If you are reviewing this document for the first time, I suggest you search the file for words or dates as if a database. When I refer to website visits, I mean to coldcelltorture.com. Other sites I preface.

(This period was while the CIA employee named "Karen Thomas" was living in Rainbow Lake Resort. Karen had accessed my cabin, computer, and inside my car.)

7/27/2016 – Wednesday

Came home and the kitchen light had been dimmed all the way down but not off. I always push on and off, never dim down, so someone was in my cabin. Further it appears someone had a thumb drive in my computer and searched for hidden files and folders. I turned on the screensaver with password to keep someone out.

7/29/2016 – Friday

Late afternoon and evening I was in Asheville for an eye exam and buy new glasses. When I returned my computer was fried, the USB ports were shorted and the CMOS was wiped out. Computer was destroyed. Also both security cameras were destroyed and the TV was off. Someone did not like me locking them out with the screen saver and password. I assume this was Karen next door. Nothing else was damaged, just the computer and cameras. Beach was out of town so it was not him.

I bought a laptop which I will remove when I leave or put a lock on the outside of the door.

7/30/2016 – Saturday

Big run on the cold cell website this morning, hundreds of visitors, 20 or so from the CIA. Someone posted on reddit.com about cold cell torture. The CIA is monitoring the website.

7/31/2016 – Sunday

This visitor from Houston, Texas, visited Sunday morning. Someone with a Samsung phone who was curious about cold torture, perhaps associated with Bush2, visited and confirmed the truth.

Also someone in Vero Beach visited davidbardes.com early this morning and looked at the pictures page. Then someone in Hendersonville visited the onesermon.com and Coca.com website, probably Eddie. Vero Beach would be my father, but who contacted him about the pictures pages. Someone at the DOJ is very concerned about those pictures in the WTC, but why?

I sent an email to her at 6:55pm.

Late afternoon someone in Sebastian Florida visited, probably Jan Alexander. This rounds out dad, Ed, and Jan visiting in the last two days. Something is up.

Early afternoon someone in NYC visited the BrevardHiking.com website. Who in NYC knows about the site?

8/2/16

1pm – I was leaving to go into town and Karen was getting into her truck with a package but when she saw me leaving she closed her truck door and went for a walk with her dog. I waved as I went passed her. I assume she wanted access to my cottage once I left, but she found the padlock on my door. When I returned she was gone. Her name is Karen Thomas, but no Facebook page and nothing in Google. It is painfully clear she is a government employee of some sorts. Hard to deny it now.

8/4/2016 – Thursday

Big day yesterday on the cold cell website:

Canada, Germany, Myanmar, Singapore, Baltimore, France, Philippines, UK, PA, CIA, PA again, UK again, Atlanta, Ireland. On the David Bardes website, France, Hungary, France again, and China.

Also came my mystery person from Lithuania:

This person has been visiting for eight years, I hope someday to meet this person.

8/6/2016 – Saturday

Some in Washington, DC with an iPhone visited the cold cell website. Who on a Saturday would be visiting? Something is still going on.

ColdHomePage | 172.56.2.128 | Aug 06th 10:32:05 | | Mozilla/5.0 (iPhone; CPU iPhone OS 9_3_3 like Mac OS X) AppleWebKit/601.1.46 (KHTML, like Gecko) Version/9.0 Mobile/13G34 Safari/601.1 |

Other visitors included Canada and NY.

8/7/2016 – Sunday

Emailed Dr. Ralph Piening with link to article of NY State suing a jail medical provider and offered immunity and I was suing CCS again. The following Tuesday

(8/9/2016) had visits from North Charleston and Greenville, and Houston. Is the doctor having second thoughts and guilt and wants to spill the beans.

8/8/16 – Monday

Yesterday, and Saturday I had website visits from some people in Washington, DC:

HomePage | 108.28.164.248 | Aug 07th 14:43:19 | | Mozilla/5.0 (Windows NT 6.3; rv:36.0) Gecko/20100101 Firefox/36.0 |

9:00pm – Someone was rummaging through my car

I left my cottage around 9pm to go to Allie's cottage about the black mold. When I sat in the car one of the dome lights was already on, and I did not turn it on, nor had it been on for too long or it would have drained the battery. I guess it would be Karen, at night and under cover, looking perhaps for the keys to the lock. When I came out my door, she must have scrambled to get out of the car and away and did not have time to turn off the dome light. Did I leave the car unlocked or did she open it with a slim-gym? I need to buy a combination lock at Lowes.

8/9/2016 – Tuesday

10:00am the below visitor from the VA Binged' a search for definition+of+cold+temperature+considered+torture.

Also two visitors to davidbardes.com from North Charleston and Greenville, may be Cannon and the state supreme court person. I wonder if my email to the Doctor Piening caused him to advise Cannon I am going to sue again and he is having thoughts of telling me the truth. A few days ago I sent an email to the doctor with a link to the NY State suing a jail medical provider and offered him immunity.

8/7 – Sunday – emailed to Dr. Ralph Piening with link and sue again.
8/9 - 11:08am – Tuesday - North Charleston, SC – davidbardes.com (Cannon?)
8/9 - 12:33pm – Tuesday - Greenville, SC – davidbardes.com (SC Supreme Court?)
8/9 - 12:07pm – Tuesday - Houston, TX – coldcelltorture.com (Bush person?)

8/10/2016 – Wednesday

A few visitors from LA area, Utah, and Ohio, otherwise a quiet day. The person in Vilnius Lithuania visited onesermon.com. The ever faithful friend I hope to meet some day.

I emailed my father regarding his relationship with Allie. Took a lot for me to do it, last thing I wanted to do.

8/15/2016 – Monday

Quite a few website visitors, below searching I believe from the Torturegate article. There was also someone from Washington, DC, so maybe something is going on.

No hits as a result of emails to Dr. Piening. I did get a hit last night from someone in Charlotte, they came from Facebook so could be Terminex finding about cold cell torture never to contact me I suppose.

I hope Dr. Piening spills the beans and has a conscious to tell me the truth.
My mystery person in Vilnius Lithuania visited the COCA website today.

I have a feeling my letter to Judge Reidinger did not go over too well, perhaps he screamed at those in DC to do something.

8/16/16 – Tuesday

Today is another prophecy date, wonder what will happen.

Someone in Columbia, SC visited and later in the day someone from the Raleigh area visited.

Several visitors from overseas:
9:20am -Germany

11:15 – Netherlands
11:29 - United Arab Emirates, Abu Dhabi
11:30 – Indiana, USA
11:45 – Bangladesh
12:04pm – India, New Delhi
12:07 – France
1:30 – Pakistan, Islamabad
4:20 – Canada, Quebec
All the above had the same user string.
4:22 – Thailand (X11 user string)
4:38 - Brazil

Also spoke with the underwriter on my renter's policy, she is obtaining lightening report to see if there was lightening that night. I told her the other possibility would be vandalism, but she said I had no police report. So I called the sheriff's office and reported what I believed could be crime. Deputy Barber came out and spoke to Karen, not knowing I suspected her. He said the event looks more like an electrical event and not a crime, so no need for a police report. He left and I emailed the claims administrator.

8/17/2016 – Wednesday

Only two visitors today, someone from Redwood CA and Texas. Quiet day. Evening had a few more visitors.

Karen asked me about what happened as the deputy asked her if she saw anything. She said her door does not close and was curious if she should lock her door as well.

8/18/2016 – Thursday
Drove to the Hendersonville SSA office to file my appeal. They had no records of my having filed a continuation of benefits on June 24th, 2016. It appears DDSR is deleting records from the database.

No traffic on website as of 2pm.

Late night visit from North of the Golden Gate Bridge, where Andy Harris lives, then the person visited my Facebook page and they were on my friends list so it was someone who is a friend. More than likely Andrew Harris. As of 2:30am no email, but I assume he read the email.

8/19/2016 – Friday

Found a story last night on the border patrol use of cold cells, with a picture of immigrants wrapped in emergency blankets. The LA Times article states in the first time in border patrol history the images were released by a federal judge. So this is yet another fallout from the ending of torturegate by the Supreme Court.

http://www.latimes.com/nation/la-na-border-patrol-cells-20160817-snap-story.html

http://latino.foxnews.com/latino/news/2016/08/18/images-show-miserable-conditions-at-border-patrol-holding-cells-in-arizona/

So far the CIA torture case, the SC class action settlement, the NY state lawsuit, the Texas federal judge ruling on drinkable water, and now this is all the fallout from my lawsuit at the US Supreme Court.

In the Marshall Projects daily news feed the following was reported:
Feds phasing out private prisons. The Justice Department on Thursday announced it would gradually phase out the use of private prisons to house federal inmates, following an inspector general's report concluding that for-profit prisons are less safe, less humane, and no bargain.

This is another break from the norm. It shows that the whole system of the federal government being vicars of inmate safeties is now readjusting back to where it should it, all a result of the ending of TortureGate by the Supreme Court.

Only two website visitors, one from New Mexico and one from Algeria. A few more visitors from no place recognized. Very quiet. Whoever visited last night from North of the Golden Gate bridge did not contact me.

8/20/2016 - Saturday

8/22/2016 – Monday

I drove and applied for the night auditor's position at the Hampton Inn in Sapphire and by the time I got home they visited davidbardes.com, which has nothing there, but they visited CoCa.com and there was a hit from the FBI's Blue Coat systems, but there is nothing at that website. They did not find coldcelltorture.com, so have to wait it out. I am going to guess I will never hear from them.

Below is the visit from Hilton and the FBI, I wonder if the FBI is trashing me to Hilton, they are following them, obviously.

Otherwise several visitors

A claims rep for my renter's policy visited today to look at the damage, and the cameras were out, and the PC booted to an error, but the keyboard and mouse actually worked. I have no explanation for why it started to boot. But failed to boot fully, so problems exist.

8/26/2016 – Friday

Earlier in the week I send an email to Alysia Santo at the Marshall Project stating my work is finished and that I took down most of coldcelltorture.com.

Many website visitors this week, from all over the world. I paid $1,250 to the truck driving school.

Yesterday I put a note in Karen's mailbox stating "I know what agency you work for. If the agency wants me to advocate and testify in its defense, you just have to ask." She got it late afternoon and have not heard a peep since. But someone from Houston Texas visited, and several of the amazonaws network. So word has gotten to the right people. Here is the visitor from Houston:

ColdHomePage | 162.200.210.36 | Aug 26th 11:11:23 | | Mozilla/5.0 (Windows NT 6.1; WOW64; rv:40.0) Gecko/20100101 Firefox/40.1 |

At this point it is clear Karen is a CIA agent, and since she has not asked me about the note which she would if she were not an agent. They obviously want something from me or want me to not do something as why else would they plant an agent next door well after my lawsuit came to an end.

Found an article on Fox News: Honduran woman and her child sue Obama administration over 'inhumane' detention "Icebox": http://latino.foxnews.com/latino/politics/2016/08/26/honduran-woman-and-her-child-sue-obama-administration-over-inhumane-detention/

8/28/2016 – Sunday

Pastor Joe Brown's sermon said "you cannot be saved after death" and he used the narrow gate/wide gate from Matthew 7, Sermon on the mount as proof. But he is far from the truth. He also said more people go to hell than go to heaven, but also he does not know this, not a clue.

Only a few website visitors, very quiet. No word from Karen next door. It is unnerving to have a CIA agent living next door. At least she knows I know, and her handlers know. It will be interesting to see what they do.

I finished applications for tuition aid from Goodwill and BRCC. Tomorrow I stop all my medications, to prepare for CDL physical exam and classes. I believe God has a reason for me to stop the meds, perhaps so I will not fall under scrutiny at some point in the future. It has been a long hard recovery, and I am almost there.

I started writing *Unspeakable Pain* last night and got the intro done.

8/29/2016 – Monday

I received a letter from the DOJ today, mailed on 8/25, the same day Karen got my note. Auspicious, but more likely she contacted DC who took action to send the letter the same day. The letter says they received my letter of June 10, and may address or reply within 60 business days. That is 76 days since my letter in June, most likely they were responding to my note to Karen. They know I outed Karen and am about to file another federal lawsuit, so to head off at the pass, they sent the letter.

9/6/2016 – Tuesday

President Obama vacationed in Hawaii, then flew to China for the G20 summit, and cancelled a plan meeting with the President of the Philippines, who had said publicly horrible things like the President was a son of a whore.

Apparently the Philippines President did not want President Obama to lecture him on human rights issues, like his killing of 2,000 drug addicts, and stated the US has no place to talk of human rights issues when we have our own abuses.

I have had quite a bit of web traffic from the Philippines recently, even yesterday, and in the recent past, and thought nothing of it, until a few minutes ago when I had a website visitor from Hawaii.

Here is the Hawaii log entry:

FBIPage | 66.91.78.109 | Sep 06th 14:01:45 | https://www.google.com/ | Mozilla/5.0 (Macintosh; Intel Mac OS X 10_10_4) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/52.0.2743.116 Safari/537.36 |

I went to Whitehouse.gov to view President Obama's schedule and it ends at 5am this morning ET time and cannot find out if he is stopping back in Hawaii, or is already there, on his way home. So could this Hawaii visit be from him or his people after being told by the whack job in Philippines about "cold cell torture?"

I suspect so, as it is both possible and probable.

I just read an article about a leader under the whack job in the Philippines defending the whack job's comments further calling President Obama a "lame duck" president who is powerless anyway at this point. This adds more probability to the above as feelings have been bruised bringing out retaliatory feelings.

9:17pm, just got back from dinner with Allie and Betsy, had fun. Allie is going to take a year off from college to heal her mental health and I fully concur and support her. We should have done it sooner. I am so proud of her.

On the way out to dinner I stopped at the mail box and got a letter from SSA in MD, not DDSR, saying my benefits will stop in Sept but will get two more checks, but then it says my last check will be September, so a typo, but the two more months came first so I am going to the SSA office and ask and leave a letter to that effect. It is obvious they got my appeal and do not like it, that was fast. Add to this my letter to NCDHHS and BCBSNC on the issue of Medicaid, the plan is working out. There was a time this would crush me but now it does not. I got my mojo back and am strong, even stronger than before.

It is obvious now God has used me, abused me and almost killed me, all for a well-orchestrated plan which only he could have devised and effected. I am in awe, and speechless with the genius. It is a story which proves God. I figured out I was being used for some purpose a long time ago and I lost my fear, and was afraid of nothing, nothing in this life that is. Everything in this life is for purpose in the next. It was

important for me to suffer so badly for so long in this life because it helped those in the next life, until such time the tables turned on a dime in this life, to the better effect in this life, and the next as well. So heaven wins twice, in this life and the next.

9/7/2016 – Wednesday

Had another website visit from the Philippines, here:

ColdHomePage | 125.212.44.222 | Sep 07th 05:14:31 | | Mozilla/5.0 (Windows NT 6.1; WOW64; rv:40.0) Gecko/20100101 Firefox/40.1 |

I also had a visitor from India but thought mothing of it until I saw President Obama's schedule today which consists of a meeting with the leader of India, so perhaps they too want to get a dig in about human rights of torturing to death US citizens with hypothermia.

Since it appears he did stay in Laos overnight yesterday's visit from Hawaii could have been his wife or his people?

2:40pm – Beach, my landlord, drove in quickly to Karen's cabin, got out quickly and knocked on her door, she opened and he went inside for about 6 minutes, came out got in car, instead of driving around the loop, backed out and sped out quickly leaving the property. Why did Karen need to see him? In person, so quickly? What is he and she up to? Is she leaving, did she tell him she was a federal officer? Is there collusion of some sorts? I will have to see what transpires.

3:49pm – I called CBC pharmacy to get my prescription and Jason advised me my Medicare coverage had cancelled as of 8/31/2016 as his computer would not approve the meds, so I had to pay full price. Tomorrow I need to go to the Hendersonville SSA office regarding the letter I just received from them. I also looked on the SSA letter from yesterday and it came from the "Office of Central Operations" so my notice of intent to sue went straight to the top of SSA. They know they are in a bad legal position.

4:58pm – Beach is back at Karen's cottage fixing something, so it appears the trip was for a maintenance issue.

9/8/2016 – Thursday

Several website visitors today, many from around Brevard, to davidbardes.com. On the cold cell website someone from Cogent Communications/PSInet, which is the Washington DC location visited. So something is going on. Nothing in the mailbox of interest. The Cogent visit is:

ColdHomePage | 38.80.27.26 | Sep 08th 12:32:30 | | Mozilla/5.0 (Windows NT 6.1; WOW64; rv:27.0) Gecko/20100101 Firefox/27.0 |

This visitor to davidbardes.com homes to Washington, DC and to LA, CA, but likely from DC. My letter is making the rounds.

9/9/2016 – Friday

Allie came over and we hung out on the porch. Karen came out and we invited her up. She asked lots of questions and said she is moving in October to be with her sister in Tenn. Who has breast cancer, then off to Washington state to some place she knows no one. If her dying sister is in Tenn. why would she move here, and not visit her on weekend? And then why move to Washington State where she knows no one? It seems the CIA just never gives up identity even when outed.

Late at night, around 11:30pm someone was up at the tents with lights. Then I heard the sounds of a helicopter overhead and the entire field was lit up with bright white lights. Then the helicopter went away, the light turned off, and the people turned off their lights and left. Was someone pre-planning to land by helicopter at night?

I wrote 9 letters to Hollywood lawyers asking for legal help in placing my story in print and film. 9 letters on 9/9, more prophetic numbers.

9/11/2016 – Sunday

Had a dream last night about Wookie, so I went to his Facebook pages to see if I could contact his son's Elton and Skee, and I sent a friend request to Elton, Skee I could not locate. I forgot today is Wookie's birthday, and that he died on April 15th, there years later the US Supreme Court ruled the same day. Ironic and timely.

9/12/2016 – Monday

Mailed my 9 letters written on 9/9. Got a letter from SSA stating my "Ticket to Work" has been terminated. They are pissed off at me and taken a position of protecting themselves, after reading my appeal. They know how badly they are in trouble. Otherwise quiet day, no website visitors.

9/16/2016 – Friday

Today is another prophetic date, 9/16/16, wonder what will happen. On the website someone from Jacksonville, FL and someone in Ohio visited at the same time.

Then at 5:57am Houston, Texas time someone visited and viewed a few pages, below. This would be George Bush2 on his iPhone. He usually uses his iPad Air. Bush2 also usually visits right before, or a day later something significant happens. His visit proceeds an event. Is the helicopter going to come?

ColdHomePage | 104.53.123.29 | Sep 16th 04:57:20 | https://www.google.com/ | Mozilla/5.0 (iPhone; CPU iPhone OS 10_0_1 like Mac OS X) AppleWebKit/602.1.50 (KHTML, like Gecko) Version/10.0 Mobile/14A403 Safari/602.1 |

Then three hours later, Bush2 visits again, but it only shows he still had the coldcelltorture.com webpage open in his browser, and it refreshed.

MoultonPage | 104.53.123.29 | Sep 16th 07:53:28 | http://coldcelltorture.com/accident.php | Mozilla/5.0 (iPhone; CPU iPhone OS 10_0_1 like Mac OS X) AppleWebKit/602.1.50 (KHTML, like Gecko) Version/10.0 Mobile/14A403 Safari/602.1 |

Also had a few visits from the CIA Amazonaws IP addresses.

So something is up.

10:39pm – some cars around the tents, and that bright light filled the field, then all went dark. I do not know if they are still there.

This below visitor is from the Dallas Tx area, they Googled the below:

SuicidePage | 166.137.125.24 | Sep 16th 19:19:50 | http://www.google.com/search?biw=360&bih=278&ei=GabcV8ujDavejwT82aaYBA&q=stripped+naked+in+jail+suicide+watch&

Then a little whole later from an area between Dallas and Houston:

ColdHomePage | 64.188.196.215 | Sep 16th 19:53:35 | https://www.google.com/ | Mozilla/5.0 (iPad; CPU OS 9_3_5 like Mac OS X) AppleWebKit/601.1.46 (KHTML, like Gecko) Version/9.0 Mobile/13G36 Safari/601.1 |

So something is going on in Texas tonight.

9/18/2016 – Sunday

Quiet day, rainy. In hindsight I think George Bush had a meeting most of the morning and afternoon last Friday, hence the website traffic. Chances are they are assembling a strategy, or negotiation. It is going to be interesting from this point onward.

9/20/2016 – Tuesday

Website visits today from Seattle, WA, Dallas, TX, within minutes of each other, indicating conversations.

ColdHomePage | **98.247.71.253** | Sep 20th 09:44:10 | https://www.google.com/ | Mozilla/5.0 (Windows NT 10.0; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/52.0.2743.116 Safari/537.36 |
ColdHomePage | **70.195.211.66** | Sep 20th 10:01:48 | https://www.google.com/ | Mozilla/5.0 (iPhone; CPU iPhone OS 10_0_1 like Mac OS X) AppleWebKit/602.1.50 (KHTML, like Gecko) Version/10.0 Mobile/14A403 Safari/602.1 |

This would mean Bush2 is trying to use my letter to settle the ACLU lawsuit against the two CIA torture doctors. This explains the Bush visits last Friday and one visit from Manhattan yesterday, being the ACLU lawyer.

Later a government worker on the Cogent network went to Bing and searched for "methods of torture."

ColdHomePage | 38.124.146.70 | Sep 20th 10:52:38 | http://www.bing.com/search?q=methods%20of%20torture%202010-2016&qs=n&form=QBRE&pq=methods%20of%20torture%20&sc=0-19&sp=-

Then at 7:06pm, this visitor with an iPhone on the AT&T wireless network:

SuicidePage | **166.137.248.117** | Sep 20th 15:57:47 | https://www.google.com/ | Mozilla/5.0 (iPhone; CPU iPhone OS 7_1 like Mac OS X) AppleWebKit/537.51.2 (KHTML, like Gecko) Version/7.0 Mobile/11D167 Safari/9537.53 |
LaudmanPage | **166.137.248.117** | Sep 20th 15:59:38 | http://coldcelltorture.com/suicide.php | Mozilla/5.0 (iPhone; CPU iPhone OS 7_1 like Mac OS X) AppleWebKit/537.51.2 (KHTML, like Gecko) Version/7.0 Mobile/11D167 Safari/9537.53 |

So it is safe to say George Bush2 is making a hail Mary pass to the ACLU as settlement offer regards the CIA victim's lawsuit. Will the ACLU accept it, or balk for something more? If I were to place a bet, I would say the ACLU will accept it, reluctantly.

ColdHomePage | **130.105.201.196** | Sep 20th 17:18:30 | | Mozilla/5.0 (Windows NT 6.1; WOW64; rv:40.0) Gecko/20100101 Firefox/40.1 |

The above visitor at 8:18pm EST is from the Philippines. Perhaps the whack job who publicly chastised President Obama about human rights abuses in our own nation, and called him a "son of a whore," because he did not want to be chastised about his in his. It appears the whack job is preparing more assaults and defenses, needing to visit the website again for more cannon fodder.

This means it is still on the Presidents radar screen of unwanted and continuing disturbances. More pressure, which is now put on the ACLU to accept terms of my letter, to end the chapter of American torture. So it will not be an international embarrassment any longer.

9/22/2016 – Thursday

Quiet, little to no website traffic. I spent the early evening with Betsy and Allie, and we supposed high level negotiations between the ACLU and the Bush2-to-Obama gamut are taking place, working from my letter and its solution. There is a deadline of the end of the year pressure on Bush2 and Obama. Bush2 wants Obama to pardon him before he leaves office, else Trump, who does not like Bush2, or Hillary who may cave to the democrats clamoring for accountability, may mete out worse outcomes. Obama wants to help Bush2, and close the ugly chapter on torture on his watch, to the credit of his legacy. AG Lynch becomes a hero who saved the day. As no one goes to prison and the ACLU lawyer sharks will be fed with full bellies of gold coins

and have the credit of legal victory forcing the US to answer fully for the terrorism torture and resulting torturegate.

9/23/2016 – Friday

A few website visitors, but one mid-Friday afternoon from the Washington, DC area, in Maryland I believe.

ColdHomePage | 108.57.199.8 | Sep 23rd 12:20:32 | | Mozilla/5.0 (Windows NT 6.3; Trident/7.0; Touch; rv:11.0) like Gecko |

So I can conclude my letter was a busy topic of importance, well into Friday afternoon. Visitors like this usually just type in the URL or Google it, just to visit the first page of the site to verify it is true, then go to no other pages and leave. So someone for the first time heard about it, and when the meeting adjourned confirmed the existence of the website and story. This may mean some decision was made and instructions passed onto underlings to effect.

This is a very historic time period, and the resulting ramifications of significance for our nation are playing out in real time. I feel honored to even be a part of it, more or less directing it from afar. It is amazing what words on paper can do.

ColdHomePage | 107.150.75.159 | Sep 23rd 13:43:24 | http://coldcelltorture.com | Mozilla/5.0 (Windows NT 6.1; rv:34.0) Gecko/20100101 Firefox/34.0 |

This person above is from Wilmington, Delaware. Not sure of the significance.

9/25/2016 – Sunday

Quiet day, great weather. Below 7pm website visit from someone at the Department of Defense (wod.army.mil) in Missouri, on the FBI's network, Blue Coat Systems. It is common to have the two hits at the same time from their setup.

ColdHomePage | 199.116.169.254 | Sep 25th 16:59:04 | | Mozilla/5.0 (Windows NT 6.1; Win64; x64; Trident/7.0; rv:11.0) like Gecko |

So someone is Googling cold cell torture and found it. Have no idea why or who.

Early this morning the below visitor went to Google India to search for "cold tourcher." So more visits from India.

ColdHomePage | 168.235.194.50 | Sep 25th 13:03:13 | http://www.google.co.in/search?ie=ISO-8859-1&q=cold+tourcher&btnG=Search | Mozilla/5.0 (Linux; U; Android 4.4.2; en-US; AquaSense5.0 Build/KOT49H) AppleWebKit/534.30 (KHTML, like Gecko) Version/4.0 UCBrowser/10.10.0.796 U3/0.8.0 Mobile Safari/534.30 |

9/27/2016 – Tuesday

One of my letters to the nine lawyers was returned refused. It was to a firm with two of the lawyers so one got the letter and advised the other not to open it.

Quite a few website visitors today: Nevada, Seattle, Poland, Tennessee, LA, Czech Republic, Missouri, Wilmington Delaware, Santa Cruz CA, Nebraska.

At 10:18pm EST, or 9:18pm Houston time, someone visited from Houston, having gone to Google. They have a new Windows 10 PC or laptop.

ColdHomePage | 98.197.152.59 | Sep 27th 19:18:47 | https://www.google.com/ | Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.116 Safari/537.36 |

I do not know if it is Bush2, but they are related to Bush2. Bush2 always visits at night, and always before some event the next day. Tomorrow is Wednesday, I wonder what is going on. If it is Bush2 he is not on his iPad but on a PC, perhaps reviewing legal documents using Word or PDF's. Is there a settlement in the works? Or an apology letter, "Dear Ahmed, I am sorry for torturing you almost to death like we did your friend Gul, all my best, George."

9/29/2016 – Thursday

Only a few website visitors, this one from Dallas, TX:

ColdHomePage | **172.103.124.254** | Sep 29th 08:10:02 | http://coldcelltorture.com | Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/39.0.2171.95 Safari/537.36 |

So the Bush2 people are busy today.

Someone from the "US Department of Justice" just visited below. They went to Yahoo to search, and are on the FBI's Blue Coat Systems network.

10/8/2016 – Saturday

Nine days have elapsed since my last update. Very little web traffic, a few. Some from locations known, Texas, NY, Seattle. Some from overseas, like Sweden, Norway, Pakistan…

I just checked the PACER docket in the CIA torture lawsuit *Salim et al v. Mitchell et al* (2:15-cv-00286-JLQ). There was a hearing on the 29th of September which explains all the Bush2 and DOJ website visits on the 29th, see above.

The judge has ordered four CIA officers to take depositions, and the CIA to continue to provide documents requested by the two CIA torture doctors.

The three CIA torture victims are suing the two CIA torture doctors then the two CIA torture doctors sued the federal government to provide help and cover. The government is paying the legal fees of the two CIA torture doctors and will eventually pay restitution to victims, per an indemnity clause in their contract. But the government is being no help to the CIA torture doctors.

This is a huge victory for the ACLU and huge loss to the CIA and DOJ. The genius of the ACLU to only sue the two torture doctors is obvious at this point.

I also read the torture doctor's answer to the complaint. They sweepingly deny their actions were torture or cruel, and only admitted to actions taken on a few and deny everything on Gul Rahman, claiming government secrecy. One contended they were no longer involved with the Rahman torture when he froze to death. They deny even knowing two of the plaintiff's (victims) and therefore deny all of their claims.

Federal Judge Quackenbush is following a path of sacrificing the CIA, DOJ, and subsequent hidden Bush and Cheney, to the lawyer sharks of the ACLU. The snare is tightening around the leg of the guilty. It is an unprecedented historic event.

So I can conclude there is a lot going on, only some I know about, and the pressure has now mounted to the tipping point, where the four CIA officers being deposed may be forced to reveal Bush2 and Cheney's direct involvement.

It is the witching hour.

Website visits weeks past showing Texas and Seattle may be Bush2 giving my letter to the two torture doctors to decide to use it or not. The torture doctors are from the Seattle area; I did not know. I thought it was the ACLU lawyers getting the letter from Bush2, but makes more sense being torture doctors. As their lawyers weigh merit of throwing in the towel, flying the white flag of surrender and asking for terms of surrender, here is one solution (my letter.)

So my letter sent to AG Lynch at the DOJ, was passed by the White House, passed around and blessed by the DOJ and CIA, then given to Bush2, who gave it to the torture doctors. What will the CIA torture doctors do with the letter? As Wookie said lawyers are always talking making plans and deals, so perhaps this is transpiring. Will the ACLU lawyers balk, or seize and improve?

I think the ACLU will accept and improve, as it is the most probable outcome given a jury of twelve Americans with current thinking. War crimes, trials, and imprisonments of perhaps tens of thousands each have to get passed a jury, and I think the ACLU knows this and would prefer a huge victory party having forced Bush2, Cheney, CIA, DOJ to write letters of apology, pay remunerations, and institute changes it never occurs again. I do not see another outcome with as much good.

10/10/2016 – Monday

About 3:37pm EST, someone from Maine visited:

ColdHomePage | 67.255.228.113 | Oct 10th 13:37:13 | https://www.google.com/ | Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_6) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.143 Safari/537.36 |

The IP address homes outside of Portland, so Kennebunkport is in the range. This would be Bush2 or facsimile. He usually visits before or while something is happening. I guess my letter is in play?

ColdHomePage | **76.22.68.82** | Oct 10th 14:23:29 | https://www.google.com/ | Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_6) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.143 Safari/537.36 |

An hour later the above visitor from the Seattle area visited. This would either be the torture doctors (lawyers) or the ACLU lawyers discussing my letter as a possible solution. So my letter is in play.

10/13/16 – Tuesday
Several website visitors, Sweden, Canada, US. Below is the FBI network visit from an FBI related person in Australia, they went to the FBI Page:

FBIPage | **103.246.38.196** | Oct 12th 17:02:34 | | Mozilla/5.0 (Windows NT 6.3; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.101 Safari/537.36 |
FBIPage | **140.168.79.1** | Oct 12th 17:02:35 | https://www.google.com.au/ | Mozilla/5.0 (Windows NT 6.3; WOW64) AppleWebKit/537.36

The above visitor from Australia, in the Commonwealth Bank of Australia, was preceded by the FBI, Blue Coat Systems, hit to scan the page for malware. Blue Coat Systems is the outward appearance of an ISP, but used by the FBI entirely. I believe the 'blue coat' is the old moniker for FBI agents always wearing blue suits. Beware the blue suits moonshiners would fear.

10/13/16 – Thursday

Then roughly the same time the next evening, 10/13, another FBI related visitor from Australia visited, from NSW Department of Education, and it too had the preceding scan from Blue Coat Systems.

ColdHomePage | **103.246.36.213** | Oct 13th 16:53:39 | | Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.143 Safari/537.36 |

Then five minutes later, another visit from NSW Department of Education, from a difference computer, and this one was not scanned first.

ColdHomePage | 153.107.193.209 | Oct 13th 16:57:27 | https://www.google.com.au/ | Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.143 Safari/537.36 |

So I can confirm at least one FBI related person in Australia, has a keen interest in cold cell torture, for two days, at around 11am Sydney time.

Otherwise there has been no website traffic to conclude anything. Whatever is going on, I have no clues from the website.
However, if I were to place a wager on an unknown, I would bet the ACLU is having internal discussions as to legal battle plans to either accept complete victory now, before President Obama pardons the guilty anyway, or risk trial and acquittal and no victory just a huge loss.

The ACLU will seize my benchmark and demand $81 million for each victim. Which will stoke the sauna of legal fees satisfying the appetites of the ACLU legal sharks.

No one goes to prison, apologies delivered, victims are compensated, ACLU has a huge legal victory, and we can finally close the ugly chapter on American torture permanently.

This is a final item of the President's publicly stated goals, including closing Gitmo before he leaves office. Bush2 has never said an unkind word against President Obama for eight years hoping for a pardon. It seems my letter was offered up to the veracious wolves at the ACLU to see if they will back off and accept. Will flying the white flag of surrender be met with a take no prisoner give no quarter?

It seems we are going to find out before the end of the year, but will it be before the elections, or after, or moments before midnight on the 31st? Or as soon as possible?

In preparation President Bush2 will be asked to speak, to lead the notice of giving apologies to families of those tortured to death or still living, remunerations for the victims, and remedies such never happens again. Will it be Christian forgiveness at Christmas or humble pie for Thanksgiving? Or lost in the news among campaign boomerang and blow dart attacks?

11:15pm – speak of the devil, Bush2 or related just visited, at 10:15pm Houston, Texas time. They have a Samsung Android with Google App. Bush2 has an iPad, so this could be someone close, or him.

SuicidePage | 107.205.194.32 | Oct 13th 21:15:15 | android-app://com.google.android.googlequicksearchbox | Mozilla/5.0 (Linux; Android 5.0; SM-N900V Build/LRX21V) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.124 Mobile Safari/537.36 |

Then it was followed half an hour later by someone on the CIA network:

ColdHomePage | 54.227.83.68 | Oct 13th 21:40:07 | | Mozilla/5.0 (Macintosh; Intel Mac OS X 10.9; rv:29.0) Gecko/20100101 Firefox/29.0 |

So Bush2 was doing the same thing I was doing typing this, thinking about how this is going to play out and when. And it appeared he spoke with someone from the CIA.

10/14/2016 – Friday

The below visitor is from the Seattle area visited at 3:45am PT, an early riser. Most likely someone on the West coast having to wake early for a conference call on the East coast.

ColdHomePage | 24.16.25.80 | Oct 14th 04:45:24 | https://www.google.com/ | Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.143 Safari/537.36 |

At 9:40am ET the below three visits came from Thomson Reuters and Westlaw Publishing IP addresses.

ColdHomePage | **167.68.23.251** | Oct 14th 07:40:08 | | Mozilla/5.0 (Unknown; Linux x86_64) AppleWebKit/538.1 (KHTML, like Gecko) PhantomJS/2.0.0 Safari/538.1 |

The early morning visits appear to be Reuters news service getting a scoop on a story before anyone else. So something was scheduled first thing today the day after the Bush2 visit.

It seems my letter was effective and Reuters has been called in to break the story. It appears to be moving fast too. As of 5pm EST nothing has been reported on Reuters. Perhaps writing the story may take days or weeks? Or hours?

That was fast. My summation yesterday was correct after all. Wow.

10/15/2016 – Saturday

At 9:49am Texas time someone from Dallas Texas visited. This is where Bush2's business office and lawyers are located, so it seems they are working on a Saturday, must be high priority to Bush2.

ColdHomePage | 209.164.113.84 | Oct 15th 08:49:21 | | Mozilla/5.0 (X11; Linux x 86_64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/28.0.1500.71 Safari/537.36 |

10/19/2016 – Wednesday

Early this morning there was a run on the website but I cannot find what precipitated the visits, nothing in Google, Reuters, or ACLU websites as far as news.

Below are Leeds Alabama, Tucker Georgia, and outside the Boston area. These people have visited before.

So something is going on, wish I knew.

Then later on someone in Arab Emirates searched the ae Google for "cold torture" so someone there knows about it.

Then someone from Ukraine and France visited.

On davidbardes.com someone from Brevard visited, but no idea who.

On the CoCa website which is blank now, my unknown friend from Vilnius Lithuania visited.

So it has been a very busy day on the website, yesterday there were no visitors, so something happened. Tonight is the last Presidential debate, at 9pm, so after this something may transpire, as news before the debate can end up in the debate.

10/20/2016 - Thursday

The below visitor from Portland, Oregon visited late last night early morning. They used Bing and searched for 'cold cell torture.'

ColdHomePage | **71.59.142.62** | Oct 20th 00:41:40 | http://www.bing.com/search?q=cold+cell+torture&FORM=HDRSC1 | Mozilla/5.0 (Windows NT 6.3; WOW64; rv:49.0) Gecko/20100101 Firefox/49.0 |

Then this morning someone in Hollywood Florida visited both cold cell and davidbardes.com websites, so they know me. Have no idea who it is.

Then someone again in Portland Oregon visited. This time from a school using Google.

CIAPage | 66.154.193.1 | Oct 20th 12:08:35 | https://www.google.com/ | Mozilla/5.0 (Windows NT 6.1) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.143 Safari/537.36 | ColdHomePage | 66.154.193.1 | Oct 20th 12:08:45 | https://www.google.com/ | Mozilla/5.0 (Windows NT 6.1) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.143 Safari/537.36 |

Here is the school name and url:
Willamette Education Service District
autohost66-154-193-1.hsd.k12.or.us

Then at davidbardes.com someone from Brevard visited again. Have no idea who, they have a Mac.

So it has been quiet except someone in Portland and Brevard, otherwise just about nothing.

At 8:00pm or so, the below set of visitors came to coldcelltorture.com, from the FBI network (Blue Coat) and Australia again. This time there was a secondary pre-hit from a name server in Germany than Blue Coat, then the visits by the person(s) in Australia.

I checked a week ago tonight and also was visited by the FBI/BlueCoat/Austraila at about the same time, but tonight has more hits, more people.

Then later on that night a week ago was the Houston/Bush2 visit, then in the morning the visits from Reuters.

So I can conclude this is a weekly meeting. I am also going to guess that Australia is not where this traffic is actually coming from, rather state side, perhaps DC. It makes sense they would spoof from Austraila, not question otherwise.

Then came another hit, so the meeting is taking a long time, 26 minutes so far.

Does this mean something with Reuters tomorrow; something more than last week?

At 8:25pm, a person from north of the Golden Gate Bridge visited several pages, they have an iPad not yet updated with iOSX.

I have the sinking feeling my story is going to be the lead story, used to obfuscate bad CIA behavior by lessening their ills by spotlighting the greater ill. Focus on the worse, not the less. I handed it right to them. After first putting them in the situation of great need in the first place with my lawsuit. The providence is palpable.

It is 9:43pm, getting about the time for Bush2 to visit, or more like 11pm when he does, or 10pm Houston time.

It is 1:01am and the below visitors were the last of the evening. The first is the CIA network at duck duck go proxy, the second from Orlando. Is Bush2 in Orlando? He and the CIA usually visit, or they did last week.

10/21/2016 – Friday

I was expecting something this morning given the big meeting last night, but only three website visitors today and its 4:21pm. One visitor from the Netherlands, one

from Newark, NJ, and one from Illinois. Otherwise very quiet. Calm before the storm perhaps.

Oakton Community College (elearntest.oakton.edu) Illinois
FBIPage | 192.234.16.193 | Oct 21st 11:29:43 | https://www.google.com | Mozilla/5.0 (Windows NT 6.1; WOW64; rv:47.0) Gecko/20100101 Firefox/47.0 |

There was a meeting today just no one visited from the meeting, no need for visit. Were the Reuter's reporters involved?

Around 8pm I visited the ACLU's main website and found an article posted at 4:45pm [today] so newly minted article highlighting their CIA torture victims and the recent series of articles in the New York Times.

It also mentioned a ruling today by the 4th Circuit US Court of Appeals, where they reinstated a lawsuit by Abu Grab torture victims against a contractor. It was the 4th time the case had been before them, dismissed so many times, but now the case moves forward.

The Center for Constitutional Rights reports "**Appellate Court Reinstates Abu Ghraib Torture Lawsuit Against Private Military Contractor**."
http://ccrjustice.org/home/press-center/press-releases/appellate-court-reinstates-abu-ghraib-torture-lawsuit-against

So, the US Courts are full open business for torture lawsuits thanks to my lawsuit before SCOTUS.

This puts great pressure on all parties.

The Last paragraph of the ACLU article caught my attention however. It hints and alludes to my proposed resolution in my letter of 9/1. Here is the paragraph:

Only by fully reckoning with the past can our clients, the hundreds of others just like them, and our country finally move on with confidence that it will never happen again. And leading up to an election in which torture is being floated as an official policy option, it's as necessary as ever.

So "fully reckoning" means apology, and "will never happen again" reads like my letter. It is missing remunerations however.

The last sentence I focus speculation on the possibility the ACLU will want the torture story to vet and play out in the news before the elections, to foster hatred towards Trump for repeating all over the county he wants to make torture legal.

"How could a sane person support torture" they will say when President Bush2, Cheney, CIA, and all else apologize for ever doing torture, so our nation can be healed, and Trump video will replay where he boasts about making laws approving torture.

It would be unmerciful. But Bush's may want it too. All Bush's hate Trump, and Trump hates the Bush's. The sweet salivation of revenge may be eked out while making mea culpa's for past torture very believable.

All so everyone will not have to go to prison, and the ugly chapter on American torture can finally be closed permanently, before President Obama leaves office, as Hillary does not want it on her watch.

So, was the ACLU article's last paragraph a portent of things to come? Like something is brewing in the back room and the article was to prime the pump. Published at fifteen minutes before quitting time on a Friday.

Brewing indeed.

At midnight, my time, the above visitor from Dallas, Texas visited, the IP address homes near the George W. Bush Presidential Library, so I can conclude Bush2 is up late tonight, 11pm his time, thinking about cold cell torture.

Bush2 visits the night before something happens, so something is indeed brewing.

10/22/2016 – Saturday

It is 4:07pm and nothing has happened today that I am aware. There have been eight visits to the website: Guinea-Bissau, Africa, Egypt, Spain, Boston, Russia, Islamabad, Pakistan, and Brazil.

I have had previous visits from the Boston area during the lawsuit and after, so I am guessing they are lawyer related types. No other visits from inside the US.

So, I have no indication of anything going on, but I know that to not be true.

10/24/2016 – Monday

Last night someone visited the website from outside the Boston area and the Bronx.

Then today someone visited from Columbia, SC. Also from Belgium and the Netherlands.
The person below had 26 hits over 45 minutes. They are from Fresno, CA at "Fresno County Office of Education." I assume they read all the stuff on the first page, as were most of the hits. Someone doing deep research.

Then someone from Brazil and Germany visited. Otherwise it has been a quiet day with not much to indicate unknowns.

10/25/2016 – Tuesday

The below person, from Fresno, CA at "Fresno County Office of Education" visited the same time as yesterday, at 10am PT, and finished five hours later, at 3pm PT.

Someone is doing a lot of research, reviewing everything. This sometimes happens before someone publishes something, like the Marshall Project. I have no idea who it could be.

Had some other visitors today, Delaware, West Virginia, Spain, Canada, India, Singapore.

10/26/2016 – Wednesday

Somebody from Australia visited. Some business from Illinois visited.

At 8:03am ET, someone in Charlotte, NC on Sprint PCS using a ZTE Warp Elite smartphone running Android as the OS, using the Google App to search for cold cell torture.

Then around 10:52am ET someone from the "State of South Carolina" in Columbia, SC visited having gone to Google to search and find Laudman's page. He was the inmate killed with hypothermic torture.

Someone from Malaysia visited. On the davidbardes.com website there were some visitors. Someone from Moscow and Beijing visited, not bots, actual visits.

Then around 2:34pm ET someone in NYC on Time Warner business cable Googled my name and came to the davidbardes.com website, below.

It is 7:11pm as I write this, so I can conclude by probabilities someone in Charlotte had an early morning meeting of some sort where the subject of hypothermic torture was on the agenda. This was quickly followed with the 10:52am visit from the State of South Carolina. Someone in the state had hypothermic torture on their agenda too. The close location in distance and time lends favor to the earlier leading to the later in a joint meeting.

The person at a business in NYC I have no idea who this could be. It could be someone from the ACLU, a lawyer, the Marshall Project, news reporter. This could be one of those "does this person exist" searches for my name, then click to the

website, confirming I exist, then not do anything further. No email, no further pages, just done and leave.

Karen Thomas, the person renting the cottage in front of mine, and suspected CIA agent, left today as scheduled. She said she is going to visit her dying sister in Tennessee then move to Seattle, Washington. I am not sure I believe any of it. Karen was a nice person and professional, but I am thankful the professional left.

My social security disability payments have stopped, today was the first month I no longer receive them. I am now free to sue the crooks who run Disability Determination Services of Raleigh. The human suffering they inflicted upon me causes me to shudder in heavy grief.

10/27/2016 – Thursday

It is 7:38pm ET, and this is about the time the FBI meeting takes place each week, at 8pm on Thursday evening. Or this is what has happened over the last two Thursdays.

Otherwise only a few visitors today. Someone from Ukraine searched Yandex (Russia's Google) for 'torturegate.com' author. Looking for me it seems. They can get this from the whois searches but maybe they do not know that. I took my name and email address off the website, so someone wants what I do not.

Then some from Bangladesh, Riyad, Saudi Arabia, Kuwait, then someone on Comcast in the USA but location unknown. The Saudi and Kuwait visits could be US related people there, or nationals interested in cold cell torture. Either way some people have on their plate, hypothermic torture/homicide via coldcelltorture.com.

As of 1:52am no one from the government visited, last week they did. Someone from Ann Arbor, Michigan visited, then two people from the UK.

10/28/2016 – Friday

I went to PACER today to get updates on the CIA torture doctors lawsuit and found two orders the judge issued last few days. In the first the judge set a deadline of 12/20 for the complete production of requested documents from the DOJ/CIA, needed by the torture doctors to defend themselves from the torture victims and ACLU lawyer sharks.

The second order reveals one of the torture doctors, Mitchell, was paid a large sum of money in a book deal with Crown Publishing on 9/9/2015. The book manuscript is

done and set to publish in the first quarter of 2017. A senior publisher at Crown filed a request for their protection of income should the book leak from the courts before publishing. The judge balked a bit but ordered a time limited temporary protective order over the manuscript until 4/3/17, or whenever Crown publishes the book. The judge ordered the production of the final manuscript to the ACLU by 11/4/2016. Below are the excerpts on the two orders:

IT IS HEREBY ORDERED: 1. The Government shall complete its production of documents pursuant to the court's Order of October 4, 2016 (ECF No. 80) and the subpoena served on June 28, 2016, no later than December 20, 2016. The Government shall produce documents on a rolling basis, and shall file status reports as previously directed.

2. Defendants shall produce to counsel for Plaintiffs the final manuscript and drafts thereof no later than November 4, 2016.
4. Based upon the representations of Crown as to the time and circumstances for publication of the Mitchell book, this Order is subject to modification or termination upon good cause shown, and in no event shall it continue past April 3, 2017 or the first publication by Crown of the Mitchell book.

So, the torture doctor was paid a huge book advance to write a tell-all book about the evil he did, and who he communicated with in the white house I wonder. This is earth shattering. And next Friday is November 4th, when the final manuscript is handed over to the ACLU lawyer sharks. Yummy they will say as they tear it apart feasting.

Does this put a deadline on settling the case?

The court documents included a declaration of Tina Constable, Senior Vice Present of Crown Publishing Group, a subsidy of Random House, the world's largest book publisher. The ACLU lawyers are forcing the doctor to submit the final manuscript to them and the judge ruled that must by next Friday, the 4th.

Crown's authors include George Bush, Michelle Obama, Condoleezza Rice. Tina is the main person for me to contact. I have written a draft letter to her so far.

Website visitors have been light to a few. Two from Punjab, Pakistan, one from Kuwait, Romania, someone in Virginia west of DC, the Netherlands, Louisville, Kentucky, Sicily, Italy, and Denver, Colorado. So, no one I can identify.

This caps the end of a week indicating much going on elsewhere, in regards to cold cell torture and me.

10/29/2016 – Saturday

A few visitors today. At davidbardes.com came the below visitor from New Jersey near Philly. They went to Facebook to look me up. No one emailed me however.

Had visits from Taiwan, Canada, Pakistan, then two people from the UK visited several of the pages. This is the third day I believe someone from Pakistan has visited. 90% chance of being a Muslim, or 2% chance a terrorist, or an undercover CIA agent keeping tabs on cold cell, which may now keep them out of being locked in a cold cell.

Three possible outcomes?:

1) The letter worked, and details are being finalized, announcement pushed off until after the elections. Reuters advanced on the story.
2) The letter failed, the ACLU is pushing for a blood bath, as the frenzied lawyer sharks are still salivating, but their actions lead them down a path of failure and complete loss. Any jury, with today's thinking, is going to acquit CIA officers and President Bush, leaving no justice or money for the victims. I think the ACLU given more time, would conclude their only victory for victims, and their pockets, and their reputation, is to settle along the lines of my latter.
3) President Obama pardons the whole group of bad actors, and forcefully closes the ugly chapter of American torture permanently, ACLU gets screwed, victims get screwed.

At 11:11pm someone in Virginia Beach, VA, Googled and came to cold cell torture website page on suicide watch. This is most likely someone reading the torturegate article and then searching Google for it, finding it, confirming it.

10/30/2016 – Sunday

A few cold cell visitors in the morning, Spain, someone with an iPad in Memphis, TN, someone in NY on Cogent, which is used by the feds, someone in Canada on an iPhone. Then "Drake Holdings" visited, they are an offshore investment information operation reportedly owned by three attorneys from Microsoft Corporate.

WilsonPage | 204.79.180.178 | Oct 30th 10:13:08 | | Mozilla/5.0 (compatible; MSIE 9.0; Windows NT 6.1; Trident/5.0; Trident/5.0) |

Then the same person in Canada visited again.

So not much of anything going on. With this Friday (11/4) being the deadline for Dr. Mitchell to produce his final book manuscript to the ACLU, I wonder if this week will produce revelations bearing fruit? Or are we in a wait until elections over mode?

South Carolina visiting Monday and Wednesday is curious, why were they alerted, and had on their agenda this week cold cell torture and me? And they came because of someone in Charlotte. I would place probability on the feds asking SC to anti-up some of the money to settle me financially, as they are the ones who tortured me getting the whole thing started.

At 10:41pm ET, the below FBI network visited occurred:

The Serbia may be spoofed, has the same user-string as last. They are connected in proximity by their closeness in time, with nothing before or after.

The only way cold cell torture would still be an issue, is if it worked, and is going to be used, in the escape attempt in planning.

So, I would say all systems are go. Yippy!

Later at night someone from Argentina, France, and South Africa visited.

11/1/2016 – Tuesday

A prophetic number day, but not much of anything to report. Someone at archeive.org sent the bots to scan the cold cell site, this firm makes copies of websites over time to keep an archive of what sites looked like in any given point in time.

This morning at 8:47am ET someone in the Philippines visited, then at 9:53am ET someone from the Russian Federation visited. At 2:05pm the below person visited from Austria, at a university.

193.171.202.150
Johannes Kepler University (tor2r.ins.tor.net.eu.org)
Austria, Oberosterreich, Linz, 4020

Then at 5:47pm someone in the amazonaws network visited, same network the CIA uses exclusively.

At davidbardes.com were visitors from France, two from amaxonaws near 3pm ET, and one from the University of Michigan at 5:32pm ET.

35.0.127.52
Ann Arbor, MI 48105
University of Michigan (tor-exit.eecs.umich.edu)

So, something is going on at universities, the CIA is keeping tabs on things, and someone in the Philippines is still interested in cold cell torture. That must be President Obama's anti-friend the whack job president of the Philippines who called our President a "son-of-a-whore" and "how dare he [Obama] school us on human rights, when they torture their own people to death with cold cell torture." So, the stinging barb is digging deeper causing more pain.

Today is concluded same as yesterday, all systems are go.

This Friday, the 4th, is the court deadline for CIA torture doctor to submit his final manuscript to the ACLU lawyer sharks to devour ravenously. Will the book be a white-washed glossy tale, or truthful to the depths of brutality and death? Why was the book scheduled for a first quarter 2017 publication date? What do they know that I do not? A full pardon of all actors by President Obama an assured guarantee therefore the tell-all book can be published without threat of prison, after the first?

The ACLU knows of the looming pardon horizon, enough so to accept my letter as point of settlement, and with a victory and money, as opposed to everything thrown down the drain in defeat?

I would think at some point they would want me to buy into it, and they know that requires money first. The moment their story makes news, my story becomes viable. So, would they not want me pacified when it unfolds?

At 9:13pm ET someone on the amazonaws CIA network visited cold cell, davidbardes.com, lateplanetearth, judgegarfinkel. Someone also visited cold cell at 8-9pm from Indiana, near Cincinnati.

11/2/2016 – Wednesday

Today someone from Slovakia visited, Malaysia, Drake Holdings again, Austria again, the State of Minnesota, someplace in Missouri, Indianapolis, Indiana, someone on Verizon location unknown, then someone from:

198.209.195.63
University of Missouri - dba the Missouri Research
Central Methodist University

Then someone from France, then someone from Winter Springs, Florida.

So, universities are up to something, passing on information? Doing research for a report or thesis?

The areas with a focus in website visits of recent are Indiana around the state, New Orleans, Phoenix, LA area, San Francisco area, Sacramento, Fresno, Las Vegas, Boston, NYC, and lots from Ann Arbor/Detroit area in Michigan, and some others.

I could conclude in the future we will see some publications from multiple locales.

Someone visited from San Jose, CA, then Mississippi, then two from the UK, then at 11:04pm ET someone in Washington, DC visited on their iPad having gone to Google to search for cold cell torture.

ColdHomePage | **173.73.60.10** | Nov 02nd 20:04:36 | https://www.google.com/ | Mozilla/5.0 (iPad; CPU OS 8_4 like Mac OS X) AppleWebKit/600.1.4 (KHTML, like Gecko) Version/8.0 Mobile/12H143 Safari/600.1.4 |

Someone is reclining in bed, before sleep, thinking about tomorrow, which has something to do with cold cell torture, and me.

So, I can conclude the same as yesterday, all systems are go.
At 11:47pm, someone from Marquette, Michigan visited on a Samsung Galaxy S4 Mini Android smart phone on the rural internet provider. This town is on the northern shore of the Northern Peninsula, facing Lake Superior. Prime hunting season in prime hunting location. They Googled and came to the Suicide Page which is common from someone reading the Torturegate article and then searching, as the article does not mention the website. Who could this be? Did someone in the hunting party share the article, and someone then read it at night back in their room, then instantly searched?

Who else is in the hunting party? Duck, quail, geese, moose, bear?

11/3/2016 – Thursday

The below spat of traffic was from this morning within an hour or so, then nothing else since, now 3pm ET.

The first is from the Russian Federation, was not a bot, some on a secured English version Windows XP computer, typed into their browser 'torturegate.com' so they knew what they wanted.

The next is someone in Germany with a PC running Dot Net (replaced VB6) and the largest group of the only people still using dot net is the federal government. This is a government officer with an older clone PC laptop with all the governmental administration software so s/he can work anywhere.

The next two hits were from a recognizable source, the "Fresno County Office of Education" whom visited not long ago doing deep research on cold cell torture, as if preparing for a publishing. If have no idea who they are, a lawyer, a prosecutor, a righteous person, a mayor, a teacher, professor?

The next is from Slovakia. Someone has visited from there before.

Then someone from the NYC area, but on the NJ side, but over the border into NY state. This is a significant visitor, but have nothing to detect identity. They were on a highly secured Windows XP computer, and just typed 'coldcelltorture.com' into the URL box. This could be someone in a data center, going to a PC with outside internet connection. They knew what they were looking for in advance.

Then at 3:27pm, the below visitor went to India's version of Google and searched for "cold cell" and came to the site. They came from a proxy server in Europe, but India is more likely given the Google preference. They have an English version of the common Russian opera browser user string. They too knew in advance what they were looking to confirm, someone new was told or heard about cold cell. A new disbeliever until confirmed in horror.

So, there is stuff going on. Stuffs in many places.

11/5/2016 – Saturday

Almost no website traffic yesterday or today. Someone from Portugal visited cold cell site but that is it so far today (3:32pm.) On davidbardes.com someone at 2:42pm on the amazonaws (CIA's exclusive network provider) network went to a proxy server called "duck duck go" searched for the website and then visited, giving me the hit.

Then 30 minutes later, at 3:19pm, someone on the Cogent Communications (FBI's network provider) visited davidbardes.com and clicked to the pictures page. The IP range is from their bot servers which pre-filters website pages for safety and then displays in a client/server based software program. So, either a human was making the direct visit, or a human pre-programmed a robot to make the visit.

The duckduckgo.com person may be the reoccurring frequently CIA visitor who usually only comes to coldcelltorture.com, but today to davidbardes.com. Why? And the FBI bot visit also came to davidbardes.com and not as always coldceltorture.com. There is absolutely nothing at davidbardes.com, just a facebook page link and email address, then a pictures page with WTC pictures.

Why the CIA and FBI visits within 30 minutes of each other? Sounds like a meeting or conference call. And why to davidbardes.com? Maybe because the meeting was about david bardes? When they have meetings about cold cell torture, they visit coldcelltorture.com. So why have a meeting about me on a Saturday? Because they want me to do something? Something of importance?

At 4:06pm the below person from Dallas, TX visited on an iPhone from Google. Dallas is where President Bush2's business office and presidential library is located

ColdHomePage | 70.195.208.121 | Nov 05th 13:06:57 | https://www.google.com/ | Mozilla/5.0 (iPhone; CPU iPhone OS 10_1 like Mac OS X) AppleWebKit/600.1.4 (KHTML, like Gecko) GSA/19.0.133715217 Mobile/14B72 Safari/600.1.4 |

Fifteen minutes later, 4:23pm, someone on a Mac on Time Warner Cable (road runner) in a location I am unable to determine as DNS record defaults to center of country, visited. Some DNS datasets point to Ohio, but are not reliable.

The proximity in time and no traffic afterward - probabilities fall on involved individuals for all the visits, with one person in Dallas.

So, President Bush2, or his consorts, are spending Saturday afternoon working on me.

According to new court documents in the CIA torture doctor lawsuit, Crown Publishing is upping the release date for Dr. Mitchell's tell-all torture book to on or before November 26, the Saturday after Thanksgiving. Something is going to happen before then to cause the optimal time to publish right into prime Christmas shopping season and profiting right away? Something happening which then makes it legally safe to publish without fear of prison, all before the 26th?

Add to this working on Saturday in Dallas on cold cell torture and me. It seems we now have a time frame for the grand unfolding, the great apology, starting with the day after the elections, and until before November 26th.

The news will break on or before Thanksgiving, with the story playing out in the news and talk shows until Christmas, to sell as many of the doctor's torture books guilt and prison free as possible.

This brings me back to when are they going to contact me, and pay me money, to get me to go along with the media and show spectacular? Perhaps this is why Bush2 is working on Saturday.

Then at 6:05pm ET, someone, below, from Mumbai, India, and Ontario, Canada visited cold cell at the exact same second, the Canada person came back three minutes later having gone to Google.co.ca. I have no clue who they are.

Then at 9:02pm ET someone from West Palm Beach, Florida visited, below.

11/7/2016 – Monday

Election eve, the national nightmare is almost over. Little website traffic yesterday, and today little. Someone from Lehigh University in Pennsylvania visited cold cell. Two from the UK., one from LA, one from Madrid, Spain.

Then at davidbardes.com came the below visitor from Harvard University neurology pathology visited.

gold-nuero-pat.med.harvard.edu

This is an important visitor as prior visits from Harvard Law during the lawsuit, is now neurology at Harvard Medical School. The topic would be hypothermia, and me? And they went to davidbardes.com because they were doing something with david bardes.

11/8/2016 – Tuesday

Election day. Almost no website traffic yesterday and today. Jakarta-Indonesia, Philadelphia, Casa Blanca-Morocco, Saudi Arabia, Kiev, and nothing more.

It is 10:01pm and the race is tight. Below 9:39pm ET, 8:39pm Texas time someone from Houston, Texas visited. Bush2 is home I see.

The balance of power in our nation is neigh, but Bush2 is thinking of me, and the looming great apology. Remarkable.

Then at 10:21pm ET someone in the San Jose area of California visited from a college, below.

California State University, Office of the Chancel

Polls are not yet closed there, and someone is focusing on cold cell torture. Is this part of "wait until after the elections are over" crowd preplanning something even the great apology?

11/9/2016 – Wednesday

A prophetic date, 11/9, Trump won the election in a huge upset for the establishment. The fulfillment of fate has taken its refuge.

Visits to cold cell from Kiev, Tunisia, Netherlands, India, Netherlands again, Philippines, Qatar, Virginia.

At davidbardes.com visits from South Korea, Romania, India, India again, Netherlands, and Dallas, Texas.

The Dallas visit is significant, as Bush2 is getting to work on the great apology, as President Obama is 'Bush2 and folk's last hope for freedom as Trump is a liability at this point. I imagine things will move quickly now. And it appears they have not wasted time.

Below someone from Moscow and Summerville, SC (near Charleston) visited midday. They have relatively similar computers, as user strings are identical except for versions. The second IP also visited the condition of confinement website which is blank.

ColdHomePage | 188.165.29.82 | Nov 09th 13:23:15 | | Mozilla/5.0 (Windows NT 6.3; WOW64; rv:28.0) Gecko/20100101 Firefox/28.0 |

There was an article in the news saying 11/9 has become the new 9/11, so my identifying as a prophetic date has born true.

Then 7:23pm ET someone, below, from Greenville/Spartenburg, SC visited with an iPad. Could this be my friends at the SC Supreme Court like retired Chief Justice Jean Toal? Are they getting hit up for money? Is the plan playing out, quickly?

The above visitor to the proxy server duck duck go came on amazonaws, the CIA backbone at 9:10pm ET.
In the news crowds of protestors are taking to the streets around the country. Could it be a night of discontent with voters voting a second time?

At 9:30pm New Mexico time someone in Albuquerque visited from Google. I have no idea who this may be. Later someone from India visited.

Then, below, the person in Vilnius Lithuania visited davidbardes.com. This person has been visiting for years, many years. I wish I knew who they were, or at least contact me.

11/10/2016 – Thursday

Several website visitors today, Kuala Lumpur, Malaysia, Netherlands, several from the UK, India, several from Ireland, someone from 'Conformal Systems, LLC' which is a crypto-currency company, Oslo, Norway, Netherlands, and Italy.

At davidbardes.com came someone from the Netherlands visited twice several hours apart. So many things going on in many places.

Later someone from Slovakia visited cold cell, then the below person from Austria visited Google.at searched and clicked on coldcelltorture.com. They visited the FBI page which means they were searching for FBI and cold cell.

FBIPage | 178.191.208.95 | Nov 10th 15:25:42 | http://www.google.at/url?sa=t&rct=j&q=&esrc=s&source=web&cd=21&cad=rja&uact=8&ved=0ahUKEwiYzL7SnZ_QAhXGvBQKHa97ANQ4FBAWCBwwAA&url=http%3A%2F%2Fcoldcelltorture.com%2Ffbi.php&usg=AFQjCNFQK2ms0HIH-MgfzcwgugTGTXjLBg | Mozilla/5.0 (Windows NT 6.1; WOW64; Trident/7.0; rv:11.0) like Gecko |

Then later someone from Cicero, IL visited as well as someone from the UK.

Visits from the Northern Europe Baltic States and the UK are up, wonder what is brewing.

11/11/2016 – Friday
Another prophetic number date, 11/11. Nothing prophetic has happened today that I am aware, so far that is.

On coldcelltorture.com visits today from Brazil, someone in Romania visited eight pages, reading each, someone in Spain visited, Durham, NC, then someone in Northeast Ohio, Cleveland area visited from searching in Google, then someone from Jakarta, Indonesia visited.

On davidbardes.com, the person from Romania visited, someone in Stockholm, Sweden visited.

Today is veteran's day, and not much of anything going on I can detect. The visit from Durham is of importance. Stockholm, Sweden is home of the heavy thinkers which Nobel laureates know well.

11/12/2016 - Saturday

Zilcho today on the website, almost no visitors, on davidbardes.com someone from Romania visited again. On coldcelltorture.com someone from the Netherlands visited, India, Oklahoma, someone in St. Louis from Bing search, Phoenix, Arizona, Poland, and someone from Turkey via Google.tr. The FBI IP's bots sucked in several pages, not sure if such requested in client/server, or roving http bots.

No one from the government types.

Is this the quiet before the storm, or did Bush2 and crew talk to Trump and secure promises to keep litigating protecting torturers, thus calling off the Great Apology. Or, are all systems go, which means this week brings the news, or Thanksgiving week.

Crown Publishing, owned by Random House, the world's largest book publisher, timed the release of the Dr. Mitchell's tell-all CIA torture book for black Friday, or before, release date. They would do this to maximize profits as they paid Mitchell a large sum, so to recoup such, needs big slash in the news, as in riding a wave of a big news story with wide reporting.

Random House/Crown must print large quantities of books and distribute well before the announcement of publish date. So, they are locked in already. They can only publish without fear of prosecution of author after safe to do so. After the Great Apology, and after Federal District Judge Quackenbush signs the settlement agreement. Which may happen this week, or Monday or Tuesday of Thanksgiving week.

President Obama I assume would want the safer Great Apology more than a hard pardon with resulting national and International uproar haunting his legacy.

If Trump keeps his enemies list as reported on CNN yesterday, then safe to say both Bush brothers may not receive mercy so readily. Probability falls on all systems go, and this is the calm before the storm. It is 6:28pm ET.

Later on someone from Italy visited, Las Vegas with an iPhone, and Moscow.

11/13/2016 – Sunday

At 3:37am ET this morning/last night someone in Hawaii visited, it was 10:37pm in Honolulu.

ColdHomePage | 76.173.241.233 | Nov 13th 01:37:55 | https://www.google.com/ | Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/54.0.2840.71 Safari/537.36 |

I Googled "where is President Obama now" and found in the Hawaii news that he is there. Must be an 'after many weeks of election campaigning for Hillary' mini-vacation in Hawaii. And before his last trip later this week to Europe three nation tour scheduled before and assuming Hillary was going to win.

So, what was on his mind before bed? Maybe something which will play out in the news while he is conveniently away? The daily press briefing can put off questions until after the President's returns.

I assume the President wants the Great Apology to come off as planned, as promised, without backfiring on him. So do they all.

I keep coming back to the same question; I assume they want me to go along with the unfolding which would require the money paid first. So far nothing from no one no how.

Other website visits: Hungary, Italy, Portugal, Poland, France, DuckDuckGo proxy visit, Brazil, Brazil again, France again from google.fr, Reunion, India, and Germany from google.de.

On davidbardes.com someone from Poland, Netherlands, and someone from Godaddy or their servers.
With President Obama off this week explaining to foreign leaders why Trump was elected and that he has no idea what it means for them, makes for a situation where the Great Apology must come off and be successful, else it could backfire. The stakes are high, perhaps this explains President Obama's visited from Hawaii last night.

11/14/2016 – Monday

Quiet so far, visits from Abu Dhabi, United Arab Emirates, Nigeria, France, India, Las Vegas, the below visitor from Finland from searching Bing for "cell torture."

ColdHomePage | 85.76.108.78 | Nov 14th 05:46:13 | https://www.bing.com/search?q=cell%20torture&form=MB1078&mkt=fi-FI&setlang=fi-FI | Mozilla/5.0 (Mobile; Windows Phone 8.1; Android 4.0; ARM; Trident/7.0; Touch; rv:11.0; IEMobile/11.0; NOKIA; Lumia 635) like iPhone OS 7_0_3 Mac OS X AppleWebKit/537 (KHTML, like Gecko) Mobile Safari/537 |

Then South Korea, Pakistan, Tennessee, Wilmington, Delaware, then the below visit from Kentucky, having Googled "what is suicide watch like in jail."

On davidbardes.com someone from Switzerland visited, and Norway. The below visitor is from the Palestinian Territory, the second visit ever from there.

ColdHomePage | 213.6.64.67 | Nov 14th 14:25:48 | | Mozilla/5.0 (Windows NT 6.1; WOW64; rv:40.0) Gecko/20100101 Firefox/40.1 |

I just checked PACER for any updates in the CIA torture doctor's lawsuit, *Salim et al v. Mitchell et* al (2:15-cv-00286-JLQ) and there was an order from the judge on the 8th, but nothing since then. I read the order; the judge denied several requests from both the doctors and the DOJ/CIA who are being sued by the doctors to help them.

It is clear the US Courts are against the doctors and the DOJ/CIA only in regards to the torture. I guess the courts are not too happy having to carry the water for so long, only to wind up getting my lawsuit, to slap and embarrass the justices back into common sense, and leave an oil slick of complete corruption leading back to each of them.

The Great Apology seems to still be on track. Bush2 and crew are not likely to place their freedom from prosecution on Trump even if Trump said or made a promise he would not prosecute; too risky. President Obama is their last hope of certain soon freedom, the Great Apology being their salvation. They are going to use me and my letter of 9/1 as the basis for the terms of the settlement, and its further effects. They told the Reuters reporters in advance, who visited coldcelltorture.com having been told by Bush2 and crew, to confirm its existence.

The question is to what degree my story, letter, and suit will be mentioned in the unfolding. "The man who stopped torture and murder in our jails and prisons," may be a possible result, or I will only be mentioned in long articles and not noticed by all but a few. Or not mentioned at all. The answer is we will soon know.

Whatever the above results, it will be a point in time where no one needs to continue protecting Bush2/Cheney/DOJ/CIA, no more need for fear. Afterwards my story can be told widely with no one getting napalm on them. My story therefore becomes viable and can be monetized.

11/15/2016 – Tuesday

This morning CBS News reported on President Bush2 and Mrs. Laura Bush adopting a puppy. Over a few short months George has painted 98 portraits of wounded warriors and is publishing a book of them in the spring. He posted to Facebook the below.

Over the past several months, I've painted the portraits of 98 wounded warriors I've gotten to know - remarkable men and women who were injured carrying out my orders. I think about them on #VeteransDay and every day. Their paintings and stories will be featured in PORTRAITS OF COURAGE - a book and special exhibit - next spring, and I am donating all my proceeds to @thebushcenter and our Military Service Initiative's work to honor and support them. George W. Bush and Laura Bush adopt a puppy
By Rebecca Shabad CBS News November 15, 2016, 9:10 AM
http://www.cbsnews.com/news/george-w-bush-and-laura-bush-adopt-a-puppy/

This sounds like therapy to relieve worn out abject fear of being prosecuted and imprisoned. When the US Supreme Court turned on Bush2/CIA/DOJ on April 15th which resulted in the CIA torture doctor's lawsuit not being dismissed, the pressure and stress stepped ever higher. As the lawsuit was litigated the federal judge ruled against the doctor's and CIA/DOJ time and time again until backed up against the wall.

This made the pressure skyrocket. George took to paint, brush, and canvas at a fast clip. He painted 98 of them in about as many days. This is speed painting. Which means the fear was abject.

George knows prison is where hypothermic torture kills inmates; he does not want to become me. He saw me as someone who wanted to make him me, and I had succeeded in court to those ends. Then I wrote my forgiveness letter to US AG Lynch on 9/1, providing a graceful ending with no one going to prison. All parties jumped on it, and gave birth to the Great Apology. Afterwards all fear is gone, and Bush2 gets his reputation back for having done the right thing, apologize formally and privately.

And the puppy is a sign of good times ahead, painting is over, fear is over, time for pooper scooper and house training. Remarkable.

The way God has made this all happen leaves me stunned and speechless. Never would I have thought all this possible, and all from the confines of my two-room cabin in the mountains of western North Carolina. I never left home, yet fully implicated the executives of two Presidential administrations and even the entire US Supreme Court, in unwavering and complete corruption. Remarkable.

Website traffic today very light. Someone from Malaysia visited. Below is someone from the Philippines again, likely the whack job president giving more grief to President Obama.

ColdHomePage | 120.89.37.117 | Nov 14th 20:22:33 | https://www.google.com.ph/ | Mozilla/5.0 (Windows NT 6.1; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/54.0.2840.87 Safari/537.36 |

Then someone from Italy, Saudi Arabia, OhioHealth Corporation in Columbus, Ohio, Phoenix Arizona. On davidbardes.com someone from Fremont, CA visited. Then

someone from Mexico, Ukraine, Romania, someone in the US on TimeWarner, amazonaws (CIA network), and France.

11/16/2016 – Wednesday

Another prophetic date but so far nothing prophetic. Someone from Spain, Miami/Dade on a LG Android phone on T-Mobile, visited. Then someone from Bay City Michigan visited several pages. Then someone from Virginia visited several pages. Someone from the Kentucky Schools around Lexington visited. Then France, Romania, Las Vegas, and DuckDuckGo proxy on the amazonaws (CIA's network.) Romania seems to be a repeat almost every day, wonder who.

Then the people from "Fresno County Office of Education" visited again but only went to the first page, no others. They are checking in to see if anything new has been posted. Not long ago they did a lot of research and visited each page, as if preparing for some publication, which has not occurred yet. Two and a half hours after the first visit they came back and visited the first page twice, which means they were clicking and reading something on the first page. Perhaps they are updating and finishing something.

Twenty minutes later someone from London using Bing visited. Then some in Woodland Hills, CA visited, just outside the LA area. Twenty minutes later someone else in LA visited.

Then someone in Brooklyn, NY visited the CIA page from an iPhone.

On davidbardes.com someone from an Internet ISP in San Angelo, TX visited. San Angelo is way out in the middle of Texas, I wonder what they want with me? Does someone want to securely communicate with me without a trace? Here is the log visit:

HomePage | 199.249.223.73 | Nov 16th 16:47:53 | | Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/52.0.2743.116 Safari/537.36 |

It looks like all systems are go.

Someone from Panama visited at night.

11/17/2016 – Thursday

A really prophetic date, 11/17. I check PACER today and found several motions and a proposed order filed by the two CIA torture doctors. They are asking to compel the two living torture victims to travel to the US for depositions and medical exams by 2/17/17, another prophetic date.

Up to this time I put the probability of the Great Apology happening at 80%/20%. Today I drop it to 60%/40%.

I wonder if the Great Apology has been called off, or the ACLU refused to accept, or if they even know about the letter at all. Could President Obama just plan on an announcement, forcing the issue, ushering in the Great Apology, and laying the blame on my letter? But only the judge can end the lawsuit, by ordering the settlement. Which may be what they are doing now.

The lack of government-type visitors since after the election is circumspect. Other than Dallas visit the morning after the elections, then Greenville, SC visit (SC Supreme Court-they control money), and President Obama's Hawaii website visit last Saturday night, there have been no more significant traffic (other than proxy visits with identities unknown.)

So, the elections either kicked things into high gear, or the ACLU called things off, pissed off about the election results, and wanting to continue litigating. But that runs afoul of a hard pardon President Obama would be forced to effect. Leaving the ACLU's efforts as waste.

Given President Obama's website visit on vacation in Hawaii after the elections, bodes well for the ball being in his court.

Then the publisher of Dr. Mitchell's tell-all CIA torture book, Crown/Random House, is slated for release on black Friday. Has this been called off? That would require a new filing in court, none as of today. So, does this mean it is still on?

So, this would produce outcomes and probabilities of:

30% - Judge approves joint settlement, Great Apology unfolds.

30% - P. Obama forces Great Apology before black Friday, gives pardon to all (the highest level of permanent immunity) lawsuit is voided, all the other suits as well.

35% - ACLU balked, litigation proceeds, no Great Apology.

5% - other

I think the first two would lead to me getting the great bag of money, and or the time in which my story becomes viable and monetizable. The third means no bag of money, no viable story. Not until after P. Obama hard pardon's the bunch. Then it would be viable. That means waiting until 1/20/2017.

Today website traffic was light, once again. Visits from Angola, below a visitor outside the Philadelphia area Googled "cold cell torture" and then visited. They heard or was told something not believed, so take to Google.

ColdHomePage | 73.81.152.254 | Nov 17th 09:38:22 | http://www.google.com/search?q=cold+cell+torture+&btnG= | Mozilla/5.0 (Mobile; Windows Phone 8.1; Android 4.0; ARM; Trident/7.0; Touch; rv:11.0; IEMobile/11.0; NOKIA; Lumia 928) like iPhone OS 7_0_3 Mac OS X AppleWebKit/537 (KHTML, like Gecko) Mobile Safari/537 |

Someone from Serbia visited, Panama again, Guangdong China, and then Denmark.

On davidbardes.com only one visitor, from Freemont, CA. This person has visited several times, on the Hurricane Electric network.

That is it as of 8:57pm ET.

11/18/2016 – Friday

Only visits from Denver, CO, Mexico City, Germany, India, San Diego, and Liberia.

I found the below Fox News article on a federal judge ordering cold cell to stop and start monitoring temperatures in cell. This is the Everest of my efforts, only dreamed would happen someday.

11/19/2016 – Saturday

This date in 2002 Gul Rahman was tortured to death with hypothermia.

I found the below article about more of the CIA releases as a result of the torture doctors ACLU lawsuit. VICE wrote about the latest release which details the brutality

of Rahman's murder as never before. Ice showers days and nights in cold cell, and show what the CIA was hiding, but now out.

11/7/2016 - VICE NEWS- **Unmasked: The CIA officially identifies the architects of its post-9/11 torture program** - By Jason Leopold, Funmi Akinyode and Ky Henderson on Nov 7, 2016 https://news.vice.com/story/james-mitchell-bruce-jessen-cia-torture-program

Website visits today from the Netherlands, Germany, Singapore, Serbia, Portugal, Las Vegas, Mexico, and Poland. Someone from NYC at "The City University of New York" visited.

11/20/2016 – Sunday
One or two visitors today, nothing of interest. President Obama is in Peru, not sure when returning. This is the calm before the storm, so very clam, eerie calm, means the storm is going to be a big one.

The great day of jubilee is near. The rejoicing in heaven has already begun.

Around 9pm someone from the Philippines visited. Their whack job president was in Peru at the summit and apparently spoke with P. Putin. I wonder if he returned home and visited the website.

11/21/2016 – Monday

President Obama arrived home in DC at 2:35am ET, and had nothing else on his calendar.

I checked PACER today and found a motion and exhibits filed last Friday the 18th. Mitchell and Jensen filed a motion to dismiss and supporting exhibits and a hearing date was set for 1/19/2016 to decide on motion. This is one day before President Obama leaves office and Trump takes the reigns.

The legal argument the doctors used is that the torture victims were "properly" detained as "enemy combatants" by the United States therefore the Military Commissions Act (MCA) disallows suing the torture doctors as they had full immunity as contractors for the United States.

This appears to be the chosen method to dispose of the lawsuit, on 1/19, then President Obama signs the full pardon before leaving the White House the following morning.

I visited Crown Forum for Mitchell's torture book and it was on the cover page. I clicked on the book and it brought me to Penguin Random House, the owner of Crown and world's largest book publisher, showing the book and its publish date of 11/29, next Tuesday, and they were taking preorders.

Tuesday after Black Friday and Cyber Monday does not make sense, more likely by Black Friday or before. Some event must precede and build widespread interest. Something like the Great Apology. Which means tomorrow, Tuesday, or Wednesday. Or Friday. Friday seems not a great day to break a news story except it would feed the Sunday news shows. It could also be next Monday or Tuesday but that would miss two of the year's biggest shopping dates.

My take on the odds:
70% Tuesday or Wednesday
10% Black Friday
10% Next Monday or Tuesday
10% Not until 1/19

One of the unknowns is if the ACLU is going along with it, or if they even know about it. Is it going to be a surprise for them? That would not go over well, so more likely they will rally behind it with support. It would be a victory for them.

As of 5:47pm at coldcelltorture.com had visits from Florida, New York, Hungary, LA, Brazil, Florida again, Bataan Rouge LA, someone in NYC the Bronx at "Wildlife Conservation Society", and Germany.

France, Serbia, the UK, the UK again, Google cloud, someone in Chicago at "Trustwave Holdings" an information security firm. Otherwise that is all.

Found an article on CBS News about last Thursday's release acknowledging the Bureau of Prison's visit and training at Salt Pit and Gitmo, because of the ACLU's lawsuit demanding release of the visits. Salt Pit was defined as "the closest thing he has seen to a dungeon." And "in a facility that was described to be 45 degrees Fahrenheit." As a result the ACLU is dropping their case against the bureau. It ends up a lot happened last week.

11/22/2016 – Tuesday

As of 3:30pm absolutely nothing going on. Nothing in the mail box, nor bank, nor news. I am past the point where I thought something would happen, but so far nothing.

So far visits from Brooklyn, NY, Argentina, New Hampshire, Charlotte, NC, Canada, Bronx, NY, Flint, MI, Italy, Spartanburg/Greenville, SC, and outside the Chicago area. On davidbardes.com someone from Austria at "Johannes Kepler University" visited. The Charlotte and South Carolina visits are meaningful, but not sure how.

11/23/2016 – Wednesday

As of 12:48pm ET absolutely nothing has happened. My guess as to the unfolding before Thanksgiving was wrong. Now it will be after Thanksgiving but before or on next Tuesday, or not at all.

Visits today to coldcelltorture.com are Poland, LA, DuckDuckGo proxy visit, Germany, Philippines, India, France, Bronx, NY, Shanghai, China, someone in LA again, Spain, Chicago, West Chester, PA, and Egypt.

11:01pm ET

One of the forest fires is close to me, started in South Carolina in Table Rock Park, the fire is called the Pinnacle Mountain Fire. It has been burning for a week, but has grown to 6,000 acres and crossed into North Carolina by leaping the ridge line. Around 9pm many, many fire trucks raced by and "brush trucks." Fire companies as far away as Oklahoma rushed to the scene, all a mile down the road from me.

I turned on the county fire radio broadcast and listened. As the fire was out of control coming down the ridge, the following burst came over the radio:

'There is nothing to stop it.' 'Does that mean evacuations?' 'Yes, that is what we are working on now.' 11:01pm ET – 11/23/2106 - Voices on fire fighters radio in Transylvania County, as the forest fire leapt the ridge and started moving downhill.

Then around midnight a small chain of small rains clouds came right over the fire areas and it rained putting most of the fire out. At 12:40pm fire crews were called back to the station, done for the night.

On Facebook the below person commented on just this miracle and saving grace:

Julie Morgan Nowak - Just an hour ago they posted the fire was getting closer and crews were out trying to slow it down or stop it. I can't believe how close it is to us and the Debora Bryson Simpson's. About 15 minutes ago I went out with Blitz, and dry as usual. Just now I went out again and it's gently raining a little. I looked at the radar map and it appears to be raining right over the fire/burning areas! There's a little more hit or miss light showers coming our way for a short while, but it's a beginning and should slow the fire down at the very least. I am especially and extremely thankful this Thanksgiving for prayers answered and so many good people fighting to protect us, away from their Thanksgiving, family, and homes. Thank you from the bottom of my heart.

I say Amen!

11/24/2016 – Thursday – Thanksgiving Day

Quiet day compared to a hectic night of having to abandon the cottage, once again faced with the decision to keep or not keep my stuff.

A few website visitors. The one below from Helsinki Finland, went to Bing and searched for 'cell torture.' Likely someone overheard a conversation but only got the cell torture part.

ColdHomePage | 85.76.51.196 | Nov 23rd 12:00:38 | https://www.bing.com/search?q=cell+torture&FORM=HDRSC1 | Mozilla/5.0 (Mobile; Windows Phone 8.1; Android 4.0; ARM; Trident/7.0; Touch; rv:11.0; IEMobile/11.0; NOKIA; Lumia 635) like iPhone OS 7_0_3 Mac OS X AppleWebKit/537 (KHTML, like Gecko) Mobile Safari/537 |

Also visits from Canada, Singapore, Estonia, France, Russia, UK, Kansas City, Denmark, Poland, Delaware, Aruba, Argentina, and Myrtle Beach, SC.

On davidbardes.com someone in Chicago visited, then again someone in Chicago, Netherlands, and Russia.

My predictions for the Great Apology happening this week were absolutely wrong. Absolutely nothing has happened. There have been no visits from DC or Bush2 and crew, not since election night. Other than the SC visits and Hawaii visit from President Obama, there has been no meaningful traffic.

I still assume the Great Apology will happen but more likely next Monday or Tuesday, as Tuesday is the publishing date of Dr. Mitchells torture book.

11/25/2016 – Friday

Quiet day only a few website visitors. Someone from Canada, DuckDuckGo proxy, Ontario, Canada, Ireland, Detroit, Brazil, and India. On davidbardes.com visits from Switzerland and not much else.

As of 5:30pm someone from Cicero, Ill visited, and someone in NJ next to Philly, Romania, then someone from yesbank.com in NJ near Philly.

TD Bank is a huge bank in the US East and Canada. This would explain the Ontario Canada visits. Is this something to do with money?

Someone on AT&T, possibly Atlanta, searched Bing for the Jerome Laudman lawsuit. They use Bing to not track searches.

Then two people from Ukraine visited. Then someone from Bologna, Italy.

Then the long-awaited visit from Houston, Texas, home of President Bush2. Friday night at 9pm Houston time, on his iPhone having gone to Google.

ColdHomePage | 66.87.121.121 | Nov 25th 19:19:09 | https://www.google.com/ | Mozilla/5.0 (iPhone; CPU iPhone OS 8_1_3 like Mac OS X) AppleWebKit/600.1.4 (KHTML, like Gecko) GSA/20.3.136880903 Mobile/12B466 Safari/600.1.4 |

This means of course, the Great Apology is full steam ahead, maybe even with TD Bank with the Great Bag of Money steaming towards me. Lol.

I am pleased.

11/26/2016 – Saturday

Last night someone from Boston College visited, and Nova Scotia. Then this morning someone from Spain visited, Ukraine, then someone in Dallas visited early like 5am Texas time, below.

ColdHomePage | 166.137.125.19 | Nov 26th 05:56:48 | https://www.google.com/ | Mozilla/5.0 (iPhone; CPU iPhone OS 10_1_1 like Mac OS X) AppleWebKit/602.2.14 (KHTML, like Gecko) Version/10.0 Mobile/14B100 Safari/602.1 |

This would be someone in Bush2's business office, waking early to work on me?

Then someone in India visited. I would say things are moving along, mere days away now.

Around noon the below visitor from the Philippines again. This is someone with their whacked-out president who is killing his citizens in the streets and called President Obama a 'son of a whore' and not to criticize him since we torture to death our own people like in cold cell torture. A guilty conscious I would glean and a thorn in our President's foot. The thorn must be trying to dig in deeper.

ColdHomePage | 49.144.210.163 | Nov 26th 11:42:28 | https://www.google.com.ph/ | Mozilla/5.0 (Windows NT 6.1; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.106 Safari/537.36 |

Then someone from Israel visited.

11/27/2016 – Sunday

Quiet day, only a few website visitors. Someone from Brooklyn, NY visited, Memphis, TN, then below someone in the Bahamas went to DuckDuckGo proxy to hide themselves, but clicked on the hompage again giving me the hit from Nassau, Bahamas.

ColdHomePage | 107.21.1.8 | Nov 27th 08:34:32 | http://www.coldcelltorture.com/ | Mozilla/5.0 (compatible; DuckDuckGo-Favicons-Bot/1.0; +http://duckduckgo.com) |

Then someone from the Netherlands visited, India, and Austin, Texas. On davidbardes.com someone from the Czech Republic visited.

Otherwise nothing else. The next two days are going to be telling.

By 10:49pm a few more visitors. Someone from Iowa, Columbus, GA, then someone in central PA, Harrisburg area, then two visits together one from Maryland the other near Seattle, WA. These two could be one of the torture doctors talking with someone in the DC mega-state area.

ColdHomePage | 172.58.97.242 | Nov 27th 21:32:53 | https://www.google.com/ | Mozilla/5.0 (Linux; Android 7.0; LG-H918 Build/NRD90M) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/54.0.2840.85 Mobile Safari/537.36 |

Then an hour later someone in Houston, Texas visited, from an LG smartphone model "LG-H918." This is one of President Bush2's phones, based on previous visits including from Maine. Perhaps he was on the phone with the torture doctors and someone in the DC area going over last minute plans. Synchronizing watches so the mission will be a success.

They are mere hours away from their freedom from prison and will then be able to sleep at night, after fifteen years of not. They were checking my website hoping I was still going along with it. Which they do not know, but need hope of such, their last hope. The only unknown left.

11/28/2016 – Cyber Monday

As of 1:17pm absolutely nothing has happened. Someone from United Arab Emirates visited, then someone from Google Cloud visited, as well as someone using Bing on an unknown IP. Then someone from Sri Lanka, then Romania, then the Netherlands.

Otherwise nothing has happened.

Speak too soon: At 1:21pm someone with an iPhone in the Dallas area visited. Forty minutes later they visited again. Are the expecting a change at the website?

The person below, from Helsinki, Finland searched Google for "anything" and they clicked to the coldcell website on the Laudman page.

LaudmanPage | 95.175.97.229 | Nov 28th 13:06:17 | http://www.google.com.my/search?q=anything&ie=utf-8 | Mozilla/5.0 (Windows; U; Windows NT 5.1; en-US) AppleWebKit/534.7 (KHTML, like Gecko) Chrome/7.0.514.0 Safari/534.7 |

I visited whitehouse.gov to view President Obama's schedule and found the below. The President and Vice President is attending meetings at the White House. I wonder if they are regarding the unfolding of the Great Apology?

In the morning, the President and the Vice President will receive the Presidential Daily Briefing in the Oval Office. This meeting is closed press.
In the afternoon, the President will attend meetings at the White House.
In the afternoon, the Vice President will also attend meetings at the White House.
https://www.whitehouse.gov/blog#today

5:50pm – a unknown car came in and around the circle, they stopped giving them full view of my cottage. I turned on my outdoor light and they drove off. Is someone doing a pre-drive to see if I was home?

At 7:15pm ET the below visitor from Ontario Googled 'temperatures in prison cells' and clicked through to coldcelltorture.com. I wonder if this is more TD Bank people, as their headquarters are there. Maybe someone overheard cold cell talk and had to verify for themselves.

ColdHomePage | 99.224.46.3 | Nov 28th 17:12:25 | http://www.google.ca/url?sa=t&rct=j&q=temperatures+in+prison+cells&source=web&cd=1&ved=0ahUKEwjFzq-E18zQAhVBwlQKHZeiAUQQFggdMAA&url=http%3A%2F%2Fcoldcelltorture.com%2F&usg=AFQjCNFBOZKiBZjuOdkn-vOZO2HVuUhIGw | Mozilla/5.0 (iPad; CPU OS 5_0_1 like Mac OS X) AppleWebKit/534.46 (KHTML, like Gecko) Version/5.1 Mobile/9A405 Safari/7534.48.3 |

Before and after the above hit, someone outside of Atlanta visited, then came back later again.

As of 1:38am (29th) nothing has happened. No contact no money. I still believe tomorrow, well, today now, will unfold the Great Apology in the news. I assume President Obama's afternoon meetings in the White House must have been conference calls with all the people who visited last night (Bush2, torture doctor, others.)

I guess the term is locked and loaded and ready to fire. I guess they either will give me money or not give me money. I lean towards give but losing ground fast to not.

Either way my story becomes fungible.

11/29/2016 – Tuesday

It is 12:12pm and absolutely nothing has happened. Dr. Mitchell's torture book is now for sale as today was publishing date. But nothing has launched the book yet. Here the book's URL:

http://www.penguinrandomhouse.com/books/537150/enhanced-interrogation-by-james-e-mitchell-phd-and-bill-harlow/

Had another visit from Houston, TX, this would be Bush2.

Website visits from Wisconsin, Poland, Romania, the UK, the UK again, Delaware, and Canada. On davidbardes.com someone from Portugal and Romania visited. I sure get a lot of visits from Romania, wonder who.

I checked President Obama's schedule today:

2:50 PM - The President departs the White House en route Bethesda, Maryland
3:10 PM - The President visits the Walter Reed National Military Medical Center
4:50 PM - The President departs Bethesda, Maryland en route the White
5:00 PM - The President arrives at the White House

Is the Great Apology going to unfold while the President is conveniently away, only to return to the White House at 5pm to take questions?

I am still under the assumption the Great Apology will unfold today.

Visits from Indonesia, Philippines, and Bangladesh. Then someone in Seattle, WA on a Lynx text browser on Comcast Business visited coldcelltorture.com and Cocact.com. Then someone in Cincinnati visited, wonder if this is cousin Dee Dee?

At 3:34pm ET, someone in Greenville/Spartanburg, SC area visited on their iPad, below. This would be the SC Supreme Court/Justice Toal people, they visited last week, having been contacted by Bush2, likely about money.

ColdHomePage | 66.168.32.12 | Nov 29th 13:34:30 | | Mozilla/5.0 (iPad; CPU OS 9_2 like Mac OS X) AppleWebKit/601.1.46 (KHTML, like Gecko) Version/9.0 Mobile/13C75 Safari/601.1 |

It seems many have checked in today and yesterday, Bush2, torture doctors, South Carolina friends, are they anticipating the website coming down?

At 5:20pm ET the below visitor from the Czech Republic searched for "cold torture" and clicked to the website. Seems the topic is making rounds.

The below visitor from "Maine" on Time Warner would be President Bush2 with his iPad. I guess he flew up their today. The IP below, in the middle, is from Liberia, Africa. I do not know if this is Bush2 talking with someone in Liberia or if by themselves.

Then at 6:22pm ET, the below visitor from outside the Washington, DC area visited. This is the first DC area visit in quite some time.

At 6:25pm ET someone in India visited.

Many eyes on the prize I see. From what I can observe something is going to happen soon. My guess as to when has been wrong so far, save happening tonight as the last window in my badly guessed time span.

Then at 7:45pm ET someone in Washington, DC visited using a Mac computer on Cox network.

This is the second DC visit this evening, and its only 7:54pm. I see them watching me. The great watch is on I see.

Around 9pm someone in Croatia, below, tried hacking into the website, by sending code to the PHP engine hoping for a directory of files for the website. It did not work, I have nothing to accept the code. It just displays the top page.

Someone from Huntsville, Texas visited several pages. Then someone from South Florida visited, then the UK.

11/30/2016 – Wednesday

It is 12:42pm ET and nothing has happened. Very light website traffic. Someone from Poland visited, then Madrid, Spain, then Vienna, Austria, then somewhere in Virginia at Radford University, and then someone in Newark, NJ at the Newark Public Schools visited. At davidbardes.com someone from Romania visited.

Otherwise this is all for today. Very quiet.

I just checked PACER for the CIA torture doctor's lawsuit and found a new motion filed by the two doctors to extend discovery deadlines, with a hearing schedule today to expedite their motion.

Is this hearing a ruse to propose a settlement in the case so the judge can approve and gavel the dismissal? Is this why Bush2 visited yesterday as well as all the others?

I just read two articles surmising Trump would dismiss the torture lawsuit out of national security, and the ACLU must know this, and the pressure is on to have any form of a victory before such.

At 3:01pm ET someone in Wilmington, Delaware visited, below. I wondered if Vice President Joe Biden lived there and he does. I have had previous visits from

Wilmington, so this could be he. It would make sense for him to be in the loop, and waiting today for something, hence the visit.

HomePage | 23.92.122.240 | Nov 30th 13:01:53 | http://www.davidbardes.com | Mozilla/5.0 (Windows NT 5.1; rv:35.0) Gecko/20100101 Firefox/35.0 |

I visited the US Court's page for the Western District of Washington State to view their calendar for today. The 11/30/2016 hearing with Judge Quakenbush was not on the schedule, so was it private, in chambers, or other? I do not know the time of the hearing, its 3:55pm ET here now, so the hearing could still be going on. Perhaps VP Biden is waiting too.

Let it rain. We are under a severe thunderstorm warning and the rain is steady. Yesterday's and today's rain is the first in four months. The rain is putting out the forest fires, amen. Monday night 90-mph winds blew the forest fire into Gatlinburg, TN with little warning and people were 'running for their lives' the mayor said. One resort of 100 buildings was destroyed, a 16-story hotel burned, four people were killed, tragically. One firefighter said the Apocalypse was on both sides of the town. The Michael W Smith song "Let it Rain" is playing out, as the dreaded night of fire from hell, is quenched and drenched with the first rain in four months. And of all days today, the timing is auspicious.

I just found a Politico article written yesterday about Sen. Feinstein's continued efforts to get President Obama to declassify the full 7,000 page Senate report on CIA torture:

11/29/2016 - POLITICO
Under the Radar - by Josh Gerstein on the Courts, Transparency, & More
http://www.politico.com/blogs/under-the-radar/2016/11/feinstein-cia-torture-report-231978

Sen. Dianne Feinstein is making a determined but last-ditch attempt to get President Barack Obama to declassify a nearly-7,000-page Senate report about the use of harsh interrogation techniques by the CIA under President George W. Bush.

Feinstein sent Obama a letter last week urging him to make the unabridged version of the Senate Intelligence Committee's so-called "torture report" public in a declassified form before he leaves office Jan. 20. She said Tuesday that she also buttonholed Vice President Joe Biden this week to make sure Obama got the message.

"Last night, I handed a letter to Joe Biden to give to the president, so — be sure he got my original letter. You never know," the California Democrat said, according to her office. "So, the time has come. The issue has been raised; it's been raised by the president-elect. It's time to address it. Let's look at the facts. The time has come to declassify the report, allow the general public to make up its own mind. At least, those that'll read 7,000 pages."

This helps explain why VP Biden is watching the website, as a lot is riding on the positive outcome.

It is 8:27pm ET, 5:27pm PT, and nothing is in PACER or reported anywhere. Only two visits to the cold cell website, one from Mexico the other somewhere in the US on Verizon.

I know from website traffic a large number of people are waiting, watching, and wondering about winning or not.

9:35pm ET, a memorandum appeared in the court docket, something in opposition to a past motion, with statements by two people. Seems routine. It is 6:35pm in Seattle, so the day is done.

If nothing is going on why are so many watching? Or is the group behind doors in chambers at this hour? Hammering out the deal even with the US Supreme Court justices getting involved?

Someone from Quebec visited but that is it as of 10:47pm ET. All those people watching have not visited tonight, like they did the last three nights/days. Did the settlement not work? I guess the unknown link was would Federal Judge Quackenbush going along with it? Did he balk? Or did he go along with it and they are all waiting until tomorrow to make news reports?

I have no idea, as without website visits or Google searches revealing anything I am as blind as a bat.

At 11:11pm ET someone in Maine visited. This would be Bush2 or compatriot. It is a different Samsung Android smartphone than before, but still a Samsung.

cpe-74-65-138-140.maine.res.rr.com

Does this mean news? Why check on me? I know nothing, as Klink used to say on Hogan's Hero's. If the settlement did not work why would he bother with my website at 11pm at night? If it did work he would be happy, visiting me being the next person he will visit, with the Great Bag of Money, before they reveal the Great Apology to the world.

I apply probabilities and percentages to events themselves suspect. It is maddening.

At 12:29am ET the below visitor from University of Michigan visited davidbardes.com.

12/1/2016 – Thursday

So far, as of 5:52pm nothing has happened.

The website visitor below, in Pasadena, CA, went to Google of India to search for "cold torture for wife" and clicked through to the website giving me the hit. I guess someone's marriage is not going well and they do not want authorities obtaining Google searches proving premeditated murder. The oddity is they are on Level 3 Communications network, which is part of the backbone for some of the 17 federal intelligence agencies.

Last night around 2am someone in the LA area with an iPad visited about eight of the pages reading them. Someone was doing research and learning.

Someone from Sri Lanka visited, then India, then someone from the Atlanta area, then Taiwan, then the Newark Public High Schools, Newark, NJ, then someone in South Africa visited a few pages, then late afternoon at dark the person from Atlanta visited again. Lastly someone in the Minnetonka, Minnesota high schools visited.

So the story is making the rounds in high schools and colleges, in the Hollywood area, and someone in Atlanta, otherwise absolutely nothing. No mail, no email, no phone call, no news in PACER, no news reports in Google.

If I were to guess what was going on, two of the possibilities are Judge Quackenbush is not yet finished, nor signed, the lawsuit settlement, which could involve the US Supreme Court justices, as they will come under the microscope too. The second is the settlement has already been approved and signed, and the unfolding is being coordinated by the various parties as I write.

It was the US Supreme Court who told Judge Quackenbush not to dismiss the torture doctor's lawsuit, as well as all the subsequent rulings against them, so it makes sense Judge Quackenbush would consult the Supreme Court Justices in the event of a settlement.

I call it a lot of people trying to protect their asses. How can we protect all of our asses they might have said to each other?

Maybe it is not going well, hence the silence. President Obama is right now lighting the White House Christmas tree with his lovely family. I assume President Bush2 is still in Maine, doing exactly what I am doing, waiting.

I have been waiting a long time. Patiently. Julius Caesar once said "it is easier to find men willing to die, then to wait with pain and patience." I understand.

12/2/2016 – Friday

Late last night someone in Baton Rouge, LA visited the website. Also someone in British Columbia, outside of Seattle visited around midnight.

ColdHomePage | 23.16.114.139 | Dec 01st 23:43:44 | | Mozilla/5.0 (iPhone; CPU iPhone OS 9_3_5 like Mac OS X) AppleWebKit/601.1.46 (KHTML, like Gecko) Version/9.0 Mobile/13G36 Safari/601.1 |

Then around 2am ET an article was published on a well know Canada Blog about different torture techniques, and they included "Cold Cell" and provided a link to the website. Below is the text of the article and URL.

the 15 craziest forms of psychological torture
8. Extreme Temperatures
The use of extreme temperatures is a type of "enhanced interrogation" used by the CIA and FBI. Although it involves physical sensations, it's considered psychological torture because it's not directly physical. Freezing temperatures can also be used in sleep deprivation techniques.

A type of this is called cold cell torture, and it involves using air conditioners to subject prisoners to freezing temperatures. Hypothermia is a common side effect, and one website called ColdCellTorture.com says that this form of torture has a mortality rate of 50%.

If the body temperature drops below 90 F, there can be cognitive effects such as amnesia. Below 86 F, organ failure and death can occur. Of course, the opposite of this is using extreme heat, which can result in heat stroke if the body temperature rises above 104 F. Even with the appropriate treatment, heat stroke is usually fatal, so this form of torture walks the line between physical and psychological.

http://www.therichest.com/shocking/the-15-craziest-forms-of-psychological-torture/

This article was found by many, fast. There were visits from the article from

Switzerland, Philly, outside of Denver, outside of Houston, and outside of Atlanta.

ColdHomePage | 178.197.229.13 | Dec 01st 23:21:47 | http://www.therichest.com/shocking/the-15-craziest-forms-of-psychological-torture/ | Mozilla/5.0 (Linux; Android 6.0.1; SM-G935F Build/MMB29K) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/54.0.2840.85 Mobile Safari/537.36 |

So the Bush2 and crowd know about the article, and I am sure are not too happy about it.

Also had visits from India, Pakistan, India again, Germany, Philly proxy, Google proxy in Philly, Nassau, Bahamas, the UK, and India again. So something is up, something is going on.

The US Supreme Court meets today in conference (behind closed doors) and may be dealing with the torture issue, giving final approval or balking? According to ScotusBlog the justices approved six petitions and other things, so it was a normal conference day.

As of 5:14pm only had website visitor from Italy, Germany, and the Russian Federation. Nothing in PACER, no news.

On Routers, there was an article about the President of the Philippines, Detute or such, called Donald Trump and spoke for a few minutes. I am curious if Detute spoke of the US torturing to death its own citizens like from coldcelltorture.com? The probability is medium to high that he did, or will shortly. As it seems to be the whack job's only ammunition.

This would mean Trump knows, or knew before even. Spilled ink travels the farthest.

How did all the visitors to the blog torture article find it so fast? All the reoccurring visitors of late found the article and clicked on the article's link giving me the hit. There were from "Philly, outside of Denver, outside of Houston, and outside of Atlanta." The Houston one I assume is a Bush2 connection, Atlanta has visited a lot lately. Denver and Philly too. There have been no other hits from that article today.

They do not like the article, evidenced by their fast discovery. Do they hope to hide the un-hidable?

And who is in Nassau, Bahamas? They have visited before, something with banking perhaps.

It is now 5:41pm Friday afternoon, and another week comes to a close, with nary a word.

Patience is a virtue.

Someone from Kiev visited, then someone outside of Minneapolis, MN visited.

I checked PACER and found two new entries to the docket. Judge Quackenbush granted the two doctor's motions regarding confidential information like doctor's reports, and extending deadlines.

The second entry was the sealed document and three sealed exhibits. Seems routine late Friday afternoon orders issued.

I really have not a clue at this point. I know stuff is going on which will conclude before noon on January 20, 2017, or before.

12/3/2016 – Saturday

Quiet night and quiet day. Only a few website visitors, Delaware, Wisconsin, Russia, Greece, Switzerland, Kentucky, India, Russia again, Qatar (came from the blog torture article), Ukraine, Egypt, the UK, and then someone outside of Boston/Providence area.

Otherwise nothing. No contact. At this point I have no intentions on going along with whatever is being planned or effective. No one has communicated with me therefore I go along with nothing. No more forgiveness, just prosecutions and imprisonments, which is what I should have stayed with from the beginning.

I fully own my story, with no restrictions in recanting, and am free to take the most prosperous path to financial reward. Because after January 20, 2017 my story becomes viable as President Obama will pardon the bad actors.

What I have been calling the Great Apology has not come to fruition, and may have been stopped and rejected by the courts. Hence the silence. C'est la vie.

12/4/2016 – Sunday

Very quiet day. Several website visits from the UK, Quebec Canada, Malta, outside of Atlanta, Germany, France, Japan, Pakistan, the UK again, and the below visitor from

Norway proxy Googling 'jail cell torture' so someone heard something to check out for themselves.

On davidbardes.com one visitor from outside of Detroit, Michigan, one other from Switzerland.

Otherwise absolutely nothing going on. Something did not work or did not go well, and the bad actors are left to the whims of the court. The great apology may have been called off.

12/5/2016 – Monday

Very quiet, nothing going on, that I can tell. No significant website visitors, nothing in PACER or the news. Whatever was in the works seems to be cancelled or did not work.

Website visits from someone in the UK, Indonesia, West Chester University, PA, Quebec, Canada, Belgium, France, Australia, Gainesville, FL, the UK again, UK again, Carbon Lehigh Intermediate Unit 21 (high school), PA, and Pillsboro, IN.

It seems President Obama is going to have to do a hard pardon on January 19th, on his way out of the White House. The great apology failed, most likely rejected by the federal judge and or supreme court justices.

12/6/2016 – Tuesday

Website visits from Spain, Saudi Arabia, Provo, Utah, Google proxy in Florida, Mexico, Phoenix. Arizona, DuckDuckGo proxy on CIA network, India, Singapore, Fidelity Investments in Boston, London, Wheeling, WV, the Netherlands, Pakistan, Abu Dhabi, United Arab Emirates, and Belgium.

Otherwise nothing going on.

It is after-hours in DC, and someone is working late, on hypothermic torture. This is at least a sign something is going on.

At 9:43pm ET President Bush2 visited from Maine, on his iPad which I see he has updated to the latest of version 10. Yippy. He is waiting too I see. Judge Quackenbush is writing an historical document, one examined for centuries, so he is going to be melodramatic and make everyone wait on him. He will be hailed a hero for his just ruling and powerful words reverberating forever. My country that I love is governed by a charade. An illusion. Lol.

12/7/2016 – Wednesday

A prophetic date number, 7, two more days to 12/9, the anniversary of discovery of the bullet in 2011, and the Senate CIA torture report and Marshall Project article in 2014.

At 4:23pm ET, 2:23pm MT, someone on XFINITY WiFi in Salt Lake City, Utah, searched Bing.com (to not track searches by IP) for "cold torture." Whenever someone in the federal government requests a data query from the NSA super data center South of Salt Lake, I find out about it many times because the computer technician tasked with fulfilling the query request, is curious enough about the request

words to see for themselves just what it is, in this case "cold torture." S/he visited and learned right away, it kills the victims. Yikes.

This means someone is doing research, coupled with the visit yesterday from the DOJ, I would say someone is doing their job. Yesterday also had a visit from Albany New York, who would be those state lawyers using my cold cell website for research in their lawsuit against the jail medical provider who killed three inmates, one with hypothermia. So, the person in the DOJ has spoken with lawyers in Albany, and today did a deep data query for "cold torture."

This is exceedingly good news. Are they heading something off at the pass, or preparing for appearance of a large spotlight on the subject, or moving towards prosecutions, even to avoid embarrassment? I am all in, with all of the above, and more.

All of this edifies me and my long struggle.

Other visitors today from Google proxy visit, DuckDuckGo proxy, Albany, New York, Spain, Iowa, Boulder, Colorado, Israel, another Google proxy visit. At davidbardes.com someone on a proxy server in Germany visited.

This person in Vilnius, Lithuania has visited for years, but I have no idea who they are. I hope someday to find out who they are.

It is 7:13pm ET and I just checked PACER and no new filings. It is 4:13pm in Seattle.

It is 10:32pm and I checked PACER and found four new entries to the docket. It appears the torture doctors filed a reply memorandum with motion for sealing documents. Seems routine. Litigation goes forward.

12/8/2016 – Thursday

Quiet as of 12:12pm.

Website visitors from Ukraine, Ontario, Canada, Cupertino, CA, Tulsa, OK, Malaysia, Singapore, Brazil, Quebec, Canada, New Port News, VA, and some in Utah on the Utah Education Network.

At 2:59pm ET someone visited from:
New Jersey Higher Education Network, Newark Public Schools, host195.nps.k12.nj.us
They first visited from Google proxy, moments later giving away their IP data.

77.247.181.165
At 5:26pm ET I had a visitor to davidbardes.com from the above IP address. The address is a confirmed TOR connection, a proxy server, a very secure one. The IP coordinates place it in the middle of the South Pacific. This is someone who knows what they are doing and do not want to be identified. They know I am watching website traffic logs and how much information they can reveal. Even with identity masked, the visit alone confirms someone is watching my website, in regards to me.

At 10:19pm someone visited cold cell from a TOR node proxy server in Bucharest, Romania. More people from Romania, who is in Romania who cares so much about cold cell torture? It is almost daily.

12/9/2016 – Friday

Today is a prophetic number day and the anniversary of discovering the bullet in 2011, and date of publishing the Senate CIA torture report and Marshall Project article in 2014. Now this day in 2016 nothing has happened and it is 5:00pm ET. I checked PACER and nothing new there.

Medium volume website traffic, someone from Jawa Timur, Indonesia visited, Western Australia, Croatia, Casablanca, Morocco, the Philippines, someone from Drake Holdings, Auburn University, Alabama, New Port News, Virginia, the nation of Georgia (near Russia), Spain, Zurich, Switzerland, Fresno County Office of Education, California, Belgrade, Serbia, someone on Telepacific Communications, and Islamabad, Pakistan.

The Philippines visit must be connected to their whack job president who called President Obama a "son of a whore." I guess they are still digging in the thorn deeper.

Fresno visit are the people who did deep research into cold cell torture, writing I believe something to be published, where, what and when I have no idea, but they are still on their pursuit I see by their visit today.

I've had repeat visitors from the Baltic countries especially Romania. Something is going on there. Other visits are first time ever from places.

Otherwise nothing going on, and another week closes with nothing happening.

It is 9:18pm ET and I checked PACER and found two new entries, both from Dror Ladin, the chief ACLU lawyer. Ladin filed a motion in opposition to the doctor's motion to dismiss, she included a declaration and exhibits. She states the torture victims were never declared enemy combatants and the doctors were never agents of the sovereign, rather independent contractors, contractually, and therefore the motion to dismiss under a narrowly defined military regulation granting immunity does not apply.

It appears Ladin is correct, and the motion to dismiss is defeated. So at the very time, the doctors, their lawyers, Bush2, CIA, DOJ, are all digesting these filings to decide their next actions.

It also appears Judge Quackenbush is not working on a settlement after all. I have been under false assumptions. The case is being litigated onward. Then why all the website visits from Bush2 and folks, what were they watching for so many times?

The ACLU has to know about the probability of President Obama giving a hard pardon over all the actors, rendering their lawsuit void. Or have there been, and are there still, behind the scenes negotiating a settlement? Will there be an apology or a hard pardon? I do not know, and my guesses have all been wrong from what I can ascertain.

These fresh court filings will be digested, so perhaps such will lead to more website visits as they narrow their available options.

12/10/2016 – Saturday

Quiet day. Visitors from India, Russia, Australia, Detroit area, Mumbia, India, Mumbai, Germany, Jawalakhel, Nepal (first ever visit from there), Drake Holdings again, Germany, Charlotte, NC, Miami, Florida, West Palm Beach, Florida, and Slovenia.

The Charlotte and Florida visits are significant and the happened in a group. Miami could be Jeb! Bush, who lives there. The others, friends, or associates. More Baltic country visits. First visit from Nepal, that is why up in the back country in ice cold mountains and glaciers, now cognizant of cold cell torture.

The below visitor from Saudi Arabia, had searched Google of Saudi Arabia for "torture cold and hot temperature" resulting in returning the FBI page from ColdCellTorture.com upon clicking the link to my website, giving me the hit and search string. The subject has been getting around Saudi Arabia recently.

FBIPage | 5.41.154.146 | Dec 10th 14:51:35 | http://www.google.com.sa/search?safe=active&ei=mXhMWIvwHMKqa7vPhtAP&q=torture+cold+and+hot+temperature&oq=TOrture+cold+and+hot+temp&gs_l=mobile-gws-serp.1.0.33i160k1l2.58732.65073.0.66672.5.5.0.0.0.0.2615.4046.2-3j5-1j9-1.5.0....0...1c.1j4.64.mobile-gws-serp..0.4.1430...33i22i29i30k1._phYD4k2xDg | Mozilla/5.0 (Linux; Android 4.2.2; en-gb; SAMSUNG GT-I9500 Build/JDQ39) AppleWebKit/535.19 (KHTML, like Gecko) Version/1.0 Chrome/18.0.1025.308 Mobile Safari/535.19 |

The below visitor from Cedar Rapids, Iowa, clicked on the cold cell link in the torture article published on the Canadian blog, in Quebec.

ColdHomePage | 97.127.131.199 | Dec 10th 16:39:03 | http://www.therichest.com/shocking/the-15-craziest-forms-of-psychological-torture/8/ | Mozilla/5.0 (Linux; Android 6.0.1; SAMSUNG-SM-G920A Build/MMB29K) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/54.0.2840.85 Mobile Safari/537.36 |

Otherwise, that is it.

At the moment, I do not have a bearing on what is going on, and the time is past waiting for any communication. I have drafted a letter to the publisher of Dr. Mitchell's torture book, since no money has materialized and I am running out of money, I need to dedicate my efforts to selling the story for publication regardless if highly embarrassing for the guilty criminals.

12/12/2016 – Monday

Quiet day, but some interesting visitors.

I have had for quite some time someone using the DuckDuckGo proxy on the amazonaws network, from which the visitor's real IP address is hidden. Until today.

The first hit below was the proxy, the third is the actual person and their IP address, which homes to the Bahamas. The middle hit has no user string but homes to Seattle, WA, and was only seconds before, so not sure if related or some bot by coincidence.

This person has been consistently visiting for a long time, who the hell is it? Bahamas are known for offshore banking and money, the largest employer are banks and investment corporations.

Then last night, sorry, 4:00am this morning, someone near the center of Washington, DC visited on an Android Samsung smart phone on Verizon's FIOS (fiber optic) network which wires most of DC.

They went to "google" which is unusual for government types, they tend to use Bing because searches are not tracked by IP address. So who is it, so early in the morning, getting up early perhaps for something to go to?

Other visitors from the UK, France, Portugal, then many visits from the UK, Saudi Arabia, the Philippines, then Saudi Arabia again, then Turkey.

Late in the day someone in Manassas, Virginia, near DC, visited, then someone from Fort Collins, Colorado, Poudre School District R-1, extboss2.psdschools.org, visited, then Slovakia, and then Germany.

The Saudi and Philippines visits were close together, I wonder if that whack job president who called President Obama a "son of a whore" is talking with the Saudi's in some unholy manner?

Something is going on in DC today I can glean, but who knows what.

12/14/2016 – Tuesday

Two days have lapsed so some of this is catch up.

Visits from the nation of Georgia, someone in the DC area from "pool-173-66-197-86.washdc.fios.verizon.net" Then the Netherlands, France, Atlanta, the person below from Birmingham, Alabama, searched Google for "freezing to death in jail."

ColdHomePage | 71.45.84.72 | Dec 13th 06:10:00 | http://www.google.com/search?ei=y_FPWKy3BYXFmQGa-aXACA&q=freezing+to+death+in+jail&oq=freezung+to+death+in+jail&gs_l=mobile-gws-serp.1.0.30i10k1.5741.12548.0.14601.26.26.0.4.4.0.202.2721.16j9j1.26.0....0...1c.1j4.64.mobile-gws-serp..0.26.2389.3..0j41j0i67k1j0i131k1j0i3k1j0i10k1j0i13k1j0i13i30k1j0i22i30k1j33i21k1j33i160k1j33i22i29i30k1.xA3i8JlnuPY | Mozilla/5.0 (Linux; Android 6.0.1; SAMSUNG SM-G930V 4G Build/MMB29M) AppleWebKit/537.36 (KHTML, like Gecko) SamsungBrowser/4.0 Chrome/44.0.2403.133 Mobile Safari/537.36 |

Then visits from New York City, then from the "District School Board of Pasco County," Florida, then Pakistan, India, Russia, Ukraine, Poland, Lubbock, Texas, Leesville, SC, Canada, Ukraine, Albuquerque, NM, Russia, India, someone in the US on Verizon network, and the below Washington, DC visit again on "pool-100-15-77-211.washdc.fios.verizon.net"

Then New York City again, then Florida, then Romania, India, Poland, then New York City again, then New York City again, then someone below in Belgium on their Google version searched for "torture cold."

Then India again, and India again, then a medical office in Arizona, then the Netherlands, then Bulgaria, then France, Canada, Kuala Lumpur, Malaysia, then the Dallas, Texas area on "47-32-219-54.dhcp.ftwo.tx.charter.com" Then finally, Uruguay.

So, with five visits from New York City perhaps these are the ACLU lawyers just now getting my settlement letter, maybe now they are getting to what I thought had already happened.

Then two visits from Washington, DC, and Texas means things are going on.

12/18/2016 – Sunday

Yesterday, Saturday afternoon the below person from Dallas visited, where Bush2's library and business office are located. So someone is working on Saturday on me.

Also had visits from Brazil, Romania, Illinois, Pakistan, Luxemburg, Google proxy, India, Estonia, Czech Republic, Vienna, Austria, Brazil, Canada, Bosnia and Herzegovina, Canada, Portland, Oregon, Drake Holdings, Google proxy, South Africa, Argentina, the UK, Wisconsin, Malaysia, Malaysia again, India, San Diego, CA, Mexico, Oregon, someone from Fidelity Investment is Boston, MA, Newark Public Schools, NJ, and Pennsylvania.

I checked PACER and there are two new filings, supplements from the doctor's lawyers, so nothing important.

At 3:27pm someone at the "State of South Carolina" visited, from Google visiting the Laudman page, the SC inmate frozen to death.

So, somewhat busy, my friends are working on me.

12/21/2016 – Wednesday

Monday I overnighted FedEx to Tina Constable, the publisher of Dr. Mitchell's (CIA torture doctor) book. She is with Crown Publishing which is owned by Random House, the largest book publisher in the world.

I sent her a letter, the SCOTUS petition, complaint, and my 9/1 letter to US AG Lynch. I was hoping to land a book deal.

The packet was received in the morning, but Tina took the packet home to read, and 7:42pm, she and three other people visited the cold cell website, indicating they have read and spoken about it.

Tina visited from NYC, two people from Wichita, Kanas, and one from Michigan.

This means she got it and spread the word. So far, no contact, but someone from NY and NJ seems to be doing fact checking.

Other visits from Mexico, Australia, and Spain. On davidbardes.com someone from Jamaica visited, Brevard, NC, Netherlands, and France.

It is now 8:40pm ET and only two visitors all day, one from Slovenia, the other Italy.

Absolutely no word from Tina at Crown. Other than the four visitors last night from Tina's reading my story, nothing else has transpired. What a disappointment, and waste of $48 overnighting the packet. And so much for a book deal, leaving me to publish on demand for free.

Christmas is on Sunday, today is Wednesday, so most are packing it in for travel about now.

12/22/2016 – Thursday

I am working in Betsy's store today, as Betsy is in Charlotte and Allie flew to Florida for Christmas.

Very light website traffic, someone from San Diego, CA visited, Newark, NJ, the UK, the UK again, the UK again, and again, Minnesota, Morocco, and Nepal.

12/23/2016 – Friday

Yesterday morning I posted a new entry to the cold cell torture website stating the following:

12/21/16 - Book titled "Unspeakable Pain" set for April 2017 publication date
The book chronicling hypothermic torture/homicide is set for a publication date of April 2017. Will be available on Amazon.com as a paperback, and an eBook wherever eBooks are sold.

Then last night at 10:33pm ET President Bush2 visited the website from Houston, finding the new entry.

SuicidePage | 66.87.121.252 | Dec 22nd 22:33:19 | http://www.google.com/ | Mozilla/5.0 (Linux; U; Android 4.4.2; en-us; LGLS740 Build/KOT49I.LS740ZV6) AppleWebKit/537.36 (KHTML, like Gecko) Version/4.0 Chrome/30.0.1599.103 Mobile Safari/537.36 |

Then today at 4:10pm ET someone from phone number 682-319-1930 called my cell phone twice letting it ring twice, then hanging up before I could answer it. The number is from Dallas/Ft. Worth, where Bush2's library and business office and lawyers are located.

The only way they could have acquired my cell phone number is from the masthead of my letter to Tina Constable at Crown, which she obviously gave to Bush2, who was worried, and then visited my website reading about the book, causing his employee's in Dallas to contact me verbally so no trace can be created.

Shortly before this, someone from Charlotte, NC visited the website at 4:04pm ET, perhaps connected to the people in Dallas.

This means Bush2 is not at all happy I am writing a book making him look like an idiot, and now he knows I know about Justice Scalia's planned hunting trip, which is highly embarrassing for Bush2. Now after all the silence, he wants to prevent the book from being published. I did not call the number back.

With President Bush2 terrified that I have ability to destroy his legacy, it appears I am in full control of President Bush2, and all of them actually.

At 7:54pm ET I texted to the above phone number "you rang?" I checked to see if it was a cell phone and it is, so they got it. It is now 10:19pm, and no reply. I am sure Bush2 is dining with family with feigned niceties, thinking about me and my book.

12/24/2016 – Saturday – Christmas Eve

Quiet day. Visitors from Egypt, France, Indonesia, Poland, Columbia, South America, DuckDuckGo proxy, TOR proxy, Salt Lake City Utah, Ohio, LA, CA, Romania, San Francisco, and Russia.

On davidbardes.com someone from Qatar visited, Stockholm, Sweden, Romania, Russia, Russia again, and Slovakia.

All those people who have done great harm to me and others, are having a nice Christmas with families, while I am forced once again to spend a Christmas broke and unable to afford presents for my children. I am bitter today.

It is 7:00pm ET, and had visits from Phnum Penh, Cambodia, France, and Poland. The Cambodia visit is a first time from there visitor.

12/25/2016 – Sunday – Christmas!

Website visits from Algeria, Italy, Cape Town, South Africa, and someone below from Poland Googled "torture cold" and learned.

ColdHomePage | 213.127.237.232 | Dec 25th 06:28:24 | http://www.google.pl/search?q=torture+cold&oq=torture+by+cold+&gs_l=mobile-heirloom-serp.1.0.0i22i30l4.3210.22735.0.25141.25.18.5.2.2.0.217.2787.1j14j3.18.0....0...1c.1.34.mobile-heirloom-serp..2.23.3109.FMVpwGlJbZU | Mozilla/5.0 (Mobile; Windows Phone 8.1; Android 4.0; ARM; Trident/7.0; Touch; rv:11.0; IEMobile/11.0; Microsoft; Lumia 435 Dual SIM) like iPhone OS 7_0_3 Mac OS X AppleWebKit/537 (KHTML, like Gecko) Mobile Safari/537 |

The only visit from the states was someone in Phoenix, Arizona. On davidbardes.com someone from Liberia visited, and Moscow.

12/27/2016 – Tuesday

Brazil, Stockton, CA, India, Philippines, Hong Kong, DuckDuckGo proxy, Netherlands, the Netherlands again, the UK, France, Slovakia, Netherlands again, Brazil again, Switzerland, Luxembourg, Ireland, and Romania.

Yesterday, 12/26, at 2:34pm ET: cpe-24-33-137-42.cinci.res.rr.com – Cousin Dee Dee visited same time someone in Dallas visited meaning they were both on the phone. So Dee Dee is the intermediary.

Then today, 12/27, and 12:53pm ET, Bush2 visited from Maine.

cpe-172-101-34-157.maine.res.rr.com
ColdHomePage | 172.101.34.157 | Dec 27th 10:53:57 | https://www.google.com/ | Mozilla/5.0 (Macintosh; Intel Mac OS X 10_9_5) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/55.0.2883.95 Safari/537.36 |

Then today in the mail I received a letter from the SSA stating my SS Disability benefits are starting up again and I will be paid ~$9k in back payments and will be paid going forward, including Medicare. The letter was dated yesterday, and the only explanation is Bush2 made it happen, fast.

Bush2 must me spooked by my letter to Crown Publishing, as he sure has been busy since learning I knew about Justice Scalia's private hunting trip.

12/29/2016 – Thursday

Quiet, still nothing happening. Dick Cheney visited last night, below, to both cold cell and conditions of confinement websites, so he is consternating. Also someone near Houston visited, perhaps someone with Bush2.

ColdHomePage | 69.144.142.150 | Dec 28th 20:35:14 | | Mozilla/5.0 (Windows NT 6.1; WOW64; rv:40.0) Gecko/20100101 Firefox/40.1 |

No check from SSA either.

Other visits include Finland, Germany, Illinois, Malaysia, Pakistan, Slovenia, Sweden, Norway, Chile, LA, India, India again, Google proxy, Indonesia, Canada, Indonesia again, and Azerbaijan.

12/31/2016 – Saturday – New Year's Eve

Of all days, the last day of the year, and I received the SSA payment of $9,296.10 in my checking account this morning, and all my disability benefits have started back up, including full Medicare. Thank you George Bush2. I took the book listing off the

cold cell website so they can see the effort is appreciated. It also proves Bush2 was the one behind stopping the benefits.

Website visits today from Australia, Pakistan, Bronx, NY, someone in Baltimore, MD on Verizon FIOS, France, Ukraine, and Bronx, NY again.

1/3/2017 – Tuesday

Steady stream of website traffic. Visitor from Virginia outside DC, LA, CA, Canada, Netherlands, Malaysia, someone in Rhode Island visits eight pages, viewing all, then Kentucky, Italy, the UK, UK again, Malaysia again, India, Austria, Spain, Mexico, Greenville Tech College, Greenville, SC, and Korea.

1/7/2017 – Saturday

Only run-of-the-mill website traffic. There is no reason to watch traffic anymore

1/18/2017 - Wednesday

Very little website traffic, some from NYC. Trump's inauguration is Friday 1/20. So far, no contact with anyone, but am expecting something soon.

1/22/2017 – Sunday

Not much of anything going on. Some web traffic yesterday and last night, but otherwise no indication of anything going on. At this point I think something has gone wrong. Maybe Obama did not pardon the bad actors. Or, something is in the works and I just have no idea.

1/25/2017 – Wednesday

The last few days I have emailed with Cousin Dee Dee to see if she was in the loop, or not. Given her evasive answers I believe she is in the know. Website traffic shows she is in loop.

So, I went to George W. Bush's website and found the contacts in his business office. I emailed the "scheduling" email address:

(sent 11:24am ET)
Dear Sir or Madam,

President Bush knows me from the torturegate scandal. I wish to open a dialog with the President, as it may be time to do so. Thank you,
David A. Bardes
(address, contact info)

As of 6:47pm ET, no response.

1/26/2017 – Thursday

Yesterday President Trump ordered a review of torture, to see what should be done. Trump is pro-torture, but his new CIA director and the military director are against it.

Last night someone in the DC area went to Bing and searched for "COLD CELL" all in capital letters. Then someone from the Columbia, South Carolina visited and went to two pages.

Then this morning someone else from South Carolina visited.

Then later this morning someone on the FBI's Blue Coat Systems network visited, below.

ColdHomePage | 8.28.16.254 | Jan 26th 10:07:59 | | Mozilla/5.0 (Windows NT 6.1) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/55.0.2883.87 Safari/537.36 |

Then someone from Cabot, Arkansas visited two pages. Then at 2:41pm someone from Salt Lake City visited. The NSA super datacenter is located there, and it is common for some analysist searching 'cold cell' to do an outside search to see what the hell it is.

SuicidePage | 67.42.30.176 | Jan 26th 14:21:00 | https://www.google.com/ | Mozilla/5.0 (Windows NT 6.1) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/55.0.2883.87 Safari/537.36 |

Then someone from the UK visited.

No word from President Bush, but the South Carolina visits are significant and may be related to money for me, as Bush knows what I am writing about, and if he wants my story silenced, which appears to be the case, then payment of money secures such.

Then at 6:04pm ET someone in Dallas, Texas visited.

So, I can conclude wheels are turning.

1/27/2017 – Friday

The person from Australia visited again, and someone from Bismarck, North Dakota, then Tausan, Arizona, Sweden, then Miami, Florida. Otherwise not much today.

Secured lease today at 259 Whitmire Street, Brevard, NC.

1/30/2017 – Monday

Yesterday Bush2 visited from Maine (74.75.204.147), then someone in Dallas visited (158.85.184.118), then today someone in Wilmington, DE visited (104.160.9.90).

So, something is going on, but as of now, no contact.

As of 8:06pm ET no contact.

Today marked a milestone in that I moved out of Rainbow Lake Resort and live downtown in the Lumberyard District. I leave Rainbow Lake behind, where a lot of good was done, writing the NDE book, *Bardes v. Auld*, and the CIA agent living next door. Also, left the crazy people behind, thankfully.

1/31/2017 – Tuesday

Little website traffic, someone in Austin, Texas, and someone on Verizon Wireless location unknown. I do not have internet access yet, so I have to drive to the store to use Wi-Fi.

Tomorrow is a week since I sent the email to President Bush2's scheduling person in Dallas. I know they got it from the website traffic since. I am at a loss as to what is going on. It is more wait and wait.

In the meantime, I am writing and potentially filing a claim only lawsuit.

2/2/2017 - Thursday

Last night someone from Durham, NC visited davidbardes.com. This could be Sheriff Mike Andrews, having been alerted by Cheney/Bush2 as to continued use of cold cell torture.

Then today someone from Drake Holdings in Chicago, Ambler, PA, and Fredericksburg, VA visited coldcelltorture.com. Also, someone from a California school district, Riverside, visited.

Later the person from California visited again, and the person who keeps visiting from Lithuania visited, having Googled "cold torture."

2/3/2017 – Friday

Last night someone from Denver visited coldcelltorture.com, also someone from South Florida. At davidbardes.com someone from Atlanta visited on the AT&T wireless network.

Later in the evening at the cold cell site, someone from Jacksonville, Florida visited, then Fairmont, Minnesota, then the Google proxy in Texas, and someone using duckduckgo proxy.

So, something is afoot, but my feet have no idea.

Late during the night someone in St. Petersburg, Florida and Seattle Washington visited. Perhaps with CIA in Florida and the CIA torture doctors in Seattle.

At 10:00am my internet service was hooked up, so once again back in business.

Later came visits from Atlanta again on AT&T wireless network, someone South of LA, CA, then Oregon, then Riverside California again. And Quebec, Kansas City.

That's it as of 9:12pm.

2/4/2017 - Saturday

For the past three days, I have been writing my book at a constant pace. I have made it past the difficult and painful to remember parts, so the hard part is over. It is really good. Far better than I ever thought. It is amazing what God did with one common man. It leaves me in awe.

Only a few website visitors. Several Yandex.ru search and visits from Russia, both last night and today. Someone in Brazil visited, someone with an iPad in Summerville, SC, visited two pages coming from Google. Then Riverside, California again. Lastly someone in Minnesota visited.

As of 11:55pm, that is all.

2/5/2017 – Sunday

Lots of visitors late last night and today, for a Saturday night and Sunday rather busy.

Someone from Germany visited, Germany again, then someone from Michigan and Google proxy visited together. Then Germany again, with several visits from Russia using Yandex.ru to search and find me.

Then Germany again, and someone from the DuckDuckGo proxy. Then Germany again from someone using Google.de.

Then someone from Alabama on T-Mobile network. Followed by another visitor from Germany also using Google.de. Then the DuckDuckGo proxy visitor came again.

Then someone from the UK, then France.

On davidbardes.com someone came from Dallas, Texas, below:

This might be President Bush's business office people, working on a Sunday afternoon.

Then someone from Ukraine.

As of 4:18pm, this is all.

2/9/2017 – Thursday

Yesterday Jess Sessions was confirmed as our new US AG, sworn in, and took over. I was curious if such would produce any website traffic, and the answer is yes.

Around 5pm, someone in Philly visited, then San Diego, someone in Colorado, someone at Penn State, then Australia, then Fairfax, VA, near DC, then Istanbul, Turkey.

At 9:40am, someone in NYC visited, then NYC again, on secured servers. Then the UK.

Something triggered the NYC visits, who could be the ACLU lawyers getting wind Sessions would cancel their lawsuit or such. The DC visit along with someone in Australia at the same time, is significant, but just what I have no idea.

2/11/2017 – Saturday

Little website traffic. Someone from Eastern North Carolina, and Saudi Arabia. Otherwise not much.

2/17/2017 – Friday

Finished writing my book, took me 17 days to write, more to edit. Website traffic went dead, when I started writing.

2/19/2017 – Sunday

An article was published yesterday on FoxNews, detailing a late Friday closed door meeting, at Capitol Hill, between FBI Director James Comey, and Richard Burr, and the other members of the US Senate Foreign Intelligence Committee. It was hurriedly put tougher, and said Burr, was jogging to the meeting ducking reports. Comey came in with his large group of protectors, so reporter knew something was up.

Afterwards, none of the senators would tell them what the meeting was about. There was no usual step to the microphone and say something useless. The reporter guessed it was from some Russian hacking issue.

http://www.foxnews.com/politics/2017/02/18/amid-russia-concerns-comeys-closed-door-hill-visit-results-is-uncanny-silence-among-lawmakers.html

I smelled a rat. Perhaps the Comey rushed to Burr, as Chairman of committee, to report I was writing my book, telling the whole story, making fools out of all of them. Betsy was really pissed when she read the chapters about her, after giving Allie a draft copy. Betsy got my father on the issue, Betsy wanted to sue me. Betsy did not like

the parts on oral sex with John Magera, I told her call Cindy, as she was the one who told me.

Between Cindy and my father, word must have gotten back to Bush/Cheney, DOJ, and FBI director. Who said we have to pay Bardes now, or we all are cooked. To get money, Comey had to go to the wallet, congress. Burr has been trying to make torture go away, and still denies it. So write a check.

Then today, Sunday, at coldcelltorture.com, at 6:06pm, someone in Greenville, SC area, visited, below IP. Perhaps those from Jean Toal, retired Chief Justice of the SC Supreme Court, who handles money in the state, when being sued. So, she, or similar, may have been contacted, it is time to pay.

Then at 8:00pm, someone in Annapolis, MD, visited davidbardes.com.

Then 33 minutes later, at 8:33pm, someone in Tampa, FL, visited, below IP. CIA headquarters being there, may be someone at home, on Sunday night. Thinking of me.

HomePage | 47.196.165.239 | Feb 19th 18:33:29 | https://www.google.com/ | Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/56.0.2924.87 Safari/537.36 |

Something is up. Fast.

At 10:48pm, the same visitor from Tampa visited, and clicked the pictures page. This means, there was a long discussion, the whole time. Over three hours.

2/24/2017 – Friday

Little traffic last few days. No traffic since I started writing my book. Somehow, they knew I was writing it. Yesterday I overnighted the book to Tina Constable at Crown Publishing, owned by Penguin Random House, the world's largest book publisher.

Yesterday afternoon, someone visited who visited last Sunday during the Washington, DC visits. The location is West of Asheville.

2/25/2017 – Saturday

Yesterday at 11:05am, someone in the DC area, a Maryland exchange number: 240-830-6013. Called, but I was asleep. And left no message.

Also, last night around 9pm, someone in Iowa visited davidbardes.com, and looked at the pictures of the WTC. This may be someone from Random House headquarters, having a copy of the book, reading about my working in the WTC.

This means when my FedEx package was delivered guaranteed by 10:30am, Tina Constable, called someone who prompted someone in the Silver Springs, MD area, to attempt to call me. Which means they all have the book, and do not want to visit the website, now knowing I have been watching traffic.

The only visit today was someone from Valencia, CA, to coldcelltorture.com.

As of 5:57pm, only one visitor from the UK. Otherwise, none. Silence gives away aghast.

2/26/2017 – Sunday

Late last night, 12:30 am'ish, someone from Dallas, Texas visited. From 70.195.195.67

Only one website visitor today at 8:20am, below from New York City, using an iPhone on AT&T network.

ColdHomePage | 107.77.76.130 | Feb 26th 06:20:40 | https://www.google.com/ | Mozilla/5.0 (iPhone; CPU iPhone OS 10_2_1 like Mac OS X) AppleWebKit/602.4.6 (KHTML, like Gecko) Version/10.0 Mobile/14D27 Safari/602.1 |

Late afternoon someone from Estonia visited.

As of 6:48pm, none others. People must be in shock. Their day of tribulation is upon them, as my day of retribution begins. And there is nothing they can do to stop it, as they created me. Now they live with the consequences of their actions. My days of living in the shadows are over, their days in the spotlight coming soon. I guess this is how God gets things done.

2/27/2017 – Monday

Only one website visitor today, from Indiana. President Bush2 was in New York City today. This morning he taped NBC's Today show, then gave an interview to Sean Hannity at FoxNews. Perhaps he met with Tina Constable at Crown in NYC? Yesterday or today. Maybe she was not going to give him the book as a scanned document sent as email attachment, but rather only let him read in person.

Below is an article on FoxNews regarding his interview, where he says the media is needed to hold people like him accountable. I will say.

Bush breaks silence on Trump, urges 'welcoming' immigration policy

By Cody Derespina Published February 27, 2017 FoxNews.com

"I consider the media to be indispensable to democracy," Bush said. "That we need an independent media to hold people like me to account. Power can be very addictive. And it can be corrosive."

http://www.foxnews.com/politics/2017/02/27/bush-breaks-silence-on-trump-urges-welcoming-immigration-policy.html

Someone from Indiana, Philly area, and turkey visited. Otherwise as of 6:54pm, nothing else. Then someone from Pompano Beach, Florida visited.

Someone from Alabama visited. At 1:03am ET, someone on the FBI's Blue Coat Systems visited, on a PC with the dot net run time libraries.

Then at 6:14pm ET, the same FBI person as last night visited. Same IP address.

With possible President Bush2 visit yesterday, and the FBI person visiting twice, it appears they are in book watch mode.

Today I finished building the paperback files and eBook files. The eBook is done and submitted, will take a week to appear at the various outlets. The paperback is waiting on document review, then updating the interior file. Then it will be available.

The number of people who will want to pounce on the book is rather large. It lays waste to bad actors, smears them with the truth.

3/3/2017 – Friday

Only a few visitors. Ireland, two from the UK, one having the dot net runtimes indicating FBI. Then Australia. Then the UK again.
Then the UK again, Poland, and then Spain.

3/4/2017 – Saturday

It has been a busy night and morning on the website. I finished the book publishing and changed coldcelltorture.com, and unspeakablepain.com, so the book is now officially published.

Last night someone from Wisconsin visited, then the below person from Texas Googled "why are jails cold"

Perhaps the Chicago visits are from Oprah? On the plane? Have no idea who, but seemed important.

As of 1:00am on the 5th, no other traffic all day and evening.

3/5/2017 – Sunday

At 9:06am, someone from the UAE and India visited at the same time. Then New Zealand visited. Then India again. Then the UK. None others as of 2:15pm.

A 5:14pm ET, someone from outside of Detroit visited. Then at 6:24pm ET, below, the same person from Norfolk, VA, area, using a cheap prepaid android smartphone, visited again.

This person is connected to someone in Wyoming, possibly to Vice President Dick Cheney. One of his henchman? On assignment to kill me? Pay me off? This means Cheney now knows about the book now being published. Bush2 would be informed by now. Then FBI Director Comey eventually.

I uploaded a new interior file for the book, fixed three typos. The review should be complete by morning, so the book will be available again for sale. They can buy a copy. The Lulu eBook file was updated with corrections. And the Kindle version was just approved.

3/6/2017 – Monday

Someone from Germany and the UK visited. On the davidbardes.com website someone from UNC Charlotte visited. Otherwise as of 2:13pm no other visitors.

Someone from LA, CA visited late afternoon. Then someone from San Diago, then Switzerland. As of 6:32pm.

Around 5:30pm I observed a large white SUV drive by slowly. Then a man on foot walked by, but he looked older, salt gray hair, with ball cap. The man went up past the church, then turned around and came back down. The white SUV turned around at the church, parked, then got out, then came back, got in, and drove down past my building.

I ponder if this is Vice President Cheney's henchmen, from the Norfolk, VA area, who visited last few days, using the prepaid untraceable android smartphone. I may be on death watch again.

3/7/2017 – Tuesday

Last night at 10:52pm ET, someone in Dallas, Texas, visited the unspeakablepain.com website, finding the book's been published.

At 9:20am ET, someone in Burlington, Vermont visited coldcelltorture.com. Than San Jose, CA. Then the Kentucky Department of Education in Bowling Green, Kentucky visited. Then someone used DuckDuckGo to visit, twice. Then someone in France visited. As of 4:14pm.

At 4:44pm someone from the UK visited, then Canada.

3/8/2017 – Wednesday

Late last night someone near the California state capital visited. Then this morning someone in Chicago, on T-mobile, visited. Then someone in the UK. Then at 4:15pm, someone using Google proxy in Texas visited.

At davidbardes.com someone near Lake Norman North of Charlotte visited.

3/9/2017 – Thursday

Someone from Gary, Indiana area visited, then Germany. On davidbardes.com someone from Littleton, Colorado visited. That is it.

This means they all have the book.

3/10/2017 – Friday

Last night someone from Canada visited, then someone from New Zealand visited, then someone from Kansas visited. Then at 5am, someone from Detroit visited.

Then this morning someone north of Boston visited, from the Merrimack Education Center. Then someone from Algeria visited. Then Salt Lake City, Utah area visited. Then around 11am someone from University of Michigan visited. Then someone from the LA area visited.

At 3:56pm ET, someone in Tampa with an iPhone, someone in Vero Beach with a MetroPCS Android phone, and someone in the nice area of LA, CA. This would be Eddie, my father or Cynthia, and Aubrey. They can buy the book, and read it. My day of retribution falls on them.

I emailed them, and a person responded, passing my email to others on the commission. I also copied a lawyer, Goldsmith in Marion, NC. I think Goldsmith told the others to never contact me again. I have not heard back, and the above initial website visit from NC State is all I have so far.

People are fearful. Andy Harris, a longtime friend since childhood, refuses to answer my Facebook message asking for his mailing address so I can send him a copy of the book. Fear grips him, obviously. These people are rendered useless by their own fear.

I looked up business in Dayton, Texas, and found the below at the Wiki page for Dayton:

The Texas Department of Criminal Justice (TDCJ) operates the Dayton District Parole Office in Dayton. In addition, the TDCJ operates some correctional facilities in the City limits of Dayton. The L.V. Hightower Unit prison and the Dempsie Henley Unit and Lucille G. Plane Unit jails are 4 miles (6.4 km) north of the downtown area of Dayton.

So, someone at the State Parole headquarters now knows all about cold cell torture.

It has been a very big day and night of traffic, much more than none for days. I wonder if President Trump got my letter? The visit from someone in DC may have been the one to open it. But what did they do with the letter? Did P. Trump asked Director Comey about knowing me, hence the FBI bot sweep? P. Trump is in DC this weekend, did not go to Mar-a-lago, FL.

3/26/2017 – Sunday

Last night someone visited on the DuckDuckGo proxy. This person visits regularly. Then someone from Oxford Massachusetts. Otherwise nothing but bots.

Someone from Canada visited, then below, someone on Google proxy, searching for "suicide watch in jail." Someone is a new believer.

This means South Carolina has the suit, the DOJ, the US Supreme Court, the CIA, Sheriff Cannon. I am now on the offensive. They are on the defense. My day of retribution has come. All under the careful planning and timing of God's glory, have I lived to see this day.

This morning I received a call from clerk Kristen Young, at the Asheville Federal Court Building, asking me for scans of the summons. I emailed her the scans, sending her the below email text.

To: Kristen Young at kristen_young@ncwd.uscourts.gov
Re: Bardes v. US Courts (1:17-cv-89) Summons Copies
From: David A. Bardes, Plaintiff
Date: 3/31/2017

Dear Kristen Young:

Please confirm receipt of this email and attachments.

Attached are eight (8) PDF files. Seven (7) are the summons copies, the eighth is a copy of the USPS tracking numbers, signatures stubs, and receipts.

The files are:

Bardes-Summons-USCourts.pdf
Bardes-Summons-USAttorneyGeneralDOJ.pdf
Bardes-Summons-USAttorneyInCharlotteNC.pdf
Bardes-Summons-StateSouthCarolina.pdf
Bardes-Summons-CharlestonCounty.pdf
Bardes-Summon-SheriffOfficeCharleston.pdf
Bardes-Summons-CorrectCareSolutions.pdf
Bardes-USPS-GOV-TrackingNumbersSignature.pdf

If you prefer the JPG image files, please advise.

I have a question for you. Three and a half hours after I filed the lawsuit in Asheville, I received confirmation that lawyers in President Bush2' s business office in Dallas had a copy of the lawsuit. This was followed by other parties also getting a copy. Days before they will receive summons and complaint in the US mail. Who in your office tipped who off, then who tipped off who to get to President Bush2 and other parties so fast? Is this not more of the behavior which created my lawsuit?
Thank you, and please let me know if I can provide anything further.

Regards,
David Andrew Bardes, Sui Juris
259 Whitmire Street

They also visited the unspeakablepain.com website to learn the book is already published. Now they can read all about themselves. They are going to be very unhappy. Especially learning the book has already been published. The tide has turned, and the water is rushing back to shore with a force of great power.

4/4/2017 – Tuesday

Very quiet start. They all are reading my book

Someone from France visited, then Ukraine, then Florida, North of Tampa, then someone near Hollywood in CA, then Newark, NJ, then Denmark, Germany, Australia, then Germany again.

At davidbardes.com, someone from Charlestown, West Virginia visited. Then Turkey.

My book is so devastating, so damning, it leaves no one standing with any defense. How would they defend themselves, and what lawyer would attempt to assume a position defending Satan, in opposition to almighty God.

At 4:36pm ET, someone in Mount Pleasant, South Carolina visited davidbardes.com, then clicked to unspeakablepain.com, then coldcelltorture.com. This would either be Dr. Ralph B. This means there is a lot going on, which I am not privy, but the angst is obvious. Someone in Charleston called them, spooked them out, so quick to the website for confirmation in horror.

Sheriff Cannon and Charleston County, and the state, must be horrified by the book. The truth just destroys them. And the US Supreme court justices must be mortified.

At 7:49pm ET, someone in Houston, Texas, below, using a Mac computer, visited davidbardes.com, then nothing else. They are on an AT&T DSL line. Perhaps just to get my email address.

4/5/2017 – Wednesday

Then someone in LA, CA, visited, then the UK, then India, then someone at Central Methodist University in Missouri, then someone from Africa, in Burkina Faso, visited unspeakablepain.

It is quiet today, after a somewhat busy night. Lots going on behind the scenes in hallowed halls filled with corruption, consternation felt by all. I checked PACER today to read the docket on my case, (7:17-cv-89) and the judges assigned are both District Judge Martin Reidinger and Magistrate Judge Dennis Howell. The same two criminal judges from before, whom I demanded recuse themselves, but have chosen to have the case only put under them. Perhaps to keep it away from view of other judges, not in on the caper.
Charleston and Sheriff Cannon must be having nausea and flash forwards of piles of doom. Same with the state. The book is already published. Now what do they do? Pay or fight? Given past behaviors, they are cold blooded killers. If dead, the book would take off and it would be certain dread never to go away.

Will the judge block the book based on objections, or other attempts to have the book removed from circulation? Or are they waiting for all parties to report back what they want to do.

No website visits since noon, and its 8:00pm ET now. Everyone has read the book, and do not want to give me their IP address.

4/6/2017 – Thursday

Last night someone from St. Paul, Minnesota visited, then at 4:50am ET, someone from Anaheim, California visited on the T-Mobile network. Then at 7:26am ET, someone visited from Brockton Public Schools, in Brockton, Massachusetts, south of Boston. This person has visited several times.

An hour later someone in Blue Springs, Missouri from University of Missouri - dba the Missouri Research Organization: Central Methodist University. This person has visited before. Twenty minutes later someone in Alberta, Canada visited, then someone from the Russian Federation.

The above visitor from Germany is likely a federal officer on a laptop, as they have the dot NET runtime libraries and IBM's Cognos rich framework installed. Which is likely the FBI case management software. This could be from the large CIA hacking center, which was revealed in the recent CIA hack dump.

Then 40 minutes later, the below hits from the same IP address in Germany, but a different user-string, meaning someone else, on a 64-bit desktop.

On davidbardes.com, someone from Argentina visited, then France, then someone from the hills overlooking Burbank, CA, visited from Google. Someone was Googling my name. Then someone from Greece visited, having typed in the URL on a desktop. Then some visited from the Russian Federation.

So, the book has been leaked, to some surprised enough to take to Internet search engines to see if I exist. The level of panic from Cannon to Bush2, must be palpable. The book destroys the wicked. Lays waste to the evildoers.

4/8/2017 – Saturday

Yesterday I received a letter in the mail from Disability Determination Services of Raleigh, stating my disability benefits are being cut of as of 5/11/2017 video-teleconference at the SSA office in Hendersonville. President Bush2 is pissed, likely Cheney as well. So, they litigate with revenge.

I composed and sent an email to Bush2 via his scheduling staff member. Below is the email:

To: scheduling@OGWB.org
From: David A. Bardes
Re: Torturegate Scandal, Bardes v. US Courts (1:17-cv-89)
Please kindly deliver this email to President Bush2, he knows me and the topic well.

Dear President Bush2,
Today in the mail I received more manna from heaven. The SSA is as quickly as possible, going to terminate my disability benefits, just as mysteriously as you turned them back on the day after Christmas, having been terminated in August, after starting the first termination after I filed my last federal lawsuit in November the year before. The precious letter from the SSA starts with "YOU DO NOT HAVE TO TAKE A NUMBER AT THE SSA OFFICE…" You bet I do not have to take a number, it will be that quick.

Do you not know that it is your actions which force me to do what I have done? I was not going to write the book, had plans to get back to a selfish life, after my adversaries financially settled with me. But no money. I even sent an email to your scheduling staff to try to open a conversation where my question would have been why are you forcing me to write my book? This forced me to write the book to earn money. And file another federal lawsuit to get money.

Now your actions to cancel benefits, you yourself directed turned back on, will force me to place my book in the public domain as a free PDF file and free eBook. Then launch my earthly ministry with a blitzkrieg social media campaign, using those college students who offered help with a GoFundMe page. When I show up for my disability video-conference lynching, I will hand a copy of my book to the nice guard, as friend's videotape the whole fiasco.

Then they will videotape me going to one of our two nice homeless resident's houses, where I will hand them my book and say this is why I am homeless, Bush2 and Cheney's revenge. I am very patient, and happy with pain and hardship, content eating only one bologna sandwich each day, as the more pain you inflict the more powerful I will become. From the homeless shelter, I will start my earthly ministry, clothed in sackcloth.

You created me, then you make me famous. Why? Is it not easier to pay me money, pull the book, and let me get back to a selfish life? Your actions with the SSA here, have now placed a hard deadline on the window of saving your and Cheney's legacy. As on May 11, 2017, before leaving in our cars to go to the SSA office an hour away, I am going to upload my free book, and make the eBook free, on twenty media platforms, under an author's public release license. Having been forced to do so, by you.

I win regardless of what happens, the only unknown is what happens to your and Cheney's legacy. Which will be by your decision, to continue forcing my actions, having none others.
Cordially,
David A. Bardes

That is all as of 3:19pm ET.

No more as of 6:19pm ET. Unhappy pissed off powerful people, unable to reap destruction upon me. As it only makes me more powerful. God is moving me towards ministry, which I am uniquely prepared. And eager. I am going to speak from the mountain tops, moving mountains with my words. As God's glory shines on the righteous, and wrath falls on the wicked. Pruned and cast aside.

As of 9:53pm ET, no visits to coldcell and only one visit to davidbardes.com, someone on the amazonaws network, which is also the CIA backbone.

Very quiet. The consternation of Bush2 and Cheney must be boiling in nausea. Tums may not help. Sleepless nights for Bush2, up late, with the bottle, visiting my website like he does, for more worry. Pouring another glass of momentary relief.

Being driven mad by one of his innocent victims. Haunted by a living ghost, rattling my words calling for justice. Boo-boo Bush, where are you? I want my justice. I cannot rest without my justice. Boo-boo Bush, I have more words for you.

At 10:16pm ET, someone from India visited from Google of India. At 10:21pm ET, someone from Bradenton, Florida visited from Google on an iPhone. This is south of Tampa, south of St. Petersburg. The CIA headquarters is in Tampa.

4/9/2017 – Sunday

No visits until 1:30pm, when someone from the UK visited eight pages on the coldcelltorture.com. At 2:05pm the below person from Harvard, in Cambridge, Massachusetts, visited. This person keeps visiting, perhaps a lawyer type at Harvard Law? Sunday afternoon, thinking of me.

Then someone from Canada visited, then the UK, China, then someone from Russia going to Yandex.ru to search and find me. That is all, as of 7:45pm ET.

At 9:11pm ET, someone in the Hollywood area visited on a Samsung Android phone on AT&T wireless. None others. It is 12:00am ET, on 4/10/2017. So quiet on the website, much unhappiness at homes tonight, homes of the guilty, torturers, corrupt souls lost in hell. What will today bring?

Just as I was typing this, at 12:02am ET, the below visitor from the Dallas area visited. On a Sprint HTC Android smartphone.

One unhappy soul seems to be President Bush2, with his office staff, one at least, before bed, 11:02pm in Dallas, checking my website for any more doom. I have agitated my adversaries with avarice.

Then at 12:13am ET, the below person from Amarillo Texas visited. So, there are two people are on the phone late at night. Plotting my doom or my dollars? With these scoundrels, more likely doom.

Or, has the pressure on Bush2 blown the pressure safety valve?

This person above, was given the book, read it, learned to only use Bing, and given use of my middle name, Andrew, which is only in the book, bears a new witness.

Then Columbus, Ohio, then some at The Williston Northampton School in Oxford, Massachusetts visited, then Romania. As of 3:06pm ET, none others.

As of 6:31pm Et, none others. Nothing new in PACER on my case. I am going to guess today entailed President Bush2 speaking with the rest of my favorites, regarding my email to him last Friday. Do we pay him off, or kill him? Perhaps they discussed.

I am putting the screws to President Bush and Vice President Cheney. Their legacy is in their hands now.

The below visitor came at 7:17pm ET, on T-Mobile with a prepaid Alcatel Android phone. Location is unknown, but Google has it from LA, to Greenville, SC, to Georgia. If close to me here, in Greenville, perhaps a contact?

It is 11:20pm ET, no other visits. Tonight is eerie, almost full moon. Something must have happened today, to spook people away. No one go there… I see the bad moon arising. I see trouble on the way. I see earthquakes and lightnin' I see bad times today. Well, it's bound to take your life. I hear the voice of rage and ruin.

I love Allie and David. I miss them.

4/11/2017 – Tuesday

Very quiet, only a few visitors. Last night someone visited from Australia, Argentina, then New Hampshire. Then around 9am the below person visited from NYC.

As of 2:35pm none others. At 2:45pm ET, that person in Bay City, Michigan, visited again. Then the below visitor in Huntington, Texas, visited. It is near a large lake in far east Texas. They are using a Windows 7 desktop or laptop. Visiting friends at the lake perhaps. Someone thinking about me, obviously.

Today is the 11th, so one month to May 11, when I have my SSA disability hearing in Hendersonville. Just after I release the book for free. President Bush2 and Vice President Cheney have one month to settle with me, or their legacies are forever tarnished.

Someone visited from Miami Dade College. Then at 8:57pm ET, someone in the FBI's network, Cogent, in DC, scooped all the pages using their software, below.

At 9:52pm ET, the above person from south of Salt Lake City visited. This is where the NSA super data center is located. I can usually tell when someone in DC has ordered a search of their databases, for cold cell torture. Because the tech goes to an outside internet connection, and searches Google for it. To see what the hell it is. So, the person on the FBI network, also called for the NSA search. Very good.

4/12/2017 – Wednesday

Another quiet day. At 4:26am ET, someone visited from Latvia. Then at 8:49am ET, that person in New Hampshire visited. Early morning visits may indicate their day entailing cold cell and me. Below.

Someone visited from Yandex.ru. Tonight, is the full moon. Rising in a few minutes. Unhappy souls out there. I am a hot potato. No one visits, or uses proxy servers to shield identity. Are they going to cough up money, or cough me out for good?

4/14/2017 – Friday

Only one visitor from Connecticut to davidbardes.com, none others as of 1:03pm ET.

The first cold cell visitor of the day, at 3:30pm ET, below, is the lawyer Justin G. May. Who lives in Wake Forest, NC. The below hit is from Wake Forest. So, Justin May is reading my book and using an iPad. He must be home.

Nothing new in PACER on my case, but there was a new entry in the CIA torture doctor's lawsuit, below. A seasoned NYC lawyer has made a onetime appearance. He is a mediator skilled in conflict resolution.

04/14/2017	153	MOTION to Appear Pro Hac Vice re Attorney: Anthony DiCaprio. Filing fee $ 200, receipt number 0980-2588363. by All Plaintiffs. Motion Hearing set for 5/15/2017 Without Oral Argument before Senior Judge Justin L. Quackenbush. (Attachments: # 1 Text of Proposed Order)(Chiang, Emily) (Entered: 04/14/2017)

The date of that entry is today. So, both sides agreed to a mediator. Does this mean a settlement is expected, or not expected needing a mediator to try?

Three days ago, on 4/11, I had a visitor from NYCMNY url, in Manhattan, so this could be this mediation lawyer learning the case.

The week has ended, it is Friday at 6:07pm ET. Someone from Indonesia visited.

At 10:41pm ET, the below person in Hesperia, California visited from Google. This town is on the other side of the mountain range outside Los Angles.

Someone in Japan visited, then Canada.

4/15/2017 – Saturday

As of 5:37pm ET, only two visitors so far today, below from Pensacola, Florida. This person has come before, recently. They used Bing.com to not track IP addresses. They do not want it known, that they visited cold cell torture. They used an Amazon Kindle.

Either college students, grad students, professors, lawyers, researchers, who the hell knows. Two state college visits, one far away from internet service, or mobile, last near Stockholm, Sweden. The land of the heavy thinkers. None went to unspeakablepain.com, as they already have it, or do not care.

Someone from China visited.

4/16/2017 – Easter Sunday

Early this morning someone from the UK visited, then Chicago, then Canada. The Chicago and Canada person visited together. Then someone from Sweden visited.

Someone from Denmark visited twice. Then someone from Columbus, Ohio visited. As of 10:54pm ET, none others.

The Charlottesville, Virginia website visit a few days ago must have been the Worthy Grand Master of Kappa Sigma, headquarters being there. It would be Senator Dick Burr, alerting the Grand Master of the lawsuit. This is good news, a planned hoped event. The scales of justice rebalancing from far equilibrium.
The last thing Dick Burr wants or needs is to be deep in my area of tarry. The low Burr went to have me permanently kicked out of our fraternity, is repaid by blaming lockstep corruption of all three branches of government, with him leading the

congressional syndicate. He must be pissed. As well as the grand master. Whose 2011 email I still have, where ever since I never was given the chance of a trial.

Bardes wants money and has a strong case. They have become footstools for my feet.

4/17/2017 – Monday

One visitor from Cleveland, Ohio to davidbardes.com. On coldcelltorture.com someone from Japan, and Ireland visited. As of 2:50pm ET, none others.

At 5:06pm ET, the below two people visited. One from the University of Rochester, New York, the other being in New York City. This could be related to New York State's lawsuit against a jail medical provider, who killed an inmate with hypothermia. Or someone doing research on the FBI, as they visited the FBI page.

So, someone at 8pm in DC is working on me and my lawsuit. This is positive news. How are they going to defend themselves, or are they going to cough up dough? With Senator Dick Burr involved, as Chairmen of the Senate Foreign Intelligence Committee, he has the power of the purse, of undisclosed flows of money. President Bush2 and Vice President Cheney urging a large sum of remunerations? The Supreme Court urging as well? US Attorney General Jeff Sessions best friends with Dick Burr, with the CIA injecting need, may propel the forces of corruption into acquiring sums of money to make me withdraw my book from circulation and file no more lawsuits. Go away, never to return to the courts.

I checked PACER at 5pm and the lawyers for the medical provider in jail, filed their answer and several motions to dismiss. An assortment of denials, motions to dismiss, and throwing everything against the wall, hoping something sticks.

The days of me holding back the wrath of God are now over. I fully release the mighty power of God's justice to flow over the evildoers sweeping them all away. These two lawyers have by their own words invited the full measure of God's wrath to fall on them and their families. Let them feel the God they stand opposed.

FCB Communications, The Interpublic Group of Companies, is one of the big four of advertising agencies. FCB is advertising agency powerhouse in NYC. Someone, a creative or suit, is reading my book at 8pm at night still at work. They are discovering

something which would sell a lot of advertising and make them money. Maybe that is their angle here.

The above hit from DC, happened just as President Trump was finishing meeting with the Prime Minister of Italy. Italy had tried to imprison an ex-CIA agent over the Bush2 rendition program, but Trump interceded and the agent will not go to prison. But she may have to testify to Italian authorities about the torture program. Given all the website hits from Italy, they have not given up their efforts. The Prime Minister likely told Trump of coldcelltorture.com, so one person took to their iPhone to visit the website, having typed in the URL knowing it beforehand. Afterwards, Trump and the Prime Minister held a joint news conference. I now have to wait to see what develops.

This evening I made changes to coldcelltorture.com, adding a few entries. Also put up the JudgeMartinReidinger.com website, will take a week to sink into search engines.

But 10:31pm ET, someone below, in Maine visited using an iPhone on AT&T public Wi-Fi Wayport network. This likely is President Bush2. What uncanny timing, thankfully. He read all about himself. Making him more infuriated, hopefully.

Otherwise nothing. Shock from the scar has them nauseated. I think the lawsuit may be technically over at this point. From Bush2, Cheney, Comey, McMasters, Cannon, DOJ, CIA, must be aghast. They now understand the degree of evil I encountered.

God's timing on things like this is stellar. I kept the scar to myself for reasons I do not know. Now it makes sense why, God was waiting for the right time to bring it forth. At a time to prove my whole story. In a horrific fashion. Bad truth bomb.

Lilly, who saw it for the first time wrote "I had not seen that scar before. Damn... somebody really wanted you dead. It's virtually guaranteed that no sterile procedure was followed in those suture scars! I never seen scars retain that much red color."

I think it is over.

At 6:19pm ET, the below person from Newark, DE, on URL: c-76-111-174-98.hsd1.de.comcast.net. It's a Comcast Business client. What I can conclude here, is someone who was contacted before by email, about my book, have now been told to do something. The fact they are using a highly secure email address, indicates stealth for reason. Now that the scar proves my story to a horrid degree, wheels of motion have been ordered to turn.

They are in a business identified broadband service location. Perhaps a banker, lawyer, intelligence officer. Unknown who is hurry to act, and keep it private.

Someone from Seychelles visited, then the UK, then Michigan, then Macon, Georgia.

4/29/2017 – Saturday

Someone from Germany visited, then Munster, Indiana, then at 11:14am ET, the below person in Pasadena, CA visited. They searched Google of India, so not sure if person is in India or not. They searched for "torture ice."

It is 8:07pm ET, Saturday night. No traffic from my adversaries. They must still be nauseated. These fools only now believe what happened to me. In a big fashion, sickening. Only God could have arranged this grand awakening. I guess they will never visit again. Barf bags may be needed if they do. To finally realize I was in hypothermic coma, but was certain to be dead by a doctor, enough so to say go ahead and shoot. Then sewed up ready for the morgue, with fictional story rehearsed by all. But recovered and not told I was shot, then left on the floor to die not once, but twice. But survived.

The fact of being shot then stitched up by the doctor, proves every single word in my book. I wonder if any have thrown up. From Comey, to CIA, to DOJ lawyers, Sessions, to Bush2, Cheney, to Supreme Court justices. They are all spooked. Now they are quaking. Clint Eastwood may have been forwarded the scar, as I had a visit back awhile from his bay, as someone had passed him the book and suit.

Now what do they do is the question. I guess Cannon has shaken down the doctor, or Cannon himself did the gun blast, but their camp cannot be happy. The county commissioners are all aware. The governor knows, also being the former State treasurer, knows where the bread is stored. Also, now all looking like fools denying all allegations previously believed, now shattered into lies. All in DC in disbelief and shock. "Bardes was dead, then they shot him, then sewed up the wound for the morgue and autopsy."

Worse for them, they know I am pissed off by my response and objections. When they reread it after learning of the scar, they become more fearful.

My days of litigating lawsuits on this topic may end. Hopefully. Race to the money.

I wonder what FBI Director Comey will think of it. Is he a bad guy, or some good somewhere? What about Jeff Sessions, who would tell Trump. Maybe the CIA is feeling like heels now. There have been no amazonaws or DuckDuckGo visits last four days, no one.

At 9:26pm ET, the below four visitors came at the same time. First is from Philly on T-Mobile Android smartphone. The second is from Albany, NY. Third is from Germany. Fourth is from Monks Corner, South Carolina, on Home Telephone Company landline.

Philly has many visits recently, Albany is the lawyers for the state, suing the medical provider in jail. Charleston area is someone with county or sheriff. Germany could be from the CIA hacking center there. Why all together? Is Charleston/Cannon going to blame it all on CCS? Albany has a full working knowledge of jail medical providers, and their killings. The muzzle blast scar with sutures proves attempted murder in multiples. Was the doctor behind the whole thing?

On a Saturday night, conference call, Philly, Albany, Germany, Charleston.

These are significant visits. Ties in some unknowns. The facts of my case justify large settlement figures. This weight on them is most heavy right now. Shift the blame. Will not change my mind.

While Charleston seeks a life raft, the federal judges now understand the victim they further victimized, was really a victim worse than they thought. The CIA must be like OMG. I wonder if Karen Thomas has been told.

Then forty minutes later the below person visited, on AT&T wireless, location unknown.

ColdHomePage | 107.77.161.7 | Apr 29th 19:21:28 | http://www.google.com/ | Mozilla/5.0 (Linux; Android 6.0.1; Z988 Build/MMB29M) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/57.0.2987.132 Mobile Safari/537.36 |

It is now 12:12am ET, four hours with no more hits. Meaning the above visitor could have been related. That is five people on a Saturday night, working on me. Wheels are turning, without rest on weekends. Yippy.

Albany being involved is good. They took the proactive move to sue one medical provider over a hypothermic death, one of three. Is Charleston getting advice? Or reaching for grasp-less air? I wonder if Dr. Peonig and Dawn R. Frazier are being questioned under beams of bright light. This means Stephanie McDonald has been put in a lone chair with mirrored window frames about, answering questions. Let judgement flow like rivers. My enemies a footstool for my feet.

At 11:28pm ET, the below person on ViaSat visited. They are remote using a satellite dish for internet. Location is unknown.

If the torture doctors in Seattle are working on this on Sunday morning, means Bush2 is also. They must be putting pressure and blame on Charleston. Which just worries them even more. Revealing the scar sure has my enemies busy. They now know I was temporarily dead when shot. Had to have been declared dead by the doctor, to

give okay to shoot. They shot a cadaver, then stitched up the wound, ready for the morgue. Lastly comes the realization when I regained consciousness, the medical staff left me on the floor to die, medical care denied. I was not going to make it. Weeks later the doctor refused to see me with a fecal impaction, told me to come back in two days. To give death another chance.

Only to conclude a series of miracles of God is the truth to my survival. Then they reread my words in the response and objections, now with an authority which frightens them. 'No wonder he is pissed.' Then they are overcome with a wave of God's wrath is nigh. This keeps them busy Saturday night and Sunday morning.

Creepy evil doctor Peonig must be under a great deal of pressure. Lawyered up perhaps. Pleading the fifth. Sheriff Cannon must be fuming. Ugly words dripping down walls, having no effect of rescue. Charleston County is fully responsible.

A person from Missouri visited. Then at 4:15pm ET, the below person from the Seattle area visited, on a Windows 10 PC, coming from Google.

Seems rather urgent out there today. Why are the torture doctors involved with me? Are they settling their lawsuit with the ACLU? Why would that involve me with sense of urgency?

5/1/2017 - Monday

At 7:58am ET, the below person from Alabama visited. Up near Decatur/Huntsville.

As of 3:07pm ET, none others. Very quiet. Lots going on behind the scenes. Nausea may have worn off, leaving only horror behind. Facing a worst-case scenario. I wonder what the federal judges think now. "They shot him, then sewed him up ready of the morgue." With evidence of 17 federal judges, running immunity over murder.

At 4:06pm ET, came three visits, below, within 40 minutes. The starting IP quad is 75 for two visitors, far apart in location. This repetition is common watching log files. Could be a natural phenomenon.

The first is on Comcast, from Colorado Springs, Colorado, the next is someone on Google proxy, the third is from Naperville, Illinois.

I checked PACER after hours to find a reply filed by Correct Care Solutions. They want the court to ignore the scar evidence, and dismiss under claims have already been decided. It was a small ejaculation. Shooting blanks now.

Someone from Hungry visited. Otherwise as of 10:00pm ET, no other visits. Very quiet. Too quiet.

Perhaps the truth was beaten out of Dr. Peonig and Nurse Frasier, leaving more shock and horror. Rigor mortis had set in. They shot a dead body. Word spread up the grapevine of corruption, souring mouths with the poison of death. I am a living ghost. Boo boo boo, I want money. No money no peace.

Someone from Australia visited, then someone from New Orleans visited all the pages. New Orleans could be related to the justice department refusing to file charges against a police officer who shot a black man while sitting on top of him.

5/2/2017 – Tuesday

As of 9:43am ET, no visits. Very quiet. The first visit was from Atlanta, an iPhone on Verizon. Then Canada,

At 11:21am ET, three visits came about the same time, indicating mutual conversations. The first from Italy, then the UK, then France. Italy could be the people wanting to imprison the ex-CIA officer, who Trump saved, but they still want to question the officer, whom is back begging Trump to avoid divulging the truth. It seems Italy has involved others in Europe.

Then someone from Danville, California visited.

As of 3:22pm no others. Another day of horror for my enemies. Nine more days until I release the book for free. Updated with the scar evidence this time. The race is on. What will the parade of cowards do now?

At 6:52pm ET, the below person from New York City, on AT&T wireless using a Samsung Android phone, coming from Google.

This has been the only local visit today. Being NYC it is significant. Could be lawyers, news people, the ACLU lawyers on the CIA torture lawsuit, book publisher.

Today in PACER was the reply from Charleston and State lawyers. Two pages, asking for dismissal. Now the case goes to the lower judge, the magistrate, for recommendations.

South Carolina, Charleston, and Correct Care Solutions, are at the mercy of the command over the two federal judges on the case. Making them unhappier. Unexpectedly, they are caught up in something so awful, they are nauseated, and fearing massive money loss.

In the last two days, the website silence grew more still, perhaps indicating the doctor and nurse confessed to the truth. Spreading this bile to already sour stomachs. The creepy factor here is palpable. And they know more than I do. I hope it works in my stead.

At 7:53pm ET, someone below visited unspeakablepain.com on the amazonaws network, which is the CIA's backbone. This person has the dot NET runtime libraries, indicating the FBI's case management file system. This is an old computer, possibly foregn, given the [en] flag. Someone with both CIA and FBI job duties, reading the book, already knowing the address.

Someone from Ireland visited a few pages. Otherwise as 12:15am on the 3rd, none others.

5/3/2017 – Wednesday

The first visit of the day came at 11:20am ET, by the below person on amazonaws, the CIA's backbone, using DuckDuckGo proxy to hide real IP address, but did not work here, gave away CIA linked person.

Then came a visit from St. Petersburg, Russia, then from Fremont, California on Hurricane Electric network. This person has visited several times before.

As of 1:57pm ET, none others. Another day of no traffic, but knowledge lots is going on in the background.

Cannon is the shooter. Only unquestionable gun, gives plausible excuse for fourth dead inmate in two weeks. As with each inmate death, Cannon's phone rings for days with angry citizens. The doctor would have to declare me dead before anyone would shoot, otherwise no need for gunshot and fabricated story rehearsed by all.

At 3:35pm ET, the below person from Conyers, Georgia, visited on an iPhone not using Google, must have a link stored. This person has come before.

The Atlanta visit is connected to Bush2, as both have visited same time, before.

Someone visited from Poland, and someone in Denmark visited davidbardes.com. Otherwise no more visitors as of 7:16pm ET. More silence. More they fear.

But what are they going to do? What are the US Courts going to do, what is AG Sessions going to do? Sessions has a beef with federal judges. Will he enjoy my fight and appease it, or cave and reject it? Or is money going to be pooled into a pile?

Today is the 3rd, eight more days to the 11th. P day, publish day.

Someone from Australia visited a few pages. At 10:05pm ET, the below person in Buffalo, NY visited, on an iPhone. This person is connected to the Albany state lawyers suing the medical provider. They now know about the scar.

At 5:53pm ET, someone in a college in PA, from 66-211-206-90.mercyhurst.edu, visited. Then someone from Iceland. Then Mexico. Then the person in St. Petersburg, Russia returned.

As of 11:16pm ET, none others. Pitiful day on cold cell. Fear grasps the many bad.

At 11:28pm ET, the below two people visited at the same time. The first is from East Haven, Connecticut, who used Bing.com to search for "cold cell." The second is from Pittsburgh, PA. So, no hits so far today from my favorite people, just odd locations, perhaps new people learning about cold cell. Means leaks. That is good.

Someone from Carlsbad, New Mexico, visited from Google.

At 5:10pm ET, to davidbardes.com, someone below from Fairfax, Virginia, outside DC, on an iPhone using Google. Standard issue for fed folks is an iPhone. Also, the time of the visit, 5:10pm, break time for Friday afternoon meetings. Someone not believing the story, had to confirm I existed. They searched Google using my name, not cold cell.

Below, at 11:02 ET, a visitor from Australia visited, davidbardes.com as well. President Trump just met with the leader of Australia at the White House. Two days ago, on the 3rd, someone from Australia visited several pages. This adds to the occurrences P. Trump has heard about cold cell torture.

HomePage | 45.32.245.226 | May 05th 20:02:38 | | Mozilla/5.0 (Windows NT 10.0; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.106 Safari/537.36 |

Here are the contacts so far

1. I wrote a letter to P. Trump, website visit confirmed receipt and reading
2. The President of the Philippines
3. The Prime Minister of Italy, who now wants the CIA agent to testify on cold cell torture

4. The Leader of Australia
5. From AG Sessions, as I am suing them, must answer the complaint

The pressure must be mounting. To then learn my story is true, that I was shot when declared dead, then sewn up for the morgue. Trump must be like creepy. No wonder he is pissed. He may want to stop these world leaders from sticking him in the gut with brutal cold cell torture. Pay Bardes to take down his damn website, and go away.

Perhaps this explains the meeting in DC, with iPhone visit right after five. This may mean a decision has been made. What are they going to do? I assume P. Trump wants to never hear from anyone again, especially the whack job in the Philippines, or other world leaders, about cold cell torture, or me.

5/6/2017 – Saturday

Late last night someone visited from Boston.

As of 3:29pm ET, absolutely nothing, communication blackout. This may indicate P. Trump made a decision on me, in DC, yesterday afternoon, with meeting breaking at 5pm. After meeting, earlier in the day with the Prime Minister of Australia, who ragged on about cold cell torture. No one has visited since, meaning they all know. From Comey to Bush2.

Is the helicopter going to come?

Today is the 7th. Thursday is the 11th, when I have my SSA disability hearing, and when I publish my book for free. I have been adding to it, and made corrections, and will upload tomorrow, 24 hours later approved.

So, Bush2 and Cheney know this. If they do not want the book published for free, they must appease me somehow before Thursday. P. Trump likely never wants to hear from another world leader, anything about coldcelltorture.com. South Carolina and Charleston are in catatonic shock, the sheriff looking like a fool. The US Courts castrated of credibility. "Pay Bardes to make him go away, hurry." Friday afternoon, such a decision may have come to fruition.

So, someone in the FBI is searching for me. After FBI director Comey was fired by Trump on Tuesday. Without Comey, I do not think Bush2 has a connection in DC. Likely the Comey termination soiled plans of the guilty. Senator Burr has made known he is in opposition to Trump, and wanting a Russia investigation. Sessions and Trump, likely dislike Burr. How this fits into my story is unknown.

Nothing new in PACER as of 5:24pm ET. At 8:20pm ET, no visitors. Same silence. Today starts my ministry. Last night at midnight, under a full moon. When I made my book free.

Today was my SSA disability hearing, which I blew off. No point in driving wasting gas. This will trigger a letter finding me not disabled, and cut off all benefits after two more monthly payments, or not. Maybe just stop forever. This is Bush2 and Cheney revenge. Their retaliation, started my earthly ministry. They created me, then launched me. I am a product of governmental corruption in totality. Then the scar proved my story to a worse degree, then their boy Comey was knocked out. Leaving no Bush2 friendly executives in the highest places. All gone.

Website traffic came to a stop as of last Friday afternoon. When Trump and people had a meeting where I was discussed. After that, silence. Do Sessions and Trump want to placate my suing the US Courts for corruption, to further their battle with federal judges?

At 8:12pm ET, someone in Newark, NJ visited from Google. Then at 10:02pm ET, the below person from Alabama visited. Likely related to Sessions.

Someone then visited from the Netherlands.

5/12/2017 – Friday

This morning the person in Missouri, at Central Methodist University visited a few times. Then someone else from Missouri visited. At davidbardes.com some Google proxy visits occurred.

"3 Rivers Telephone Cooperative" is near Yellowstone, which is near VP Cheney. I can conclude with reasonable probability this was VP Cheney. The person from Virginia Beach likely was on the same phone call with Cheney. Awhile back visits from Cheney and someone in Virginia Beach area occurred as well.

Bush2 visited late last night, and today told Cheney I made the book free, as I said I was. So why Cheney and someone in Virginia Beach government (vbgov.com) communicate? Last time they did this, the person in Virginia used a disposable smartphone to not be tracked. Cheney worries me. He is dangerous, and a cold-blooded killer. Now he is likely mad, unhappy, perturbed. His legacy shattered by my book. What is he going to do? Paying me money was clearly not in the works. They have had plenty of time to make money happen, but have chosen not to. Then what?

They are cutting off my disability benefits, Bush2 made that happen. Squeeze me dry. I have two more monthly payments, plus cash for one more month. That is three months, then support by friends. I do not think it will help them.

It is 5:09pm ET, and nothing new in PACER. End of week.

No visitors until 12:54am ET, on the 13th, someone below in Washington, DC visited on Comcast Cable, the URL says Maryland. On an iPhone. Which is what the gov folks use these days as standard issue. Who is up late thinking of me? No visitors all day, then this?

5/13/2017 – Saturday

As of 2:44pm ET, no one visitor. Zero. It is 4:57pm ET, still no visitors, none all day. Who was the person last night in DC visiting at 1am?

At 6:40pm ET, the below person from Salt Lake City, Utah, visited, from Google to the CIA page. This is likely a technician at the NSA super-data-center running a search on cold cell torture, then going to Google to search what the hell it is. This means someone in Washington, DC, ordered the deep search.

Someone came from DuckDuckGo proxy, and the UK.

No other visits as of 3:38pm ET.

Nothing new in PACER. The two Raleigh visits are significant, but have no idea who they could be. Two people at home, before work, one went to my Facebook page but not finding a cold cell link, went to Google, to search and find the cold cell site. They did not go to unspeakablepain.com website to view the book, then just came and left. They could be lawyers just hired to represent the federal courts and feds.

Son David may be in danger, because of my lawsuit. Yesterday David called Betsy and asked for my phone number. Betsy said he had to memorize the number, as he had nothing to write with. The call came from "850-710-2002" at 9:41pm ET on the 15th. The number is a landline phone, ID below:

850-710-2002
Jessica J Tarrott (age 35-39)
9141 Iron Gate Blvd
Milton FL 32570-7769

David said he is in training for the Air Force and everything is fine. He will not be able to contact him, but he would contact us again in a few days. To fill us in. It is fishy, and Betsy thinks it is fishy as well. These bastards will stop at nothing, and will kill David in cold blood.

Today, P. Trump met with the president of Turkey, at the white house. Last year a bloody coup failed to oust the leader. The news stories couched a warm cordial meeting with Trump and Pence asking for the release of an imprisoned pastor. I wondered if the Turkey president would have mentioned cold cell torture. The last Turkey website visit was on 5/6, a few days ago. From Ankara, their capital. An hour later came a visit from Australia, which we know has mentioned cold cell torture to Trump. This would then make the fourth world leader to harpoon Trump in meetings. Philippines, Australia, Italy, and Turkey. P. Trump must be not liking me much. Bardes sure does get around.

Otherwise as of 9:16pm ET, no other website visits. Nothing in PACER today, nothing in mailbox. The Feds need to file something in my lawsuit either tomorrow, Friday the 26th, or next Tuesday the 30th, Monday before being Memorial Day, courts closed. Sixty days is Tuesday the 30th, plus three days I guess, makes Friday June 2? It would have to be in the mail by the 30th, then three days to me, so automatically in PACER by 30th.

So, what will AG Sessions and P. Trump do? I just read in the news the US Fourth Circuit Court of Appeals ruled against Trump's Muslim travel ban, the second one. The US Courts have put up a complete brick wall. Sessions and Trump may enjoy themselves with my suing the US Courts for having corrupt judges, including the 4th Circuit, three times. My beef with Senator Dick Burr, discrediting him as corrupt. Burr is chairman of the Senate Intelligence Committee, who is investigating Trump/Russia election meddling. So, Burr is a bad guy to them. My bad guys are their bad guys. A deal is made when selfish interests line up.

The fourth circuit full court ruled today, so now Trump/Sessions go to SCOTUS with date/time deadlines. I am left reading tea leaves and foul entrails guessing as to next actions.

As of 7:48pm ET, no other visitors all day. Nothing in PACER, nor mailbox. This closes the week before Memorial Day weekend. Monday is the holiday, Tuesday the 30th of May is the deadline for the US Courts and DOJ to answer my lawsuit. Unless something is posted over the weekend, doubtful of such, then Tuesday is the deadline to file something without default. The feds sure have waited to the last possible moment. This may portend good things. Or, bad things.

Lawsuit Update

Today closes the week with a three-day holiday weekend, courts are closed Monday, open Tuesday, the 30th. The US Courts (federal judges & 9 supreme court justices) and DOJ (AG Sessions & P. Trump) must answer by end of day Tuesday, the 30th. If they do not, I win by default, and win all the $'s I sued for. I am confident they will answer on time.

The fact they both push to last moment portends well for me. This is an embarrassing lawsuit for the US Courts, the very credibility of judges is shredded by mass defenseless corruption here. AG Sessions and P. Trump may enjoy my nailing federal judges to the wall here, and allow my suit to move forward, as all the federal judges have blocked every Muslim travel ban executive order, in embarrassing defeat. My fingering Senator Burr in my lawsuit, our own US Senator here in North Carolina, deeply conflicted in the cold cell torturegate cover up, may please Sessions and Trump because Senator Burr is the chairman of the Senate Intelligence Committee running the investigation into Trump/Russia election meddling. Burr hates Trump. My bad guys are their bad guys.

Until they answer I am left reading tea leaves and soothsaying foul entrails. Ever the optimist however, I would say our sails are full of wind blowing in our direction, and we are moving along at a fast clip.

There is the possibility over the weekend, they may answer my suit by posting in PACER (online public courthouse) meaning they are working over the weekend in Washington, DC.

As of 3:43pm ET, no other visitors. Nothing new in PACER.

Someone in NJ, 3 in UK, one being FBI agent, someone in NH, working on Memorial Day, having to do with me. NJ and NH could be lawyers. Dallas last night means Bush2 is involved.

I think this indicates working on answering my lawsuit, by end of tomorrow. Last night I considered the possibility of a purposeful default. To not put anything in writing, which would reflect defending corrupt judges under Torturegate scandal. But it appears as if deadlines have forced urgent actions and alarm clocks set to rooster wake up times.

At 3:57pm ET, the below visitor from Cape Coral, Florida visited from Comcast Cable, using an LG smartphone on home Wi-Fi. This is South of Tampa, where the CIA headquarters is located. Could this be a CIA person home on the holiday?

There have been so few visitors these past weeks, until this morning and today. Why did they wait until the last minute? Did something else fail, and now forced to act? Here we have the FBI, CIA, possible street lawyers, but what did AG Sessions order? I must wait. They must work.

Around 2pm, I checked PACER and the answer from the Feds was posted. As expected, motion to dismiss lack of jurisdiction, withholding consent to be sued. Two US Attorneys in Charlotte answer, then below hit from Charlotte.

As of 8:23pm ET, none others. I have been working for two days on my next letter to Trump, and my objections to the feds answer.

Today at 4:11pm, my phone rang once, then the caller hung up, no voicemail. The number is from Bethesda, Maryland, inside the beltway of Washington, DC. A landline. I called back twice, each time dead air, no ring. Blocked. Someone misdialed looking at my number instead, on legal filings from my lawsuit. The only place my number is findable. They were working on me, mistakenly dialed me, hung up, and blocked my number electronically. Below is the public record data on the number. Never heard of Gary Brown, and there are 200 of them around DC. Several are lawyers, but nothing concrete.

The last few days I have been writing my objections and motions in opposition to the Federal government's waiver of consent to be sued. I drove to Asheville and filed it in person at noon. As of 9pm it has not been entered into PACER, as it must, as I paid the fee when I filed the lawsuit.

This means the judge read it first, scanned it into an electronic file, and emailed it to all bad actors saying we cannot enter this into the public record, too damaging. But in the morning, I am going to call the clerk's office and demand it be entered. This means they have between now and then to effect other.

My objections/motions in opposition are just a wipe out. Below is the traffic after the file was emailed to kingdom come. Starting with Charlotte, the location of the two US Attorney's

By 3pm today, with my motion I filed yesterday still not entered into PACER, I emailed the below email to the clerk, to 'Kristen_Young@ncwd.uscourts.gov'

Re: Bardes v. US Courts (1:17-cv-89)

Dear Ms. Young:

Yesterday morning I drove to Asheville and filed a motion in person. Now for two days the motion has not been entered into the record.

Is this legal for clerk's to delay or never enter motions in a case? I demand my motions be entered into the record immediately with no further delays, as I paid my filing fee.

Thank you,
David Bardes, Sui Juris

Shortly before 5pm the below record appeared in PACER.

06/05/2017	23	"OBJECTIONS and Motions in Oposition to Federal Government's Edict" re 21 MOTION to Dismiss for Lack of Jurisdiction MOTION to Dismiss for Failure to State a Claim by David Andrew Bardes. I checked PACER and the US Attorney's filed their response today. Given Bush2's visit last night, as always in the past before something happening the next day, shows Bush2 is directing the DOJ.

Their response was a string of personal attacks, meaning they are pissed off for being forced to respond to my objections. They objected to my non-lawyer verses lawyer discourse, then corporate moniker discourse. It was just filler to move the case quicker to be dismissed by the crooked judges in Asheville.

Will it be like last time, a total complete one action dismissal with no ability to even object before decapitation. Or do they not want me near SCOTUS again, having the new guy as the tie vote to a 4-to-4 impasse? Surely a new justice would not soil themselves unnecessarily with the wrong side of torture? The man attends a Church. He may believe in a God.

As of 2:28pm ET, none others.

Just a few hints indicating lots going on in the background. The judges in Asheville delayed posting my objections for two days, which meant it hurt. Now the ball is in their court, a ball they do not want to touch. The supreme court justices do not want this case, especially naming each of them as defendants. What will they do?

I blew through immunity, proved violations of every right, and blew away judicial immunity, to which the judges must answer my motions.

Last night's visits to LatePlanetEarth.com from Seattle means the CIA torture doctors are looking for my ministry starting, as I told Bush2. Which started on 5/11, today being 6/11.

At 1:54pm ET, someone in Washington, DC, at the FBI, scanned in the pages as their software does. Sunday afternoon working on ColdCellTorture.com and me.

As of 2:45pm, no other visitors. Nothing new in PACER.

Two days ago, I received from the SSA, the disability hearing report, concluding I am no longer disabled. I wrote a letter refuting their report, and emailed it to P. Bush2's scheduling person to give to George. Then mailed the letter to DDSR and NC DHS legal department. The SSA office is closed today, but tomorrow I will drive to Hendersonville, and file my appeal, and deliver the letter.

At unspeakablepain.com, below, there were a slew of visits from Google proxy and cloud, in the early morning. Coming straight to the URL from Google, means they have read my disability-objection letter I emailed to Bush2 yesterday. He gave it to the crooks in Maryland, who passed it around. Then the curious visited the website and get a copy of my book for free, hiding themselves. Someone on the CIA network also visited, so my letter made it to them as well. That was fast.

Perhaps there was an internal meeting in Maryland this morning, regarding me and the letter. With at least five (5) people in attendance, alarms seem to have sounded. Bardes has found a legal pathway to Bush2. They all realize they are caught up in a bad storm of raining legal poop.

Otherwise no other traffic today, as of 7pm ET.

Today I drove to the SSA office in Hendersonville (45 minutes away) and filed the form within the 10-day period to appeal my case. I gave her my letter, and she did not want to read it. I asked her to please read the first page and a half. She read the first page only, then understood the corruption.

She took my SSA mailings and left the window to go speak with someone. She said she had to get the forms I needed. It was good ten minutes, I sat and read the newspaper. When she came back, she handed me a stack of forms to fill out right then and there for my appeal. It was past 4pm the office had closed, last one there. I figured out she was told to try to get me to file the appeal then, knowing I had 60-days to file the appeal. I pick up the first form and said this is the only form I need to fill out and sign today. It was the "continuation of benefits" form, which must be filed within 10-days of the cessation report, from which you then have 60-days to file the actual appeal. She said "we will do it your way." She stamped and gave me a copy of the continuation form. And stamped the letter to the hearing officer, but refused to keep a copy. Tessa 843, she would not give me her last name, was highly professional, and I am certain a fine person, but she sure knew how the corruption was handled.

This gives me 60-days to get two more months of benefit payments, then file appeal, which cuts off, and gives me two more months of final payments, for a total of four more months, at least, on the payments. Then two more months with cash, giving me six months.

This makes Bush2, and all my other defendants, and federal judges, unhappy, as the judges must respond to my lawsuit eventually, but two months they thought they had, turned to four, and past the period of not responding to the case.

As of 6:14pm ET, no other visitors, nothing in PACER, nor mailbox. This closes another week. This week the good resulting from my disability letter was a blessing.

Weekends tend to have website traffic from my defendants. This weekend P. Bush2 is worried about becoming my defendant. The slow wait works in my favor. Patience is a weapon few master. Look at all those I have ensnared with patience.

But now the pressure has compounded upon P. Bush2. Will he take to the bottle late at night again? Will sleep elude him?

Today out-of-the-blue, I received a call from Greg Cathcart, of NC Works at Blue Ridge Community College, here in Brevard. He asked if I was still looking for work. He told me to come into his office, closed Fridays. Greg is a good guy, a Mason

member. I am very curious why he would call suddenly. I will ask him. But perhaps it is Mason related, or government related.

Washington, DC, Verizon, center of DC. Someone with an iPhone, standard gov issue. 11:21pm on Thursday night.

It is 2:43am on the 29th. No other visitors. Who is the DC visitor? iPhone on Verizon, using Google, which means they are new, and using primary phone.

Monday the US Supreme Court justices wrapped up their term and headed out for summer recess until October. They gave P. Trump some of what he wanted, some not. But P. Trump was pleased. Perhaps the justices decided on my lawsuit, before their break.

Sunday morning last, someone from DC and NYC visited early, could be looping in with SCOTUS justices during the day, on their busy last weekend. Then last night the FBI visited, then Delaware. Then tonight from center of DC.

Perhaps the decision has been made regarding my lawsuit. July 4th weekend is two days away. Settle, or dismiss again? Might know something tomorrow.

The Republicans pulled their genocide health care bill, resounding defeat. They had planned a vote for the July 4th weekend recess. Most headed to home-fronts for holidays.

I am hoping for a financial settlement, for an end of financial worry. The mission never ends.

Former President Barack Obama in the islands for unannounced visit
Thursday, June 22nd 2017, 3:31 am EDT
Thursday, June 22nd 2017, 3:37 am EDT

HONOLULU (HawaiiNewsNow) -
Former President Barack Obama was spotted at one of his favorite stops on Oahu's windward side in an unexpected visit to the islands Wednesday.

The Mid Pacific Country Club hosted the former president for a round of golf Wednesday afternoon. A viewer sent in a photo to Hawaii News Now of the former president pausing to meet and greet some keiki at the country club.

Neighbors and members of the club also confirmed his visit to the course.

This is his second visit to the islands since leaving office.

In March, he made a surprise visit to Oahu. In that trip, he dined at Noi Thai Cuisine in Waikiki, and was reportedly with his sister, Maya Soetoro-Ng.

It is unclear who he is travelling with during this trip. His daughter Malia was also reportedly on Oahu earlier this week.

It is unknown how long Obama will be in the islands.

http://www.hawaiinewsnow.com/story/35722469/former-president-barack-obama-in-the-islands-for-unannounced-visit

This means the rounds are being made. Now a pattern. This may also mean settlement money. Will an announcement come forth publicly about the CIA doctor lawsuit? Would this also be why so many CIA visits today? Before something? Or just hush hush money go away now?

I printed out a month of June, with 30 days, and tracked last week's traffic to detect a pattern. It looks like the rounds are being made. Saturday was FBI and Kentucky,

Sunday morning Washington, DC and NYC. Sunday was SCOTUS last working weekend before break on Monday. SCOTUS made a decision, I was right. Tuesday was FBI and Wilmington, DE (Biden.) Wednesday late-night Washington, DC near the White House. Thursday, Cincinnati, Spartanburg, SC, Dallas, Italy. Then today, Friday, lots of CIA, then P. Obama in Hawaii.

This means eventually, someone will contact me, regards money approved. The unknown will be public settlement of CIA torture lawsuit, with my story told, or not told?

Timed for 4th of July weekend announcement of settlement of CIA torture, to get lost in no one watching. People barbequing and getting drunk. Or nothing happening until next week.

Italy, again. Prime Minister Chided P. Trump for hypothermic torture from the CIA. They are watching too. They visited three days ago, but to coldcell, not unspeakable.

I just checked PACER for the Salim v. Mitchell case, and a lot had happened. It appeared as if the mediation did not work. Both sides filed motion for summary judgement, but the judge set trail for 9/5/2017, with pretrial motions the month before.

The judge approved the live media blogging from the courtroom, petitioned by "The Middle East Report." Pressure I assume was the tactic.

The last entries were last Monday 6/26, which was SCOTUS' last day before break. Same day the federal judge in Seattle issued the order approving the live media blogging request. Did SCOTUS decide to allow that case to go to trial? Or, was a settlement reached?

Given P. Trump and P. Obama visits later part of last week, and SC too, either a decision has been made as to me and $, or a greater decision over the entire subject matter. Or, pay me to be a friendly witness, or a silent witness. Who knows. But who knows, is soon to be known, given speed of actions.

Too many other Amazonaws visitors to all the other site to mention here.

I read an article this morning where Canada is paying $8 million Canadian dollars to one of the citizens tortured at Gitmo. The guy threw a grenade which killed an American special forces soldier, so he is no saint. There was backlash from others and a reluctant government official said a long legal process has concluded.

This means all Gitmo torture victims are going to be compensated. So last week SCOTUS did settle the whole matter. It is now a matter of when the announcement will occur?

Does this mean my story will be told? Or able to be told?

At 7:47pm ET, the below FBI person in Chicago at Trustwave visited again. Searching Bing.com so not to track IP addresses. The feds always use Bing.com. This person is bored too, waiting. The Dot NET runtime files indicate the FBI's case management software. The fact they visited OneSermon.com, which has nothing there, means they anticipate something occurring there, so must check. This means whatever soon transpires, will allow me unencumbered to post something at that website, so they are worried of such. Which also means my story will be made public.

As of 8:10pm ET, no other users, nothing in PACER, no contact. I wonder what Bush2 and crew were up to today? And why today? Who is the person in Cashiers? Could be someone with that camp or RV park I applied for jobs. Turned down by never hearing from them again.

At 11:23pm ET, below from Cheyenne, Wyoming. This would be VP Dick Cheney. Likely speaking with P. Bush2, planning something for me. He visited davidbardes.com, not cold cell. The focus is on me.

As of 8:28pm ET, nothing has happened today, for this prophetic date of 7/17.

Around midnight I added the following entry to coldcelltorture.com:

7/18/2017 - Coming October 1st, "The Bush Chronicles"

The sequel to "Unspeakable Pain" chronicles the period from the SCOTUS vote of April 15, 2016, to further efforts of President Bush2 to do harm to me again, to President Obama's refusal to stop the hypothermic murders of a half-dozen citizens, ending with President Trump's campaign promise to torture more victims to death, claiming "torture definitely works." A sad chronicle of three president's complete absence of any morals or ethics.

I googled "hypothermia inmate" and found a new murdered inmate. Below:

Sept. 28, 2016, Inmate Jeremy Oswalt

7/7/2017 - Vice President Mike Pence murdered one of his inmates with hypothermic torture/murder on September 28, 2016

Former Indiana Governor Mike Pence, now Vice President, brutally tortured to death Fort Wayne inmate Jeremy Oswalt with hypothermic torture/murder on September 28, 2016. Oswalt was stripped naked and locked in a cold cell because of mental illness, denied food and water he froze to death, like so many others. Medical examiner listed cause of death as hypothermia, dehydration and lack of nutrition.
See article:
http://www.journalgazette.net/news/local/20170707/dead-inmates-family-sues
http://www.journalgazette.net/news/local/20170706/inmates-family-files-wrongful-death-suit

This explains all the recent visits from Indiana, on 7/16 and 7/17. Likely Pence searching, or others, regarding this murder.

Tomorrow is 7/19, another prophetic date. Also the 50 year reunion of Flight **22**, a Boeing 727, which blew up over Hendersonville, after taking off from Asheville.

On 5/**22**/2017, a **22** year old terrorist, blew himself up killing **22**, in the UK. Could this be a tie in to flight **22** from 50 years ago? Or coincidence?

News story just hit he wire. Senator John McCain has brain cancer. The Fox article quoted:

It's a very aggressive tumor, said Gupta. He explained that survival for malignant glioblastoma tends to be around 14 months with treatment, which could not begin until the incision heals, which would be in the next three or four weeks.

However, a 2009 study reported that almost 10% of patients with glioblastoma may live five years or longer, according to the American Brain Tumor Association.

This is the same tumor that Ted Kennedy had, said Gupta.

Is God taking out a republican senate vote? Like God did with Justice Scalia?

At night I wrote an article titled: "The Satanic Forces Driving Republican Genocide of the Poor, Disabled, Children, and Elderly" Then submitted to the NYT as an op-ed, then sent it to the Obamacare website, in response to their email to me.

Yesterday I started rewriting "Near Death Experiences Prove Christainity" And stayed up till morning. Then wrote today and tonight. It is going well, and should have done this awhile ago. I am going to stick with it, being important.

Web traffic has been scant. Light. What is going on I do not know. Perhaps SCOTUS is waiting until their summer recess is over before moving on my case. Nothing has happen on my case, last PACER entry was 6/8/2017. Two months ago about soon. Are they going to bleed me dry with money, cut off SSA, make me desperate?

Or is something large afloat and needing time. I do not think those crooked judges in Asheville want to answer my motions. Not when they delayed even entering my last motion. Bush2 has not visited, but he knows about The Bush Chronicles, publish date of October 1st. I am in a holding pattern. Patience is my weapon.

No other visitors last night or today. Very quiet.

I checked PACER for the CIA torture doctor's lawsuit. There is a hearing this Friday, the 28th, for a motion for partial summary judgment, and others. Then a pre-trial conference and motions to decide on on 8/21. Trial starts 9/5.

Also, two days ago was an entry in the Marshall Project daily email of a federal judge in Houston who visited a prison so hot the judge was furious and ordered air conditioning or move the inmates to an air conditioned prison. This is another event credited to my ending torturegate. Federal judges now doing their jobs.

Pensacola Christian College, still using the original ARPA net URL's. Have no idea who this could be.

7/28/2017 - Friday

As of 3:39pm ET, no visitors today. Right now there is a hearing in Seattle in the Salim v. Mitchell CIA torture lawsuit. It started at 9:30am PT, or 12:30pm ET. So it is likely over. But nothing in the news yet. Judge Quackenbush has to decide several motions, one a partial summary judgment in favor of the victims.

Nothing in PACER as to my lawsuit. Have to wait for news. Meanwhile I am editing my rewrite of ***NDE's Proves Christianity*****.** I should finish and upload to book sites this weekend.

At 4pm ET, the outcome of the hearing was reported. The judge is moving the case to trial. The case was not dismissed, nor awarded win to victim-plaintiffs. The judge told the parties to try to settle the case before trial. This is a huge loss for the torture doctors, and P. Bush2 and crew. And a huge victory for me. Below is the article text:

Two U.S. psychologists who helped design an overseas CIA interrogation program failed to persuade a judge to derail a trial over claims they're responsible for the alleged torture of three terrorism suspects.

But the federal judge in Spokane, Washington, refused Friday to give the former detainees an early victory on their request that he find the liability of the contractor-psychologists is already proven. Instead, all claims will be heard by a jury at a trial set for September. The judge urged both sides to try to reach a settlement.

https://www.bloomberg.com/news/articles/2017-07-28/torture-case-heads-to-trial-over-cia-interrogation-methods

Then an article appeared in the New York Times, below link. The judge may dismiss two of the plaintiffs not have any contact with the torture doctors, while Rahman, was tortured to death by Mitchell himself leading the cold cell torture. So cold cell torture would be the focus at trial.

The torture doctors legal argument was the German company who provided gas used to murder Jews, was found not guilty, so should the CIA torture doctors. What a ghastly set of facts to claim relief, the metrics being horrible. But is shows how desperate the doctor were.

The judge also did not want the trial to be political, rather focus on torture and effects.

Bush2 and crew are very upset I presume. Their last stand has failed. Now they are forced to settle, or go to trial, which is little more than a month away. 9/5. No wonder there as been no website traffic today. Horror is settling in to horrible people. Perhaps Bush2 and crew will implement Plan B now.

As of 6:28pm ET, no visitors today. Most notably absent are the Amazonaws CIA network visitors, which have been heavy this week, leading up to the hearing today in Seattle. Even from Jacksonville, FL, who was possibly Karen Thomas.

This means they have greater more pressing concerns

Dallas, Texas. 5:54pm CT, 6:54pm ET. It was a Mac computer, first time from Dallas, I think. P. Bush2's folks are resorting to Plan B.

This is like clockwork.

7/29/2017 - Saturday

As of 1:03pm ET, no visitors today. With a night of sleep, the sun rose on these unhappy souls. SCOTUS is unhappy I am pinching them, so they are pinching Bush2, to settle with me, so I leave the justices alone.

By 4pm no visitors today. Since they may settle now, having pushed off to the last resort with hope of not, the clock is on my side. The first pretrial conference is 8/21, the day of the solar eclipse here in Brevard. Trial starts 9/5. The judge has okay-ed two people blog live streaming the trial in the courtroom. Judge Quackenbush may dismiss the claims from two of the plaintiffs who were not directly tortured by the two doctors, leaving only Gul Raham, who died of hypothermia at the hands of Mitchell and Jensen. This must send shivers down P. Bush2, VP Cheney, CIA, and the DOJ.

The clock is ticking in my favor now. If they settle with the ACLU before trail, the result would open the story for wide coverage, of the ACLU bringing down presidents and CIA. My story could then be safely reported. Do they want to pay me to pull my story, buy silence, and hide? I am not going to be silenced. It would be to withdraw my lawsuit, and stop suing for hypothermic torture.

Below are visits from Comporium (my cable company buying broadband Internet only) Yesterday when I came home from the store, I could not access my websites. I celled tech support, got the run around, then figured Comporium's software detects my iPad at the store, and at home, then blocks any return webpages from being viewed. Today the problem was fixed. But the morning crew logged onto my sites, then came back, got my book, called Facebook to report me. Then called SLED to report me. They must have heard back from SLED, who visited, that everything was true, and currently being sued. So they passed it on to someone at Winthrop University. Then they came back at the end of the day.

My lawsuit was dismissed today. Judge Martin Reidinger was brutal. He was obviously ordered to do so. But time is on my side, and the destruction of Charleston on the 21st. These humans will not heed my words, so I unleash God's words. By the hand of God will these meet their final destruction.

Dismissing my lawsuit does not solve their problem, nor Bush, nor CIA. The two torture doctors are still going on trial. With the publicity of live bloging the trial, all on hypothermic torture. If Bush2 settles, then my story goes public.

SCOTUS has directed Reidinger to dismiss, at this time. This has been planned in every detail. I assume someone will approach me with a tiny settlement, to try to force my hand. Federal judge Quackenbery did not dismiss the CIA torture lawsuit, as it is going to trial, but my suit was dismissed at this time. Reidinger wrote I may have a chance of getting the federal judges in Charleston to set aside the first case, in an attempt to get me to file down in Charleston. Nice try, but no dice. Never going back down to Charleston. There will be no more Charleston to return.

This explains the lack of website traffic lately. And the recent visit from Richmond, being the appeals court. They are ready for me. All I have to do is wait it out. Why would I ever accept any money at this point?

Today is the second day from dismissal. Traffic has started again, slowly. Dismissing my lawsuit does not help them, as their problem has not gone away. It has gotten worse. 13 days to the 21st, when they will witness the hand of God move across Charleston.

Near Hartford, CT. Insurance company people. Drake Holdings last night, today Hartford. So money is up I suppose.

So it appears as if a plan has been timed and implemented. Bleed me dry to force me to accept a low payment, in lieu of a lawsuit hope. The problem is I am only a few weeks away from total victory. Why would I accept any amount? Would be foolish.

Today in the mail I received the envelope from the federal court in Asheville. I will leave it sealed. No website traffic, like a whiteout, no one wants to be near it. Trump rejected my two letters, Bush2 and crew happy I assume. Federal judges and justices content with security. They have no idea about what is soon to happen to them. Only upon witnessing God's wrath will they fear and tremble. It is tragic so many must die before they fall to their knees and seek forgiveness.

I am ready. My books are free, ready for the storm. 11 days hence. Come Lord, come quickly.

As of 5pm ET, only the two hits above have visited. Someone at the CIA watching, and someone on a proxy. They are trying to anticipate my next action.

In the Salim v. Mitchell lawsuit, mediation obviously did not work. Stubborn guilty souls refusing their day of reckoning. I guess they have opted for trial. Whether they settle or go on trial, I win either way. Glory be to God. The heavens must be resounding in celebration.

P. Bush2 visited last night. Just to the one page, none others. He is checking on his doom, I suppose. Expecting to see something perhaps? Knowing I had by then received the court dismissal. Wonder what his plan is? Or, is he just going to let the CIA torture doctors case go to trial, with my websites fully accessible? At this point I do not think they will offer money, too close to public release.

I checked PACER today on the Salim v. Mitchell case, and a slew of filings were made. The trial is moving forward. Guess there was no settlement. The judge ordered the parties to submit a list of trial witnesses by 8/17. There were more requests for live media blogging, which will be outstanding. This is going to be a show.

Three visits from Utah last 24 hours? FBI? I wonder what is going on?

P. Trump's presidency is melting down. Last Saturday Neo-Nazi's marched in Charlottesville, and killed one lady counter-demonstrating. Then Trump came out saying both sides are to blame, but did not call out the Nazi's. By Monday he has to make a statement against the killers, but it was weak. Then yesterday, from the Trump tower, he had the worst presser I have ever witnessed, it was a meltdown. Trump is an unapologetic Neo-Nazi Klan supporter white supremacist. Seven CEO's quit his jobs councils. Republicans are running for the hills. It is a moral crisis such our nation has ever experienced.

8/17/2017 - Thursday

Todays date is prophetic being the 17th. I checked PACER in the CIA torture doctor lawsuit, and a confidential settlement has been reached, as there was a stipulation from the plaintiffs. Filed today, 8/17. Text below.

The parties, by and through their respective attorneys of record, hereby stipulate and agree pursuant to Fed. R. Civ. P. 41(a)(1)(A)(2) that any and all claims by plaintiffs Suleiman Abdullah Salim, Mohamed Ahmed Ben Soud, and Obaidullah, as the personal representative of the estate of Gul Rahman, against defendants James Elmer Mitchell and John "Bruce" Jessen shall be dismissed with prejudice, pursuant to a Confidential Settlement Agreement entered into between theparties.
DATED: August17,2017

This explains the website traffic yesterday night. I assume the judge will approve the stipulation and the case closed. Then it will be made public. My story my soon be able to be told. Or, they will try to settle with me for my silence. They have no idea what is about to happen. Sad.

The judge did approve the settlement, right away. The case is over. Terms of settlement not disclosed. Articles appeared in the Guardian, NYT, Washington Post, others. But never made it on the first page of FoxNews.com, CNN.com, or CBSnews.com. As of 8:04pm still never made it onto the top pages. Bush2 and Cheney must be happy. Same with the CIA, and DOJ. Their only problem now, is me. I am a lose end, and the story behind the story is not going away. Come Monday their will learn to what degree.

Whomever my anger burns against, will encounter final judgment. Death will come knocking on their door. The rule of God's law has declared them all guilty. God's law will come with vengeance and divine retribution. They will feel the sting of death.

Update to coldcelltorture.com:

The sequel to "Unspeakable Pain" chronicles the period from the SCOTUS vote of April 15, 2016, to the efforts of P. Bush2, P. Obama, and P. Trump, to mask the truth, then the settlement of the CIA torture doctor's lawsuit, followed by the destruction of Charleston in "final judgment." Then lastly the destruction of those in Washington, DC, and around the nation, whom had any involvement in hypothermic torture.

Reuters never posted an article. Odd. Why?

Re: You Fools Failed Fantastically

Dear Dror Ladin and the other yellow cowards:

How dare you write articles claiming imperious victory for torture victims, as your meretricious settlement is an impalpable conciliation of the depraved. Your claims of helping torture victims are nothing more than weak platitudes from your political parapet consisting of self-serving legal masturbation.

Not one of you knows courage or risk, or posses even a single virtue. As you spent fifteen years with your fingers up your ass, as a dozen of our own citizens were brutality tortured to death with hypothermic murder.

You sat in your own dung smelling your fingers while protecting only yourselves, and today claim stolen valor for your case not being dismissed, while continuing to hide the ugly truth that dozens of our own citizens were, and still are, brutally frozen to death. While you slept soundly in soft beds with pillows protecting your law licenses and gratuitous unjustified incomes.

You have accomplished nothing of lasting substance or value, and squandered a opportunity others created, yet you wasted. You are worse then the torturers, as they believe their lies, while you outwardly pronounce a fabricated false facade of being beneficial to human beings, expecting them to believe a Constitution actually exists.

I spit you out of my mouth. Wherever there is a carcass, there you vultures will gather.

David Andrew Bardes, Sui Juris

I received two emails from “Steve Burda” from six years ago, in 2011:

```
Steven Burda <steven.burda.mba@gmail.com>
So 6 years has passed since this email... what's the latest?
Can I see some of your filings in Federal Court?
Steven Burda
```

This person is obviously a plant, likely Bush2. I did not reply, nor will I reply. Attached to the two emails was my "Pro Se Guide to Family Court."

So, it has been a busy morning on the websites.

Since the 17th when the CIA torture lawsuit settlement was finalized and I emailed the ACLU lawyers, there have been five (5) visits from Houston, four (4) visits from Dallas, one (1) from British Columbia (Mitchell) and one (1) from Portugal (CIA lady agent sentenced to prison in Italy.

And emails from two previous Pro Se Guide to Family Court people seeking advice. One I have not heard from since 2011, Steve Burda, who emailed from my last email back to him in 2011. This Steve Burda emailed me on 8/18, the same day I emailed the ACLU lawyers. I did not respond, as clearly is a Bush2 plant.

Then on the 8/20, I received an email from JB Knowles, from Wagoner, OK. Seeking legal advice. Then today I have a website visit from Lawton, OK, below. So this person is close to Dallas, and a plant as well. I did not respond. Bush2 now knows I outed these two people as imposter's.

I received another email plant from the Bush2 people, below. Someone wanting to edit my book. I did not reply or load pictures. This is the third attempt.

Hi David -
Mario, a colleague and friend, mentioned *Unspeakable Pain* in an email. Sara and I are looking for a few more 4- and 5-star rated informative nonfiction works to showcase on our website at no charge. I took a quick glimpse on Amazon. From one author to another, do yourself a huge favor and get an editor. You can talk with me about the job if you want, but the work needs some serious editing, despite the content possibly being quite good.

One other thing: we have an affiliate program whereby we share 25% of our sales proceeds with our partners. It works via a simple link/image we provide to you for use on websites, in emails, or on social media. Votefamily.us has it on the front page. Feel free to also reach out by phone anytime after 10am PDT.
Healthiest Regards,
Tom Scott - Model, Actor, Athlete

At 10:20am ET, my cell phone rang with a local exchange number 828-577-4343, but I was in the bathroom and could not answer in time. I dialed the number back, and a recording said the number had been disconnected or no longer in service. Lawsuit Timeline

Bardes v. US Courts (1:17-cv-89)

3/29/2017 – File lawsuit
4/10/2017 – I filed Motion to Disqualify (assignment of same judges as before)
4/18/2017 – CCS answers complaint with Motions to Dismiss.
4/21/2017 – SC & Charleston answers complaint with Motions to Dismiss.
4/27/2017 – I filed Objections and Response (to above answers)
5/1 & 5/2/2017 – Both CCS and SC/Charleston replied to my objections with more motions to dismiss.
5/30/2017 – United States answers complaint on day 60, refusing consent to be sued, claiming sovereign immunity, among other's issues.
6/5/2017 – I filed my Objections to Government Edict
6/8/2017 – US Attorney in Charlotte replies to my objections.

Nothing more has happened as of 7/3/2017.

During this time, I mailed two letters to President Trump.

Also, Social Security, on command by P. Bush2, began the urgent process to cut off my disability payments. I did not attend my "Disability Video Hearing" and 15 days later the Disability Hearing Officer wrote a detailed 12-page report concluding I was no longer disable. On 6/21/2017 I mailed a letter to the disability hearing officer, and sent it to P. Bush2 via his scheduling clerk email. P. Bush2 gave it to all parties quickly.

This letter to the disability hearing officer was so powerful, it become the catalyst for rapid movement of decisions. That weekend, 6/24, was SCOTUS's last before summer recess which started the following Monday.

The website traffic started early Saturday morning, when someone with the FBI in Chicago, spoke with someone at the State of Kentucky. Then Sunday morning at 7:33am, someone in Washington, DC, visited, shortly before someone in New York City visited.

Then Monday was SCOTUS's last day. Tuesday someone with the FBI (Blue Coat Systems) and someone in Wilmington, Delaware visited. Joe Biden lives in Wilmington. Wednesday night at 11:21pm, someone in Washington, DC near the Whitehouse visited, on an iPhone on Verizon. Having searched Google. This likely was P. Trump. Up late Tweeting.

Thursday morning was Cincinnati, then Spartanburg, SC, then Dallas, UK, and Italy. Spartanburg was likely retired Chief justice Toal, of the SC Supreme Court, perhaps being hit up for money to throw in the pot. Dallas would be lawyers for P. Bush2. Italy is the Prime Minister who almost jailed a CIA agent over hypothermic torture.

On Friday, 6/30, lots of CIA network visits, then at 8:06pm ET, someone in Honolulu, Hawaii visited, at 2:06pm Hawaii. I Google to see if P. Obama was vacationing there. An article in the local paper said he arrived on the 22nd, for the July 4th weekend vacation.

Three Presidents, Two Vice Presidents, SCOTUS Justices, US AG Sessions, FBI, and CIA, and SC, appeared to all sign off on me getting money? P. Bush2, then P. Obama, and P. Trump, all in one week. Impressive.

Under the Radar - by Josh Gerstein on the Courts, Transparency, & More
http://www.politico.com/blogs/under-the-radar/2016/11/feinstein-cia-torture-report-231978

Sen. Dianne Feinstein is making a determined but last-ditch attempt to get President Barack Obama to declassify a nearly-7,000-page Senate report about the use of harsh interrogation techniques by the CIA under President George W. Bush.

Feinstein sent Obama a letter last week urging him to make the unabridged version of the Senate Intelligence Committee's so-called "torture report" public in a declassified form before he leaves office Jan. 20. She said Tuesday that she also buttonholed Vice President Joe Biden this week to make sure Obama got the message.

"Last night, I handed a letter to Joe Biden to give to the president, so — be sure he got my original letter. You never know," the California Democrat said, according to her office. "So, the time has come. The issue has been raised; it's been raised by the president-elect. It's time to address it. Let's look at the facts. The time has come to declassify the report, allow the general public to make up its own mind. At least, those that'll read 7,000 pages."

7/20/2017 - Hot judge in Texas issues cool ruling for inmates. An angry federal trial judge Wednesday ordered state prison officials to provide air conditioning for the rest of this summer to all elderly, disabled, and other heat-sensitive inmates near Houston. The judge, who had visited the "Pack Unit" himself to evaluate the level of heat, blasted prison staff for what he said was their "seeming indifference" to the suffering of inmates left in sweltering cells without moving air. 9/28/2015 – Monday - Day of massive website visits, 20 law schools, gov's, fbi, doj, colleges, lawyers, it was on everyone's desk first thing Monday morning. It spread that fast, like instantly. During the rest of this week the traffic was far lighter but busy.

(get date) - Judge Reidinger's website visit with his lawyer in a nearby state.
11/10/2015 – Judge Reidinger's order **DENYING Motion to Reconsider**.
11/12/2015 - Appeals clerk (Richmond) sent letter requested transmission of latest record from District Court (Asheville.) I was once again helped by the clerks, they wanted this in the record to go up the courts.
11/13/2015 – I filed second **Notice of Appeal** (required).
11/13/2015 – Date signed **Appeal**, mailed to Appeals Court. Fee paid.
11/19/2015 – Appeals Court docketed my **Appeal.**
1/17-1/18/2016 – 1:16am, late Sunday night Monday morning website visit from Bush2 in Maine. The next day the Appeals Court decided to deny my appeal, so Bush2 knew of this, and visited the website the night before, at 1:16am, worried and having a drink I suppose.
1/19/2016 – Judgement **ORDER Fourth Circuit Court of Appeals** (three judges) decision: **Affirmed (denied my appeal.)**
1/21/2016 – Date signed **Petition to US Supreme Court.** Mailed to Washington, DC. Fee paid.
1/26/2016 – Supreme Court Petition filed by clerk.
2/13/2016 – Friday - Justice Scalia's death, he was not feeling well went to bed early, died peacefully in sleep. 19 days after my petition filed. Bush2 and Cheney arranged private hunting trip in a remote ranch in Texas to secure key vote against my petition but odds were not good as Scalia died first night, horrified Bush2 flew immediately to Maine to set alibi not being around Texas. Cheney flew to deep in Wyoming. Guest list of 30 or so in private hunting party never revealed, had good reason. Washington Post publishes name of a secret; membership list is secret but otherwise known fraternal worldwide hunting society hundreds of years old which sponsored the hunting trip. So making Scalia a new member was the price to pay for assuredly voting against my petition, therefore avoiding possible doom for fellow fraternity brothers. Unfortunate timing of events must have disappointed many.)
2/14/2016 – 10:44pm- Bush2 website visit from Maine. He flew from the ranch in Texas to Maine quickly to set in record not being in Texas around time of Scalia's death.
2/17/2016 – Defendants waive right, saying nothing in response to my **Petition**.

2/20/2016 – Someone in Houston, TX, Bush2, visited davidbardes.com and coldcelltorture.com, then 2.5 hours later someone in Vero Beach (my father) visited coldcelltorture.com. Did Bush2 and my father speak this day or coincidence?
2/24/2016 – Supreme court clerk posts to docket: **Petition DISTRIBUTED for Conference Vote** on **March 18**.
3/5/2016 - Saturday 8:44am– Gidget Hall (has Secret Service pin) Facebook friend request's me and after I accepted she messaged me a question: "How are you doing today?" I did not reply. Was she someone on Bush2's detail?
3/7/2016 – Unknown car visit at Rainbow Lake, just parked and looked at my cottage. Left after ten minutes.
3/10/2016 – Website visit from Cheney.
3/11/2016 – Another website visits from Cheney.
3/13/2016 – Sunday 12pm - **Red truck with white Clemson Paw on hood with man with gun** revving engine shows up, returns every 15 minutes, until I walked out on the porch and sat down, then he stopped in front and flashed gun. He was scared away by neighbor yelling and pointing gun at him, and he left scared off. These yahoo's from South Carolina tempt you to come to them, come off your property, so they can shoot you saying you we coming after them, stand your ground. If they storm the cottage, kick in the door and shoot you, you were obviously murdered on purpose, but if shot under plausible reason at law, such dissipates causation.
3/18/2016 – **Eight remaining US Supreme Court Justice's First date for Conference vote**, justices vote to reschedule vote to 4/15, three conference days, and three weeks, away, needed more time. Supreme court clerk deletes entry in docket showing it having been distributed for conference on March 18 in the first place. Three days later the below was posted in its place.
3/23/2016 – Supreme court clerk posts to docket: **Petition DISTRIBUTED for Conference Vote** on **April 15**.
4/8/2016 – Website visit from Houston, TX, just after 5pm CST. Some meeting adjourned at 5pm, and such resulted in the next nights visit by a truck and a car, with flashing lights honking horns, man standing in beam, to threaten me or do harm to me. They left after ten minutes.
4/9/2016 – website visit from Bush2 in Maine, same day as below.
4/9/2016 – Saturday night 9:01pm - **Nighttime visit by a truck and car and several people trying to intimidate, scare, or possibly harm me.** My security camera captured frames every 15 seconds and I posted the composite on YouTube. I did not venture out this time, as nighttime could have hidden a rifle with scope on me from the darkened vehicles. After about ten minutes they left.
4/15/2016 – Friday - **Eight remaining US Supreme Court Justice's Second date for Conference vote**, court takes whole day to **end torturegate** and does so. SCOTUS-Blog reports justices canceled their entire normal conference day schedule to work on some case of importance and need.

4/18/2016 – Monday – Supreme Court clerk enters to docket: **Petition denied** (voted Friday before). 207 days of litigation since filed. 3,666 days from my torture on 4/3/2006 to vote day 4/15/2016.

4/19/2016 – Boston Globe reports headline: "*Key shift in shielding torture lawsuits, CIA torture victims suit moves forward*," the first calamity of the ending of torturegate; it was immediate, and now the two CIA torture doctors are being sued and may squeal on Bush2 and Cheney if bitten too badly by the ACLU lawyer sharks.

http://www.democracynow.org/2016/5/6/after_a_landmark_legal_ruling_will

5/6/2016 – Website visit from Wyoming, Wasilla AK, and someone on a satellite linkup. Possibly Cheney, Sarah Palin, and one other.

http://www.postandcourier.com/20160603/160609808/landmark-lawsuit-settled-after-mentally-ill-inmates-death

http://www.foxnews.com/politics/2016/06/16/ex-cia-officer-facing-jail-in-italy-claims-clinton-state-dept-ignored-her-pleas.html?intcmp=hpbt1

6/23/2016 – FoxNews.com reports: "*Texas Federal Judge rules for safe drinking water for inmates*," marking a turn of Federal judges shifting back to being the vicars of prisoner safeties. The whole federal judicial system is recalibrating back to where it should be.
http://www.foxnews.com/us/2016/06/23/judge-rules-texas-prison-must-provide-inmates-with-safe-drinking-water.html

6/29/2016 – Mailed letter to Morris Dees, founder of the South Poverty Law Center, asking if he thought my case had matured to where a lawyer would help me.
7/1/2016 – Date posted Torturegate article on coldcelltorture.com, after being certain NY Times would not publish it.
7/1/2016 – Friday of July 4th weekend, 2:15pm CST Bush2 visited, called Cheney, Cheney visited at 3:04pm MT; Cheney spent 7 hours on the website, until midnight his time, fact checking most of the pages at the coldcelltorture.com. At 3:44pm MT Cheney spoke with someone LA, CA, as they visited. Then at 10:49pm EST Cheney spoke with someone in NYC. So he spent seven hours and talked to two people at least.

7/5/2016 – Tuesday - Cheney then came back again on Tuesday after holiday weekend, and spent another three hours reviewing and fact checking each remaining page at the coldcelltorture.com.

7/5/2016 – Received handwritten note from Morris Dees, saying my case was "inspiring" to him, and he said I should have no problem finding an attorney now.

7/12/2016 – I found out why I had so many website visits from Albany, NY. They were using my research at coldcelltorture.com to help formulate their lawsuit suing a jail medical provider for three inmate deaths, one being from hypothermia. News Niagara reporter Thomas J. Prohaska wrote article titled: "*State [New York] sues Armor health services over inmate deaths; 3 died on its watch in Niagara County, 3 died in facility in Niagara County*."
http://www.buffalonews.com/city-region/all-niagara-county/state-sues-armor-health-services-over-inmate-deaths-3-died-on-its-watch-in-niagara-county-20160712

8/18/2016 – LA Times publishes highly embarrassing photo of Mexican's trapped in a cold cell huddling under reflective emergency blankets. So it was 100 degrees outside in Phoenix, but inside it is artic winter with only a thin film to keep from being murdered in the cold. Article titled: "*Judge releases picture of Border Patrol Cold Cells*."
http://www.latimes.com/nation/la-na-border-patrol-cells-20160817-snap-story.html

8/26/2016 – FoxNews.com Latino reports: "*Honduran woman and her child sue Obama administration over 'inhumane' detention*," consisting of cold cell torture and lack of life saving medicine for young son. http://latino.foxnews.com/latino/politics/2016/08/26/honduran-woman-and-her-child-sue-obama-administration-over-inhumane-detention/

9/1/2016 – Inmate letter from the Durham County Detention Center complaining the air conditioner does not work in his cell. So this is the opposite from last summer when inmates wrote of having to put on all their clothes just to stay warm, when it was a heat wave outdoors. Seems Sheriff Andrews stopped the hypothermic torture after my lawsuit, and did the opposite by making them hot by not given them A/C,

the inmate wrote: "I'm not doing good in here my A/C don't work in my cell"
https://amplifyvoices.com/2016/09/01/been-locked-up-going-on-14-months-next-month/

Given the overwhelming proof hypothermic torture/homicide had been brought to an end by federal judges no longer dismissing torture lawsuits so without protections from the higher courts, cold cell torture has come to an end in domestic jails and prisons.

With this assured, I was ready to write my olive branch letter to US Attorney General Lynch.

9/1/2016 – Wrote and mailed 2nd letter to US Attorney General Lynch – (**Olive Branch Letter**)

9/9/2016 – Mailed 9 letters on 9/9 to 9 Top Hollywood lawyers, based on an article on the 100 most powerful lawyers in Hollywood. The letter explained my story and need for hiring lawyers first, given sensitivity of story and players. Asking to be advised on best print publishing and movie resources for such a story. The race is on.

Drake Holdings in Las Vegas, using Bing.com searching for "Cold Cell Torture Judson Witham" Judson is another cold cell torture victim. Easter morning at **7:08am MT**. Three odd visitors early Easter morning. Drake, Greensboro, and Vegas again. All to the "suicide watch" page. Are these people staged to pay me money at the scheduled time? Drake has been waiting in the wings here for several days.

The FBI have not visited since March 22, 2018, two weeks ago. The only reason I can guess is that was when P. Obama visited and Drake Holdings started to visit again, as if to pay me off with money - a decision had been made. Their last FBI investigation of me, over October, November, and December 2017, turned up nothing to prosecute me over, or I would have had a no-knock door busting good morning wake up call.

It is 7:05pm in The Hague, and 1:05pm ET here, nothing new in the ICC (International Criminal Court) docket. So another day has passed without any order from the court (to start investigation into CIA/Bush2 torture/murder.) The Madison, Wisconsin visit likely is not Cousin Ollie, as they have a Unix box and arrived same time as the person in Vietnam, so could be **Dyersburg paper people?*** The Pennsylvania visit was a Dyersburg paper person, being a high school. And Poland was a CIA cold cell torture victim? So, the quiet of the weekend broken by regular traffic, all waiting on the ICC judges. Hurry up and wait.

[Update note 8/1/18 - The term "Dyersburg paper people" later revealed as a nationwide group of educators connected on the Lightspeed Systems Network. "Dyersburg" refers to a town in Tennessee where an author there wrote a white paper about hypothermic torture being used on prison suicide watch because depression was uncurable in prison, so by torturing, some to death, with hypothermic torture, the inmates would return to their normal cells never to mention depression again. This group was about to have the paper published in the UK, but Bush2 and the CIA got to them just at the last minute, and stopped publication. Fear caused the group to cease their efforts and acquiesce.]

Dick Cheney visits 40 minutes after the FBI visit, were they both talking? Cheney is a cold blooded killer, and is now afraid of me? Hence visiting three times since last night, twice today. Cheney faces another long night of uncertainty. And not much the FBI can do about it. It is amazing how God brings down the mighty and proud.

To: ICC Prosecutor, Fatou Bensouda at otp.informationdesk@icc-cpi.int

From: David Andrew Bardes, USA

Re: ICC Judge Chang-ho Chung has been compromised by the FBI, George Bush2, & Dick Cheney

Dear Honorable Fatou Bensouda:

You will likely recognize my name from the investigation into the United States' domestic use of "cold cell" hypothermic torture as it relates to the CIA use of cold cell torture in Afghanistan.

I regret to inform you that one of your ICC judges has been compromised by the FBI, P. George Bush2, and VP Dick Cheney. On March 24, 2018 an FBI officer met with Judge Judge Chang-ho Chung in South Korea. My evidence is website traffic logs from the judge's own IP addresses, both from the FBI officer and the judge. The judge used a Nexus 4 smartphone Build/KOT49H.

Then minutes ago, 3:47pm ET, I had another website visit from Judge Chung, with the Nexus 4 smartphone, to a website only Dick Cheney and George Bush2 know about, and gave to the judge, who then visited the website (eliasmonastery.com.)

I do not know if this manner of contact is normal or suspect, so I leave it in your hands. I can provide the evidence in website logs if you desire. George Bush2 has been trying to make contact with me to pay me a large sum of money to take down my websites (coldcelltorture.com) and remove my book, Unspeakable Pain, from the Internet and book markets.

The FBI will intercept this outgoing email, so please continue to have courage.

All my best,
David Andrew Bardes

GoDaddy below. At 5:54pm ET. The feds are forcing GoDaddy to take down my websites. That was fast. The Feds must be pissed off. They intercepted my emails about Judge Chung, who was contacted as a result of my emails.

This is the 12th Year Anniversary of my regaining consciousness (at 2:55am) and not knowing I had been shot. It also marks 1,200 days until 7/17/2021, my guess as to the end of the Great Tribulation. It also marks the start of the **time of wrath**, as prophesied by the Prophet Daniel.

Re: ICC Judge Chang-ho Chung has been compromised by the FBI, George Bush2, & Dick Cheney

Dear Washington Post:

There is no point in encrypting the below as I do not fear, rather I am exposing those who wish to remain hidden in fear. The below email to the prosecutor at the International Criminal Court is self explanatory. I am the author. This story may be too hot for even the Washington Post, depends on your level of fear and courage.

Thank you, David Andrew Bardes

(I sent this email to ICC Prosecutor Bensouda at 4:27pm ET on April 4, 2018. Then I sent a copy, at 4:41pm ET, to the ICC corruption office, at email IOM@icc-cpi.int. Within an hour I had website traffic indicating the FBI had a copy, and that night confirmation the ICC had received their copies.)

To: ICC Prosecutor, Fatou Bensouda at otp.informationdesk@icc-cpi.int

Re: ICC Judge Chang-ho Chung has been compromised by the FBI, George Bush2, & Dick Cheney

Dear Honorable Fatou Bensouda:

You will likely recognize my name from the investigation into the United States' domestic use of "cold cell" hypothermic torture as it relates to the CIA use of cold cell torture in Afghanistan.

I regret to inform you that one of your ICC judges has been compromised by the FBI, P. George Bush2, and VP Dick Cheney. On March 24, 2018 an FBI officer met with Judge Chang-ho Chung in South Korea. My evidence is website traffic logs from the judge's own IP addresses, both from the FBI officer and the judge. The judge used a Nexus 4 smartphone Build/KOT49H.

Then minutes ago, 3:47pm ET, I had another website visit from Judge Chung, with the Nexus 4 smartphone, to a website only Dick Cheney and George Bush2 know about, and gave to the judge, who then visited the website (eliasmonastery.com.)

I do not know if this manner of contact is normal or suspect, so I leave it in your hands. I can provide the evidence in website logs if you desire. George Bush2 has been trying to make contact with me to pay me a large sum of money to take down my websites (coldcelltorture.com) and remove my book, Unspeakable Pain, from the Internet and book markets.

The FBI will intercept this outgoing email, so please continue to have courage.

All my best,
David Andrew Bardes

I can always tell who has spoken with Bush2, or had passed down information from the original source of Bush2, such the search words cause Google to return the "suicide" page first for the visitor. The search words Bush2 gives people, come from my article titled "Torturegate Corruption Scandal" where most of the hypothermic torture deaths occurred when inmates were stripped naked and locked in suicide watch rooms made so cold they could not stay alive. So when I see a visitor coming from Google landing on the **suicide** page, it gives away a lot of information.

This proves the ICC is focused on cold cell torture upon first waking up in the morning.

Lazy bot programmer below. It is common for me to have many Russian bots, mainly through Ukraine. Such I do not copy them into this log. Same is true with Chinese bots. But the below Ukraine bot has sloppy coding revealing an error.

The second set of ICC judges are copied below. The Japan judge is Tomoko Akane, a woman, which is great news, as a chance of mercy. Akane has visited before at same time as Chung in South Korea, so they both know about cold cell and pre-negotiation with the FBI, Bush2, and Cheney? Is Akane crooked too? Or, the opposite? She started her day by contacting someone in Australia in bed with an iPad, and then someone in London was contacted, who were first told about coldcelltorture.com.

Judge Antoine Kesia-Mbe Mindua (Congo - Male)
Judge Tomoko Akane (Japan - Female) **NEW**
Judge Rosario Salvatore Aitala (Italy - Male) **NEW**

I will give her the benefit of the doubt, and hope she is courageous. So few are.

It is 3:18pm ET here, 9:18pm in The Hague, and 4:18am in Japan. When morning comes in Japan, will ICC Judge Akane get back to work on cold cell torture, like yesterday? Nothing new was posted at the ICC, so the judges are still working on it, I presume. Another day of waiting, waiting, waiting. Anticipation for me, agony for my enemies.

Somewhat busy overnight. Dick Cheney visited twice, two ICC judges, South Korea and Philippines, FBI, CIA, and federal officer in Singapore. But nothing new in the ICC court docket. Looks like the feds gave ICC Judge Chung a way to mask website visits, meaning the corruption is still active. Means all the ICC is in corrupt too? How will this all play out? Dick Cheney is worried, so a glimmer of hope is somewhere.

It is 10:39pm ET, and very quiet. Only a little traffic during the afternoon and evening. Most traffic comes overnight now, so now is late morning in Japan and Korea, and 4:39am in The Hague. But is about time the watchers and waiters start around here, for them a long night in anticipation. But their silence usually means bad news for them, so no need to visit my sites. Hurry up and wait. Or, is tonight the night?

P. Trump has not yet fired his missiles at Syria and Assad, but today he sent a warning Twitter to Russia, saying "beware Russia" or sorts. Because Putin has moved into Syria more so than last time Trump fired missiles, such pause is the result today. May be a long pause.

Very quiet overnight, no Dick Cheney, he seems to have been pacified somehow. Nothing from the ICC judges. None of the CIA cold cell victims have visited in awhile. Sabrina De Sousa has not returned, she is not worried anymore either? Was there a financial settlement with the 699 victims? Why did the ICC not get back to me on the log evidence, they did not want the evidence? The ICC is corrupt too? Or, is everyone still waiting for what date is their announcement, no need to visit, already know what and when it is to happen?

The above Charleston visit was significant, visiting the 'suicide' page first, then 'Laudman' being the SC inmate frozen to death. Last night 7 inmates were killed, stabbed, slashed, or beaten to death, and 17 others injured the same way but survived, at Lee Correctional Prison, in South Carolina. After 7pm, fights broke out in three cell blocks, such the guards fled the cell block, and left the inmates to a seven hour riot by mob rule, which oddly ended the same time my torture ended at 2:55am. The guards spent hours amassing tag teams large enough to storm each cell block and quash the rebellion. SC Governor McMaster was quoted in the press blaming it on contraband, and cell phones the inmates obtain from corrupt guards for money. He cited failed attempts to ask the feds for cell phone signal jammers. This is the same jail Jerome Laudman was tortured to death with hypothermic torture. For a state which routinely tortures their inmates to death, all over the state, these 7 dead and 17 injured is what results. The website visitor above, landed on 'suicide watch' and then the 'Laudman' page, meaning they drew the same conclusion as me.

So this visit could be as result of such, or was prompted by Bush2 who gives people search terms which lands them on the 'suicide' page.

ICC Judge Chung woke up today, thinking of me, and not cold cell torture, having visited my two sites, and not cold cell. He bagged the FBI masking script, and visited directly with his Nexus 4. He knows he is giving himself away, and does so willingly. Then the CIA torture victim in Romania, and some from the Netherlands. Are we back on track for some announcement from the ICC this week?

Cleveland, Ohio. This person visited a lot some time ago, have not seen them in a long while, and they visited ELIAS, which means someone told him about that, likely related to Bush2?

Three people from Alberta, Canada, visited in a sequence, one communicating to the other. Cold cell torture the topic.

At 9:02pm ET, it was reported in the news **Barbara Bush died**, at age 92, on April 17, 2018. Statements from the Bush families were provided as well. Many very old couples die within hours or days of each other, so perhaps her husband George H.W. will join her shortly? What does this now bring to my situation?

The Dyersburg paper person is perhaps visiting ahead of the 'finally time has come' publishing of their collaborative paper? With other Dyersburg paper people visiting as well. I have no idea who the Canadian people may be. Bush2's lawyers in Dallas are actively working with South Korean ICC Judge Chung, as evidenced by their visits at the same time, both using scripts to hide, but failed. This appears to be corruption, but what if it is legal, and Bush2 and crew agreed to pay restitution to the torture victims to evade criminal prosecution? What would the 699 CIA torture victims want out of the deal?

An interview with George2 and Laura Bush on their last moments with their mother Barbara, said they visited in person the previous Saturday, in Houston, as was a gathering for their last goodbyes. My website traffic from Houston, with the three college students,

may be from that weekend. Let me look backward to that weekend.

Yes, the first visits from the college students at the lake outside of Houston was on Friday the 6th of April. The exact time George2 stated in today's first interview since Barbara's death. But a week later, last Friday, the website traffic went dead. Which may indicate the true time of Barbara's death, followed by mourning privately before public announcements and massive funeral arrangements. Barbara's published date of death is April 17, 2018, but could be the 13th to the 17th?

Found an article on CBSnews.com about the Lee Prison Massacre, and it quoted a reporter from the Post and Courier, Steve Bailey, who has taken on the story and Tweeted questions to get a discussion going. He is new to Charleston, not knowing the history, he will be shut down at some point. So I sent a reply to once of his Tweets:

Sent Tweet:

This is a "conditions of confinement" result, Lee Prison has a long history of torturing inmates to death, a state judge ordered the killings to stop, but since it cost too much money to stop, Gov Haley appealed the case instead. See ColdCellTorture.com

Here is the link to the article:

Are cellphones really to blame for spike in S.C. prison violence?

https://www.cbsnews.com/news/south-carolina-prison-riot-are-cellphones-really-to-blame-for-spike-in-s-c-prison-violence/

"Unfortunately the state government is not that transparent sometimes," Bamberg said. "And there's a lot of mystery about what exactly goes on in SCDC."

Bailey and Bamberg are both calling for a wide-ranging, independent investigation.

Steve Bailey, contributing columnist for the Post and Courier.

Justin Bamberg, an attorney and South Carolina state representative

It is Friday night, Barbara Bush's funeral is tomorrow, but Dick Cheney is not going? He is home. There was bad blood between Bush1/Barbara and Dick Cheney, they blamed him for the torture fallout, and curse of the Bush brand. Seems true now. Double unhappy he is, once for being lonely not wanted at a funeral, and again for visiting coldcelltorture.com as his primary worry.

It is now 3:01pm ET on Saturday, Barbara Bush's funeral was at noontime in Houston. I watched several speakers and they did a great service for Barbara. After a grave site burial, I wonder how long afterwards, will the Bush2 people get back to work on cold cell torture and me? (the answer was 30 minutes, see below)

Joe Biden was not invited to the funeral either it seems. P. Obama and F.L. Michelle were at the funeral, and likely spoke to P. Bush2 about cold cell torture, and me? Then Biden gets an update, or votes, as to what to do next? Or, was there a large conference call? With Cheney and Biden? Others?

An article stated Barbara Bush would be buried at A&M University, a 100 mile drive from Houston. Likely Bush2 and Obama traveling together having a conference call on the way?

It is now 6:46pm ET, and no other visitors than above since right after the funeral. So it is

likely the Cheney and Biden visits were a mutual conference call between stake holders. Then quiet as the grave side ceremony takes place. Will Bush2 himself visit later when he gets home? The urgency is palpable.

The Germany CIA super hacking center was busy overnight. The first time in a long time. They ended with DomainStats checks. The last time that happened was when Bush2 ordered the CIA to DomainStat every page of my websites, then concluded no one visits the sites therefore no need to pay Bardes off. That did not last long, and the same may play out here, or not.

Cheney is most unhappy. Drake Holdings in Vegas is on the watch, as the Fremont, California Hurricane Electric person. Last night there appears to be one new shill recruit, who obviously said no. They will not find one to say yes, not given the more than a year of "no's." An infinity of no's. Perhaps the reason for the DomainStats and forget about Bardes? Forgetting about Bardes is what they desire, since unable to do so one way, try another way, even by self delusion. Which only provides a moment of salve and balm.

Germany CIA hacking center, at **3:43pm ET**, now doing domain stat checks on unspeakablepain.com. They are still collecting evidence that no one visits my websites, therefore no need to pay off Bardes?

@BarackObama, @JoeBiden, @SenJohnMcCain how can you cover up ColdCellTorture.com to protect your pals #Bush2 and #Cheney? You knowingly allowed all those citizens to be brutally tortured to death with hypothermia, was it worth it? How much were you paid?

@Comey you pretend to be noble, yet you legalized torturing citizens to death with ColdCellTorture.com* as you called it in your torture memos. You are a cold blooded killer, why would I believe your book of lies? *covered up by @EricHolder @BarackObama @JoeBiden

Germany CIA hacking center, DomainStat check, doing all the pages with an hour delay between each. Someone ordered a complete website record built. The last time Bush2 did this he decided to not pay me off. It did not last long, and will not last long again. The

problem remains, driven by guilty minds unable to sleep. Or, I invade dreams when they do sleep. They can never undo what they did, no way to alleviate their past.

It is now 10:28pm ET on Sunday night, and not one visitor all afternoon and evening so far. After all those visitors visited, even to this morning, then absolute silence. Are they back into the slow wait for the ICC judges to issue their order? The weekend opportunity to pay me off, over until next weekend. This slow wait in monotonous for me, but for those guilty of torture, the time passes with dread minutes turning into hours of dread. Days, weeks, and months of dread builds years of dread. They long for an end. While I await a beginning.

@sjbailey1060 Steve Bailey, have you now realized that SC murders their own citizens, many tortured to death, and no one will stop the killings? You live and work for the most evil people on earth, and you too will remain silent out of fear.

So much for the efforts to pay me off. Dick Cheney visited so many times, now his disappears. Either they ran out of time, or made the decision to not pay me off. Something caused Cheney to stop visiting. It is 5:21pm ET, and not a single visitor all morning and afternoon. Gonzo.

This story just broke in the news:
Former President George H.W. Bush hospitalized one day after wife Barbara's funeral, spokesman says

http://www.foxnews.com/politics/2018/04/23/former-president-george-h-w-bush-hospitalized-after-contracting-infection-spokesman-says.html

This happens with older couples, they will die within days or hours of each other. As if both go to heaven together, as death they did not depart. This may explain for Bush2 being back on death watch, twice in one week. Appears Saturday on the way back from the grave site ceremony George1 checked into the Houston hospital.

At 8:15pm ET, I just launched the ELIAS Monastery website. I sent an email to Sheree, so will have to see if the FBI intercept and spread the word. It is Friday night, the ICC is closed, and now another weekend of what? Bush2 trying to pay me off? More silence?

I visited the Houston Chronicle and Bush1 will remain in the hospital for the weekend to continue to gather strength. He was eager to get to Maine next month. It is 10:03pm ET, and not a single visitor since this afternoon.

It is safe to say, Dick Cheney is unhappy, and worried, perturbed. At me, my book, and my websites. And perhaps at Bush2 for failing to find a shill to contact me, to make it all go away. How sad.

I just found out who a long term website visit may be. From Ann Arbor Detroit area, University of Michigan Professor **Heather Ann Thompson.** She wrote an article on the Lee Prison riot in South Carolina, debunking the state's version of events. She won a Pulitzer prize on a book she wrote about the Attica riot of 1971, titled "Blood in the water." She last visited the cold cell website yesterday, but she has visited for a long time. She never contacted me, but would put herself at risk by doing so, so I will not contact her.

It appears the Dyersburg paper person at Central Methodist University in Missouri is quite unhappy. Looks like they sounded the alarm to other Dyersburg paper people around the country, even to Bush2 people in the Dallas office. I assume this is a good occurrence?

This person in Missouri is persistent today, visiting over and over. They got Bush2 people involved, with a threat? A threat of public publication? These Dyersburg paper people were stopped from publishing their paper, but Bush2 people. So now are they threatening to publish? Bush2 even has the ICC withholding their orders starting an investigation. Now this Dyersburg person is angry and wants action. They will petition the leaders of their group to take action immediately. This person has passion.

At 3:30pm ET, on 5/3/2018, I sent the below email to President Bush2:

To: scheduling@OGWB.org
Re: Please kindly deliver to the President, thank you.

Dear President Bush:

Condolences on the death of your mother, no finer a human has ever lived.

Of all the shills you have tried to recruit to contact me, now for over a year, they all said no? Does that tell you something? Someday you are going to confront me, if not in this life, then I can guarantee in the next. But you will answer for your actions towards me, along with your fellow torturer VP Cheney. As you know I am very patient, and enjoy waiting for that which is certain.

Regards,
David Andrew Bardes

No visitors overnight. In the news today, the Nobel committee has canceled the Literature prize this year due to a sex scandal and corruption. The 2018 award will be issued in 2019. I had no idea the prize was not issued, I wonder if the delay was from the controversy surrounding my story. I had visitors from Sweden yesterday, related?

I just read a news article and P. Trump sent a Tweet, saying his high powered delegation to China this past week, is on their way home. And are meeting with Trump tomorrow. So this past week, twice, an FBI officer in China with other people in China visited. Could they be part of this negotiating delegation? Did China have cold cell torture as one of their negotiating tools? "You torture to death your own people!" If this is the case, I wonder what was decided? If anything? (UPDATE NOTE: hours later the FBI person in China visited again, below.)

The above two people from New Jersey visited at the same time, so both speaking with each other. Have no idea who they may be, but they sure know about cold cell torture.

Virginia Beach, Virginia. At **1:56pm ET.** This is VP Cheney's friend, has visited many time before, last visit was 4/14/18. Landed on 'suicide' page meaning a Bush2/Cheney person. So Bush2/Cheney is asking once again for this person to be the shill? He could be a hitman thug?

Is the above Virginia Beach person connected to the previous two in New Jersey? Only 15 minutes separate their visits. This means Bush2 and Cheney have been busy with me today on a Sunday afternoon.

Cincinnati, Ohio. At **3:21pm ET.** Win7 PC. Not cousin Dee Dee's Mac, so not sure if this is her, but likely is. This person last visited 1/1/2018.

Guam Community College, Guam (as in island in Pacific) but landed on 'suicide' page linking them to Bush2 and crew. Looking for a shill on the other side of the earth.

SuicidePage | 203.215.53.67 | May 06th 16:18:31 | https://www.google.com/ | Mozilla/5.0 (Macintosh; Intel Mac OS X 10.12; rv:57.0) Gecko/20100101 Firefox/57.0 |

As of 7:40pm ET, it appears Cousin Dee Dee said no, the guy in Virginia Beach said no, and any others said no. The recruit in Guam here may likely be a no. Bush2 is working this today, earnestly working it. He must not have liked my email to him, nor learning about the ELIAS "About" page description with his and Cheney's failed J. Scalia's bribery ploy. Add the Bed Bug Wells website sucked in today, and they learned I do not need them, and have launched my ministry. Making fools of them all.

I just read an article on FoxNews about next Wednesday's confirmation hearing for Gina Haspel, Trump's nominee for new director of the CIA. From what I have observed, the CIA is contrite on the use of torture, and likely will never go near it again. It has been reported Gina is firm in never bringing torture back, which is a "good" in her favor. The problem is a lack of prosecution for torture, a criminal on the lam.

WH says Gina Haspel CIA nomination 'won't be derailed by partisan critics' after reports she offered to withdraw

Chris Anders of the American Civil Liberties Union lamented last week: "If confirmed, Gina Haspel would be the first and only person confirmed by the Senate — we believe in its entire history — with a known operational role in using torture."

http://www.foxnews.com/politics/2018/05/06/wh-says-gina-haspel-cia-nomination-won-t-be-derailed-by-partisan-critics-after-reports-offered-to-withdraw.html

But this may explain some of the website traffic, as the subject of "torture" will hash itself out in the news, there is a chance of focus on cold cell torture and me. The ACLU will be toothless if they continue to remain silent. Courage is lacking in so many.

Bush2 was busy today, up until about 7pm, then it has been silent since, now 11:08pm ET. Gave up once again, all shill recruits said no. Which is what I emailed him this week, so more of my words ring true. If he wants me, he will have to contact me, which is what I told him in the email. So, now he sits at home, even more frustrated. Same with VP Dick Cheney.

Odd group of visitors today, now 8:27pm ET. The only Bush2 person was the CIA torture doctor in Seattle. Today I posted "The Death of the Republican Party" at the ELIAS blog, and on Facebook.

Around 9:35pm ET, I sent the below Tweets:

@Comey, Mueller, @EricHolder why did you willingly allow so many American citizens to be brutally tortured to death with ColdCellTorture.com just to protect pals Bush2 and Cheney? Are you ever going to apologize to the families of those you allowed killed for favors?

@BarackObama, @JoeBiden why did you willingly allow so many American citizens to be brutally tortured to death with ColdCellTorture.com just to protect pals Bush2 and Cheney? Are you ever going to apologize to the families of those you allowed killed for favors?

@SenatorBurr why did you willingly allow so many American citizens to be brutally tortured to death with ColdCellTorture.com just to protect pals Bush2 and Cheney? Are you ever going to apologize to the families of those you allowed killed for favors?

@SenJohnMcCain why did you willingly allow so many American citizens to be brutally tortured to death with ColdCellTorture.com just to protect pals Bush2 and Cheney? Have you prepared your answer to God?

This morning was Gina Haspel's senate confirmation hearing. It was quick, and then dropped from the news. I went on a Twitter and Facebook posting spree, and posted a new entry on the cold cell website. This created a flood of respoonses, especially from Dick Cheney, who by now must be fuming.

Tweet:
This deranged lunatic Gina Haspel testifies she has a "very strong moral compass" and "First of all, CIA follows the law." This miscreant germ displays the same demonic pathology as Dick Cheney and George Bush2.

Another Tweet but left the recipients off.

I posted this at cold cell and on Facebook:

It is painfully clear the US torture program was the creation of VP Dick Cheney, a demon possessed pitiless slayer. And George Bush2 went along with it, not having any moral fiber or principles himself. This butcher Cheney just gave an interview to FoxNews in support of torturing more innocent Muslims to death, but FoxNews thankfully banished the interview to Fox Business during the dinner hour, which is telling. But the interview proves torture was Cheney's murderous plot from the beginning. These cowards brought disgrace upon our great nation, and by law must be prosecuted and executed.

I mailed the below letter to the SCOTUS Justices, with a copy to George Bush2's business office.

May 11, 2018

Chief Justice John Glover Roberts, Jr.
The Supreme Court of the United States
One First Street, NE
Washington, DC 20543

Re: Court's vote to end the **TortureGate Corruption Murder Scandal**

Dear Chief Justice Roberts, Jr.:

I have purposely waited two years before writing to you, as to not draw inference between this letter and any civil action in the courts. Back on April 15, 2016, you and the other Justices voted to end the **TortureGate Corruption Murder Scandal**, which was where you ordered every federal judge in the nation to instantly dismiss any torture lawsuit to protect your pals George Bush2 and Dick Cheney. Who brutally tortured to death innocent Muslims with hypothermic torture. Or, as the DOJ infamous enhanced murder techniques memos called "**cold cell**" torture and "**induced hypothermia**."

After you voted to stop instantly dismissing every torture lawsuit, you then ordered every federal judge in the nation to stop dismissing every torture lawsuit, and they obeyed as before. You also voted to deny my petition asking "Are citizens being brutally tortured to death with hypothermic torture a violation of the Constitution?"

Do you know how many Americans have been brutally tortured to death with hypothermic cold cell torture as a result of your corruption to protect your buddies? Are you ever going to apologize to all the children of those you effectively sanctioned their parents murders? Why do you place no value on human life?

You have outwardly confessed being a Christian, attended Catholic grade school and graduated from a Catholic boarding school. You grew up with crucifixes in just about every room in your school. Crucifixion was ancient Rome's slow hypothermic death penalty. Jesus Christ violently shivered to death in the cold. Not unlike all the American citizens you effectively allowed to be tortured and frozen to death with hypothermic cold cell torture to appease you chums. How are you going to answer when Jesus Christ asks you "Why did you crucify my beloved sheep? Did you not know I was crucified for you?"

I have dedicated the rest of my life to the full time ministry serving Jesus Christ, and have founded a monastery. My mission for God is to have you prosecuted and executed as required by law, as just another white killer hiding behind the law.

I may fail in my mission to prosecute you on earth, but I guarantee you I will succeed in heaven. Because I am your prosecutor, God will be your judge, and Jesus your jury. All those killed, along with the sheep you routinely execute each week anyway, will bear witness against you. You will answer all of their questions. You will answer all of my questions. You will then be stripped of your reward, to be given to your victims. Leaving you poor and assuming the low places in heaven for all eternity.

Therefore, please accept this letter as a religious subpoena of sorts, as you have been called to account before God's court of final justice for every murder. The same applies to your other Justices.

I AM,
David Andrew Bardes, *Sui Juris*

I sent the below Tweet to both the Democratic senators voting for Gina Haspel:
@SenDonnelly why are prosecutions for torture optional when innocent Muslims are brutally tortured to death? You vote to ignore the law because you want to kill every Muslim with ColdCellTorture.com? Why is killing Muslims so important to you?

@SenDonnelly - Sen. Joe Donnelly, D-Ind
@sen_joemanchin - West Virginia Sen. Joe Manchin.

Tomorrow is the 70th anniversary of Israel, and the grand opening of the US embassy in Jerusalem. Demon possessed Satanic soldier pastor jeffress is going to be giving the formal prayer. The white grand wizard hates Jews, go figure. Ivanka and Jerad Kusner lead a while house delegation. Two million Palestinians have been protesting for weeks, with Israel using machine guns and snipers to murder even children. The Palestinians are planning on storming the walls, and pouring into Jerusalem, and Israel has sent more soldiers to kill everyone who breaches the walls. Donald Trump cut off food for the two million Palestinians, so desperate humans have nothing to lose. It will likely be a blood bath of epic proportions. It is now 3:55am in Jerusalem, and 8:55pm ET here. In a number of hours, the biblical prophecy of the end times will begin. Ushered in by the Satanic Trump family. I pray for peace, not death, but Trump and Israel want mass murder.

It is now 11:38pm in Jerusalem, and 4:38pm ET here. The opening of the US embassy resulted in deaths of 52 Palestinians, with over 1,000 wounded. The other Muslim nations are calling for UN emergency meeting to stem the bloodshed.

Somewhat busy day today on the website, two recruits said no. Karen Thomas said no and the person in Atlanta said no.

Yesterday was almost no visitors, same today, except for my good friend Dick Cheney. Who seems worried about cold cell and my book. The supreme court has received my letter, and assume are not happy either. Today the supreme court is in conference, the first since receiving my letter. SCOTUSblog website has no list of cases voted on today as they always do, it just says:

The justices will meet on Thursday for their May 17 conference; our list of "petitions to watch" will be available soon.

So, perhaps the court is working on something else today, something along the lines of doing something right and good. The race is on.

Gina Haspel confirmed as first female director of CIA

By Olivia Gazis CBS News May 17, 2018, 4:00 PM
https://www.cbsnews.com/news/gina-haspel-secures-enough-votes-to-be-confirmed-as-first-female-director-of-cia/

Mark Warner, D-Virginia:
He conceded he struggled with the decision: "To those here who have concluded that Ms. Haspel's background with the [Rendition, Detention and Interrogation] program should preclude her from leading the CIA – I respect their arguments, and I know the passion with which they put forward their position."

"I strongly believe that we, as Americans, have a duty to look squarely at our mistakes, and to not sweep them under the rug, but to learn from them, and in the future, to do better," Warner said.

The floor vote tally was 54-45.
-
Sen. Jeanne Shaheen (D-NH) voted in favor
"Let me be perfectly clear: I believe torture is inconsistent with our nation's values and its use has harmed America's standing in the world," Shaheen said in a statement. "I also believe it is important to hold Gina Haspel's nomination to a similar standard as previous nominees for this position, particularly in regards to responsibility for the CIA's use of torture following the 9/11 attacks."

With 5 Democrats, controversial Trump nominee Gina Haspel secures votes for CIA director
By Joshua Eaton- May 15, 2018, 5:58 pm Updated: May 15, 2018, 8:24 pm

https://thinkprogress.org/with-5-democrats-controversial-trump-nominee-gina-haspel-secures-votes-for-cia-director-0c13feb4bd96/

In open testimony before the Senate Intelligence Committee last week, Haspel vowed not to restart the CIA's interrogation program. But she also appeared to dodge questions about whether it was immoral, raising concerns among many Democrats in Congress.

A letter from Haspel to Warner on Monday seems to have eased some of those concerns. In it, Haspel called the interrogation program "not one that the CIA should have undertaken" that "ultimately did damage to our officers and our standing in the world."

Doug Jones D-AL:
"Ms. Haspel's role in the program that conducted torture is very troubling," Jones wrote. "[H]er refusal to acknowledge the immorality of such conduct even today with the benefit of hindsight is even more so and reflects poorly on our nation's reputation as a moral leader in the world."

Today three news stories played out. In Miami, a man walked into Trump's Dural Country Club and started shooting. He was yelling anti-Trump screams shooting chandeliers and the ceiling. A Boeing 737 crashed on takeoff in Cuba. And a high school shooting in Texas claimed nine lives. A 17-year old white kid with his fathers shotgun and handgun, wearing trench coat and tactical boots.

SCOTUS blog reported nothing today, just changed their statement that the Justices met in conference yesterday, but their was no mention of any petitions granted or denied. Very odd.

Seems back to the regular weekend pattern of trying to recruit shills to be the middle man to pay me money to go away. Seattle torture doctor, someone in DC last night, ICC judge in Seoul, and Drake Holdings, the Bush2 money people. The shill person will say no, like they all do. It is like a broken record.

At 1:39pm ET, I sent the following message to whitehouse.gov's online contact form submission:

President Trump knows of my name from the TortureGate Corruption Scandal.

Texas megachurch Pastor John Hagee pulled a con job on President Trump, who fell for it hook line and sinker. Pastor John Hagee promised President Trump that moving the US Embassy to Jerusalem would place him "standing on the stage of history" and "Moving the embassy will accelerate the peace process." Peace can never be possible now, as in not able. The White House admitted such, saying the peace situation has worsened.

My fellow evangelists want the Jewish Temple rebuilt, as such ushers in the second coming of Jesus Christ. Scriptural prophecy foretells Jesus will return a few days or weeks after the Temple is consecrated, descending on clouds of of bright light in full glory. Landing on the Temple, where he will rule with peace on earth for one thousand years.

What comes next, however, according to scriptures, is non stop war in the middle east for just over three years now. As the Prophet Daniel prophesied the Temple would be rebuilt during "times of trouble," while the last book in the bible calls the war "armageddon" or "gog and magog."

President Trump published a photograph of his exorcism, with the laying on of hands while praying with the evangelical pastors. The laying on of hands transfers the Holy Spirit energy driving out the demons. President Trump needs to know when people are lying to him. Wolves in sheep's clothing.

Two days ago, on 5/27, the 7th inmate died in Sheriff Andrew's Durham jail. A young man found dead in his cell at 8am. No cause of death reported. But this started a process of actions which will come back on top of Andrews, and crush him. The medical provider is CCS, Correct Care Solutions.

Two days ago is last time Cheney visited. Then today the South Korea ICC judge Chung visited BedBugWells website, so what are those ICC judges doing wasting all the time being crooked like everyone else?

Today is also 132 days since 1/17/2018 (the 3.5 yr. mid-point of the 7 year tribulation). It

has been 132 years since the Charleston, SC earthquake of 1886. And the moon is full. Is 40 weeks and one day since the eclipse on 8/21/2017, and 77% of one year since 8/21 eclipse.

George Bush2 is clearly frustrated here. He yet again goes back to Cousin Ollie near Madison, then to Godaddy for another round of frustration. No, no, no, is all he hears. So, I sent him the below email, to add spice to the pressure stew.

It is now 7:07pm ET, and nary a visitor connected to Bush2. He received my email and was left to cogitate upon the message. All his advisors like lawyers have told him never to contact me in person, despite other emails I have sent in regards to such. He is the one who is desperate here, the clock ticks in my favor each second, but against him. Will fear or courage prevail?

In the news, Bush2 was given a "moral courage" award in Houston:

Overnight in Europe (their Friday), the European Court of Human Rights (ECHR) issued a ruling against Lithuania and Rumania for participating in CIA torture. Below are three articles from the news which provide detail:

European Court Finds Lithuania, Romania Complicit In CIA Torture

The European Court of Human Rights (ECHR) has ruled that Lithuania and Romania were complicit in an illegal US torture program for allowing the CIA to hold terror suspects in secret jails on their soil.

The court issued the ruling on Thursday following complaints lodged by two terror suspects in 2011 and 2012, saying they were unlawfully detained and tortured at CIA "black sites" in Romania and Lithuania from 2004 to 2006.

Some of the enhanced interrogation techniques exercised for getting confessions at the CIA sites include intense sleep deprivation to the point of hallucination, sexual humiliation, being crammed into coffin-size boxes, **subjection to extreme heat or extreme cold** and rectal rehydration.

The Polish president at the time, Aleksander Kwasniewski, later said that former US president George W. Bush had told him that the CIA techniques resulted in "important benefits." Bush's claim, however, was disputed by the Senate report.

Policy and Legal Implications of European Court's Ruling on CIA "Black Sites"

(European Court on Human Rights: guilty Poland and Lithuania)
https://www.justsecurity.org/57301/policy-legal-implications-european-courts-ruling-cia-black-sites/

"This landmark ruling keeps the issue of accountability for CIA rendition live and relevant," said Just Security's Fionnuala Ní Aoláin. "It underscores the necessity for a fuller accounting, whose day will inevitably comes, not least because the drip drip effect of these ECHR cases keep the issues and the methods used to torture persons during the CIA rendition program squarely in our sights."

The issuance of these two judgments, Whiting explains, "will likely increase pressure on the Prosecutor to focus on alleged U.S. crimes in Afghanistan and the black sites in Poland, Romania, and Lithuania once the Pre-Trial Chamber authorizes the investigation. That there has been some measure of accountability in these decisions, which rely in part on publicly-available information, will encourage the Prosecutor to consider whether individual criminal responsibility is also warranted.

Finally, although the judgments of the European Court of Human Rights may not translate directly into ICC proceedings, Hathaway points out that the former could well support "findings of violations of the Convention Against Torture, the International Convention on Civil and Political Rights, perhaps Common Article 1 of the Geneva Conventions (which require states to "ensure respect" for the Convention), and the Draft Articles on State Responsibility, not to mention regional human rights agreements. There is some potential, then, that these decisions could spark additional litigation not just in Europe but elsewhere as well."

Holding Us Officials and Corporations Accountable at the International Criminal Court

By Editor Filed in News May 31st, 2018 @ 2:16 pm

Katherine Gallagher, Center for Constitutional Rights, New York, New York

"The court will be investigating senior US officials for torture," Gallagher said. "One of the challenges the court will face is actually getting arrests when it comes to US officials. The court does not have a police force. If a US official were indicted and traveled to a country that was a member state, those countries would have an obligation to arrest and transfer. We might see some senior US officials not traveling outside the United States. We will see cases brought. But it will be a struggle to get people in the dock."

What case is that?

"It's called the situation of Afghanistan. There is no case name. It's a situation. That request is pending right now. We are optimistic that the court will authorize the prosecutor to investigate US citizens. And because of the nature of the ICC – it focuses on those who bear the greatest responsibility – that would be senior political and military leadership."

Below only news article that is new today. Good article showing the likelihood of the ICC judges ordering the opening of the US investigation before the court's July 20th annual break for the year.

A Reasonable Case To Convict US of War Crimes in Afghanistan

The Bush2 office people are drafting legal documents to perhaps use to persuade the ICC judges in their favor. Meanwhile the South Korea ICC judge Chung, captures each page of the cold cell website for future reference, if needed. So, while the website traffic is light, and quiet here, there is a battle raging on a bloody front line. With good fighting bad. And the winner is already known.

It is 6:12pm ET, and almost no visits today, save a few in the morning. But nothing all afternoon.

I found an article in Google at the Jordan Times, url below. It was a rehashed article from yesterday rewritten and published today. I submitted a "comment" at the end of the article, but it has to be approved first.
http://www.jordantimes.com/opinion/jonathan-power/convicting-us-war-crimes#comment-153864

There is an underlying story here. The CIA used "cold cell" hypothermic torture to brutally torture to death innocent Muslims. But US jails and prisons used "cold cell" hypothermic torture to murder our own citizens here at home, as they almost killed me, but I survived and sued them all the way to the US Supreme Court. The court voted to end the "TortureGate Corruption Scandal" (where all US Federal judges instantly dismissed every torture lawsuit to protect pals Bush2 and Cheney.) Which brought an almost end to the use of cold cell torture inside the USA. Justice Scalia died right before the vote, on a hurriedly planned hunting trip by and with P. Bush2 and VP Cheney, to sway his key tie vote against my stop torture/murder petition which had just come before the court for a vote.

Without Justice Scalia the remaining eight justices ended torturegate. I wrote a free book about all this titled "Unspeakable Pain" (unspeakablepain.com) P. Bush2 and the FBI have been working with the ICC judges for months now, working on a solution other than prosecution. Be prepared for anything. http://coldcelltorture.com

Nothing from the ICC as of 11:19am ET. It is 5:19pm in The Hague, so the court is closed in 40 minutes, at 6pm. So another week comes and goes with nary from the ICC judges. The court goes to summer recess on 7/20/2018, so will the court wait until then? Is Bush2 going to make another weekend stab at finding a shill to pay me off? Seems to be the pattern here.

Bush2 lawyers in Dallas are still working with the ICC judges, Judge Chung in Seoul, on what to do about me. The visit above was on davidbardes.com, no other references or links. On a Saturday night, but 9-10am morning in Seoul, South Korea. What is Judge Chung going to do? Is Chung communicating with the ICC judge in Japan? Is corruption going to win, or good going to win? There seems to be waffling at the decision point.

President Trump is in Singapore meeting with North Korea Kym Jung Un, they meet tonight at our time 9pm ET, but during the day Tuesday in Singapore. At the end there will likely be a press conference with the story hitting the US news tomorrow morning. Is ICC Judge Chung going to release their orders opening the investigation into CIA torture, at the same time, to bury the story under Trump and Un? Is that why Bush2 wants me paid off before the story would go public? Or, just pay me off, and the story never goes public?

This Texas shill came back, which is rare if ever. Only happened once before. Does this mean they are interested in Bush2's needs for a shill? Or, are they frightened?

The ducks are all lined up in a row, like a carnival game. But instead of ducks, it is Presidents and Vice Presidents. Multiples of each. But is there going to be a shill to contact me, or Bush2 himself? They have seemed to know all day long. And are gathered by their radio's tuned into hopeful news of complete capitulation.

Another night of what looked like they were going to pay me off has passed. Several such nights actually. Dick Cheney appears to be frustrated that Bush2 has been unable to secure a shill to be the middle man, such Cheney took to the phones himself, trying to recruit two shills. Who said no too. Their frustration level is peaking.

A few minutes ago I received a spam email about "loans" from a "private" lender. I wondered if Bush2 crew was staging this for me to reply, thus I started the conversation. I have received several spam emails from women looking for a mate, some with a picture. I automatically delete all of those, as they are sex related. Did they get smart and switch to loans? It is 10:44pm ET, and so far Cousin Ollie has said no, then Karen Thomas said no, no sistern Cindy will say no. Right back to the same problem. Continuous circle of idiocy.

I received a spam email posing to be from GoDaddy, to log on and cancel an order to delete all my websites. Looks like Bush2 is desperate again, as I changed my email password, which they had changed to be able to access my email.

These two men are clearly frustrated. Neither can find someone willing to be the middle man, the shill, to contact me. No one in my family will, nor anyone from any family will do

it. So, at 3pm in the afternoon, both Bush2 and Cheney are unhappy. What will be their decisions from here? I will have to wait to find out.

Canada, but this looks like the FBI, with the Dot NET runtime files indicating the FBI case managment software. Visited an hour after Bush2 and Cheney above. Was their decision to have me arrested?

What I have been calling the "Dyersburg paper project" may actually be "Lightspeed Systems." See the below Wikipedia page excerpts:

So, I sent the below email to sales@lightspeedsystems.com at **3:30pm ET** on 6/20/2018

Re: Requesting assistance

Dear Sirs:

I am requesting assistance in contacting a group of educators within Lightspeed, or using Lightspeed System ChromeBooks, who are about to publish a work in opposition to the domestic use of hypothermic torture/murder used in our nations jails and prisons. I have had website traffic from this group, but they ran headlong into President Bush2 and VP Dick Cheney's efforts to avoid prosecution by the International Criminal Court for brutally torturing innocent Muslims to death with hypothermic torture. P. Bush2 and VP Cheney stopped this group from publishing their work.

This group learned about hypothermic torture from my website coldcelltorture.com, as I am a domestic torture victim and litigated several federal lawsuits to bring an end to the use of hypothermic torture in our nation. P. Bush2 and VP Cheney have been attempting to contact me to pay me money to go away, as part of their plan to pay everyone off to go away and not prosecute anyone. I believe this group of educators is being fed lies by P. Bush2 about me and their caper. Do you know who this group of educators might be, and can you contact them with my query? As it may benefit this group to open dialog with me at this critical point?

I apologize for this unusual request. If you have no knowledge of this group please ignore this request and discard this email.

Thank you for any assistance you may provide.

Highest regards,
David A. Bardes

So, Lightspeed Systems may the the actual group, or may know the group. How fortuitous!

This also means the FBI have the above email, and will act in time.

In a little over an hour after sending the above email to Lightspeed Systems, there was a run of visitors on the websites, keying in on me, my name, and my book.

It is 10:39pm ET now, and about the time of night for traffic to pick up again, and over the night, as is day in Europe and Asia. The Bakersfield, California visit was the owners and leaders of Lightspeed Systems. I cannot believe I was able to identify them, how uncanny and like God's perfect timing. Overnight Bush2 and Cheney will now have to persuade the Lightspeed people, and also the ICC judges.

Just about no visitors all night. My email to Lightspeed Systems was a show stopper. Lightspeed made the decision to not contact me, and bailed on Bush2. Now what is Bush2 going to do? Did he try to use Cousin Ollie again? The time of wrath is near.

Found an article on CBSnews.com about cold cell torture used to torture children. I added an entry to coldcelltorture.com.
Young immigrants detained in Virginia allege they were beaten while cuffed, left nude in cells
Shenandoah Valley Juvenile Center near Staunton, Virginia
Immigrant children as young as 14 housed at a juvenile detention center in Virginia say they were beaten while handcuffed and locked up for long periods in solitary confinement, left nude and shivering in concrete cells.
"Alpha Pod"

Other teens interviewed as part of the court case also reported being punished for minor infractions with stints in solitary confinement, during which some of the children said they were left nude and shivering in cold concrete cells.

Today son David and I were driving and a full arc rainbow appeared in the sky over Brevard. It was bold and stunning, taking up the entire sky. Today is 6/22, which one year ago today, I filed my SSA disability appeal, which gave me 60 days to 8/21 to file. 8/21 was the date of the total solar eclipse here in Brevard. Also, one year ago in Manchester, England, on the 22nd, a 22 year old killed 22 with a suicide bomb.

A rainbow in the bible signifies a promise from God. As with Noah's rainbow from God promising to never send the flood again. The rainbow today may be a promise of something good happening soon? A portent of things to come?

Today around 2pm I received an overnight express UPS envelope, which contained an encrypted CD-rom and a letter from the Social Security Disability Hearing office in

Greenville, South Carolina. The letter says the instructions to open the CD would come in a seperate mailing, but nothing came in the regular mail. The CD contains an exe application which requires a password to open. The letter claims it contains my medical evidence and history that the agency has on my case. The letter claims I need to send them updated medical evidence not already in the file on the CD.

It was a ruse. The SSA never overnight delivers anything via UPS, as the USPS already delivers all their letters overnight anyway. The sender was an individual's name using their online account to print shipping label, void of the words 'social security.' The letter said I should return my medical evidence as soon as possible, with no date deadline. It says the sooner I respond the better for me. The problem is I have no idea what the password is. Until then it is useless.

Full moon tonight - Strawberry moon.

In the mail today was a letter from the SSA office in Greenville, SC with the password to unlock the encrypted CD which arrived yesterday by UPS overnight express. The CD only contains medical records, most of which have been deleted from the record. The CD is more evidence of Bush2's corruption. Bush2 is pissed off, and upset. "Fuck Bardes, cut off his benefits now!" The more he does to hurt me, the worse it becomes for him. He is trapped in a hot steamy kitchen, and desperately wants cool fresh air to breathe, and make me go away and no longer exist.

Bush2 knows I received the CDrom yesterday and the letter today. And he is awaiting my response, by visiting frequently to see if anything is new, to give away my reaction to his latest attack.

Maryland mass shooting: at 2:40pm ET today a white man opened fire with a shotgun in a Maryland newspaper office, killing five, and wounding five. The gunman is in custody and will not identify himself. This happened minutes after I opened the CDrom

It is clear Bush2 has chosen a strategy of reaping suffering upon me, cut off my income and healthcare, in order to soften me up for capitulation in negotiations to accept a small settlement, or just annihilate me. Likely hatched by Jean Toal, the former chief justice of the South Carolina State Supreme Court, who lives in Greenville, and was contacted last week regarding my "billion" dollar settlement demand. If you read backwards in these notes, last week, or week before, John McCain was contacted first, then South Carolina, to cough up more money. Jean Toal perhaps said no, lets negotiate lower. Then she offered corrupt friends in her local SSA office, to overnight me the CDrom and spoofed letter, coming from Greenville, SC.

Bush2 then bought into it, and made it happen. Then once I had the letter, he told everyone to stop visiting my websites, to give me the indication the matter is closed, over, and I am a loser, alone, with no income to stay alive. The problem is his people are unable to stay away from the websites, and hide behind scripts and proxies. The ICC judge Chung in Seoul obeyed by visiting using the python hiding scrip the FBI gave him, but his visits prove his culpability waiting for me to disappear, to fulfill their caper in being paid off. Then the Dallas Bush2 business office visits using their scripts. They are all flashing beacons regardless. Their strategy has already failed. There can be no settlement now. Because the clock ticks against them, towards their doom. While the clock ticks in my favor, as I am under no compunction to act, and the cessation of benefits does not hurt

me, as I have potent evidence to go on the offensive, and have fall backs financially.

I can never settle now. Why would I do favors for someone in the process of annihilating me? George Bush2 has as of yesterday chosen a course of annihilation against me, which only forces me to go on the offensive. Bush2 thinks annihilation will force me to settle for a smaller sum, negotiate me down. I am well prepared for the cessation of SSA benefits, as I had plenty of time to prepare. The time period of helping Bush2 and Cheney by settling financially is over, expired by the hands of Bush2 himself.

Overnight traffic was even less than the night before. Bush2 has a black out ordered on website visitors, except his people where the only one's to visit. Them and the CIA super hacking center. And someone in Romania, perhaps a CIA torture victim.

My guess is ICC Judge Chung in Seoul, will not go along with the Bush2 caper as long as me and my websites are still online. Everything is on hold until Bush2 can make me go away after taking down my websites. He is now angry and mad. And all the crooks are angry and mad at him. The stew is boiling.

It is now another weekend, on a Saturday afternoon, with Bush2's payoff person above in Fremont, using their proxy to visit. Which means he is on duty, on call, waiting for Bush2 to recruit a shill to make contact with me so I will not know it is Bush2 behind the person. He wants to hide so no one will know it is him. Lol.

For a year and a half, P. Bush2 has been trying in earnest to recruit a shill, a middle man, as each visited the website giving themselves away. There must be a hundred by now who have all said "No." Each has turned down the "President of the United States," making him out to be a fool, and evil.

It is now 12:06am ET on July 4th, 2018. I guess P. Bush2 is up north at the family compound in Maine. The first July 4th without mother Barbara. It is rough on a son to lose his mother, after 25 years my heart still strains upon memories of mine. The Cheney family likewise is gathered somewhere this day. Will either visit tonight? **[Update note: Bush2 visited at 5:19am ET, below. Woke up early to recruit shills who said no too.]**

I found an article on CNN, and added a new posting to coldcelltorture.com, below:

7/4/2018 - Tortured babies "cry from hunger and cold" and pregnant women "faint...who cannot stand the pain..." This evil knows no bounds.

A CNN article today reports hand written letters from asylum seekers and their babies being brutally tortured with hypothermic torture. One mother wrote of the babies "...They cry from hunger and cold..." and "The pregnant women faint, and also the women who cannot stand the pain..." Blankets are denied because it defeats the torture, as one mother wrote they "slept on the floor under 'aluminum paper' blankets. First Lady Laura Bush heroically spoke out against this abuse, but her own husband is the main perpetrator of the continued use of hypothermic murder.

This morning started with Bush2 and Cheney visiting, including their office people, then they talked to ICC Judge Chung, who is upset with his name on ColdCellTorture.com. Bush2 explained he cannot find anyone to pay to be the middleman, the shill, to pay me off. So, Chung offered up some crook in Thailand, who might be for hire. Then the thug

visited cold cell landing on the 'suicide' page, giving away the fact they got the search terms from Bush2.

Cleveland, Ohio, person visits often lately.

Sent email Press Release to Google investor relations at **investor-relations@abc.xyz**, at 12:33pm ET:

PRESS RELEASE

FOR IMMEDIATE RELEASE ON 7/9/2018

Google silences torture victim, ending his twelve year effort to stop the United States from brutally torturing to death its own citizens.

Google solidly affirms support for "hypothermic torture" used to brutally kill citizens and immigrant children in the United States

On July 8, 2018, Google founders Larry Page and Sergey Brin joined the ranks of the **"pro torture"** camp by deleting the last remaining **"anti-torture"** website from its search databases. Succumbing to demands by President George W. Bush and Vice President Dick Cheney, who have successfully bribed International Criminal Court (ICC) Judge Chung Chang-ho to toss the investigation into war crimes of hypothermic **"cold cell"** torture used to torture to death innocent Muslims, Google removed **"ColdCellTorture.com"** from its first place search results. Bush and Cheney could not pull off their ICC escape-prosecution caper as long as **"ColdCellTorture.com"** remained in the top search result position. But now with Alphabet's support of torture/murder, their crime ploy can now succeed.

The website **"ColdCellTorture.com"** is owned by a domestic hypothermic torture victim survivor, David Bardes, who in 2006 was falsely accused of a civil offense, and barely survived his cold cell torture and gunshot, only to become a Christian monk on a lifetime mission of ending the United States's prolific use of hypothermic torture and murder used in jails and prisons all over our nation. Bardes was shocked saying **"Of all the corporations in our nation, I thought Google would be the last to ever rally behind the evils of brutally torturing innocent citizens, children, and babies to death."**

Now that Google has deleted **"ColdCellTorture.com,"** as well as Bardes's personal website and his book's website, from their search databases, President Bush, Vice President Cheney, along with all the CIA torturers, will completely escape any accountability for war crimes, fulfill President Trump's campaign promise of bringing back torture, and citizens across our nation will continue to be brutally tortured to death with hypothermic torture.

At 9pm tonight, President Trump nominated yet another Caucasian male judge, named "Brett Kavanaugh" to be the new US Supreme Court Justice. Brent is the husband of President Bush2's personal secretary. Talk about a conflict of interest, with Bush's involvement in TortureGate, bribing Justice Scalia requiring God to kill him on the Bush2/Cheney hunting trip, as the necessary fifth vote as the other four were already in the bag. Bush2 would have firm control of the most powerful nation on earth. Brett is an arch enemy of Bill and Hillary Clinton, as Brent co-wrote the impeachment papers of President Clinton, who enjoyed a bit too often, oral sex in the oval office.

Brett Kavanaugh, Trump's Supreme Court nominee, helped write 'Starr Report'

http://www.foxnews.com/politics/2018/07/09/brett-kavanaugh-trumps-supreme-court-nominee-helped-write-starr-report.html

He has close ties to the Bush family

Kavanaugh was nominated to the federal appeals court by former President George W. Bush, who said he selected Kavanaugh "because of the force of his mind, the breadth of his experience and the strength of his character."

Serving as a lawyer and staff secretary during the Bush administration, Kavanaugh traveled in top D.C. legal and political circles, earning the confidence of key players such as Karl Rove.

He's also married to Bush's personal secretary, Ashley Estes Kavanaugh, and has two daughters.

The nomination process in the senate starts now. The GOP will push it through quickly, with the Democrats falling on their swords in efforts to prevent the downfall of the United States.

Yesterday I registered **"ColdCellTorture2.com"** and pointed it to the cold cell pages. Now 24 hours later, Bush2 people discovered it, and quickly ran stats to see if any traffic visited. Which means Bush2 knows it is futile to take down one website, as another can pop up just as quickly. Next comes 'ColdCellTorture2.com' then 4, 5, 9000, 20000. It is 6:48pm ET, and the Google visits have lasted all day, only now seem to pause. Several people at Google were reviewing all the pages except the suicide got the most and longest visits. They know the truth now. What are the going to do? Bush2 and crowd are absent, in grief. Google restored cold cell and dabsite, Bush2 spoke with the Google execs himself, and flee he did.

It is 12:30pm ET, and Google has stopped their flood of visits. I presume their research is over, and they have learned the sad truth of hypothermic torture. There are infected with perpetual nausea and trepidation. What will Google do? The Dallas and Florida visit is the first sign of Bush2 people in two days, what are they doing about now? What is ICC Judge Chung doing? Nothing has been posted at the ICC, and July 20th is the courts annual break, so will they post something before then?

Google now knows more about cold cell torture than anyone else in the world, having spent nearly three days researching everything in their databases or anywhere in the world. For me to be so fortunate as to have Google themselves doing deep research is the fruit of God himself. And George Bush2 did this to himself. He told Google my story for me.

Google has stopped visiting, then a period of silence, then the Bush2 and crowd starting filtering back. The FBI on Cogent means Washington, DC. But the Google people produced those visitors focusing on the FBI use of cold cell. It was valuable to them. They took it and ran. Who were they? Is the FBI coming back now after a long break a result of the this unknown group? Coldcelltorture.com still comes up in first place on Google, so still primary.

It is 11:11am ET, and it appears Bush2 was up overnight recruiting new shill's to contact me. Does this mean he convinced Google to go away and not do anything about hypothermic torture? Would Google cave? Did they cave? The cold cell site is still in first place on searches. Have to wait and see what today brings.

It is 3:51pm ET, and there must be negotiations going on today. The topic is cold cell

torture, obviously. CIA just checked in, Bush2, DC, Google, and the mystery visitor who flew here last night, and is in NC or SC. Is s/he waiting for something?

Houston, Texas (or Indianapolis, Indiana.) Verizon. 2nd visit today, this time to unspeak. At **3:55am ET.** The topic of conversation is now my book.

It is 7:37pm ET, and nothing yet as far as what was decided between Bush2 and Google people. Some meeting lasted hours. But no indication of resolution. Perhaps Google is now having an internal decision meeting. Or, it is bad news for Bush2; Google is going public, hence the silence?

At 10:37pm ET, I received a spoofed email from the CIA super hacking center in Germany, see host url "static.57.172.201.138.clients.your-server.de" is the same as the CIA center. The email is spoofed to come from Godaddy, telling me I need to log on and do somthing, so they can capture my passwords, and take down my websites. CIA crafty criminals wasting tax-payer dollars. If I were to hazzard a guess, the CIA would not need to hack into Godaddy if they had their way, and were to pay me off, and sites taken down. Desperation is a sign of doom ahead.

I awoke this morning with another phish email in my inbox. From the above person with Samsung Galaxy, in Aiken, South Carolina. The email pretends to be a women in need of family court legal help, from South Carolina. This was done to try to arrest me for illegal practice of law. Received at 4:59am ET, email text:

Hi Brother David,

I hope all is well with you. I just finished reading your book on Pro Se Litigants, truly speechless and amazed by what I read. I am preparing to represent myself in SC family court, however have absolutely no clue what I am doing. I just know I was blindsided by the whole process. I won't get into the whole story in case you do not offer any assistance. I believe the emergency order granted was incorrect leading me to lose full custody of my two little ones. I don't know what steps to take next, or what to file, or how. The temporary hearing

hss already happened, and I was misled and lied to outright due my own ignorance of family law. I can not afford an attorney, fees are outrageous, but I don't qualify for legal aid or the lawyer referral program. Would you be able to offer any help, or glance at documents to see if I am on the right path? If not, I completely understand, I am just reaching out any way I can to try and get my children back.

Your story is quite a story. I have never read anything like it, and must say your strength is amazing. I am getting to start reading Unspeakable Pain in the morning.

Thank you for reading this, and if you can help, I would be more than grateful and can provide more information.

Thank you again,
Kristen Smith

Overnight visits from Google, but why? What are the doing? Coldcell is still in the first position on searches.

South Korea, ICC Judge Chung, with his Nexus 4 phone. At 2:12am Korea time. The IP is for "Korea Internet Security Agency." Chung is up late, trying to take down coldcell from being accessed in Korea?

Dallas, Texas, Bush2 office lawyer type person. At 1:41pm ET. They are speaking with Judge Chung from above.

At 1:50pm ET, I removed the entry on coldcell that stated Judge Chung was bribed by Bush2 and Cheney. As they are trying a new way to remove the website. Here is the

removed posting:

 <p>

7/2/2018 - P. Bush2, VP Cheney, and the FBI have bribed ICC Judge Chang-ho Chung to toss investigation into cold cell torture<p>

President Bush2, Vice President Cheney, and the FBI have successfully bribed International Criminal Court Judge Chang-ho Chung to toss the prosecutor's request to open an investigation into war crimes, crimes against humanity, and torture. With worst torture being hypothermic torture/murder. Story will break in the news.<p>

<hr>

Sure enough, at 2:22pm ET, Google just visited to see the posting that has been removed. So, they then report back to South Korea internet officials, there was nothing on the website of which they speak. Does not exist, making Korea's internet people look like fools. Shortly there should be visits from the Bush2 people, Korea, and Judge Chung?

Coming back from picking up dinner tonight, close to home, a red racing motorcycle with a man with bright yellow helmet and yellow coat pulled up behind me. As I turned into my driveway the man past me as I caught glances with him, and it looked fishy. The man drove down the road just almost out of sight, and pulled over and stopped. I exited my car and came inside, but the motorcycle did not return back past the house. I do not get paranoid, ever, but this was uncanny and gave me pause.

It is clear, George Bush2 and crew are trying everything under the sun to take me down. A final last charge? It is not working well for them. The final push tonight may mean the ICC judges are about to announce their approval to start the investigation, or something else cooked up. Tomorrow morning in The Hague is the 20th anniversary of the Rome

Treaty and celebrations are planned. Perhaps by also announcing the Afghanistan commencement will make them look tough? It is 11:06pm ET, so in 3 hours the court will open on the 17th.

Bush2 gave up on all the days efforts to take me down, from the Korean Internet police to Google and Bing failing, then above trying to get my Internet provider to cut me off. So, now he is back on the phone, to pay me off with money. But all the shill's say no each time. And have for almost two years. Tonight the pressure seems highest for Bush2, is the ICC clock ticking against him?

7/17/2018 - Tuesday

Today is a prophetic date, being three years from my guessed return of Jesus Christ, on 7/17/2021. Today something significant will happen?

Today is the 20th anniversary of ICC Rome treaty creating the ICC. In The Hague are planned celebarations. The court opened two minutes ago, now being 2:02am ET, but 8:02am in The Hague.

George Bush2 tried to recruit a shill at 2pm ET, who said "No." So, an hour later he calls my father in Vero Beach, Florida. My father shocked to hear about the ELIAS Monastery, took to AOL search to visit the ELIAS website, then click the "About" page. My father now knows how desperate Bush2 has become. Bush2 is making one last desperate plea to a man who became Satan himself in my story. Bush2 calling my father for help, knowing my story, just closed the book. My father then had to tell Bush2 he was unable to help him either.

The Dallas visitor above who visited the Mott and Intense pages of cold cell, may have keyed in on a PDF of a 2003 article from **The State**, in Columbia. **The State** removed the article years ago, but it exists on websites which had permission to reprint the story. I updated the pages removing the PDF article, and linking to a live website in SC called Go Up State. Just in case Bush2's plans were to get **The State** to force Google to remove my websites due to an illegal article reprint.

God has defeated every action Bush2 has taken against me. Angering God is always a bad idea. What will Bush2 do now? Not even my enemies will help him.

It is now 6:06pm ET, and nary a website visitor for hours. I visited the ICC website, and they have a recap of today's 20th anniversary celebrations, along with transcripts and video's of all the speakers. Perhaps the urgency of Bush2 last night was to prepare for the fallout from a order starting the investigation because the ICC wanted to tout the hides and skins of US executives as bounty. ICC Judge Chung refused to issue such order, not as long as

coldcelltorture.com is up, and I am still a threat to exposing his corruption with Bush2/Cheney. Hence Bush2 starting early today recruiting a shill, then calling my father, both of whom declined to help. If George Bush2 wants me to do something, he will have to do it himself. Or, it will not happen.

In the news today, Trump was under fire for "betraying his country" with Putin, as senators from both parties so lamented. Trump sort of apologized by "correcting" a misspoken word in a sentence he spoke in front of Putin at the press conference. The backlash from fellow GOP was harsh, even Newt Gingrich said it was the worst mistake of his presidency. Perhaps it is clear to everyone now, Trump is owned by Russia and Putin, they must have compromising video's. In my opinion of course.

Also in the news, the feds cannot find the parents of 71 children tortured on the border. 71 in reverse order is 17. Today is the 17th. 7/17. But nothing otherwise has happened today to mark the date as significant. As of 6:44pm ET, that is.

It is 8:00am in Seoul, South Korea, and about the time ICC Judge Chung wakes up, based on past website visits. Bush2 has probably told him "do not visit Bardes' websites, he is watching traffic," but Chung comes regardless. But Chung may now know Bush2 has failed in taking down coldcelltorture.com. Everything has failed. What will Chung do now?

Columbia, South Carolina (Lexington). Visiting the "Intensive" page, which earlier in the day was visited by Bush2's Dallas person, who visited the Mott page and Intensive page, because of a PDF file of an article in The State newspaper in Columbia. Google must be watching to see if I re-post about ICC Judge Chung's corruption with the FBI, Bush2, and Cheney. Chung will not issue their ICC orders, whatever they have cooked up, with the coldcell website and book still in existence. Even if the website came down, their problems still exists, as I have irrefutable evidence of all of Bush2's corruption.

70 shill recruits have said no since April 1

Since April 1 to today, July 19, George Bush2 has called and recruited 70 shills to be the middleman to paying me money to go away. Each of the 70 visited coldcelltorture.com, and then told Bush2 "NO." No way they say. 70 of them. This does not include those before April 1st, so the total would be over 100.

Bed Bug Wells sure has the attention of Cheney, Bush2, and now Lightspeed. They can self calculate how much my registered patent application is worth, after convincing themselves the Wells are the only way to kill every bedbug. Dick Cheney's three visits today have been to Elias, Wells, and dabsite. While Bush2 has visited Wells twice, and coldccell twice.

Dallas, Texas, or Wilmington, Delaware. Bush2 person, to ELAIS at **9:32pm ET.**

Google back again, checking in. 2 hours after last visit. Bush2 must have told them I was going to repost something about the crooked ICC judge.

Bush2 started his day with me, and now afternoon plotting his next action. Perhaps even with John McCain's input. What will Bush2 do next? Since they all visited davidbardes.com, and not coldcelltorture.com, it has something to do with me?

At **5:10pm ET** Joseph Glassford called me, he is in Asheville for 3 days, working at the VA with his boss the master electrician, plan on having dinner tomorrow night. I know for a fact, Bush2 has tried to recruit him before to be the shill. Joseph was checking into his room at the Quality Inn on Tunnel Road, and said he would call me back.

Joseph called back at **5:42pm**, he said he did not know he was stopping in Asheville, thought he was going to Richmond (electrical work). I told him I had to get a flat tire fixed, and to call me when he gets off of work tomorrow, if my tire is fixed, I can then meet him for dinner. This is a well planned, well executed, Bush2 set up.

Bush2 himself, at 6:09pm ET. To unspeak this time. Looking forward to better days ahead? Better night with sleep again.

Above, Warren visited the 'suicide' page meaning he just spoke with George. The way George tells new people about cold cell torture is from the angle of suicide watch, so when the new person searches Google for such terms, it always lands on the suicide watch page of coldcelltorture.com. Is Google CEO getting cold feet about caving into Bush2? Speaking to another CEO to confer on guidance? I was scheduled to have dinner tonight in Asheville with Joseph Glassford, but he did not call me after work as planned. I texted him a 7pm asking if he was still at work. He said he was beat, and like he had no idea we had planned dinner. I am 51% convinced he is the shill, but meeting was called off by Bush2, perhaps after hearing from Google they do not want to cave into the corruption. The cogs of the wheels of corruption are meshing?

It appears the CEO of Google changed his mind about caving into Bush2, and now may take the story public. He spoke with the Symantec CEO (or other executive) to confer and made the decision to not cave in. Then overnight Symantec traffic, including the FBI's Blue Coat Systems, visited, meaning they were consulted. The end result is unknown at this time, but Bush2 and crew have not visited, likely unhappy. Speaking of unhappy, look who just visited:

It is 1:30pm ET, and no visitors save the two above since Cheney visited at 11:20am ET. The unhappy vice president is unhappy, which means the unhappy president is unhappy as well. Google CEO must have told them he was not going to cave, and was going to report to the press. If this is the case, nothing has happened as of yet.

Coldcelltorture.com still comes up in first position, but it appears Google caved into pressure, as new shill recruits visited. Joseph Glassford never called me after work yesterday, so he was a planted shill pulled back. Not exactly sure what is going on.

The below person I have never heard of, named John Schneider, posted about cold cell torture on his Facebook page, and people then visited it. But quickly got the attention of Sarah Palin, and someone in Washington, DC. Perhaps they had filters looking for content appearing. I took screen shots of the four comments. Someone will force this to come down.

John Schneider
2 hrs ago

this is what ICE detainees face.. separated children and adults. cold room torture.

The CIA is not alone in their use of 'cold cell' torture or 'induced hypothermia,' because the FBI is a user of cold cell torture as well.

I suspected their use, but had no way to prove it. That was until the FBI's own Inspector General published a report2 in May of 2008 on the FBI's role in the interrogation of detainee's at Guantanamo Bay, Cuba.

I have footnoted some extracts from the report dealing with the FBI's use of cold cell torture.

One unsavory victim was rushed to the hospital with hypothermia. The mortality rate is 50% at that necessity:

Page 157, Detainee #63 (Al-Qahtani) was subjected to "special interrogative techniques" and later admitted to the base hospital for hypothermia or "low body core temperature."

(contained links to the FBI page on ColdCellTorture.com)

Facebook (Ireland) They have been called in to delete John's postings on cold cell torture? At 2:06pm ET. Half an hour after DC.

FBIPage | 31.13.114.5 | Jul 26th 11:06:05 | http://m.facebook.com | Mozilla/5.0 (iPhone; CPU iPhone OS 11_4_1 like Mac OS X) AppleWebKit/605.1.15 (KHTML, like Gecko) Version/11.0 Mobile/15E148 Safari/604.1 |

That did not take long for Facebook to get on this, let's see if they removed it.

So, John Schneider posted about cold cell torture with links. Sarah Palin had filters set to be alerted of anything being posted about "cold cell torture." She then alerted DC, who alerted Facebook. This means Bush2 and Cheney know all about it. Not happy were they. Urgent panic perhaps? It is **3:02pm ET,** now, and no traffic in over an hour, so have to wait and see what transpires.

This is the first of several visits from the New York Times. From what I can tell, the Times was about to publish an article on cold cell torture, until busted, then twisted to protect the mass killers and torturers. Adding to the cess pool of enemies of the state.

"Blood moon" eclipse, Mars pairing up for astronomical spectacle
https://www.cbsnews.com/news/lunar-eclipse-july-2018-blood-moon-coincides-with-mars-closest-approach-to-earth-in-15-years/-
-The longest "blood moon" eclipse in this century will coincide with Mars' closest approach to Earth in 15 years to offer skygazers a thrilling astronomical double bill on Friday, astronomers say. For about half the world, the moon will be partly or fully in Earth's shadow from 1:14 p.m. to 7:28 p.m. ET — six hours and 14 minutes in all.
- The period of complete eclipse — known as "totality," when the moon appears darkest — will last from 3:30 p.m. to 5:13 p.m. ET. "Totality will last for 103 minutes, making it the longest eclipse of the 21st century!" said the Royal Astronomical Society in London.

DUBAI, United Arab Emirates -- Skywatchers around much of the world are being treated to a complete lunar eclipse Friday. The eclipse will be the longest this century.

This is happening at the exact time of the start of the total lunar eclipse (not viewable in USA, other side of earth.) See the two articles above, one is live steaming this 100 year event. The "total eclipse of the moon," as the rock song sang.

I had a phone call which I did not answer at **4:56pm ET**, from 559-396-4497. A number in the central valley of California, Fresno area. Not sure if a telemarketer, or Bush2 related. It could be the above shill recruit, and since I did not answer, Bush2 had to turn to the Atlanta/Tucker person, below. To rouse up Joseph?

Tucker, Georgia. This is a Bush2 person from long ago, and could be the person who flew up to North Carolina, and Burlington, with Joseph Glassford. Now at home with his iPad. At 5:14pm ET.

Dick Cheney has visited twice today so far, early morning then noon his time. I must be on his mind. This time he visited the book's website. So me, my book, and cold cell torture are on his mind. Will he ever admit that torture was wrong? God sure does have a focus on Dick Cheney, a full court press.

Martha's Vineyard, Massachusetts, at 4:18pm ET. This is President Obama's summer residence, today July 28 makes sense he would be there about now, being the middle of summer. This means bad news reached him, of Google's actions. [Update Note 7/29/18 - Michelle and Barak Obama were video taped at the Beyonce Jay-z concert in Maryland last night, so either they left Martha's Vineyard after this visit, or this is not Obama.]

7/29/2018 - Sunday

In the news this morning was an article about a Tweet from President Trump, saying he had a good meeting at the White House with the publisher of the New York Times. The president left the white house Friday afternoon for Bedminster, New Jersey. So, my guess is publisher Sulzberger had an emergency meeting with Trump yesterday in New Jersey, being so close to NYC. Then Trump Tweets this morning about a good meeting in the "white house" to throw off speculators.

This means Sulzberger wanted to advise the president of their publishing the Google Bush2 torture story beforehand, so as to not cause a national crisis, or retribution backlash, and to get Trump's admission of his knowledge of the corruption. Did Trump convince Sulzberger not to publish the story? Or, is that not possible at this point? Not with urgency of meeting, then hiding behind lying Tweets. The Tweet stated Trump and Sulzberger spoke of all the fake news problems today, but this sounds like Sulzberger was appeasing the banality of Trump in order to get out the door with no indication of federal retribution should they publish the article. Article:

Trump says he met with New York Times publisher at White House

https://www.cbsnews.com/news/trump-tweets-he-met-with-new-york-times-publisher-a-g-sulzberger-at-white-house/
Tweet at 8:30am ET:

Had a very good and interesting meeting at the White House with A.G. Sulzberger, Publisher of the New York Times. Spent much time talking about the vast amounts of Fake News being put out by the media & how that Fake News has morphed into phrase, "Enemy of the People." Sad!
— Donald J. Trump (@realDonaldTrump) July 29, 2018

The article stated: "After Sulzberger took over from his father on Jan. 1, Mr. Trump tweeted that his ascension gives the paper a 'last chance' to fulfill its founder's vision of impartiality." These words may prove a self fulfilling prophecy here? As Sulzberger has the chance to be a hero, and save our nation. Instead he betrayed our nation in a series of serious crimes.

The Trump Tweet was at 8:30am ET, so their meeting likely occurred yesterday, [at Golf course] Did Trump convince the NYT's to sink the cold cell story?

, or is Trump going to enjoy sinking Bush2 and Cheney, who both hate Trump, and likewise hates them in return? Trump has no love for the CIA and publicly said "they did some very bad things, very bad things indeed." The NYT's is therefore draining the swamp for Trump in this present case? The ultimate deep state betrayal.

Monroe, Louisiana. This is the location of the stash of gold and silver loot that funds George's crime club. Original location of the Confederate gold that was shipped by trains to this general area. Never seen again. But each time George wants to pay me off with money, I get visits from their piggy bank. This person visited a few days ago.

CNN has as their lead story as of 3:20pm ET, Trump's meeting with NYT's Sulzberger, but reported it occurred on July 20. But neither the statement issued by the Times after the Tweet, nor the white house statement confirming such a meeting occurred, stated the meeting took place on the 20th. Not sure where the 20th came from, other than a smoke screen. Because why would Trump wait ten days to Tweet about the meeting, when he is known to Tweet immediately after events he deems Tweetable. Trump is quick to Tweet, not wait ten days, then Tweet. CNN article here:

Times publisher warned Trump about labeling journalists as enemies
https://money.cnn.com/2018/07/29/media/trump-nyt-sulzberger/index.html

I believe the odds are better that Trump and Sulzberger met last night, or very early this morning. Regarding Google and Bush2 story, to avert backlash. Or, did Trump convince Sulzberger to toss the story into the trash? Only time will tell.

At 2:17pm ET, I emailed the below email to Bush2 and Cheney:

To: scheduling@OGWB.org
From: David Andrew Bardes
Date: 7/30/2018
Re: Legal Notice of Intent to Sue

Dear President Bush and Vice President Cheney:

Please accept this email as legal notice of intent to sue. The sheer number of people you have defamed me with your lies is staggering. Every person will be found, and depositions taken. Everything said in the dark will come out in the light. The depths of your corruption will be mined until an open pit.

I AM,

At 5:17pm ET I emailed the below email to the Google/Alphabet investor email address I used last time:

To: Google/Alphabet Executives @ investor-relations@abc.xyz
From: David Andrew Bardes, Brevard, North Carolina
Date: 7/30/2018
Re: Your ongoing communications with President Bush2 and Vice President Cheney over the torture issue

Dear Google/Alphabet Executives:

This letter regards the ongoing issue with cold cell hypothermic torture (coldcelltorture.com) and President Bush2 and Vice President Cheney's ongoing communications with you in the cover up of same.

I am disappointed you have chosen to not communicate with me, as I believe you have been told lies about me. Please do not sequester doing what is right for our great nation, as acquiescing spreads blood on your hands of the innocent yet to be tortured, over the screams of those who already have.

Please choose wisely. And thank you.

Sincerely,
David Andrew Bardes

No overnight traffic at all. Looks like the Bush2 crew took the night off. Except for the Monroe, LA crook, essentially no one visited. But since the Monroe person visited first thing in the morning, it indicates the focus of the day? Or, did Bush2 suffer a medical condition which has caused all to flee the websites? Did my notice to sue Bush2 push him over the mental health edge?

Re: Sui Juris 4 years of Parental alienation accusations of sexual abuse

Dear David, I am I'm writing you now with the hope that you could possibly provide me with an advocate in my fight for my relationship with my four year old daughter. I've started reading your publication of crochet guide to Family Court. I have attempted to use cancel in the past and have been highly disappointed at the outcomes both times. The first case was and attempt to thwart false statements of domestic violence. The lawyer I had used was a subsidized lawyer because that's all I could afford from the Rutgers Law Associates is Rutgers College in the state of New Jersey. I provided a request for them to subpoena the officers that were on the scene who took her initial statement and could immediately notify the courts that the statements that were given to the domestic violence unit 4 days after I obtain my restraining order or false 100% nothing of what she had told the officers the day the incident occurred. but the Rutgers law says he hates lawyer refuse my request to subpoena the police officers. I also petitioned the PED of the Rutgers Law Associates Department an attempt to get him to allow the lawyer that was supposed to be representing me to subpoena the officers on the scene. To which hate proceeded to tell me that his qualifications far exceed mine as well as his intellect and that he knows what's best and there's no need to subpoena that officers. I no longer use them as representation after the first trial which the restraining order was granted.
Before the final restraining order hearing I obtained an actual lawyer not a student. When my lawyer stated his name and what he requested was some time to familiarize himself with the case the judge denied his request and finalize the restraining order. All my lawyer at that trial was able to better my case with was 2 hours more visitation Wednesday nights from 7 to 9 p. M.. the Department of Child Protection and permanency formerly known as dyfus. Has been a constant in my life for 4 years. To which I have only benefited with programs counseling for my children. I am one of the few who believe that they are a positive and good organization if given the right case workers to handle your case if your forthright with honesty and are in the clear of neglect or abuse. I have been accused for times of sexual molestation of my daughter. I have sole custody of my first child a son of 10 years old who I've had sole custody of for 7 years now. I have been alienated and separated for my child willfully by the custodial parent. I've tried to file police reports with the local police department and I've Been Told to f off we're not taking your report go to Family Court. When in the state of New Jersey statute 2C 13/4 is Parental alienation or impeding in visitation. I recently tried to file 21 parental interference charges to which the police department would not file. because they told me I had to file them at the court clerk's in that town and submit them to the Ocean County prosecutor's office to which I knew that information was incorrect. But I had to do what they wanted me to do all of those charges were denied. when I inquired as to why the law can be broken so bold and blatantly with the involvement of the division of child protection and permanency finding no cause to alter or prohibit my visitation with my child. the division of child protection and permanency went so far as to call the police chief of the town to tell him the mother of the child in question had no legal right to keep the child from me that my custody order should be. Which is idiotic I would need anybody to tell the police department that my visitation is my right on my days on my times as per my custody order and holiday visitation schedule that both parties mutually agreed to and the other parent cannot deny me that right because at the bottom of every custody paper in the state of New Jersey is written in bold lettering this order shall be fully enforced by all law enforcement. upon bringing that to the attention of the police officers again I was told to f off. I am trying vehement Lee to defend my daughter who is being abused by the custodial parent with brainwashing and then manipulation to force my daughter to alienate me. I recently read about parental alienation syndrome when bringing this point up to the Department of Child Protection and permanency. Calling what is happening to my relationship with my daughter blatant an obvious abuse they believe that their hands are citing that there has been evaluations done and the professionals involved have made their recommendations to which they cannot tell me. I will not find out until I go back to court which I filed a motion to show cause for enforcement of my current custody order. I do not believe that I added the parental alienation and parental interference in that motion because I was told that I had to do that in a different way. One week before court my ex who has used the same lawyer the entire time sends his letter of representation to the courts and called me with a disingenuous request to allow them to have the case adjourned for 2 months. Mind you it's been 5 months since I've seen my daughter. I agreed to be mirandized and interviewed at my local police department by the Special Victims Unit detective Alix Bromley from the Ocean County prosecutor's office as well as detective dellasalla of the Lacey Police Department. I agreed to have a state police administered polygraph. To which I passed of course. I begged the judges law Clerk to not allow the adjournment citing the fact that I have not seen my child in 5 months and that would be over 6 months without my child in my life. the division of child protection and permanency closed their case the Ocean County prosecutor's office closed their investigation. How would I make an amendment or a request to add to that motion after the fact that I've already submitted it to the courts and I'm wanting to add the charges of Parental alienation as well as raise the point of citing child abuse as a result of this parental alienation. As well as to deal with the false accusations of sexual abuse. I faced before those cases were closed the risk of being charged falsely and sentenced to prison and losing sole custody of my son who has become a ward of the state for I have no other family that is able to take my son if that were to happen. And this my ex knows this is her game this is her goal. She's been telling my daughter to call me by my God given name John instead of calling me Daddy yells at her and disciplines her if she uses my name in that household or speaks of her brother in that household she's told that I'm a bad and evil man and that my son is a bad and dirty and disgusting little boy. This from the mouth of my four-year-old daughter. She is meant to call me John and call the new guy daddy. I have been nothing but positive in my children's lives I do not speak poorly about anyone I will not allow the other party to make me as Petty and foolish to wasted love and time I have with my children. but this 5 months away from my daughter has been so painfully difficult. I recently agreed to a psychological evaluation at the Dorothy B Hearst foundation in New Brunswick New Jersey Center for Abused and traumatized children. Which my being a man of conviction and believe that honesty and the truth is the only way my evaluation was 6 hours long. My evaluation came back good where the words of the divisions representative telling me the only recommendation was that my son and I would benefit from family counseling as a result of Elmo station he had when he was a child went in the custody of his mother the last visitation she had. and separate counseling for myself to deal with that. The division informed me that they will be making recommendations about the custodial parent my daughter's mother. Again telling me I am not privy to that information. And that the courts should be requesting those documents. I'm going to be submitting an Oprah request to obtain the police report from the Special Victims Unit of Ocean County prosecutor's office just in case the courts do not obtain those documents proving my innocence and cooperation with the investigations of sexual molestation against my against me involving my daughter. I do hope that there's a way for me to amend my original motion that I filed last month to include the violations of Parental alienation. I have been kept from any decision making process in my daughter's medical or educational and recreational activitys. My daughter has been enrolled beginning of the year in the early childhood development center the same one that my son attended. when I called to obtain the knowledge of her teachers when parent teacher conferences would be. and I was told that I have no legal right to know that information. When I stated I have full right to that information as per my custody order I was told by the principal of the school that the mother brought in a copy of a temporary restraining order which listed my daughter. When I inform the principal that my custody order and final restraining order had no such verbage siding restrictions on my visitation. She told me I had to come in with my paperwork. I'm a single father with sole custody I'm also Union ironworker I had to take time off of work to provide my custody order final restraining order holiday visitation schedule. When I brought the paperwork the principal said this the same stuff we have. When I pointed out to her the date on which the one paper she had was over two years old. And that the mother had willfully deceived her by not supplying her with all of the most current superseded order and custody agreement. She apologized said she was mortified. but when I asked if she would provide me with letterhead from the school system stating what she was told and how the document was represented to her she refused saying that the legal department of the school district advised her that she cannot get involved. I can keep writing and writing and writing and I apologize for writing way too much when all I needed to say was I wish to benefit from your knowledge and experience. I'm impressed with your advocacy for those who try and represent themselves against an imperfect and flawed judicial systems. I'm in desperate need and time is of the essence I believe the longer I wait the harder it will be for me to amend my order. Thank you very much I hope to hear from you soon
Sincerely yours
John Prosniewski

It is clear Bush2 is still trying to recruit shills to pay me off, or entrap me in some charge to prosecute me. So much for Bush2 hiding last few days, he still has his problem of me and my websites. All the shill recruits say no way, and the spoofed emails for feigned legal help are a self-fulfilling prophecy here. I have effectively engaged a strategy of patience, which delivers more of a bite than anything else. I must wait longer. And longer.

Google is in the same waiting pattern, do they sit on the story because of Bush2 threats, and con job not to help me, not to focus the story on me. Bush2 has dogged me out. Despite their buying into that roadblock, they still consternate over remaining silent. It is like a stink is on them, and the longer they wait, the worse the odor. As here above, first visit cold cell then Elias, as their own smell has them nauseated. The very fact they dally and delay, bodes badly for them.

I am extremely disappointed in Google, and Larry Page, and Sergey Brin. Do they choose courage or fear? They have chosen fear. Not one other human will take a stand against torture. Disgraceful cowards are Page and Brin. They now have blood on their hands.

Bush2 has been listening to the goons from South Carolina. They say "Send him more spoofed emails and we will arrest him, and negotiate him down to pennies." And Bush2 says "Okay, maybe it will work this time?"

Google keeps visiting on regular intervals, checking to see if website still exists? The Russians are sucking up all the pages as if going to be missed?

It is 7:56pm ET, and 4:46pm PT, on Friday afternoon. What is Google going to do? Sit on the sidelines for another weekend?

At 7:56pm ET, I received the below email from someone it appears to be connected with Bush2. It is a spoofed email asking "Please did you receive my last email to you?" With subject line "Need to know" This is like children's play, hide-and-go-seek. I did not respond or reply. It appears to have started in Manassas, Virgina, then to New Orleans, then to San Antonio, Texas Rackspace Hosting, which is one of Bush2's hiding scripts. So this likely is an attempt to contact me, but not in a manner in which I would agree to at all.

So, now Google will go back to Bush2 and say "His website is still up, what happened?" Bush2 will say "I cannot find anyone who will be the shill middleman, so I can remain hidden and no one will know it is me hiding. Besides no one visits his websites, so there is no need to pay him off." Google will say "That is the dumbest reasoning I have ever heard before." So, Bush2 went back to recruiting a shill, below in Norway, long way to go to find one. This means Mark Moore said no too.

9pm ET on a summer August 4th Saturday night, President Bush2 took a phone call from Larry Page, the CEO and founder of Google, to discuss my website still being accessible. Larry is pressing Bush2 to act, or Larry will be forced to act, likely to Bush2's detriment. Bush2 hangs up and returns to his family socializing after dinner. Larry then goes to dinner, being 6pm in California. Both men are not happy. While I am.

He has pressure from Larry Page at Google, and Judge Chung. But Bush2 cannot find one shill to be the middleman, so will he just give up? The pressure is on, obviously.

It is yet another day of the merry-go-round, of Larry Page deep in bed with the enemy and he knows it. Larry puts pressure on Bush2, but he too cannot recruit someone to be the shill middleman. They all say no. So their hopeless game continues.

Dick Cheney's new hiding script shows Denver as location, but is him based on last nights several visits to Elias. Cheney is unhappy, and wants closure. At 12:19pm, and again at 12:56pm ET

Fremont Hurrican Electric person, Las Vegas person, Bush2 himself, Dallas office people, seems a full court press this morning. It is 12:05pm ET, and Google has not visited since 9:30am.

I received a spoofed email return to a spam email I replied to with no message. The person replied back today with jibberish, and I returned the email saying "Thank you, but I have no interest." This happened at 10:00am ET, so the Bush2 traffic above may be in response to such. Below is my return email.

Thank you, but I have no interest.

New U.S. sanctions "declaration of economic war," Russian PM says

Russia had on Thursday responded furiously to the sanctions, denouncing them as "categorically unacceptable" as the markets tumbled and the ruble fell to its lowest level in almost two years.

Oh, if I could be privy to the conversation between those two above. Pressure and frustration is what I glean from the website traffic. But so far, nothing has worked. Today is Saturday, Monday the ICC opens up, and the ICC judges have not yet acted. More pressure is restarting up again.

George Bush2 is frustrated. He has tried to convince over 80 people since April 1st, to be the middleman shill to hide from paying me off with money. They all said no way. No federal employees, nor his comrades, will go near doing such. Larry Page

must think Bush2 is hopeless as far as succeeding in finding someone to be the shill, nor does Larry even want to communicate with me, obviously. Perhaps they are comforting each other with believable lies.

Bush2 knows I am waiting patiently for him to come to me to apologize, as I emailed him as such. He keeps hoping for a middleman to hide, and never fear confronting me. Coward. It is now 6:00pm ET on Saturday night, and both men resumed weekend evening activities. Only to return later.

Google Larry Page visits dab site at 7:42pm ET, or 4:42pm PT his time in California. Heading for dinner I suppose.
