Motion to Reconsider

1. It is disconcerting when federal judges make oaths to God and county only to make agreements with payment of kind to dismiss lawsuits. I suspected Judge Douglas R. Cole efforts to gaslight me claiming my life's story was a fabricated delusion with no basis in reality just to dismiss my lawsuit, was just the continuation of my defendant's long history of twisting judges, but I had no proof, no evidence. Not until two (2) days ago.

2. On Monday, March 20, 2023 at 5:04pm ET, someone at the "US Courts" in "Cincinnati, Ohio" (where Judge Cole works) typed "coldcelltorture.com" into Google, then clicked and visited "ColdCellTorture.com." Then they clicked the link for "DavidBardes.com" and visited, downloading three (3) lawsuit files. Also visiting at the same time, indicating a joint meeting,

was Bill Gates, Larry Page, the CIA, and someone in Washington State (perhaps a lawyer of Gates/Microsoft?)

3. The topic of their secret meeting was obviously me and my websites. Websites that depict my defendants in a grim light. The only person in the federal courthouse in Cincinnati that my defendants would have an interest in plotting against my websites is federal Judge Douglas R. Cole. There is no one else. The mathematical probability that this US Courts courthouse employee was Judge Douglas R. Cole nears 100%, albeit with a standard deviation.

4. I obtained the raw log files from GoDaddy, Google will have record of the search and click throughs, and the IT department at the US Courts and the FBI can identify the exact computer that visited, and confirm the downloading of the three lawsuit files. The investigation will prove Judge Douglas R. Cole as the visitor. I have attached my log of their clandestine meeting and GoDaddy's raw logs in Exhibit B.

5. While it is unknown what the purpose of their ex-parte meeting was, the existence of their meeting alone, proves back door underground corruption. But just how brazen these criminals act dismissing lawsuits while pretending to be righteous, sheds light on how often it must occur.

6. But if Judge Douglas R. Cole, the higher judge, can be so easily bought, logic concludes Magistrate Judge Stephanie K. Bowman, who misdiagnosed me insane and my story a fantastical delusion, was also compromised. This is money, power, and influence at work at the very top.

Reconsider?

7. Judge Douglas R. Cole wrote "David Bardes tells a truly extraordinary story – one that could be ripped from the pages of a political thriller." And courts do not accept 'allegations that are sufficiently fantastic to defy reality as we know it.' I was denied even the right to file an amended complaint. The suit was dismissed with prejudice. I was even warned of being banished from the

Federal Courts as a *vexatious litigator*. Judge Douglas R. Cole used such haughty words to cast

my life's story as having no basis in reality, saying there is no way it could even happen, case

dismissed. Not only does the law require this crooked judge be fired, but also prosecuted and

imprisoned.

8. Before the law catches up with Judge Douglas R. Cole, would the court care to reconsider

their order of dismissal, and start over again on my objections?

Respectfully submitted this day __23__ of March 2023, by
