed those doubts. "The sense is that there's less and less agreement between the two sides about what actually took place," Delwiche said. "There was a rally in the expectation that something had happened, the problem is that something turned out to be nothing."

Mr. Trump also hasn't helped his cause by sounding off about the trade negotiations with China, some analysts said.

"The president yesterday undid, with four tweets, Monday's bounce in stock following the news that the increase in tariffs on Chinese imports has been deferred for 90 days, pending talks," Ian Shepherdson, chief economist with Pantheon Macroeconomics, said in a client note. "Both the sentiment of the tweets—the president called himself 'Tariff Man'—and the profound lack of understanding of economics they demonstrated were deeply alarming."

The negotiations with China have already started. Unless extended, they will end 90 days from the date of our wonderful and very warm dinner with President Xi in Argentina. Bob Lighthizer will be working closely with Steve Mnuchin, Larry Kudlow, Wilbur Ross and Peter Navarro.....
— Donald J. Trump (@realDonaldTrump) December 4, 2018

.....on seeing whether or not a REAL deal with China is actually possible. If it is, we will get it done. China is supposed to start buying Agricultural product and more immediately. President Xi and I want this deal to happen, and it probably will. But if not remember,.....
— Donald J. Trump (@realDonaldTrump) December 4, 2018

....I am a Tariff Man. When people or countries come in to raid the great wealth of our Nation, I want them to pay for the privilege of doing so. It will always be the best way to max out our economic power. We are right now taking in $billions in Tariffs. MAKE AMERICA RICH AGAIN
— Donald J. Trump (@realDonaldTrump) December 4, 2018

The trade dispute has rattled markets in recent months as signs emerged that it has begun affecting corporate profits. That's stoked traders' fears that if it drags much longer it could further weigh on global economic growth.
...
Apple lost 4.4 percent, falling below $177 a share by the 4 p.m. close, after the consumer electronics giant was downgraded by HSBC analysts, citing the possibility that iPhone volume and value growth may moderate due to a saturated mobile phone market.

I bet there are no details yet. Negotiations are ongoing. AirForce One took off a bit ago to fly to Houston with Bush1's casket on board, heading to burial at the Bush1 library in College Station. So, Bush2 will be flying soon too, I assume.

In the news, Trump had a Chinese executive arrested in Canada, to be extradited to the USA for bogus charges, as bait in the Trump's trade war with China. Pissing off China according to below article:

Huawei exec's arrest opens a new front in the US-China trade war

https://www.cnn.com/2018/12/06/business/huawei-us-china-trade-war/index.html

Hong Kong (CNN Business)The conflict between the United States and China over trade and technology is expanding.

The arrest of a top executive at Chinese tech giant Huawei at the request of the US government has angered Beijing, alarmed investors and raised new doubts about the fragile truce that the leaders of the world's top two economies reached just days ago.

"You have to see this as a significant escalation in the trade war," said Christopher Balding, a China expert at the Fulbright University Vietnam in Ho Chi Minh City.

Meng's arrest "suggests that the gloves are now fully off in this arena," the analysts said.

What happens next to Meng, the daughter of Huawei's reclusive founder, could have huge repercussions for the US-China relationship and Huawei's business.

The stock market is down again today, more China trade fears, Dow down -437 at 10:41am ET. As of 11:45am ET, the Dow was down -666.

The first spoofed email arrived at 10:22pm ET. It came from a Yahoo account but originated in Europe, likely the CIA center. The email came from a women who was a cold cell victim in Michigan. First came a website visit from Michigan, knowing I am watching log traffic files, then the email arrives. I never responded, so after another hour elaspes they send another email which arrives at 11:10pm ET

Hi David, my name is Lynne Phelps. I am a 67 year old retired paramedic fr on Michigan.to make a long story short, about 10 days after my disabled veteran husband passed away, I was sitting alone in the woods on public land hunting deer. I was just enjoying the woods that day and recalling the good times Ken and I used to have. Suddenly I was accosted by a Male stranger who was yelling at me and swearing at me and running st me. When he got close enough to touch me I pointed my shotgun at him and told him to get away from me.

The second email arrived at 11:10pm ET:

Subject: Cold cell jail experience
Date: Sun, 09 Dec 2018 23:10:44 -0500
From: lynnphel <lynnphel@yahoo.com>
To: davidbardes@davidbardes.com

Hi David, To make a long story short, I'm a retired 67 year old paramedic. I was thrown in jail around Nov 28, 2017, about 10 days after my disabled veteran husband passed away. I had to point my shotgun at a criminal stranger who had accosted me in the woods while I was deer hunting. He backed off and said "I'll get you!" He called the police and told them I had attacked him. So I ended up in jail for about just 24hrs. The arresting officer thanked me for being so polite, but me in jail anyway. I had no idea what I was in for. When the female guard put me in my cell alone, I saw the floor was covered with toilet paper. I told her I wouldn't put a dog in here, and she said they clean it every day, but after that she didn't like me at all. I cleaned up all the toilet paper and just stood around for a while. I was in comfortable short sleeved summer type pajama prison garb. Shoftly after, I started shivering. I never stopped unless I was told to go to the nurse for medication. Then I realized the areas outside the cells were nice and warm. There was no where to sit but the metal toilet seat. My bed was a pocked and broken down slab of concrete about 2 inches above the concrete floor with no mattress. I was so exhausted I lowered myself down to the floor by holding onto the toilet stall wall, then crawled on my hands and knees and lay down on my side. No way to sleep cause of the shivering.I am unable to get up and down without help because i have a total hip replacement and the prosthesis in my thigh is broken. When she would come and open the door she'd just watch me crawl across the cell to the toilet wall and pull myself up to stand. About 4 am she made me get up again and go get myself a mattress. Then at 6:30am she made me get up and take it back. The next morning another younger woman was put in my cell. She showed me how to hold my top closed with my hands to get more warmth for about 5 min, then you would be cold again. I had had a stroke about 8 months before this and am also an insulin dependent diabetic.my blood pressure was extremely high while I was in there. I was able to call my son about noon. I told him to please get me an atty to get me out be cause I knew I would be dead if I spent another night in there. The atty got me out that night. He was an awful man, but that's another story. I found out from my cell mate that they always keep it that cold for the inmates. The toilet paper all over the floor was from these poor people trying to cover themselves up with sheets of it to try and get warm. It doesn't work. I eventually pled to a misdemeanor reckless handling of a firearm, because I didn't have enough money to fight my case in a trial. I had never even had a speeding ticket in my whole life. The

other female prisoners i met in my sell that next day were so nice. I asked them why we were all treated so badly and kept so cold. They said the staff figured we all deserved to be in there so they hated the prisoners. It was just incredible. Just wanted to let you know there is one paramedic in Michigan who supports you and believes in your cause. God Bless You for caring about these poor people. I am so traumatized by my experience that I am in tears every day and have been unable to bury my husbands ashes. I keep them on my desk with his flag and other mementoes. Every time I see a police car I am terrified. I dont go out except when I have to. I have a constant worry of being put back in there. I can't stop the fear of it. This happened in Livingston County Michigan. Again, God Bless You for caring about the prisoners. Sincerely, Lynne Phelps

Two nights ago I did not reply to the two emails from the shill in Michigan. Then website traffic slowed, but now traffic is picking back up. Bush2, Gates, Page, and Microsoft back visiting. Below article in the news. China just jailed a Canadian who happened to be in Beijing, as retaliation for Canada jailing the China tech CFO at the request of USA. So the negotiations are not going well,

is the story today.

Michael Kovrig, former Canadian diplomat, detained in China

https://www.cbsnews.com/news/michael-kovrig-former-canadian-diplomat-reportedly-arrested-in-china-2018-12-11/

His detention came after China warned Canada of consequences for its recent arrest of Huawei executive Meng Wanzhou at Vancouver's airport.

[Update on SSA disability: SSA declared me disabled in 2012, once they had x-rays of my broken hip, and started disability benefits. My official SSA diagnoses "PTSD." After hip surgery and my federal lawsuit before SCOTUS, Bush2 had the benefits stopped, it took time with doctor visits, but my last disability payment was September 2016. In December of 2016 I mailed a letter to Bush2's book publisher at Crown, trying to shop my book that I was going to write about Bush2 corruption and torturegate. The publisher gave it to Bush2 on Friday before Christmas on Sunday. Bush2 worried over Christmas weekend, to first thing Monday he called the SSA headquarters in Baltimore, Maryland and ordered the SSA to restart my benefits again, immediately. I was not disabled and did not reapply, but the following day, Tuesday, I received the overnight letter from Baltimore stating "We can start paying you...." All the benefits started up again, including Medicare. Then I received a lump sum check for all the back months to when they ceased. I wrote the book anyway and self published it, then filed another federal lawsuit into torturegate. Bush2 then reacted in anger and started once again to have the SSA benefits stopped. SSA mailed letters with requests for me to provide updated medical records showing my still disabled. But there were no records because I was no longer disabled, and just ignored all the SSA requests. But just after 11/3/2017 when the International Criminal Court reported they were going to open a war crimes investigation into Bush2/CIA torture, Bush2 had the SSA put off ceasing the benefits by sending me a letter saying "your hearing will take a long, long, long time to schedule." But after Bush2 and Cheney bribed the ICC judges, Bush2 got back to cutting off my benefits in order to force my hand, and settle for pennies, being broke and desperate. But apparently the Baltimore HQ and NC Disability Review SSA people in Raleigh, told Bush2 they will not help him, because I was not disabled nor had I been declared disabled again. So Bush2 had to use his corrupt friends in South Carolina, to schedule a "hearing" before a "SSA judge" in Asheville. That hearing was to occur yesterday at 2:30pm in Ashville. A huge snow storm dumped 18 inches of snow, so the judge had to cancel likely. I had no plans on going, as I cannot claim to be disable when I am not.]

My last posting to the cold cell site, stated I would release certain documents

before a Bush2 imposed deadline came upon me. Yesterday was my SSA disability "hearing" before an Administrative Law judge, in the federal courthouse in Asheville. But with a major snow storm dumped 18 inches of snow on the ground, so it is doubtful the AL judge even made it, so it was likely canceled by weather. I was not going to go anyway, but now with the snow excuse giving me time, Bush2 knows have more time, which works against him, not me. This may explain the return of traffic.

At 7:40pm ET, I received an email back from the shill I replied to yesterday, 24 hours after I received it. The email read:

Thanks for listening David. Really appreciate your care for the prisoners. Man I could barely get thru one day of that. I feel like a real wussy. God Bless You and yours again. Lynne P.

This is clearly a shill, and it was obvious I was the one to break the ice, so I waiting five hours and replied with the below sent on 12/12 at 12:26am ET

Lynne, my efforts regarding cold cell torture must persist until those in power pass a midnight act of congress called the "Conditions of Confinement Act" with only one law at the start, where all areas of human confinement must be kept above 71 degrees F and below 81 degrees F, at all times, everyone would get exactly what they want. I am driven by a wind which will not stop blowing until cold cell torture stops blowing.

Almost immediately the word spread giving indication of happiness from the crooks.

These guys, above, are doing what I am doing. Waiting for an act of congress to become law. It has been two days so far. Tomorrow is Friday. Negotiations of corruption spawn more who want their favors granted in return before caving themselves.

At 10:05pm ET, still no sign of any news on the act of congress. I just listened to an old song on Youtube, which is appropriate for the present wait and anticipation. That is Phil Collins' *In the Air tonight*

I can feel it coming in the air tonight, oh Lord
And I've been waiting for this moment for all my life, oh Lord
Can you feel it coming in the air tonight, oh Lord, oh Lord

At 11:43am ET, today is the third day of waiting for an act of congress outlawing cold cell torture. Looks like today may have some action, as this morning started with the Bush2 money payoff people, and Bill Gates, all visiting at the start of the day.

It is 9:34pm ET Firday night, and still no sign of any act of congress. But given the scant website traffic, everyone is waiting same a me. Above China keeps visiting with Larry Page and Microsoft. Who have to tell them to wait longer.

In Washington, DC today, around noon the entire fifth floor of the DC Federal Court of Appeals building, down the hill from Capital Hill, was cleared and locked down like never known before. Stairways were monitor, elevators disabled. No one was seen coming or going. Lasted about an hour. The press speculate it was about the Meuller Russia investigation, but have nothing but a guess. It could have been congress people meeting with SCOTUS in a private conference along with other corrupt actors needing complete secrecy.

One article quoted "No sign that it was Mueller's office. No sign of defense counsel. The courthouse security had ushered the lawyers into and out of the building for their secret hearing completely under cover. The sealed hearing stayed confidential."

Below are two articles:

Today is Monday the 17th, and above Bill Gates and George Bush2 are discussing BedBugWells, in their decisions to buy it, and for how much. There has been no indication that an act of congress has been enacted outlawing cold cell torture, but given the negotiations of the above two, something may be forthcoming?

In my news feed regarding justice reform, it appears as if Trump's "First Step" bill is being debated and passed. Which means my "Conditions of Confinement Act" will be passed too?

First Step Act passes crucial Senate hurdle. And may be set for a final up-or-down vote as early as today depending on how quickly lawmakers debate "poison-pill" amendments. The vote Monday to end debate on the reform measure was 82-12. The Washington Post Related: A tick-tock of how Congress got to yes on justice reform. USA Today Analysis: A sign of how far bipartisan change has come and how far it has to go. The New Yorker TMP Context: Before its final revisions, what was in the bill?

[Update Note: about this time, ~8:30pm the US Senate passed the "First Step" criminal justice reform bill, see article notes below. But the below meeting with Bill Gates and China, is likely informing them that my requirement (law requiring temperatures 70-80 degrees) has passed, so now China should expect my websites to come down, and then the rest of the lined up corruption can take place.]

In the news around 9:35pm ET, the Senate passed "First Step" criminal justice reform bill. Trump signs it becomes law. I do not know if temperature limits

were put into this bill, or seperate, or excluded.

The bill that wouldn't die: The unlikely story behind the criminal justice overhaul
Updated 9:35 PM ET, Tue December 18, 2018
https://www.cnn.com/2018/12/18/politics/criminal-justice-overhaul/index.html

On Tuesday night, Congress passed the bill 87 to 12. Trump is expected to sign it this week before leaving for his Mar-a-Lago resort. The effort cements what is so far the biggest bipartisan victory of his presidency and turns the page on decades of policies that critics say were brutal, racist, ineffective and costly.

At 8:17pm ET, I am watching the floor of the house.gov in session. I assume the vote on First Step will come up tonight, but when I do not know. But given the above 5-way meeting, then Bush2 visiting alone afterwards, perhaps it has already passed. With the above meeting being the go signal? Or, tabled until tomorrow?

In the news the House just passed the First Step Act, at 2:30pm ET:

Congress just passed the most significant criminal justice reform bill in decades

https://www.vox.com/policy-and-politics/2018/12/20/18148482/first-step-act-criminal-justice-reform-house-congress

The US House of Representatives on Thursday passed a criminal justice reform bill, sending the most significant changes to the federal criminal justice system in decades to President Donald Trump's desk.

The Senate previously overwhelmingly approved the legislation in an 87-12 vote.

I assume my demand for temperature limits is in the Act, but do not know at

this point. But P. Trump is expected to sign it into law before he heads to Mar-Lar-Go, Florida for Christmas break.

The above meeting with Bush2 and Germany CIA center seems to get the ball rolling. As ten minutes later Larry Page and the Cal State person had a

meeting. Which means others may now have meetings?

I Emailed the below at 12:57pm ET:

The problem with the cryptic communications is a loss in meaning. If you are waiting on me, I am waiting on you.

At 1:18pm ET, I received back:

Was not a cryptic comm. Just really saying thank you. Lynne

At 3:16pm ET, I emailed back:

Good, I resume patient waiting. The clock favors me.

At 8:50pm ET, I emailed back the below message:

The sad fact you cannot find one human on earth to be your shill is telling. George Bush2 should commit at least one act of courage in his lifetime, but no.

Falling below what would not have required apology letters, now such letters would be required. Except if you free two whistle blowers; because how can those most corrupt fault those less?

Reality Winner immediately released from prison for good behavior or such.

Edward Snoden returned home forever free from prosecution, retribution, or molestation of any kind.

Then:

Michigan was not home to any major Indian tribes, because it was common hunting ground. Except for a group of Indians the larger tribes rejected banishing them to Michigan. Now hundreds of years later, we refuse to even recognize these rejected Indians as even Indians of any tribe. Therefore, the "Burt Lake Band of Ottawa and Chippewa Indians" (Burt Lake, Michigan) are to be finally recognized as their own tribe with all the benefits given to the largest.

Lastly:

300

Then 3 minutes later, Bush2 visited davidbardes.com:

Bush2 himself, at 8:53pm ET

Subject: Hello and Merry Christmas
Date: Thu, 27 Dec 2018 08:42:52 -0500
From: Ashlee Trammel <ashlee.a.trammel@gmail.com>
To: David Bardes <davidbardes@davidbardes.com>

Dear Mr. Bardes,

Hello again. I hope you do not have an unpleasant sensation in hearing from me. And, after all you have been through, I hope you enjoy peace, love and joy during this season.

I have one question to ask your expertise:
I need to acquire a transcript from a 2 day custody hearing. The court has told me this will cost over $3000. Are you aware of any cheaper ways to acquire a transcript?

I've thought of asking for the courts recording and typing it myself, but I don't know that they will release a voice recording.

Thank you,
Ashlee

P.S. The trial court judges of northeast Indiana are corrupt and downright evil.

At 1:46pm ET, I replied with:

Not being a lawyer I cannot give you legal advice. But if you need the transcript; if it is important to you, then pay for it.

Then there was no traffic for the next hour, except for Larry Page, below, going to dabsite and unspeak, both regarding me. Decision time creates conundrum.

It appears that Dick Cheney, above, gave the order to not pay Bardes the money he is asking, make him wait longer, force him to take less. The resulting overnight web traffic showed this to be the case. More waiting, which I enjoy.

China is impatient and visiting. Larry Page is back again, and Bush2 himself visiting coldcelltorture.com. Dick Cheney gave the order last night to bleed Bardes for more concessions, force him to take a lower amount. But my impatient and desperate foes spend their time in worry. As what they need can only come from me, and I am blocking all of their world wide corruption from working. Corruption that is stacked up like dominoes to fall. But this only will happen if I remain willing.

So, the above meetings were China speaking with Larry Page about putting up more money for Wells, to make this thing happen. Then Larry told the Chino Hills person about more money. Then the Chino Hills person spoke with Bush2 at his ranch in Crawford, Texas, about "Wells" - more money from China to sweeten the pot. Next, Bush2 will speak with Dick Cheney?

At 5:47pm ET, I received the below shill email:

-------- Forwarded Message --------
Subject: Re: Hello and Merry Christmas
Date: Fri, 28 Dec 2018 17:47:56 -0500
From: ashlee.a.trammel@gmail.com
To: David A. Bardes <davidbardes@davidbardes.com>

And have you per chance written Anything that would help a pro se litigant/Parent learn how to best create and write a written appeal for appellate court?
If so, would you be willing to direct me to where I can find this?

I am not sure of their intended request here, perhaps wanting legal documents from me. I would never give legal documents to crooks, where I would be the only party accountable to law. I would come before another corrupt judge to enforce a contract borne from corruption itself? "Your honor, I object on the grounds of perpetuating crime!"

So, at 6:37pm ET, I replied to the shill's email with only:

Hire a lawyer and take their advice.

Will have to wait and see if they piece it together.

At 12:33am ET, I emailed the below:

To: President George W. Bush via scheduling@OGWB.org
From: David Andrew Bardes
Date: 12/29/2018
Re: Conference call

Dear President George W. Bush:

It is beyond rational to continue the facade of hiding behind shills. Silly spy games so no one will know who pretends no one will know. Get ball-less Dick, and both of you grow a pair, take shots of whiskey to build up the courage if needed, and pick up the phone and communicate as gentlemen. Remaining yellow cowards explains your current situation, and whether you so remain.

It is 12:33am ET now, at 1:00am ET both of you call me, at 828-577-4775. No part of the call will be recorded. No one would believe it anyway.

David Andrew Bardes

At 11:33am ET, it is clear Bush2 is never going to call me, and has resigned himself to perpetual cowardice. What is Bush2 going to do now? Larry Page, Microsoft CEO, and Bill Gates are perplexed it appears. George went to sleep as a coward, and woke up as one. The sheer number of people who have suffered at the hands of Bush2 is staggering.

It looks like Bush2 and Cheney were up early this morning. Dick was doing searches in the NSA super databases for website traffic on coldcelltorture.com. Perhaps to find a way not to pay me any money, such the problem of cold cell torture is not a worry. What they discovered, is cold cell torture and me are a huge worry. I am blocking all of the backed up world wide corruption. With China backed up and waiting, all the ICC judges backed up and waiting. Dick Cheney cannot make the problem go away, leaving him frustrated again. Because he knows to make me go away he has to pay money and speak to me on the phone. Both unwanted.

Above, appears to be Microsoft CEO and Bush2 recruiting a new shill in the Netherlands, to interface with me, paying me money to go away. So, Dick Cheney's searches in the NSA databases did result in their conclusion that I need to be paid money to go away.

Above "new shill recruit" visiting the 'suicide' page from Google, indicates someone who is speaking with George Bush2. As Bush2 tells the story of cold cell torture from the suicide watch deaths, which causes the shocked new comer to Google finding, clicking, and visiting the suicide page first. The above meeting could have included Bush2 who did not visit the site at the same time. But the West Virginia person visiting the suicide page from Google is a clear hit Bush2 spoke to them.

If Bush2 is back to recruiting shills, that means Page and Gates gave Bush2 other chance to settle with me. But all the shills say no way. Above, Larry is visiting in anxious time passage. Nothing is happening, he observes.

Something was supposed to have gone down this night, perhaps the ICC judges issuing their orders, revealing cold cell torture. But Bush2 and his crooked cronies, again prevented anything from occuring.

The above meeting is ominous. You have a CIA cold cell torture victim in Lithuania, who has been my longest term visitor for over a decade. Dallas Bush2 person may be asking this person to be their shill. That would be a turn of the trade winds.

George Bush2 and Microsoft, above, called the CIA cold cell victim in Poland, below, to try to again recruit to be the shill. They said no again, but did offer to try to recruit someone in Oregon, who may do the dirty work. This is all conjecture, of course, but it fits the traffic.

I filed the below crime report on the tips.fbi.gov website around 2:30pm ET:

I wish to report a series of crimes involving FBI agents, a large number of them. Along with P. George W. Bush2, VP Dick Cheney, and Chief Justice John Roberts. It involves torture and murder, and the cover up of same. If you look up my name in your case file management system, you will find more on the subject. I wish to meet with Director Wray. Thank you.

I posted the below blog entry to coldcelltorture.com, around 2:30pm ET:

After spending 13 years trying to stop our presidents and vice presidents from brutally torturing to death babies, children, women, and men, I appeal to you to do something to help clean up the morass. Your nation needs you.

President Obama had a young child on the border strapped down to the "chair of death" and affixed a bag over his head suffocating the boy to death. More US citizens were brutally tortured to death with hypothermic torture under P. Obama than any of the other elected killers. Vice President Mike Pence as governor had his sheriff drag an inmate outside into the frigid winter cold, stripped him naked and tied him to the chair of death, then poured buckets of cold water over the victim until dead. Now this sadist is our Vice President. President Trump made good on his campaign promise to bring back torture by torturing crying babies and fearful children with the same death Rome gave Jesus.

Thankfully Jeb! Bush never became president, as when governor his jail had an entire wing dedicated to hypothermic murder, which Jeb used to freeze to death his inmates. Not to be outdone, brother George2 and Vice President Dick Cheney directed the CIA to brutally torture innocent Muslims to death because they resisted. Then Chief Justice Roberts directed every judge in the nation to dismiss every torture lawsuit, which just fueled the torture killing scores of more.

Am I to do everything alone; or will you at least do something to help your nation?

@BarackObama As an ex-president have you stopped torturing children to death? Do you not fear God's wrath? See ColdCellTorture.com

@realDonaldTrump When are you and 'Killer Miller' going to stop torturing babies and little kids with hypothermic death? Do you not fear God's wrath? See ColdCellTorture.com

@JoeBiden If you run for president, will you be honest and admit you are a cold blooded torturer and killer? Do you not fear God's wrath? See ColdCellTorture.com

Then these Twitter bots came quickly...

@realDonaldTrump Will you ever stop torturing little children and crying babies with the same death Rome gave Jesus? Does the law require you and "Killer Miller" be prosecuted and swiftly put to death? Do you not fear God's wrath? See ColdCellTorture.com

At 1:20pm ET, I filed the below crime tip to tips.fbi.gov:

I filed a crime tip last week and have never heard back from Director Wray. Again, I wish to report a series of crimes involving FBI agents, CIA agents, border patrol, presidents, vice presidents, and Republican lawmakers. Their crimes involve rampant multiple murders by torture, and then covering up their heinous crimes to avoid our laws against premeditated cold blooded murder that require prosecution and swift executions. It is time for justice to flow like rivers. I wish to meet with Director Wray. Thank you.

When you promised the voters to make America great by bringing back torture because "It defiantly works" what confessions have you and "Killer Miller" extracted from the babies and toddlers you both so savagely and brutally continue to torture with the most painful murder a human could ever endure?

Tweets sent the evening of 1/12/2019:

@BarackObama Your victims vanquished unto a torturous death have hired the best lawyer in heaven; a guy named Jesus. Problem is his father is the judge. Satan will be earning his fees defending you. See ColdCellTorture.com

@BarackObama Will pilgrims to your presidential worship center have access to a working hypothermic torture cold cell to experience a few minutes of the intense pain of what was your preferred method of torturing citizens to death? See ColdCellTorture.com

@realDonaldTrump Please give me a nickname and blast me in one of your morning tweets? Maybe "torture man" as in "torture man complaining about being tortured almost to death, shot with a gun, denied any medical care, and left to die." See ColdCellTorture.com

Sent below Tweet at 3:05pm ET:

@realDonaldTrump Why did you order the five month nationwide FBI investigation with dozens of agents going out to my friends trying to dig up dirt on me to silence me? How much money was stolen from taxpayers for this failed corruption? See ColdCellTorture.com

Tweeted below at 3:20pm ET:

@realDonaldTrump Since Robert Mueller is directly responsible for the tortuous murders of scores of our citizens with cold cell hypothermic murder, the law requires he be prosecuted and put to death by lethal injections without delay? See ColdCellTorture.com

@realDonaldTrump Why does P. George Bush2 frequently have deep searches done on the NSA super data center databases, just to keep tabs on me? All that "need a warrant" nonsense is a fraud. Welcome to the deep state. See ColdCellTorture.com

@realDonaldTrump Jim Comey is Mr. Cold Cell Murder himself, those Mueller did not kill, Comey did. @Comey @EricHolder @BarackObama See ColdCellTorture.com

@realDonaldTrump With so many hypothermic killers needing trials and executions, should we build gallows with twelve hanging stations on the steps of the supreme court? See ColdCellTorture.com

@realDonaldTrump Then we carry out the courts execution orders starting with the ex-presidents and ex-vice presidents who using torture brought shame and scorn upon our great nation. See ColdCellTorture.com

@realDonaldTrump Followed by four supreme court justices, appeals courts judges, and district judges who ever dismissed a torture lawsuit to protect these killers. See ColdCellTorture.com

@realDonaldTrump Then FBI and CIA agents along with lawyers at the DOJ.

Anyone with dirty hands and stink of torture will be washed with the soap of God's wrath. See ColdCellTorture.com

Please deliver this message to Larry Page; regards the ongoing Torturegate Corruption Murder Scandal with P. George W. Bush and VP Dick Cheney. Thank you.

Dear Tech CEO's:

I assume by the fact that jointly you can erase me from the Internet, but have not, that you have assumed a position not against me. You are new to the scene of what is our nation's second greatest evil, and I do not know how you can stomach the vomitous corruption while appearing to be willing participants in its continuation. I say "appearing" because of possible forced march.

Since you have chosen not to communicate with me, you are unaware of just what powers of the mightiest nation on earth George Bush2 and Dick Cheney have brought full force against me in continuous oppression. I am droned daily, and without end. After each direct hit blowing me into bits, I rise again picking up the pieces of my charred body to reassemble and speak with a voice stronger and louder each time. Now these cowards regret creating me. How a lone lame torture gunshot victim, can using only a few words assembled on paper, envelops and stamps, become the single greatest national security risk in the history of our nation, by implicating in mass murder almost the entire power structure of the federal government of the United States of America, is a story being watched and enjoyed by billions in heaven. What is happening now must take place.

Which is why I pray to God you fine folks give me some survival skrill to keep the show going. I no longer have enough teeth left in my mouth to chew food, and can only dream of owning a smartphone someday, affording cable television, or a car that starts. So I have enclosed my checking account and routing numbers, where just in case some positive numbers appear from somewhere unknown, I would be eternally grateful. And those in heaven watching the show will cheer for you without ceasing I am certain. Thank you.

John, it is the unfolding of long hidden corruption that our governments (fed,state,county) use hypothermic torture to murder citizens on purpose. The snare netted 4 supreme court judges, 3 presidents and 3, VP's, almost every federal judge, governors, sheriffs, on and on. We hire and pay people who torture citizens to death giving themselves immunity. The wrath of God has now caught up to them.

Amen sister! But you mistake the coming wrath of God upon torturers and murderers as some political cause that will not work because God is needed? Why do you not read posts before you post criticism?

After Bush2 and Cheney failed recruiting a shill, after two years of trying, the tech CEO's are now failing at breakneck speed. Now they got on the phone above saying what do we do now? How many more shills are the going to recruit with same outcome before they understand their problem?

At 10:42pm ET, I emailed the below:

To: Larry Page at investor-relations@abc.xyz
From: David Andrew Bardes, Brevard, North Carolina

Please deliver this message to Larry Page; regards the ongoing Torturegate Corruption Murder Scandal with P. George W. Bush and VP Dick Cheney. Thank you.

Having difficulty recruiting shills for George Bush2? Just since last April, over 120 have told George Bush2 no way. One lady sent me a LinkedIn invite, others a friend request. But after two years of nothing but no's he gave up, convincing you success could be possible.

Why would anyone willingly represent cowards in hiding to the person with the courage that causes even the president to cower? Your shills run from George Bush2, not me, as they privately support and contact me.

Why have you become immune to torture and murder? Why are you running cover for killers? Should we rent a freezer truck and set up medically monitored conditions with a temperature probe up your anus, so you can each experience the extreme pain from violent shivering for one hour? The pain from cracked bloody teeth from violent chattering would pale compared to what your frigid skin would wrought. Would you then be able to make a connection with the word torture?

@realDonaldTrump Why did you make torture the main platform of the Republican party? Now we cannot stop these pro-torture killers like @SenatorBurr from murdering more citizens with hypothermic torture. See ColdCellTorture.com

@SenatorBurr Do you know how many more citizens were murdered with hypothermic torture after you ordered our fraternity to permanently revoke my membership because I brought evidence of these murders to you in 2011? See ColdCellTorture.com

I added the below as a comment on the Facebook posting of the above Tweet on Burr:

In fact, below is a copy of the letter suspending my fraternity membership, but now fully implicating these people and Sen Burr in what has unfolded since as the long hidden mass murder of citizens using hypothermic torture, and the cover up of same. I was denied the right of a trial or appeal, denied even the right to ever be heard. Saying only I am "not a member in good standing." Then sent a copy of the letter to Sen Burr's chapter.

Atlanta, GA 30324-2898

Dear Mr. Bardes:

Pursuant to authority granted the Worthy Grand Procurator by Article VI, Section 7 of the By-Laws of the Kappa Sigma Fraternity, your membership in Kappa Sigma Fraternity has been suspended as of the date of this letter. This suspension shall remain in effect until charges are filed against you and a hearing on those charges occurs as provided by the Constitution, By-Laws and Rules of the Kappa Sigma Fraternity, or until the Worthy Grand Procurator releases the suspension. In due time, you will be notified of charges filed against you, as well as time, place, and date of your hearing. While suspended, you remain obligated to pay all assessments due to the Fraternity, but you are not a member in good standing and may not participate in any Kappa Sigma activities or events, including but not limited to Chapter meetings, social events, intramurals, community service events, alumni events, rush events, pledging events or any other Kappa Sigma event or activity. You may also not participate in or have access to the Ritual during the term of your suspension.

Should you have questions concerning this matter, please do not hesitate to contact me or Chris Kontalonis at Kappa Sigma Headquarters.

Sincerely,
Hugh M. Robert
Worthy Grand Procurator

1/18/2019 - Friday

At 12:00am, I posted the below at SarahPalin.com:

Sarah, if you are not hunting your son, can you please deliver this message to your handler? Thank you.

When actors who play your role in an award winning comedy movie about your life of evil corruption, publicly thank Satan for the inspiration to play your role, he did not know you were the incarnation of the devil himself. Therefore, you will be imprisoned not at a ClubFed, rather the super-max prison in Florence, Colorado, confined to a small permanently frigid concrete cold cell, where you will never see the sky again. To live a long life because heaven obviously does not want you there anytime soon.

Tweeted at 1:58pm ET:

@realDonaldTrump @vp @SenatorBurr If I routinely savagely without mercy murder citizens with the same slow hypothermic murder as Rome gave Jesus, would I be charged with a crime, and prosecuted with the death penalty? Or rewarded with freedom? ColdCellTorture.com

Which brought these Twitter bots:

Then submitted my third FBI tip at tips.fbi.gov:

This is now my third submission request to report a long series of crimes involving FBI agents, CIA, presidents, vice presidents, and congress persons involved in the murders of citizens using hypothermic torture. I keep asking Director Wray, or any other FBI agent, to contact me, but they run from my questions. Like "If I routinely savagely without mercy murder citizens with the same slow hypothermic murder as Rome gave Jesus, would I be charged with a crime, and prosecuted with the death penalty? Or rewarded with freedom?" You can look up my name in your case management file system for more information.

At 5:20pm ET, I emailed the below as a follow up to my last one, above:

To: Larry Page at investor-relations@abc.xyz
From: David Andrew Bardes, Brevard, North Carolina

Please deliver this message to Larry Page; regards the ongoing Torturegate Murder Scandal with P. George W. Bush and VP Dick Cheney. Thank you.

Larry, sorry, I forgot the add the below paragraph to my last email:

Now after being denied even a penny of charity from you fine tech CEO's, your position to effect my destruction becomes clear. Being a former Registered Representative with the Securities and Exchange Commission, I have certain duties which survive my period of registration. Primarily full disclosure. If I am in possession of certain information deemed material to investors, not only do I have a duty to disclose, but further I am legally held to the level of full disclosure. Therefore, the law now requires I spend my weekend preparing and formatting full disclosure reports to first file with the SEC, and then distribute to the major Wall Street analysts. Along with website traffic reports, which the federal courts consider to the level of "irrefutable evidence."

During the time gap from above to below, about 50 minutes of panic and abject fear, it looks like the decision was made to start recruiting a shill to pay me off to go away.

The above shill must have said no way too. Given the pages they visited, ending on suicide and accidental, perhaps Larry is passing on Bush2 lies that cold cell torture is not intentional. Which not one of the hundreds of recruited shills believed. Below Larry and Microsoft CEO discuss their failures, and decide next steps?

At 5:30pm ET, I emailed the below to Larry Page:

To: Larry Page at investor-relations@abc.xyz
From: David Andrew Bardes, Brevard, North Carolina

Please deliver this message to Larry Page; regards the ongoing Torturegate Murder Scandal with P. George W. Bush and VP Dick Cheney. Thank you.

Larry, are the shills not believing you?

Just in case you believe George Bush2 & Cheney's lies that cold cell torture is not intended, why would a cold cell torturer in Brownsville, Texas, on the Mexican border, be Googling "david andrew bardes torture" at the time they were told a potential new law would soon forbid their intentional continued use of cold cell torture? And why would they then visit 'EliasMonastery' from a link in an email? If cold cell torture were a lie, why would anyone on our border ever be contacted, more or less take to Google searching my cold cell torture story?

I have website traffic between Dick Cheney and Durham sheriff McAndrews who is widely known for using cold cell torture on Black inmates who they both hate.

The Navy brigs in Charleston and Quantico, have once secret entire cell blocks where each cell can be made very hot or very cold. Called "temperature manipulation," as revealed in a 60-Minutes episode.

You can also drive in your car to any number of jails which have engineered cold cells in the booking areas of the jails, to handle the unruly and unwanted.

Lastly, are you that gullible to believe lies from liars? Do you really think a fabrication could get us where we are today? If you have been telling your shills that cold cell torture is a fabricated lie, a mere accident, not one out of hundreds of these recruited shills believed the lies of George Bush2 and Dick Cheney. Obviously not one human on earth will ever believe these lies.

My first mass mailing to stock analysts goes in the mail tomorrow or Saturday. They will not believe the lies either.

Above, looks like the Bush2 money payoff person is trying to convince someone low level at Microsoft in the valley to listen to their lies about "Elias." Because no one else will listen to their lies. Sad. Other visits earlier today between Bush2 and Larry/MS/Gates revealed fear and worry. So, now Bush2 is having his minions attempt to dissuade thier fate.

At 8:30pm, I sent the below message to SarahPalin.com:

Should you cease outwardly professing being a Christian, when Tweeting "BUILD THE WALL" proves you are an enemy of Jesus Christ? Would Jesus ever Tweet "BUILD THE WALL?" God? You are a disgrace to God. In heaven, every Mexican that has ever lived will take you to final justice court, after being given your Tweets by me, and God your judge will force you to apologize and pay each of them a little bit of your reward. But only until after millions of them clean you out, leaving you broke and hated in heaven forever, will you then begin to understand you were working for Satan; by putting Jesus through the shredder and flushing God down the toilet.

The above conversation must have been difficult with the Interpol people now knowing they were lied to by Bush2 & Cheney, and passed on bribe money based on a scam of lies, getting their Interpol president at risk of execution. And laying waste to the ICC judges, convincing them cold cell torture was not intended. Now Bush2 above calls them trying to win them back; Bush2 is incapable of stopping his own corruption.

Some deal was put together overnight which stopped the tech CEO's efforts to publish the story about Bush2's corruption. China and Trump spoke by phone last night, then the New York City visits could be the New York Times agreeing to not publish the story, then CIA center and Larry. Some deal was made where everyone got what they wanted. Then Bush2 starting recruiting a shill who said no way like hundreds before. Their plan assumes I cooperate. Which means I get everything I want too.

At 10:16am ET, I emailed the below:

To: Larry Page at investor-relations@abc.xyz
From: David Andrew Bardes, Brevard, North Carolina

Please deliver this message to Larry Page; regards the ongoing Torturegate Murder Scandal with P. George W. Bush and VP Dick Cheney. Thank you.

Dear Larry and other tech CEO's:

Once you discovered you were lied to by the demon possessed killers, you once again failed to obey our laws or do what is just, instead you again fully capitulated to self-greed and avarice for your personal gain, by sacrificing your own countrymen to continued torture and murder. You are evil traitors of our great nation. Because you failed to heed my words, you have now brought upon yourselves, and those you love and care about, the full fury of the wrath of almighty God. Not until God drops you to your knees begging for his river of justice to stop, will you realize your supporting torture brought it upon yourselves. May God have mercy on your souls.

The above meeting was someone in the Germany CIA center telling Larry Page and Microsoft CEO to look at my World Trade Center photo's posted on davidbardes.com. Telling them I was responsible for 9/11. There is something in the photo's somewhere, that the FBI keyed in upon years ago. Such now they are desperate and sounding like idiots blaming 9/11 on me.

At 12:18pm ET, I emailed the below:

To: Larry Page at investor-relations@abc.xyz
From: David Andrew Bardes, Brevard, North Carolina

Please deliver this message to Larry Page; regards the ongoing Torturegate Murder Scandal with P. George W. Bush and VP Dick Cheney. Thank you.

So, I am now being blamed for the attacks on 9/11?

All because my wife gave me a digital camera on my birthday, so I took it to work to record my five hour daily commute, so when my children grew up they could view what a typical day was like for their dad working in 2 World Trade.

So this is epic, being blamed for the attacks on 9/11. Gee, why have I never even been questioned, more or less never arrested and never charged with any crime? And if I was somehow guilty of the 9/11 attacks, why would the FBI conduct a nationwide investigation in 2017, going out to all my friends trying to dig up ANYTHING with which to prosecute me, conclude their investigation with absolutely nothing?

Because the reason I have never even been questioned about my pictures of my daily commute to 2 World Trade, is how would a DOJ prosecutor with no witnesses to call, nor evidence to present at trial, ever obtain a conviction? Not when I tell my story to my jury, after they stop crying, will demand the judge reconvene themselves as a grand jury voting to bring indictments against all these bad actors.

Since I have no track record of telling you fabricated lies, while they so brazenly lied to you about cold cell torture, just to continue using you like trained monkeys doing their dirty work covering up their crimes with foreign enemies, why would you ever now believe such fantastical claims at the time of their greatest desperation?

The above meeting took place immediately after I sent Larry Page the above email, so it was likely Dick Cheney's rebuttal to my claims. The Louisiana person is related to South Carolina, and is therefore the central source for any claimed evidence against me. Cheney is linking them up, making his best guess with false claims kept by goons deep in the swamp. But this makes Cheney look stupid and evil. Which looks like the situation below; quickly meeting with someone on the government cloud service. "They did not buy it," Cheney may have lamented.

At 9:12pm ET, I emailed the below:

To: Larry Page at investor-relations@abc.xyz
From: David Andrew Bardes, Brevard, North Carolina

Please deliver this message to Larry Page; regards the ongoing Torturegate Murder Scandal with P. George W. Bush and VP Dick Cheney. Thank you.

George Bush2 has you speak with my father, who threw me into the streets with a broken hip, and now you believe their lies? Why do you deny evidence in favor of folly? Each time?

Above, someone in China is calling a brand new person in Erie, PA, asking them to be the guinea pig middle man to contact me to pay me off with money to take down my websites and pull my book. "Cold cell torture is a hoax" brings their quick reply "no way." Hundreds of these shills have said no, because they do not believe it is a hoax; obviously not one.

The only reason George Bush2 and Dick Cheney keep visiting BedBegWells.com is because they want to own my patent. Buy it or steal it, they want it.

Above, very sad, Microsoft CEO is having to reach down deep in Mexico just to find someone to be their shill. They believe they will find someone. Hundreds have said no way, and they do not know why, just keep trying.

At 1:00am ET, I posted the '182 shills who said no way' file and addition to the blog. The first to see it was China, who gave it to Bush2 and others asap. Then came Bush2 himself, then China again. Time passed and Microsoft visited the "pictures" page on davidbardes.com, as if to focus in on Bush2 lies that I caused the attacks on 9/11. How absurd. Talk about who is nuts.
