The Hampton's are home to Bill and Hillary Clinton. If the above visitor is one of the Clinton's, along with Dick Cheney, they must be tag teaming Larry Page to join the dark side, because Bush2 has failed to do so. The Clinton's are Democrats, so may be Larry Page, so the "b-team" is at bat. Corruption stems both parties. This

will be very interesting as it plays out.

The International Criminal Court opens up after summer break tomorrow morning, so Bush2 wants Larry Page to fold, so the crooked ICC judges can declare corruption the winner.

In the hour after the above three person meeting, the below hits came in. They may be random, or a human hiding behind a bot. They are Microsoft and Apple. Larry Page has contacted other CEO's in Silicon Valley, like Oracle, Apple, and Microsoft. So after meeting with Clinton and Cheney, perhaps Larry went back to his cronies for guidance.

It is 7:07pm ET, and no sign yet of Bush2 people. Has Larry Page made his decision yet? If he caves, Bush2 people would be back recruiting a shill to pay me off? If Larry chooses courage, Bush2 would stay away, like at present? Or, Larry Page has not decided yet, needs more time?

At 12:38pm ET, I received an email reply from a Bush2 person posing as a loan shark, which on the 10th I replied I had no interest. Today they send the below, to which I sent back "Take me off your spam list, and cease contacting me." This is a Bush2 person wanting to stay hidden while getting their way. I say no, this is not a method of communication I would even entertain. The cowards have to do this themselves.

It seems sadly clear that Larry Page, CEO and founder of Google, is having difficulty doing what it right and necessary. A company known for its righteousness, has turned to the dark side, acquiescing to torture and murder. For reasons I am not privy, nor would I believe.

It is 12:40pm ET. Not one Bush2 crew visit in 24 hours, they are still hoping I reply to their spam email opening a conversation for financial settlement. It is clear to Larry Page at Google that I am not going to capitulate. Bush2 and crew hold out hope, but spirits will be damped as the truth sets in.

Google is going page by page, ten minutes per page, fact checking again, or writing something?

pressure from Google and Dick Cheney. The kitchen is hot, and getting hotter.

It is now 6:00pm ET, close of another day. It is clear Bush2 convinced Larry Page to give him more time to pay me off to go away, so all the corruption will play out as planned.

Bush2 failed at recruiting two shill recruits early this morning, one at 4am, the other at 9am. I do not know who the fed-officer was in Greensboro, or what Bush2 wants from them. Perhaps fabricating charges? Convening a grand jury to convict me of anything, to force me to capitulate? Create court documents? Assume FBI agent?

All the visits from Dallas, and Larry Page keeps returning every two hours. Bush2 is apparently still convince he could pay me off via some middleman shill. He is delusional.

Google comes back 6:20pm ET.

I would say that Larry Page is not happy this morning, having just sucked in every page of the cold cell site, after viewing my pictures of the WTC on davidbardes.com. Is he contemplating bravery? Or, does he know someone is going to take down my websites?

At 3:20pm ET, on Friday afternoon, August 17, 2018, it is clear George Bush2 and Dick Cheney know I am not capitulating to their ploy even if they could find a shill. When that became clear to Larry Page this morning, he scanned the website to save as evidence because he is going to either a) go public, or b) cave to the corruption?

President Trump finally Tweeted the truth that the Trump Jr. and Kushner, Trump Tower meeting with the Russian spy, was to obtain dirt on Hillary Clinton. So, Donald Trump, his son, and son-in-law, betrayed our nation by plotting with foreign enemies for the overthrow of an American politician? The law requires prosecution and execution. No one is above law. Not even our president, or his criminal family.

It is cleat that whatever Bush2 had going yesterday to take down the websites, failed in succeeding, such he went back to recruiting shills to pay me off. If he did go to Trump for help, Trump did not. But since Bush2 is back to recruiting shills, means Larry Page is allowing him more time to pay me off and take down websites. Why? Why is Larry not going public? Sister Cindy visited the Wells page, having been told to by Bush2, and Google visited Wells about same time. Why the interest in Wells?

It is 7:46pm ET, and while Bush2 is likely at a Saturday night engagement about

now, Larry Page of Google is checking in on me and cold cell. Bush2 has recruited three (3) shills today, all saying no way. Does he think one will ever say yes? He sure is feeling the heat from Larry, and perhaps all the others counting on his corruption. Larry must wonder why Bush2 wants to stay hidden behind the curtain, seems like child play now.

Larry comes back at 7:59pm ET. Only 30 mins since last visit, to both dab and coldcell sites again.

At 2:32pm I received the below email from a "Krystal Kapalski" who wants legal help having read my Pro Se book on family court. This is clearly a Bush2 inspired entrapment email. It arrived 30 minutes after the last shill recruit visited, could be from them. I am not going to respond because of the entrapment. Here is the email text:

Subject:Your Book
Date: Tue, 21 Aug 2018 18:32:48 +0000
From: Krystal Kapalski <kkapalski@hotmail.com>
To: davidbardes@davidbardes.com <davidbardes@davidbardes.com>

I really wish I had come across your Pro Se Guide to family court (cheat version) online after my months of scouring the internet for forms, wording, options, and just State rules. I am the unfortunate fool to have court tomorrow and just found this 2 days ago, but I could not stop reading it at second paragraph and it only took me half a day. I am going to actually order the book. I would like to pick your brain though and if not just say by my book!!

I often am one of those people who get lost and start rambling because I have so much that has gone on that I can't even believe. If you'd be okay with me doing so I would really appreciate it. Either way its now on with me knowing about constant litigation and I don't need to continue to be push with if you want this then you just need to agree. Anyways thank you for your time and providing even the tidbit that you did and we need to get your google analytics up to be the first search return!

Thank you for your time and assistance.
Krystal Kapalski

Why is Google going to the 'FBI' page twice? Is Bush2 trying to convince Larry to take out websites due to some violation? Two shill recruits said "No Way" today, and three yesterday. Clearly Bush2 and Cheney are frustrated, nothing is working. The entrapment email today was another attempt to arrest me, prosecute me into submission. They will do everything other than confronting me on the phone, or any other form of communication. Their fear is a testament to their guilt.

At 12:22pm ET, I received the below spam email, but it is likely Bush2 and crew trying to entrap me somehow. This person is asking for help selling their home and buying a new one. Who would spam such a thing? Instead of trying to entrap me with legal help, they are using Realtor laws to bag me. Sad.

Please can you be of help in helping me through the process of selling my =
home and I'm also looking to be a new one.

Thanks

Samuel Jason

Dick Cheney went to bed last night visiting, and visited first thing when he awoke this morning. A man consternating over his anger and fear. Cheney's hard line refusing to apologize for torture, has caught up with him. Requiring God to intervene by using a lone torture victim to speak because the others cannot. Speaking with words of God's fury. I engaged a strategy of patience, attacked them with words on paper, and used my power of weakness and helplessness against them.

Larry Page did not release his Bush2 story last night, which may mean it will break tomorrow morning in the New York Times? Given the website traffic, and lack thereof, the time is nigh. Larry keeps visiting making sure the website still exists, and Cheney visits out of being cornered and caught. Utter disbelief overwhelms him. ICC Judge Chung Hi-chong visited in disbelief as well, waiting for fates to follow a course of justice against him too.

4:00pm - Bush2 & Cheney visit
4:40pm - Bush2 office people & someone new in DC

It appears Bush2 and Cheney had a pow wow meeting making some big decision. The decision was implemented right away by the Bush2 office people. Someone contacted this new person outside of DC on Saturday, and gave them my name and book title. Who then took to Facebook to look me up, found me, and clicked on my book's link in Facebook. Bringing the new person to unspeak, then Elias, then back to unspeak. To obtain my book for free and to read it ASAP?

Is this anti-spin? Leak the story themselves to a friendly reporter to read the book before anyone else does, to jump the story with facts in the book to then refute? This is great news, as when they read the book, they may be saved. They will realize assuming a position in opposition to the forces that drive me, will be a futile disaster.

It sure looked like something was going to happen today, but absolutely nothing has happened. Larry Page is still visiting, and the Bush2 office people visited. So, the plan may still be on, but delayed due to Senator John McCain's death announcement.

allowing Bush2 to continue to try to pay me off? Got cold feet?

White House 'taking a look' at regulating Google

http://www.foxnews.com/tech/2018/08/28/white-house-taking-look-at-regulating-google.html

Today dumpy-Trumpy is mad at Google, and Tweeted hatred at Google. Then the above article appeared with Trump wanting to regulate Google search. Because

Trump beleives social media is unfair to conservatives and will not publish good news about Trump. Trump Googled himself and got bad news stories. The story appeared on the first page main story, on many news websites. This will make Larry Page boiling mad unlike anything else, at Trump. Good! Bust them all!

Tonight at the White House is a big dinner for evangelical Christians, with over 100 attending, Paula White, Robert Jeffrees, the whole cast of anti-Christs:

White House hosts dinner to honor evangelicals 'for all the good work they do'

https://religionnews.com/2018/08/28/white-house-hosts-dinner-to-honor-evangelicals-for-all-the-good-work-they-do/

Attendees such as Paula White, a Florida pastor who serves as one of Trump's closest spiritual advisers, said the event followed an afternoon of meetings between the evangelical leaders and White House officials. Others said the agenda of those meetings included issues important to both the administration and conservative evangelicals, such as religious freedom, immigration reform, criminal justice and prison reform and judicial nominations.

One participant, Robert Jeffress, senior pastor of First Baptist Dallas, described the event to Fox News as a "beautiful state dinner," and claimed it "almost turned into a campaign rally," with evangelicals in attendance spontaneously standing and speaking about why they support the president.

Faith & Freedom Coalition founder and Chairman Ralph Reed said evangelicals have a "tremendous amount of appreciation and gratitude" for Trump and his administration.

That was echoed in a gift White reportedly presented to the president and first lady on behalf of the group: a Bible signed by more than 100 evangelicals and carrying the inscription, "We appreciate the price that you have paid to walk in the high calling. History will record the greatness that you have brought for generations."

This is the kind of event that makes God angry, worshiping evil humans who do evil in the name of God. Watch out!

Google CEO slammed by lawmakers for declining to testify at Senate hearing

http://www.foxnews.com/politics/2018/08/28/google-ceo-slammed-by-lawmakers-for-declining-to-testify-at-senate-hearing.html

-Sen. Richard Burr, R-N.C., who chairs the committee, said that Walker was not sufficiently high up in the tech company to provide testimony before Congress, but backed away from issuing a subpoena for Pichai to appear.

-The news of the bipartisan anger at Pichai's declining to testify caps off a rough day for Google, after Trump launched an attack on the company with an early morning tweet accusing the tech giant's search engine of being biased against conservative media and promising that the situation "will be addressed."

-Trump reiterated his warning Tuesday afternoon in the Oval Office, saying the companies are "taking advantage of

people" and warning them to "be careful."

-"Google, Twitter and Facebook are treading on really troubled territory."

This is a fight to force Alphabet's Larry Page and Google CEO Pichai to succumb to the corruption plan Senator Burr and Bush2 are pushing upon them. Will they fold, or fight? Fight. Fight. Fight.

It is 11:41pm ET, and it is clear Bush2 and crew have been nonexistent since noon. Mid afternoon Larry Page changed his mind about helping Bush2, GOP, ICC, and Trump hide their corruption, and then authorized the release of his story? So, Bush2 hires as last resort, the Hong Kong hacker who fails again. Now Bush2 and crew are back on dread watch. Waiting for what was predestined long ago, and must take place.

It is now 11:27pm ET, and all traffic stopped. Everyone left. Did evil win? The waning moon outside is bright and almost full.

Atlanta, Georgia, AT&T Bush2 money payoff person has come back. So, evil won. At 11:35pm ET.

I sent the below email at 12:28pm ET:

To: Larry Page @ investor-relations@abc.xyz
From: David Andrew Bardes, Brevard, North Carolina
Date: 8/31/2018
Re: Larry Page's ongoing communications with President Bush2 and Vice President Cheney over the torturegate corruption scandal and coldcelltorture.com

Dear Larry Page:

For two years now, George Bush2 has been trying to recruit a "middleman" or "shill" to pay me off with money and go away, in such a way I would never know who paid me the money. Just since this past April 1st, George Bush2 has tried to recruit over 85 "shills" whom all said "no way." He is still under the impression he will find one who will say "yes."

This is an ongoing cycle where Bush2 gets frustrated not finding a shill, then he orders the FBI to conduct another investigation into me, or again threatens friends and family members to be the shill, or sends me entrapment emails hoping to prosecute me into submission. I have written emails to Bush2 clearly stating I would never communicate via some shill, and would only speak with him after receiving apologies from dozens of people. Bush2 is a coward. Sadly John McCain was one of the ring leaders in this plot to cover up torture/murder.

Even sadder is your apparent willingness to acquiesce to their corruption. While the screams of all those tortured to death call out from their graves for you to display courage and fight the forces of evil. As the fate of the world is in your hands, I pray you choose wisely.

Regards,
David Andrew Bardes

It is Saturday afternoon on Labor Day weekend, and nary a visit from anyone other than Larry Page of Google/Alpahbet. Bush2 is in Washington, DC for what is likely evening plans with compatriots. Bush2 and Obama will likely talk about coldcelltorture and me, as they did last time together in Texas. What transpires past this point is unknown, but with the stark memory of the death of a friend also caught up in the cover up of knowingly allowing citizens to be brutally tortured to death just to protect pals, begs an outcome of more pause.

It is 2:00pm ET, and Bush2 is recruiting new shills. Yesterday he recruited two (2) both of whom said "No Way!" One of them went to LinkedIN and asked to join my network. The one above today will say no way too. It is a broken record skipping to only play the same sounds over again, and again, and again. It does not end. But now we have Larry Page of Google, and Microsoft, waiting for their promised goods to be fulfilled. They will be waiting on Bush2 for a long time.

The below CNN article appeared today about the Senate Intelligence Committee's hearing about foreign use of social media. The CEO of Twitter appeared, Facebook sent a low level proxy, and Google sent no one, their chair was empty. Dick Burr, of all people, headed up the blasting with cannon fodder. Why would Google show up when Larry Page has agreed to go along with the mass corruption in the federal government, protecting Bush, Cheney, and the CIA, this Senate grilling was window dressing, a charade. Why would Google bother?

Senators blast Google for no-show on Capitol Hill
by Donie O'Sullivan
September 5, 2018: 2:38 PM ET

The Senate Intelligence Committee's hearing on foreign use of social media to influence US politics took place Wednesday morning with two of the big tech companies that senators wanted to hear from present -- and one empty chair.

Facebook COO Sheryl Sandberg and Twitter CEO Jack Dorsey were in the room and testifying. Google had offered to send Kent Walker, its senior vice president of global affairs, but the committee declined, saying it wanted someone more senior. Google did not offer anyone. So next to Sandberg and Dorsey was an empty chair, with a placecard for Google.

Committee chairman Sen. Richard Burr said the committee would have "valued the opportunity to speak with them [Google] at the appropriate level of corporate representation."

"I'm deeply disappointed that Google -- one of the most influential digital platforms in the world -- chose not to send its own top corporate leadership to engage this committee," Sen. Mark Warner, the committee's top Democrat, said. He added that there are "structural vulnerabilities" in multiple Google products, including Google search, YouTube and Gmail, about which members of the committee want answers. "Google has an immense responsibility in this space," he said.

Last night Bush2 recruited two (2) shills, both said no way. Today so far, Bush2 has recruited four (4) shill, all said no way too. Larry Page at Google must be putting pressure on Bush2, and the Microsoft CEO, both of whom want BedBugWells. But the same problem exists, even after I told Larry Page about it by email, to which he may believe me now, as Bush2 still believes he will find a shill who will say yes. Bush2's persistency is remarkable, a testament to his cowardice.

Bing, Microsoft CEO again, to Wells. They want Wells and must be perplexed why Bush2 cannot make it happen. If I could only be a fly on the wall. At 9:53pm ET.

Bush2 was up late, recruiting a shill at 3am, and at 8:30am, then took a break. Bush2 recruited four (4) shills yesterday, and two (2) so far today. But the results are the same, they all say no way. Today will be no different.

It 3:22pm ET, on a Friday afternoon, and it appears Bush2 is back after a break to start recruiting shills once again. The FBI always visits whenever Bush2 is recruiting.

So, Larry Page and George Bush2 are talking right now, at 3:40pm ET. Larry asks George "what seems to be the problem?" Answered by George "No one will be the shill middleman." Larry thinks to himself, that is what Bardes said, being true. Both then talk and decide to do what? Will Bush2 go back to recruiting new shills yet again, or opt to do something else? With Larry involved, Larry may recommend something else?

Bush2 recruited three (3) shills yesterday, and one (1) so far today. Google and Microsoft, and even Apple, are keenly interested in what is happening. But same problem exists, no shill will say yes.

The Vilnius, Lithuania visitor CIA cold cell victim last visited on 3/25/2018, six months ago. Now they come back to find me still plugging away.

Larry Page and Microsoft counterpart are meeting again right now, at 5:10pm ET. Since they both landed on the Laudman page, perhaps they are on the right track to do something righteous. Are they not convinced cold cell torture is real? Is it not enough that they do nothing right or just? That they caved into the corruption? Now they are having doubts?

The Dyersburg paper people are back, and focused on me, that if they publish cold cell torture, it would help me. Not wanting to help me has been motivation Bush2 uses to keep others from publishing. But perhaps now this will cease being a concern?

It was the Dyersburg paper people who zeroed in on 'suicide watch' cold cell torture for the treatment of depression, used everywhere, and wrote the paper, or article, which they were about to publish, until Bush2 got to them to stop it. They all disappeared after that, scared away. The person who wrote the article lives in Dyersburg, Tennessee, hence I called the people "Dyersburg paper people." I could tell who they were because they all visited with ChromeBooks, which are used heavily by educators. I then connected the ChromeBook educators network to Lightspeed Systems in California, who are the backbone and NOC for their worldwide educator network.

After a long absence, they are back. Will "torturing babies" with cold cell, as found on the website, be enough to overcome objections, and act with valor? As I type these words they are making decisions among themselves. I pray for calm heads prevailing with rational diligence and sound thoughts.

Bush2 and crew are going to mount a backlash against any efforts to publish, but the CEO's and educators form a daunting deluge, the unknown is will the confluence be contained once again, or escape to become a river of justice flowing towards the open sea?

It is 12:43pm ET, and it appears Bush2 is back recruiting shills, which means Larry Page and the other CEO's have fully caved into the corruption. Neither Lightspeed Systems, Google, Microsoft, and Apple, will stand up to the corruption. How sad.

Google, Larry Page, checking in at 12:44pm ET.

What a disappointment Larry Page and the other CEO cowards have been. Not wanting to help me, therefore cave to corruption is a dismal display of failure. This leads to another round of recruiting shills who will all say no way. But Bush2 is a coward, and will not find one to say yes, nor will he do it out of fear.

FBI, Cogent Communication, at 1:05pm ET.

The above visitor is new, first time. Someone tipped them off, to me. Hence visiting dabsite first, then unspeak, the Elias. Location could also be NYC and Long Island, based on IP databases.

This will cause shock waves in government crooked-land. Bush2 and Cheney will be steaming mad. I have been riding a wave of God's wrath. And it is approaching shore, rising in height, forming a crest.

There is a class 4 hurricane headed straight for the NC/SC border, with 140 mph winds

moving at 17 mph. The storm is predicted to just come ashore, then stall, and spin while dumping up to 2 feet of rain in a confined period. The NC Triad looks to bear the brunt, which will cause historic flooding. The news is predicting this could be the most expensive hurricane in history. Below article posted just now:

Hurricane Warning issued for North Carolina, South Carolina coasts; rainfall estimate for Triad higher

September 11, 2018, by Web Staff, Updated at 05:47PM, September 11, 2018

- The hurricane is located about 785 miles east-southeast of Cape Fear and moving west-northwest at 17 mph, according to the 5 p.m. advisory from the National Hurricane Center.
- Florence has maximum sustained winds of 140 mph -- up from the 130 mph maximum sustained winds listed in the 2 p.m. advisory.

"With this storm, what's unique is it's forecast to stall ... dropping copious amounts of rainfall across the Carolinas and into Virginia," Long said. "So this is not just going to be a coastal threat. It's a statewide threat for the states involved."

I read an article on CBS News that Bush2 is in Fort Worth, Texas, helping with GOP fund raiser for a candidate. Then Friday he will be in Florida to help the governor get re-elected. So right now, 9:35pm ET, Bush2 is at a dinner being social, while Larry Page and his counterpart at Microsoft visit every hour, and Dick Cheney is visiting meaning he is unhappy.

9/15/2018 - Saturday

Hurricane Florance has been downgraded to a tropical storm, as if has come ashore inside of Mrytle Beach, and is spinning around Charleston. Six people have died, and the rain has caused 1 million to be without power. The outer bands will hit us tonight, then solid rain until Monday. I have banked water, and charged all my batteries, have food, so I am prepared for power outage. Duke Power is reporting it will take weeks to restore power state wide.

He a long time ago successfully hacked the website, so Bush2 sees him as a savior. But I have since added website security to coldcell, so his attacks failed. At 1:22am ET.

A few weeks back, Bush2 recruited a shill from Detroit, who said no way, but then she looked me up on LinkedIn, and sent me a request to join my network, which I accepted. She is the first and only shill recruit I can identify, and possibility contact later if need be. Her name is "Toni Marie Powell-Ivory, Freelance Writer and Child Advocate, Greater Detroit Area" I insert this here because I found her name in other notes, wanted to copy over.

Trump Administration Threatens International Criminal Court Judges and Prosecutors for Doing Their Jobs

National Security Advisor John Bolton on Monday threatened to sanction the International Criminal Court and its staff if the court approves a full investigation into U.S. torture in Afghanistan.

Today marks 17 years since Bush2 started the torture parade:

9/17/2001 - President George W. Bush who signed a classified memo authorizing the CIA to capture and arrest anyone the CIA believes is a threat to the United States.
11/30/2001 - John Yoo issued the infamous memo declaring that laws prohibiting torture of persons captured in the Afghanistan conflict do not apply to the U.S.
2/7/2002 - President Bush signed a memo stating that the Geneva Conventions prohibiting torture and cruel treatment do not apply to al Qaeda or Taliban prisoners/detainees of the U.S., or its allies.
8/1/2002 - 10 brutal torture techniques were approved by the Office of Legal Counsel in the Department of Justice, including cold cell, waterboarding, facial slaps, stress positions, walling, and sleep deprivation.

The above meeting between Bush2, Larry Page, and I assume the CEO, of

Microsoft, started at 8:00pm ET. Bush2 spoke with the FBI just before the call.

Then an hour later, at 8:48pm ET, the Microsoft person visited the "CIA" page at cold cell, meaning he and Larry were talking after the Bush2 meeting, the topic being the CIA use of cold cell. Just like the Dyersburg paper person told them last week. Five minutes later they went to FBI page then back to top page. Someone in Seattle visited same time, meaning also on the conversation. Bill Gates?

This afternoons visit from Columbia, South Carolina is likely Bush2 looking for more money from SC to pay me, as the pot grows ever larger out of dire need compressing time for critical compliance .

It appears my new sermon "A Detailed Description of Heaven" is being found as I placed it on davidbardes.com homepage, and Elias homepage and mini-sermon page. Bush2 recruited one shill, maybe two, last night, but so far today nothing. He is very dense.

At 11:19am ET, I received the below Bush2 entrapment emails, regard my Pro Se Guide to Family Court. This person is pretending to need legal help, asking for my fees? Bush2 is desperate, and still is trying to prosecute me.

Hello David,
I read your book and it was so so helpful to me to be blento file a couple of things in my family court case. Honestly at this point I am facing terrible corruption and this man who is an abuser is ensuing further abuse through the court system. I am wondering if you are still doing coaching on this subject and what your fees are? Thank you so much. And I greatly admire you.
Warmly,

It is 7:30pm ET on Friday night, end of another week, which ended with Bush2 recruiting more shills, all of whom said no way. Yesterday two were recruited saying no way, today so far, two have said no way. Yet Bush2 continues to persist. While Larry Page and Microsoft become impatient waiting on Bush2 to keep himself hidden, putting on the pressure. But the shills all say no way.

Google, Larry Page went to dabsite twice, 9 seconds apart. To get my email address? At 8:09pm ET.

Now Larry Page and Microsoft are back to Wells, they really want my Bed Bug Wells. The constant rapid visits by Larry here, and Mircosoft indicate concern and impatience. From people used to getting their way without resistance. Perhaps since Larry cannot get Bush2 to produce Wells for him, Larry will now try me directly, and forget Bush2 and his corruption.

Well, an hour later Larry Page tells someone in Beverly Hills about me, and they Google my name to visit davidbardes.com. This is the first good sign in a long time. Larry gets Wells from me, by taking my story public. Bush2 and Cheney will be very upset, and try to stop it.

Above, based on traffic, the 2018 Nobel Committee awarded me a Nobel Prize in Literature as a way to bust George and his killers, splashing cold cell torture all over the world. The previous year, 2017, bribes prevented the award, but now it looks like the award will stick? My sister Cindy was alerted by Laura, who told Mrs. Pickens above, and her son Tom Pickens. [Update Note: Bribes won again. And again in 2019, until the Nobel Literature Committee disbanded due to corruption. But reformed after a year off, only to be bribed again in 2020.]

Preface

This document contains only the significant website traffic pulled from the raw log files. This document is large, and may be easier to search using keywords specific to your query. From each website visitor I obtain: the date and time, the webpage visited, general location via GPS coordinates of visitor, and information on their device or computer. When two or three people visit at the same time, the assumption can be made such was a joint conference call or meeting. What webpage the group visited gives away the topic of the meeting. The detection of whether a visitor is a real human, or a computer program (a robot, or bot) is complicated because real humans hide behind the bots, wanting webmasters to believe certain traffic was just roaming bots, and not specific people. I was able to decipher whether humans were behind the bots, verses random bots.

P. Trump spoke this morning at the UN General Assembly in New York City. The audience laughed at him, which surprised him.

Trump brushes off laughing UN audience, doubles down on 'America First'

http://www.foxnews.com/politics/2018/09/25/trump-brushes-off-laughing-un-audience-doubles-down-on-america-first.html

Trump prompted laughter and gasps from the audience when he claimed that "in less than two years, my administration has accomplished more than almost any administration in the history of our country."

"I didn't expect that reaction, but that's OK," he chuckled in response.

"We will never surrender American sovereignty to an unelected, unaccountable global bureaucracy. America is governed by Americans," he said. "We reject the ideology of globalism, and we embrace the doctrine of patriotism."

"In America we believe in the majesty of freedom and the dignity of the individual, we believe in self-government and the **rule of law** and we prize the culture which sustains our liberty, built on strong families, deep faith, and fierce independence," he said.

"We celebrate our heroes, treasure our traditions and above all, we love our country," he said, to silence from the assembly.

Above claim of "believe in the rule of law" could not be more untrue. We have now had four consecutive presidents with no moral fiber. Each lacked even basic principles such as abject repudiation of torture and murder, they instead engaged themselves in torturing innocent men, women, children, and babies to death with hypothermia torture, which is the most painful death a human could endure. They willingly allowed these tortures and murders to protect each other and their cronies from the "rule of law" which requires prosecution and execution. None have stopped torture. These cowards have turned our nation into a rouge criminal state. This is why those at the UN laugh at Trump's folly. Trump is obviously detached from any sense of reality

to even understand what was funny.

Above, first visit by an ICC judge. Likely Trump using his personal iPhone. Trump just spoke with George because Donald visited the 'suicide' page, indicating the way George describes cold cell torture to someone new. This ICC judge was hard to twist, must have paid him off with a lot of money. Based on his frequent visits hereafter, he is really paranoid about being busted. He will spend the rest of his life in a cold cell dungeon somewhere. Sweet irony. Below George visits, worried about spending his life in a cold cell too.

[UPDATE NOTE: Last year, 2017, the Nobel prize committee used my book, Unspeakable Pain, and was going to punish Bush2 by giving me a Nobel prize. Bush2 told my sister I was going to win, and she and others visited right up until the announcement was made, giving the prize to someone else. So Bush2's was able to prevent the awarding at the last minute, meaning corruption won the day. The same thing happened this year, 2018, Bush2 told

my sister I was going to win a Nobel this year, and visitors came up until the announcement was made giving it to others who deserved it, so again Bush2 was able to twart the awarding. The time period at this point, 9/26/18, was about the time the visitors from Nobel countries started visiting again, leading up to the date of award announcements.]

At 6:38pm ET, I received the below email. It made it through the spam filters, so someone sent it manually. It asked me a question, to reply with answer, but when I ran the IP addresses, Rackspace Hosting in San Antonio, Texas came up, which is Bush2's favorite hiding place/script. The email originated in Honolulu, Hawaii, which is where President Obama sometimes hangs out. Below are the IP's, it started in Hawaii, then San Antonio, then New Orleans, then to GoDaddy. Receiving these spoofed emails is common, and some are produced by Bush2 to entice me to respond, thus I open the door so they can remain hidden, with me never knowing who was behind the curtain. I did not, nor will not, reply.

A "new shill recruit" is someone Bush2 is trying to recruit to be the middleman to paying me off with money to go away. The way Bush2 tells a new person about cold cell torture, causes the new person to Google words which always land on the "suicide" page on the cold cell website. So the 'suicide' page being the first page visited, usually gives away a new person being recruiting while on the phone with Bush2. Since April 1st, Bush2 has recruited over 100 shills. They all said "no way" as not one ever said yes.

Nothing new has been posted at the ICC docket about the CIA torture investigation, but today and yesterday, all the ICC judges met for meetings together. Judge Chung Chang-ho visited before going there. I wonder what the group of judges will do regarding the CIA torture case?

It is 8:05pm ET, and for the past few hours there has been a mini run on Facebook when someone in the New York City library posted something about 'cold cell torture.' Then spread. There is an FBI officer and Sarah Palin who constantly monitor Facebook for any postings about cold cell torture. They then alert George.

Below, Anchorage, Alaska, GCI, this is Sarah Palin in Wasilla. She shows up each time there is a run on Facebook about cold cell torture. She last visited on 7/29, the day of the last run on Facebook. At 8:59pm ET.

Sarah Palin, above, watching Facebook for cold cell traffic runs, means she is on the phone with Dick Cheney, as those two are close. Which means Bush2 is also watching and talking. The cast and crew of the corruption love boat are listing badly in a leaky boat.

At 9:40pm ET (5:40pm Alaska time,) I sent the below message to Sarah Palin via the form submission on her website. The subject was "TortureGate Corruption Scandal."

"I am ashamed for you, having joined the pro torture/murder camp as a key supporter. In heaven I am going to put you on trial in final justice court, and you will answer the questions from all those victims tortured to death by those you gave such great oral support."

[UPDATE NOTE on 9/30/2018: I sent the above message to Sarah at 5:40pm Alaska time. Five hours later at 10:30pm Alaska time, Sarah's son Track Palin, was arrested on domestic violence charges, resisting arrest, preventing reporting of a crime, and others. This caused Track to be rejected from the veteran's program, and serve a year in detention, in a half-way house. But this will associate my rebuke with their new hardship.]

Below is the former Chief Justice Jean Toal of the SC Supreme Court, who is the money source for Bush2 to pay me money from SC. In SC the state supreme court handles any payouts of money from lawsuits or thereafter settlements. Jean Toal is visiting davidbardes.com because I am on her mind, obviously:

Spartenburg, South Carolina, Jean Toal, at 12:04pm ET.

Spartenburg, SC is former SC State Supreme Court Chief Justice Jean Toal, the money decision maker for the state. Bush2 could be hitting her up for more money. Then Bush2 started recruiting for new shills, starting in Monterey, above. He still believes he will find someone to say yes.

Okay, so Larry Page came to Elias, and refreshed visiting the "Ministry" page twice, because the page says "coming soon..." Then he visited each page, reading each again. Then he called Bill Gates in Seattle, to discuss an idea. Then he spoke with Bush2, presenting his idea? What the idea is, I do not know. But it does have something to do with the Elias website.

It is 8:49pm in The Hague, and still nothing from the ICC judges. Have they failed once again? Did corruption win again? As those in The Hague sleep their slumber, they awake for the announcement of the Nobel Peace prize. Which may be the final tool with which those in power wield to effect good. The pressure is on. Silence on the websites, save Google and Microsoft, and the CIA visiting unspeakablepain.com. The CIA is on dread watch. So are criminals' Bush2 and Cheney.

It is 1:14am in The Hague. Middle of the night there, and still nothing from the ICC. Perhaps in their fear to issue orders, they want to time both the ICC orders and the awarding of the Nobel, at the same time. To self protect each from blame and retribution. It is 5:12am ET, and I did not win the Nobel Peace prize, announced at 5:00am, and am actually relieved. Nothing has been posted to the ICC court docket yet. I do not know if corruption won, or still good may win.

Larry Page visited at 5:08am ET, so he too knew the Nobel did not land

This afternoon the GOP have enough votes to confirm weeping rapist Judge Brett Kavanaugh to the US Supreme Court. The final vote is tomorrow morning. That means God has to act fast, tonight even, to prevent the confirmation. As I have learned, God does not like these forced hard decision points, because it forces God to kill people.

Around 11am ET this morning I added a red lettered text box on cold cell, Elias, and Wells, websites, announcing the below auction:

Due to multiple party interest in purchasing the registered patent application and website BedBugWells.com, I am holding a sealed bidding auction. Deadline for acceptance of sealed bids is Thursday, October 11, 2018, at 3:00pm ET. Bids will be unsealed and the highest bid awarded the purchase, assuming the bid is acceptable.

Then I waited for Larry Page and Microsoft to visit to find it.

Larry Page found it on cold cell, here at 11:38am ET.

ColdHomePage | 66.249.69.110 | Oct 06th 08:39:57 | | Mozilla/5.0 (Linux; Android 6.0.1; Nexus 5X Build/MMB29P) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/41.0.2272.96 Mobile Safari/537.36 (compatible; Googlebot/2.1; +http://www.google.com/bot.html) |

Larry then called Microsoft who visited BedBugWells.com to confirm for himself. I accidentally deleted the log file for Wells, so I do not have the posting. But both of them know about it now. Which means they will have to decide what to do, offer to buy from me, or help Bush2 by not making a bid, and losing the sale.

Following traffic here, it appears Larry Page, the CEO of Microsoft, and Bill Gates had the time to discuss what if anything they would do about my

auction for Wells. Hence after coming to a decision, Larry makes a call to Bush2, to advise them of the auction in the first place, as well as what he (and Microsoft/Gates) was going to do about it.

Bush2, therefore, has just learned about my auctioning Wells, at the exact time the US Senate voted to confirm "weeping rapist" Judge Brett Kavanaugh to the US Supreme Court. This will unleash God's wrath upon our nation in a manner not seen before. While Bush2 is very happy now being once again in control of the United States US Supreme Court. His problem, however, is I no longer need to capitulate to his demands, as God has positioned me, with my voice now stronger than ever, to start the time of wrath, as foretold by the Prophet Daniel.

It appears Bush2 and Cheney were up late working on me. And how they are going to handle my auction of BedBugWells this Thursday. Whatever was decided, Bush2 above, last visited Wells, to reflect on their decision. Larry Page appears to be working with Bush2 and Cheney, which worries me.

It was quiet for awhile, but then Bush2 himself came back in earnest. I still do not have a read on what they all decided to do, but I am getting hints. Microsoft and Lightspeed together is a good sign, as Lightspeed wants full discloser. Bush2 coming back to Wells, as he ponders on it, then visits the other sites as if by unease. Which is a good sign too.

Microsoft, back to unspeak, and Wells, at 4:54pm, 5:01pm ET. A good sign too.

The head of Interpol, Meng, was detained by the Chinese government on a trip to China around September 26th. The government says he is accused of taking bribes, and other graft, and was forced to resign from being President of Interpol. Below article details his worried wife. But Meng could be in trouble for TortureGate bribes by Bush2 & Cheney? Which would explain all the China website traffic, and the above meeting between Interpol, Larry Page, and Bush2 office person. To discuss what to do. Meng could be the first person executed for cold cell torture, killed by Bush2's corruption?

Then this morning without any prior notice, Nikki Haley, the UN crook and former Mrs. Cold Cell Torture of South Carolina, resigned from her position, with no reason specified, nor other job waiting. She just quit, effective at the end of the year. Trump accepted her resignation, and the news outlets are running wild with speculation. But I wonder if this is related to TortureGate, and fallout from Meng's disappearance? I mentioned Nikki Haley on the 'Laudman' page, so perhaps China picked up on that?

China may pop the cork on TortureGate crimes starting with Meng, then catching a cast of cadre; cooking the crooks. Perhaps Haley quit in advance of being cooked? Which means it is coming quickly?

Fresno County Office of Education, California, Dyersburg paper leader, must be happy to hear something good may happen. At 3:02pm ET

I sent the below text via the CNN "Feedback" form on their website, at 3:50pm ET.

Nikki Haley resigned ahead of something major coming against her. She is ground zero for the Torturegate Corruption Scandal. Bush2 and Cheney bribed the President of Interpol to throw any investigations into CIA torture and the pending ICC investigation of said, to which the corruption unit of the Chinese government grabbed Meng, who will likely be the first execution regarding US torture, specifically hypothermic torture which killed several innocent Muslims. A South Carolina state judge ordered Gov. Haley to stop torturing her inmates to death with hypothermic torture, but due to the high cost of stopping the killings, she decided to appeal the case instead. See ColdCellTorture.com

Then 80 minutes later, the FBI and Larry Page speak to each other, the FBI referring to something on the page with the 9 cold cell dead inmates, perhaps denying some or all. I believe this is similar to refuting the hole in their sinking ship. "We are not sinking! Blub blub."

An hour later, Microsoft visited the 'Intensive' cold cell page, which details the specifically engineered cold cell, such as I was tortured. And that the Dyersburg paper people confirmed existed. Are they now reconsidering? Or, are they buying the lies it is a fiction?

I added the below text as a new entry on coldcelltorture.com, on 10/9/2018, 10:25pm ET:

As more information filters in from the Shenandoah Valley Juvenile Detention Center lawsuits on the homicides, it is similar to the Lancaster, Ohio cold cell torture victims where an article stated <b>"The lawsuit alleges that juveniles were repeatedly placed in solitary confinement for periods of up to 40 days with temperatures in the mid-50s in the holding cells. The lawsuit alleges the juveniles were frequently kept nearly naked without access to blankets, and as a result of this suffered symptoms of frostbite, including blisters and purplish-blue skin on their fingers and toes. Juveniles also suffered symptoms of hypothermia, including uncontrollable shivering and chattering of teeth, dizziness, nausea, and confusion, the lawsuit contends.
<p>
Further along the plaintiff's lawyer, Attorney Edward Forman, is quoted:
<p>
"These conditions were truly horrific," Forman said. "No human being should ever be subjected to conditions like this, and certainly not children. How can we ever expect to reform and help juvenile offenders when we treat them this way?"
<p>
The lawsuit referenced is a federal suit in the Southern District, Eastern Division case No. 2:14-cv-01608, as found in PACER.

At 3:25pm ET, it seems my posting last night to cold cell, about the Lancaster, Ohio child cold cell torture victims, had its effect. Hopefully dispelling Cheney's lies that cold cell torture does not exist. Yesterday the FBI person lied to the Chinese saying I was crazy and cold cell torture did not exist. This morning China visited several times, learning they were lied to on purpose. Hence Bush2 panicked and got on the phone recruiting shills to pay me off to take down my website, so China will not execute their friend for their own corruption.

The poor person at Notre Dame obviously said no way, as George2 is now on his third (3rd) shill recruit in as many hours. China is about to execute their crooked friend for their corruption and Bush2 still believes someone will volunteer to be his middle man shill, so I would not know who it is behind the curtain. He is unaware how much he is scaring these recruits with the truth. Fear grips them, as evidenced by now since April 1st alone, Bush2 has recruited over 100 shills, each one saying no way. After 100 consecutive people said no to someone, prudence would respond, but not here, Bush2 keeps calling these further victims of his corruption, scaring them with my story and cold cell torture.

It is 12:44pm ET on Wednesday. Yesterday after I posted the new entry on cold cell, Bush2 went into overdrive quickly recruiting three (3) middleman 'shills' to hide behind pay me off with money. All three said no way, like hundreds before. China visited and read the new entry. Then all the Bush2 people disappeared, save the Fremont person.

Something happened, which I am left guessing. Perhaps Bush2 & Cheney's entire web of corruption is unwinding, such they are in panic mode. It may be in free fall, hence I am the least of their problems. Also explains why Larry Page just visited cold cell with someone outside of Houston, who visited the FBI page first, then CIA, then back to FBI. So, Larry was telling the person what the FBI did wrong, and the CIA did wrong. As a preface to something which may be known or reported shortly?

Digital Ocean, Clifton, NJ, this is either Bush2 himself, or related, to unspeak, at 12:45pm ET.

Okay, now it becomes clear. Mrs. Pickens in Amarillo, Texas told Bush2 no thank you. So, Bush2 got back on the phone to keep trying to find a shill to volunteer. It is like groundhog day over and over again. When Bush2 tells these poor people the truth, they get scared and run.

I logged onto Facebook at 9:05pm, and searched and found a posting a women posted showing the picture of the Mexican men shivering in the cold cell, with a link back to the website. More people are clicking through, but this alerted those monitoring Facebook for cold cell torture, who told Bush2. It seems someone in Dallas visited the 'suicide' page, which is Bush2 recruiting shills once again, but now quickly, before something goes viral. This also brings out Sarah Palin, and Dick Cheney.

It is 1:31pm ET on Saturday afternoon. Last night was the longest run of visitor from someone posting about cold cell on Facebook. These runs scare the guilty, as they are constantly monitoring search and post terms. It did not go viral, which the guilty were much relieved. This morning above visits to unspeakablepain.com is telling, being the focus of Bush2 and China's visits. Fremont is standing by to help pay me off money, but the problem is contacting me. There have been no new shill recruits, so I do not know what Bush2 is going to do.

At 12:10pm ET, I received a phone call from an "Restricted" caller ID. I let it roll to voice mail, but they did not leave a message. A "Restricted" called ID is someone who purposely masks their real number, by blocking it from view. Was it George Bush2 from above? No way of knowing. But if it was, it was the first brave thing he has done, which I welcome bravery. But what will he do next? He is desperate obviously, so let desperation materialize.

It is now 3:46pm ET, and it appears Bush2 contacted Judge Jean Toal, perhaps for a shill recruit, as he failed. At 4:09pm ET, a new shill recruit below visited from Flowery Branch, Georgia, a small town an hour outside of Atlanta on I-85 closer to us. Judge Toal must have found this person being closer to her than me. So Bush2 called them.

At 4:32pm ET, it is a sleepy rainy afternoon in Brevard, North Carolina, but China seems to be busy with cold cell and my book. Nothing new in the news about Meng Hongwai, but perhaps because China's investigation is continuing to unravel the bribes Bush2 and Cheney used to protect their mutual assesses. The public announcement of which would be highly embarrassing for the guilty.

UK, new shill recruit, 40 minutes after Bush2 talked to Interpol above, at 5:51pm ET

First, Larry Page and Microsoft visited together at 4pm, then at 4:30pm,

Beijing scanned in the entire cold cell website as if it was coming down soon, better make a copy before it is gone. Then 40 minutes later Bush2 visits dab site same time Interpol visits cold cell. The decision made during that conversation, was to hurry up and pay me off, to take down the website fast. So, Bush2 got on the phone recruiting shills. Who all say no way. Did China accept Bush2's bullcrap via Interpol to China? Or, does China not believe a word of it, so they scanned the site to preserve evidence?

At 2:51pm ET, it appears last night's four (4) rapid-fire shill recruits whom all said no way, gave away to near silence starting around 1am ET. There must have been a time pressure upon Bush2, who failed once again in contacting me via a shill so I would not know who was contacting me. I do not know what the deadline was, but I can guess. It had something to do with China's investigation of Bush2 & Cheney corruption, paying bribes to Interpol's Meng Hongwei. Perhaps China is unwinding the weary web of dark payments to many people, and now it is too late to remain hidden. Busted?

China, comes back to accidental' cold cell page, perhaps to refute its existence as Bush2 and Cheney keep alledging. So they too will hedge on this, like all the others? Here at 4:31pm ET.

It is 4:48am in Beijing, China, above early riser. I hope China is not buying the lies from Bush2 and Cheney, which have so far successful worked along with bribes and libations. China is looking for any fodder against the US, in both a defensive and offensive move against Trump's tariffs. This would be buckets of grapeshot to stuff their cannon. Laying waste to swaths of corrupt officials who took money from Bush2 and Cheney. Even to the ICC judges?

At 2:22pm ET, it appears to not be going well for the bad guys. Bush2 visited last night and this morning, and Cheney visited this morning. Perhaps as forlorned; resigned to accept their fate. I assume China will eventually reveal what they discovered, such as the exact flows of bribe monies and kind, to a long list of crooked corrupt officials and judges. What started with Dick Cheney's torture campaign, as a now obviously bad reaction to 9/11, but which was approved by a morally weak and cowardly George Bush2, followed by two decades of their non-stop corruption to cover up and not be prosecuted, effected by bribes to many all over the world, may now backfire, and unroll the web of winding corruption, in what would be so embarrassing for the crooks, that only God could have arranged all of it to happen.

At 4:14pm ET, it was a busy overnight for the guilty. SC Supreme Court Chief Justice Jean Toal, went to bed visiting, and woke first thing visiting. President Barrack Obama is weary in Hawaii, and Dick Cheney is furious at his fate. The irony of the situation is uncanny. You have former U.S. presidents kowtowing to the communist Chinese government for massive corruption of paying bribes. China now holds power over the U.S. in a way never thought possible, as our crooked cowards have compromised our nation due to their crimes of corruption covering up war crimes.

At 6:14pm ET, in the news John Bolton, Trump's national security advisor, is flying to Russia, and Georgia for unreported reasons and nary a word from Moscow. I wonder if Bolton is headed to China or Hong Kong, to negotiate

for Bush2 and Cheney, to avert an international embarrassing scandal. Chinese President Xi Jinping has, according to articles in the news, apparently replaced all of the old guard except for Meng Hongwei, but now he too is gone, leaving President Xi Jinping with all his own people under him. But now Jinping may demand Trump drop all of his tariffs immediately, or viral goes the story? I think Bolton is heading to Beijing, via Moscow?

At 1:26pm ET, it appears Bush2 and Cheney are negotiating with the Chinese, through Trump and Bolton, with Bolten being in Beijing. Turning the tables of fate against them, China now controls their fate. Will China let the matter remain hidden from view, by making a private deal, or will China blast the story to kingdom come?

While I do not know the results of the Trump/Bolton/Bush2/Cheney/Obama negotiations with China, China has stopped visiting, and then all of a sudden,

Bush2 is back recruiting shills at breakneck speed, and Cheney is repeatedly visiting Elias as if angry.

It is remarkable that Bush2 still thinks he will find someone to be the middleman shill, to be the heavy, so he can hide and I will not know who paid me the money. Even with the pressures of China now upon them, he still resorts to being a coward. This could be happening because things are going badly with the negotiations, and public disclosure is likely; or things are going well, and the Chinese will not say a word to anyone, having received whatever they wanted to secure such silence?

It appears from the above return of China at 6:19pm ET (last visit was this morning) to unspeakablepain,com, followed up 25 minutes later with Bush2 or his people visiting unspeakablepain.com. The focus is on my book. The book explains why bribes would paid to Meng, and the bribes paid to Meng prove the book as true. Else no need for bribes. Perhaps Bush2/Cheney are still denying reality? Or are they just now being convinced by the communists, to

their astonishment?

Okay, above Chinese officials are focusing on 'Laudman' and the home page, which means they are focusing on suicide watch for cold cell.

I added the below text and the picture of the HoldingCells.jpg, in case anyone has been denying cold cells exist, like Cheney. So this is my attempt to sway the tide.

Details on specifically engineered punishment cold cells: Engineered punishment cold cells, consisting of small one man concrete cells, near or underneath the air-conditioning air handler, instead of having air vents with louvers, they have a hole in the wall covered by a steel grate, due to the blasting high velocity force of the super chilled 45 degree F air. Sheriff's claim they are only used for torture, and not designed to kill. But for those victims not removed in enough time, torture becomes murder. Click on above picture to view the large vents in the cold cell in the Sheriff Cannon Detention Center in Charleston, South Carolina.

Google, Larry found the new entry and the picture of the cold cell in Cannon's jail, and then studied the picture for 7 minutes, then went to the 'suicide' page, then 'Wilson' page. Wilson was the other jail punishment cold cell case. So Larry is woke now. At 8:50pm to 9:25pm ET

I received an email this morning, below, from a fictitious person offering commissions on some sort of crude oil deal. This is a Bush2 person phishing for me to reply, and start the negotiations with Bush2 hiding behind some middleman. The email appears to have come from gmail, so no bouncing. I did not reply, nor will I.

Hello David A. Bardes,

How are you doing, hope you had a splendid and great weekend? I am contacting you to discuss a Crude Oil product project in Japan. You do not need to be a professional in this field to handle this project. I also want you to know that we are not asking you to invest any money in this project but your commitment. The commission you will be getting in this business is decent as long as you do not cheat my client.

I will explain further on what you will be doing if you decide to proceed with this project. I await your response as regards your thought on this.
Do have a great and splendid week ahead.
Sincerely,
Dong Zhang.

At 2:26pm ET, it appears the negotiations in Beijing have not gone well. John Bolton is a heavy liability here, as an abrasive hard liner kindness and diplomacy are not his forte. The fact that Jeb! Bush visited is usually a sign George has had to break bad news to family members, as the Bush name is about to be tarnished in a way never known before? South Korean ICC Judge Chung Chang-ho visited three times this morning. Is he proceeding with the court's approval of opening the torture investigation, because China is going to splash wrong doers to kingdom come, and he does not want to be one of

those dashed? Or, is he too, trying to cover his ass, knowing he may be splashed and dashed in the news and social media?

So, at 4:06pm ET, Bush2 had the FBI call the Chinese, to arrange a phone conversation, where engineered cold cells was the topic. Bush2 contends engineered cold cells do not exist, to refute my evidence posted last night that they obviously exist. The Chinese will not believe George2, and this is just another capitulation. The result of the phone call, was to immediately start recruiting shills to pay me off, and take down my websites. His fear and panic is palpable.

At 1:21pm ET, it appears as if Bush2 people are dogging me out to the Chinese. The Germany CIA center arranged a phone call between a Bush2 office person, likely a lawyer, and their Chinese interrogators, to point out the ELIAS website and likely that I cam crazy as a loon. 15 minutes later the FBI visited Elias website. So, the Bush2 people have nothing to help them, only by trashing me, do they hope in their salvation. The Chinese will just not give a damn about what or why they denigrate me. But it shows what Bush2 is doing right now, worrying, worrying about me and my book. "Bardes is crazy!" will not save them now.

At 3:21pm ET, It appears the Germany CIA center set up another phone call with Bush2 and someone in the Chinese government, the topic, me. Both visiting davidbardes.com. Bush2 is once again, dogging me out to save his own skin. But just as Bush2 does not know why hundreds of people turned him down for being a shill recruit, that the more he beats me up, the worse he looks to the Chinese. They see the powerful picking on the weak, and blaming

everything on the victim.

At 12:42pm ET, it appears George Bush2 spoke with sister Cindy last night late, then again this morning. He must be pleading for intervention, to avert the pending doom of the Chinese communists. Perhaps Cindy got my sermon ADDOH, so something good may come from this. Otherwise Bush2 is miserable, under stress, fearful of incoming seismic waves of massive world wide embarrassment. Cindy must be like how did brother David become the catalyst for all of this to happen.

At 1:54pm ET, it appears Bush2 is back on the phones, recruiting a middleman shill, so he can hide, and no one will know it was Bush2 paying me money. It is amazing that with the Chinese communists about to release the kracken, Bush2 still wants to hide behind a shill. Fear is the only explanation at this point. Sister Cindy turned him down again, obviously. This new shill will too.

About 6:15pm ET, all my websites came down. All pings timed out, 100% packet loss. I could not FTP into my website. I logged onto GoDaddy and all files and directories were present. I called GoDaddy, and they too got time outs. After waiting on hold for a few minutes, Brett came back online and said the server is down for a mechanical issue, and would be repaired or replaced shortly. Brett could give no time frame, in hours, or days, but suggested if too many hours, they would move all the websites to another server. The server had been down for about 15 minutes when we hung up the phone, about 6:33pm ET

At 6:56pm ET, all the websites were back up again. During the outage, DownTime Detector reported 21 reports of websites down, so the whole server was knocked off line. Was Bush2 and crew behind this? I have no way of knowing, but suspect the timing as uncanny.

From the above traffic, Bush2 visited unspeakablepain.com at 5:30pm ET, then 45 minutes later all the websites come down, possibly by an attack from Bush2 people. It took GoDaddy 45 minutes to repair and boot the server. If there was an attack, it was not on the hard drive, rather the hardware connecting to Internet. Replacing the motherboard is what took the time. If an attack disabled the server, Bush2 knows he has only about 45 minutes of relief. During the downtime, both Bush2 and China eagerly visited the downed websites, such when the sites did come back up, both Bush2 and China were the first visitors recorded, hitting the refresh button, proving monitoring. Such 9 minutes later, Bush2 is back to recruiting shills. With desperate act having failed, it is back to more rejection on the phone.

China returns to unspeak, at 7:54pm ET, which is 7:54am in Beijing, their Friday morning.

Fremont, California, Hurricane Electric, Bush2 money pay off person, back on the job. Means the Chinese are giving Bush2 more time to pay me off to take down websites? At 11:40pm ET

ColdHomePage | 64.62.252.173 | Oct 25th 20:40:17 | | The Knowledge AI |

At 11:51pm ET, the above visitor means China may have given Bush2 more time to pay me off to take down websites, as a favor to Bush2? That would explain China twice visiting davidbardes.com last hour, at the start of their day, and the decision was made to grant one last cigarette before final sentence is carried out? Bush2 still faces the same dilemma; no one will do his dirty work for him. China may be waiting a long time like Google and Microsoft, all who still believe his lies, and join his corruption.

Chicago, but Seychelles proxy, to coldcell2, this is the Germany CIA center or FBI just now figuring out I blocked their last two IP ranges, forcing them to use a bouncer via Seychelles ISP in Chicago. Or, this could be Bush2 himself, at same time as below person in China, speaking about cold cell website. At

So, now Bush2 is asking the Chinese for something else, more time? I was the topic of their last meeting, a few hours ago, now coldcelltorture.com is the focus. What are they discussing? I only can know after the fact, with the timing and sequence of events which transpire from a common starting point.

At 12:17pm ET, it was a quiet overnight, with only Bush2 and cronies visiting. A few visits from China. But it is past midnight in China, starting their Saturday, and weekend. This gives Bush2 a respite, more time to try to pay me off, and take down my websites. Hence the new shill recruit above. But they will say no way too, like they all do. I think Bush2 is suffering from dementia, as he truly believes someone will say yes. After two years of hundreds of no's, one would think a lesson learned by now.

The above looks like Google Larry Page and Germany CIA center talked, then half hour later, someone in the CIA center spoke with someone in China, about suicide watch and 'Laudman' page. Is Larry refuting the truth of this, or is he getting the blame? I do not know who is good and who is bad. But

the fact the Chinese keep getting mixed signals is beneficial I hope.

At 12:31pm ET, it was quiet overnight. Bush2 was up early recruiting one (1) shill. China visits every few hours to check if coldcelltorture.com was still up. So does Larry Page and Microsoft. I received an email spoofed to be from Apple Computer, to click on README.pdf file, and the file scanned as malicious. I do not know if this was another of Bush2's attempts to contact me by spam mail, so it would appear as if I contacted them first, or just phishing spam. I deleted the email.

The above 4-way phone call between Bush2, someone in Dallas, and two people in China, one being government, may not be good news for the good guys. Bush2 has convinced China not to say or do anything until me and my websites are offline and me paid off with specie?

At 4:02pm ET, I added the above picture to the coldcelltorture.com blog, of the usagif.gif map of the USA with red dots for each report of cold cell

torture. The dots are reports of inmates being torture since I started keeping track in 2008. I added this because there seems to be an effort by Bush2 and Cheney to deny cold cell torture exists.

Well, my supposition from the above 4-way phone call, resulted in giving Bush2 more time to pay me money, to take down websites, and go away. Bush2 got back on the phone and started calling recruiting a shill. This pattern keeps repeating, everyone always gives him more time to pay me off, but it never happens because Bush2 is fearful and does not want to be known. And hundreds so far have told him "No way." The above shill too, will say no way. Repeat.

Meng Hongwei's wife, has hired two law firms to track down her husband, so I contacted one of the firms, UK-based Lindeborg Counsellors. And sent the below message via their website's "submit form" instead of email. Sent at 1pm ET:

Meng Hongwei, Interpol, was arrested for accepting and passing on bribes, from George W. Bush and Dick Cheney, to bribe the judges of the International Criminal Court to twart pending investigation into CIA torture in Afghanistan, Poland, Lithuania, and Romania. China picked up on the flow of bribe money and has been investigating the bad actors ever since. China interviewed Bush2 and Cheney several times, who admitted to the crimes. Xi Jinping is currently using the potentially embarrassing story to force Trump to capitulate on everything. This is a good lesson on why corruption is a problem.

In the news today 10/30/2018:
Stock market soars 300 points, world markets ease, on Trump saying a "great deal" with China was around the corner, more like complete surrender.

https://www.scmp.com/economy/china-economy/article/2170896/trump-talks-great-deal-china-ease-trade-war-tensions-now

US President Donald Trump said a "great deal" with China was around the corner, offering fresh hope there could be a way out soon for Beijing and Washington from their stalemate.

In an interview with Fox News, Trump said the US was going to "win" the trade battle with China. His comments coincided with confirmation from a Chinese diplomatic source that Trump and China's President Xi Jinping will meet next month.

"I can make a deal right now, I just say they're not ready," Trump said. "I think we'll make a great deal with China, and it has to be great."

The comments immediately soothed market fears that the trade confrontation between the world's two biggest economies would become more acute, with Asian markets mostly gaining on Tuesday.

This tells me Trump and the Chinese have been talking, and China made the decision to not go public with cold cell torture bribe Bush2 story. Rather they traded their silence for economic securities and a lifting of all tariffs. Corruption wins again.

So, why was China fact checking the US Courts, and GoDaddy about me? Just doing their due diligence?

It is 7:38pm ET here, but 7:38am in Beijing. There was no overnight traffic from China government, not since midnight their time. Does this mean decisions have been made? Larry Page and Microsoft are anxiously waiting, as are others around them. Bush2 has made no effort to recruit shills. Must wait. The Chinese morning arrives on 11/1.

Trump Tweeted at 10:00am ET that he just ended a phone call with China's President Xi Jinping. I know what they talked about, that did not get reported in the Tweet:

Twitter: Donald J. Trump
11/1/2018 - 10:00am ET
Just had a long and very good conversation with President Xi Jinping of China. We talked about many subjects, with a heavy emphasis on Trade. Those discussions are moving along nicely with meetings being scheduled at the G-20 in Argentina. Also had good discussion on North Korea!

Then hours later Jeff Sessions holds a press conference announcing criminal charges against Chinese firms, the Chinese government, and individuals, including billions in fines and prison sentences. So, Trump is negotiating with the Chinese.

Trump administration charges Chinese companies with spying on U.S.

CBS/AP November 1, 2018, 2:38 PM
https://www.cbsnews.com/news/trump-administration-charges-chinese-companies-with-spying-on-u-s/
WASHINGTON - The Justice Department on Thursday charged companies in China and Taiwan, along with

three individuals, with stealing trade secrets from a U.S. semiconductor company, a move that could heighten tensions with Beijing as the countries battle over trade issues.

The G-20 in Argentina is on 11/30 & 12/1. That is 30 days hence. It appears Bush2 & Trump, via John Bolton, are dug in for a protracted negotiation. The problem is lack of items to negotiate over, save the above, and Trump's tariffs. China holds all the cards. More like the last dance on a floor crumbling to pieces.

The unending corruption of three morally weak presidents, vice presidents, and supreme court justices, has laid our nation bare to the folly of the Chinese Communist Government. I am embarrassed for them.

The above 4-way conversation between Bill Gates, Microsoft CEO, Cal State Dyersburg paper person, and China, was about the truth of cold cell torture, and my story is true. They are countering Bush2 & Cheney's lies that cold cell is fiction. Lightspeed Systems did their homework and uncovered more cold cell torture than I did. They are now telling the truth to China. This is good.

Overnight Bush2 came back as if frustrated. The Fremont Hurricane Electric person is Bush2's cold cell expert and money payoff person. So the fact Fremont is visiting again, is a money pay off may be near. But Bush2 has not recruited any new shills for four days now, not since 10/29, last Monday, today is Friday. So, why would Fremont money person visit now? Is Bush2 going to try another method of contacting me?

At 12:50am ET, I sent the below email to a reporter in South China who published a story ten hours ago about the missing Meng Hongwei.

To: billyhuangpost@gmail.com

Dear Billy:
Meng Hongwei was caught passing on bribe money from George W. Bush and Dick Cheney to bribe the International Criminal Court judges to thwart their pending approval to open the investigation of CIA torture in Afghanistan, Poland, Lithuania, and Romania. ICC Prosecutor Bensouda already has the evidence both Bush2 and Cheney were calling the shots on torture by the hour, so any investigation approval likely includes arrest warrants. The Chinese have already interrogated George Bush2 one night, and Dick Cheney the next night, so confessions were assumed. President Xi Jinping is now negotiating with President Trump to avert an embarrassing reveal for the U.S. In other words, Trump is on his knees with nothing to offer except tariff elimination. Yesterday Trump Tweeted that he just had a great phone call with Xi.
The nexus of this "TortureGate Scandal" is found at: ColdCellTorture.com
The book on torturegate the Chinese government is basing: UnspeakablePain.com
Regards,
David Andrew Bardes
Brevard, North Carolina, USA

If I was uncertain if the FBI was still reading all my email, incoming and outgoing, it was confirmed 29 minutes after sending the above. Because Bush2 visited unspeak, so Bush2 is now aware I know the whole story. They are keenly aware of the problem I now present to them.

Are my enemies plotting to demise to the cold cell website, after whatever China is going to do this morning (it is 6am in Beijing.) The crew is lined up again, waiting for dawn to break over China.

At 10:49pm ET, all my websites are down, as GoDaddy is having problems yet again. This is the third outage in a month. I thought maybe Bush2 and the CIA center in Germany, would figure a way to take out the server with cold cell on it. The last time I called support they said there was a hardware issue. Which could be a sophisticated attack. Each time the sites were restored within an hour or so. I checked the down detectors and many other people have filed problems, so the main unix server is down, likely.

But before the sites went down, Bush2 is back to recruiting middleman shills to pay me off with money, so I will not know who paid me. The above new shill recruit is from Tempe, Arizona. They will say no too. But this means that the Chinese decided to not publish the embarrassing story on crooked US presidents, and some agreement was made, such paying me off with money was the last step.

Cal State Fullerton is a Dyersburg paper person, Lightspeed Networks, so I know they are against cold cell torture, and unhappy when corruption prevented their publishing of the "Dyersburg paper." Dyersburg is a city where the author lived. Bill Gates also cannot be in favor of torture, same with Larry Page. But just what they have cooked up is a guess at this point. Either

way, my future is being decided by powerful people with possibly compromised moral rudders. It is now 7:00pm ET, or 7:00am in Beijing. New day dawning in China, with portents to come.

Just what he is pulling together is unknown to me, but it is occupying his constant attention 24 hours a day.

From the above, the 8:15am ET meeting with China, Bush2, & Microsoft CEO, seems to be the last with China. Afterwards, at 9:45am ET, Bush2, Bill Gates, and the person in Chino Hills, debriefed on the China calls. This was followed by three (3) meetings China had with other people, not the Bush2 crew. So, China is now making their decisions, after the Bush2 crew gave it their best effort.

In the news today, below, is the first statement from Interpol regarding Hongwei's kidnapping. Interpol's rules prohibit doing anything. But this could have been revealed two months ago, why wait so long. This is the first sign that some decision has been made by both China and the Bush2 crew, as this is the first dribble of the carefully crafted con game.

Interpol: Rules forbid probe of ex-president's fate in China

https://abcnews.go.com/International/wireStory/interpol-chief-rules-forbid-probe-vanished-official-59058952

Interpol's secretary general said Thursday that the international police organization's rules forbid him from probing into the fate of the Chinese government official who served as Interpol president for almost two years before he vanished during a trip to China.

The Czech, Japan, and Philippines ICC judges have all visited last few days, so are they getting ready to issue their orders to open the investigation, or to decline doing so? Bill Gates, Larry Page, and Microsoft CEO have been running the negotiations with China; interfacing with the ICC, Interpol, CIA, DC, Bush2, and Cheney. Trump appears absent. Just what they have cooked up I do not know at this time, but I will certainly know soon enough.

The above meeting was with the Microsoft CEO, China, and likely author of the Dyersburg paper. The Dyersburg paper, was a white paper written by educators on the Lightspeed Network, which was an attempt to blow the whistle on engineered cold cells. To refute people like Dick Cheney who said even last night to the Chinese, that engineered cold cells do not exist, rather just setting the temperature too low was the only problem. Bush2 stopped the paper from being published. The author of the white paper lives in Dyersburg, Kentucky, so the above Kentucky visitor may be the author, who was testifying to China.

This proves Bill Gates, Larry Page, and Microsoft CEO know the truth, that specifically engineered cells are designed to inflict hypothermic torture until dead. It also shows they refuted Dick Cheney's lies, so China is aware to not believe the lies.

At 9:52am I received the below spam mail which looks like Bush2 again. This is the second such email. They are offering $2,750 a month to do busy work. This low amount is designed to be equal to what the SSA pays me, so Bush2 wants to drag me along. I did not reply obviously.

11/12 - The ever escalating corruption of P. Bush2 and VP Cheney has now become a national security risk to our nation, read below my letter to the supreme court justices:

Re: Follow up on the court's 2003-2016 "TortureGate Corruption Murder Scandal"

Dear Supreme Court Justices:

Weeks ago the president of Interpol disappeared while home in China. President Meng Hongwei was detained for passing on bribe money from President George W. Bush and Vice President Dick Cheney, likely to the International Criminal Court judges, to throw the pending investigation into CIA hypothermic cold cell torture; used to torture innocent Muslims to death because they resisted.

On October 19, 2018, at 3:00pm ET, President George W. Bush was interrogated by the communist Chinese government, where he likely confessed to his crimes. Meng Hongwei may be executed for his corruption.

You started this corruption and continued it for over a decade, by requiring all federal judges to instantly dismiss every torture lawsuit, to protect pals from same. Which tragically resulted in scores of our own citizens, immigrants, and even children, being brutally tortured to death by killers you granted immunity from any civil lawsuit.

President George W. Bush is now beholden to Chinese President Xi Jinping to keep the secrets. Even worse, your newest justice is married to President Bush's personal secretary. Which means she is never privy to any of said corruption first, and then not to Brett second. Now President Bush controls the supreme court once again, because Brett obviously has to obey George. But now George has to obey Xi, which turns the supreme court into a national security risk too? Is this a good lesson on why corruption is a bad idea?

How long are you going to remain silent doing nothing? Why must you prove the practice of law such a grand illusion?

I AM,
David Andrew Bardes, Sui Juris

Re: Follow up on the torturegate scandal Larry and other tech CEO's are working on with P. Bush2 and VP. Cheney.

Why would Bill Gates lead the negotiations with China, only to give away operational control of our supreme court, thus effecting the complete betrayal of our great nation, to the communist Chinese government, for the price of continuing aiding and abetting known torturers and killers on the lam? I am left bewildered.

Microsoft CEO visited twice, likely to see if I posted anything about the above, at 4:08pm and 4:11pm ET

At 1:00pm ET, it is clear George Bush2 woke early working on me, or was up all night. And he has been working on me all morning. He appears angry, due to his fear. George is afraid of becoming me; locked in a cold European dungeon for the rest of his life. George now understands I am his prosecutor, and that he is guilty of heinous crimes. Killers remorse is what the inmates call it.

Ah, above, the big cheese visits himself. Unhappy with me is he. He now fully understands I am his prosecutor, and he is my defendant. It is Friday

afternoon at 3:33pm ET, and the supreme court justices should have received my letter by now. I do not know if Bush2 distributed the letter to all justice last Sunday, or only to Roberts and Brett first, as a heads up. The justices kept in the dark will find out such was done on purpose, because they know Brett and Roberts were privy all week and said nothing. A storm is gathering on the horizon, and which direction it moves is unknown at the moment.

In the news today, after 5:00pm ET on Friday afternoon, an article appears on CNN explaining Trump is likely to surrender to the China on trade. I know why.

Trump on China: 'Can't have trade that's meant for stupid people'
https://www.cnn.com/2018/11/16/politics/trump-oval-office-china/index.html

Washington (CNN Politics)President Donald Trump on Friday raised the prospect of ending his escalating trade war with China, but signaled US negotiators still want more a few more concessions from their largest trading partner.

"China wants to make a deal," Trump said speaking to reporters in the Oval Office, when asked about an offer made this week by Beijing less than two weeks before the American President meets with Chinese leader Xi Jinping in Argentina at the end of this month.

Those briefed on the bid described the proposal earlier this week as falling short of many of the core demands the White House has repeatedly said are must-haves in trade talks with Beijing, including addressing technology transfers and intellectual property theft, according to one of the people briefed. Instead, they described the proposal as a rehash of previous commitments Chinese leaders have publicly announced, like selectively lifting tariffs.

Trump is caving to Chinese coercion, lest Xi spread soiled laundry of our crooked presidents throughout the universe. How sad. Cowards.

At 12:48pm ET, it appears as if China has succumbed to the corruption too. Joining it, and fertilizing its continued growth. Looks like Bush2 tried to recruit the person in Wisconsin to be the shill. Could be cousin Ollie, but he lives in Madison. The Hurricane Electric money person, and former SC Supreme Court Chief Justice Jean Toal, is worried on the sidelines. Bill Gates is absent, but the Microsoft CEO is leading the efforts.

It is almost inconceivable that after all the China play, Bush2 now resorts back to recruiting shills to be the middleman in paying me off. Hundreds have said no way, but he still thinks he has a chance in finding a patsy. Dementia is the only explanation, and fear of course.

It is now 3:00pm ET, and George2 is alone visiting my websites. He wants to hide behind a shill, so no one will know he was the man behind the curtain. But no shill can be found, for two years now. But now he has China, Bill Gates, and other tech CEO's watching and waiting for George to act. What will George do now?

The above tech ceo's and Bush2 people are waiting, lined up. There have been no shill recruits since the last, so just what he is doing other than procrastinating is unknown. But his inaction is catching the attention of those waiting and watching.

How can he relax and enjoy Thanksgiving with family, when he cannot get his focus off of his crimes. And I am a constant reminder of his crimes, being his victim who is not afraid to speak boldly.

The Bush2 crew got China to come back to visit, first cold cell, then Wells. The Chinese were purposely hiding visiting Wells above. Something they do not want evidence to boomerang back upon them, being just as crooked as the others. Everyone is therefore waiting on the Chinese corruption to finally

decide, so they can take their next actions of hiding their own corruption.

The person in Hong Kong is U.S. gov person with government device, speaking to a tech at the NSA super data center, to run stats on coldcelltorture.com. Indicating results would be used in some sort of decision making process of unknown decision makers, in Asia. This may also indicate concern or worry. As I am a loose end to their colossal corruption. They are just know figuring this out? They will say to each other "it does not matter if no one visits the website, it can go viral in an instant."
